6. St. Columba's (Dublin University Mission) College, Hazaribagh, 1st October, 1917, under section 11 of the Patna University Act (1917). Previously affiliated to the University of Calcutta in 1907, under section 22, read with section 21 (3) of Act VIII of 1904.

Admission restricted under section 24 (5) of Act VIII of 1904 to the following subjects:—

English—Pass and Honours; Vernacular Composition, Sanskrit, Persian, Mathematics, History, Political Economy and Political Philosophy, and Philosophy—Pass.

C—Up to the Intermediate in Arts Standard.

1. Ravenshaw College, Cuttack, October 1st, 1917, under section 11 of the Patna University Act (1917). Previously affiliated to the University of Calcutta in 1876, under Act II of 1857.

Admission restricted under section 24 (5) of Act VIII of 1904 to the following subjects:—

English, Vernacular Composition, Sanskrit, Persian, History, Logic, Mathematics, Botany, Physics and Chemistry.

Admitted in July, 1933, under section 9(a) of the Patna University Act in Oriya as a principal subject.

* Teaching in Arabic has been discontinued from the session 1934-35.

† Teaching in Mathematics Honours has been discontinued from the session 1932-33.

2. Tej Narayan Jubilee College, Bhagalpur, October 1st, 1917, under section 11 of the Patna University Act (1917). Previously affiliated to the University of Calcutta in 1890, under Act II of 1857.

Admission restricted under section 24 (5) of Act VIII of 1904 to the following subjects:—

English, Vernacular Composition, Sanskrit, Persian, Mathematics, History, Logic, Physics, Chemistry.

Admitted in 1929, under section 9 of the Patna University Act (1917), in Elementary Economics and Public Administration and in Hindi as a principal subject.

3. Bihar National College, Bankipur, October 1st, 1917, under section 11 of the Patna University Act (1917). Previously affiliated to the University of Calcutta in 1892, under Act II of 1857.

Admission restricted under section 24 (5) of Act VIII of 1904 to the following subjects:—

English, Vernacular Composition, Sanskrit, Persian, History, Logic, Mathematics, Physics, Chemistry.

Admitted in July, 1936, under section 9(a) of the Patna University Act (1917), in Hindi as a principal subject; and in July, 1937, in Elementary Economics and Public Administration.

The College was originally admitted with the University of Calcutta in September, 1889 in English, Vernacular Composition, Sanskrit, Persian, History, Logic, Mathematics, Physics and Chemistry.

4. Diamond Jubilee College, Monghyr, October 1st, 1917, under section 11 of the Patna University Act (1917). Previously affiliated to the University of Calcutta in 1898, under Act II of 1857.

Admission restricted under section 24 (5) of Act VIII of 1904 to the following subjects:—

English, Vernacular Composition, Sanskrit, Persian, Logic, History, Mathematics.

5. St. Columba's (Dublin University Mission) College, Hazaribagh, October 1st, 1917, under section 11 of the Patna University Act (1917). Previously affiliated to the University of Calcutta in 1899, under Act II of 1857.

Admission restricted under section 24 (5) of Act VIII of 1904 to the following subjects:—

English, Vernacular Composition, Sanskrit, Persian, Mathematics, History, Logic, Botany,* Chemistry.

Admitted in 1919, under section 9 of the Patna University Act (1917), in Elementary Physics and Chemistry.†

6. Greer Bhumihar Brahman College, Muzaffarpur, October 1st, 1917, under section 11 of the Patna University Act (1917). Previously affiliated to the University of Calcutta in 1901, under Act II of 1857.

Admission restricted under section 24 (5) of Act VIII of 1904 to the following subjects:—

English, Vernacular Composition, Sanskrit, Arabic, Persian, History, Mathematics, Logic, Physics.

Admitted in July, 1919, under section 9 of the Patna University Act (1917), in Chemistry; in July, 1933, under section 9(a) of the Patna University Act in Hindi as a principal subject; in July, 1934 in Urdu as a principal subject and in July, 1937 in Elementary Economics and Public Administration.

7. Patna College, Patna, admitted in July, 1927, under section 9 of the Patna University Act (1917), in the following subjects:—

English, Vernacular Composition, Sanskrit, Persian, Arabic, History, Logic, Mathematics, Geography and Urdu as a principal subject; in July, 1933, under section 9(a) of the Patna University Act in Hindi as a principal subject, and in July, 1937, in Elementary Economics and Public Administration.

8. Ravenshaw Girls' High School, Cuttack, admitted in July, 1920, under section 9 of the Patna University Act (1917), in the following subjects:—

English, Sanskrit, History, Logic, Oriya, Bengali.

9. Nalanda College, Bihar, admitted in July, 1920, under section 9 of the Patna University Act (1917), in the following subjects:—

English, Vernacular Composition, Sanskrit, Persian, History, Logic, Mathematics.

* Teaching in Botany has been discontinued since January, 1921.

† Teaching in Elementary Physics and Chemistry has been discontinued since January, 1927.

10. Ranchi Zila School, Ranchi, admitted in July, 1926, under section 9 of the Patna University Act (1917) in the following subjects as an experimental measure:—

English, Vernacular Composition, History, Logic, Mathematics, Sanskrit, Persian and in July 1936 in Geography.

IN SCIENCE.

A—Up to the M. Sc. Standard.

1. Science College, Patna, July, 1927, under sections 9 and 11 of the Patna University Act (1917), in Mathematics, Physics, Chemistry.

B—Up to the B. Sc. Standard.

1. Science College, Patna, July, 1927, under sections 9 and 11 of the Patna University Act (1917) in Mathematics, Physics, Chemistry—Pass and Honours.

2. Ravenshaw College, Cuttack, October 1st, 1917, under section 11 of the Patna University Act (1917). Previously affiliated to the University of Calcutta in 1914, under section 22 read with section 21 (3) of Act VIII of 1904, in Mathematics, Physics, Chemistry—Pass.

Admitted in July, 1921, under section 9 of the Patna University Act (1917), in Mathematics—Honours; in July, 1922, in Botany—Pass; in July, 1930, in Physics, Chemistry and Botany—Honours as an experimental measure.

3. Bihar National College, Bankipur, October 1st, 1917, under section 11 of the Patna University Act (1917). Previously affiliated to the University of Calcutta in 1914, under section 22 read with section 21 (3) of Act VIII of 1904, in Mathematics, Physics, Chemistry—Pass.

4. Tej Narayan Jubilee College, Bhagalpur, admitted in July, 1923, under section 9 of the Patna University Act in Mathematics, Physics, Chemistry—Pass; in 1926, in Mathematics—Honours.

5. Greer Bhumiher Brahman College, Muzaffarpur, admitted in July, 1924, under section 9 of the Patna University Act (1917), in Mathematics, Physics, Chemistry—Pass, in Mathematics Honours.*

* Teaching of Mathematics Honours has been discontinued from the session 1932-33.

C—Up to the Intermediate Standard in Science.

1. **Science College, Patna, July, 1927**, under sections 9 and 11 of the Patna University Act (1917), in English, Vernacular Composition, Mathematics, Physics, Chemistry.

2. **Ravenshaw College, Cuttack, October 1st, 1917**, under section 11 of the Patna University Act (1917). Previously affiliated to the University of Calcutta in 1908, under section 22 read with section 21 (3) of Act VIII of 1904.

Admission restricted under section 24 (5) of Act VIII of 1904 to the following subjects:—

English, Vernacular Composition, Mathematics, Physics, Chemistry, Botany.

3. **Tej Narayan Jubilee College, Bhagalpur, October 1st, 1917**, under section 11 of the Patna University Act (1917). Previously affiliated to the University of Calcutta in 1908, under section 22 read with section 21 (3) of Act VIII of 1904, in English, Vernacular Composition, Mathematics, Physics, Chemistry.

4. **Bihar National College, Bankipur, October 1st, 1917**, under section 11 of the Patna University Act (1917). Previously affiliated to the University of Calcutta in 1910, under section 22 read with section 21 (3) of Act VIII of 1904, in English, Vernacular Composition, Mathematics, Physics, Chemistry.

5. **St. Columba's (Dublin University Mission) College, Hazaribagh, October 1st, 1917**, under section 11 of the Patna University Act (1917). Previously affiliated to the University of Calcutta in 1909, under section 22, read with section 21 (3) of Act VIII of 1904.

Admission restricted under section 24 (5) of Act VIII of 1904 to the following subjects:—

English, Vernacular Composition, Mathematics, Chemistry, Botany.*

Admitted in July, 1920, under section 9 of the Patna University Act (1917), in Physics.

6. **Greer Bhumihar Brahman College, Muzaffarpur**, admitted in July, 1919, under section 9 of the Patna University Act (1917); in English, Vernacular Composition, Mathematics, Physics and Chemistry.

* Teaching in Botany has been discontinued since January, 1921

IN LAW.

Patna Law College, Patna, October 1st, 1917, under section 11 of the Patna University Act (1917). Previously affiliated to the University of Calcutta in 1909, under Act II of 1857.

Ravenshaw College, Cuttack, July, 1920, under section 9 of the Patna University Act (1917). Previously affiliated to the University of Calcutta in 1881 under Act II of 1857, but B. L. classes closed under the Regulations of 1907, were again opened in July, 1920.

IN EDUCATION.

Patna Training College, Patna, October 1st, 1917, under section 11 of the Patna University Act (1917). Previously affiliated to the University of Calcutta in 1909 up to the L. T. standard and in 1916 up to B. T. standard, under section 22 read with section 21 (3) of Act VIII of 1904; in 1926, admitted up to B. Ed.* standard; up to M. Ed. standard from July, 1935.

Cuttack Training College, Cuttack, July 23rd, 1923, under section 9 of the Patna University Act (1917). Admitted up to the L. T. standard of Patna University; in 1926 admitted up to the Dip. Ed. standard.

IN ENGINEERING.

Bihar College of Engineering, Patna, July 1st, 1924, under section 9 of the Patna University Act (1917). Admitted up to the standard of Bachelor of Civil Engineering.

IN MEDICINE.

The Prince of Wales Medical College, Patna, July 1st, 1925, under section 9 of the Patna University Act (1917). Admitted up to the standard of the degree of M.B., B.S.

II.—HISTORY AND INSTRUCTIONAL STAFFS OF ADMITTED INSTITUTIONS.

Patna College.

The College is maintained by Government.

The origin and early history of the Patna College illustrated the combination of school and college in one establishment

* Abolished from the session 1935-36.

which was a characteristic feature of early English education in India. Its parent institution was the Patna High School which was abolished as a result of the Mutiny. Subsequently, it was re-opened and re-organised—(in February, 1860), as a Government school under the Local Committee of Public Instruction. In September, 1862, it became a collegiate school and it was raised to the status of a college on the 1st January, 1863. A Law Department was added in May, 1864. This was closed in July, 1908.

In 1836 Mr. Clift was the English Headmaster of the Patna School. The first Headmaster of the school, after the post-mutiny re-organisation, was Mr. J. F. Thomson, who was succeeded by Mr. J. K. Rogers on the 12th August, 1862. In April, 1863, Mr. Rogers' designation was changed into "Professor-in-charge of the college." On the 14th February, 1867, Mr. J. W. McCrindle, who had already officiated as Professor-in-charge, became the first Principal of the college.

Early in 1908 the school was removed to a different building. First-year students in Arts who have passed the Matriculation examination and third-year students in Arts who have passed the Intermediate examination are eligible for admission to the college. Instruction is given up to the standard of the B.A. Pass and Honours in English, History, Economics, Mathematics, Sanskrit, Persian, Arabic, Philosophy, Principal Hindi and Principal Urdu, up to the B.A. Pass Standard in Geography, and up to the I.A. Standard in Hindi and Urdu as principal subjects of study. Graduates are eligible for admission to the college in the following postgraduate subjects:—English, History, Economics, Sanskrit, Persian, Philosophy, Hindi and Urdu.

There is an admission fee equal to the monthly tuition fee, which is as follows:—I.A., Rs. 6; B.A. Pass, Rs. 7; B.A. Honours, Rs. 8; M.A., Rs. 10.

The following *Junior Scholarships*, awarded on the results of the Matriculation examination, are tenable in the college:—

1. *Two Hathwa Raj Scholarships* of Rs. 10 a month, open to students from the Hathwa Eden School, tenable for two years.
2. *Two Qazi Saiyid Reza Hosain Scholarships* of Rs. 10 a month open to Muhammadan students, tenable for two years.
3. *Two Muhammadi Jan Scholarships* of Rs. 10 a month when funds are available, open to poor Muhammadan students, tenable for two years.
4. *Two Qazi Saiyid Reza Hosain Jubilee Scholarships* of Rs. 8 a month, open to Bihari Muhammadans, tenable for two years.

The following *Senior Scholarships*, awarded annually on the results of the I.A. and I.Sc. examinations, are tenable in the college for two years.

1. Two *Qazi Saiyid Reza Hosain Scholarships*, open to Muhammadan students, one of Rs. 12 a month, awarded by the college, and one of Rs. 11 a month, awarded by the Director of Public Instruction every alternate year.

2. Two *Muhammadi Jan Scholarships* of Rs. 10 a month, when funds are available, open to poor Muhammadan students.

3. One *Qazi Saiyid Reza Hosain Scholarship* of Rs. 15 a month, awarded to a Muhammadan student of Patna College on the results of the B.A. examination, to enable him to continue his study for the degree of M.A. for two years.

4. One *Pandit Devadatta Tripathi Scholarship* of Rs. 5 a month, to a student of Patna College, preferably a Brahmin, studying for the B.A. or M.A. degree of Patna University.

The *Durgagati Memorial Medal or Prize* is awarded to the best student who passes, the B.A. degree with Honours in English and who has read for the B.A. examination for two continuous years in the college.

The *Wilson Memorial Prize*: Two prizes in books to the value of Rs. 12-8 each are awarded on the results of the college monthly and annual examinations to the students who stand highest in the third and first years, respectively.

The Minto Hindu Hostel has accommodation for 92 students, the Jackson Hostel for 95; the Muslim Hostel, built in 1927, can accommodate 72 students, and the Postgraduate Hostel at Ranighat 58 students.

Science College, Patna.

This college is maintained by Government and was opened† as a separate institution on the 15th July, 1927, having at this date moved into a group of new buildings from the premises occupied in Patna College which thus divided into two halves, Arts and Science.

The history of the Science College, Patna, up to the 15th July, 1927, is that found in the Calendar under the heading Patna College.

Affiliated under sections 9(1) and 10(4) of the Patna University Act read with regulations 7 and 13, Chapter XIV of the Patna University Regulations.

The college is admitted up to the M.Sc. standard in Mathematics, Physics and Chemistry: up to the B.Sc. (Pass and Honours) standard in Mathematics, Physics and Chemistry: and up to the I.Sc. standard in English, Vernacular Composition, Mathematics, Physics, Chemistry and alternative English. It has a Drawing Class. It has also been admitted, under section 9(1)(a) of the Patna University Act, up to the M.A. standard in Mathematics from the session 1928-29.

Students who have passed the Matriculation examination and those who have passed the I.Sc. examination are admitted in the first-year and third-year classes respectively. Instruction is given up to the standard of the I.Sc., B.Sc. Pass and Honours in Mathematics, Physics and Chemistry. Graduates in Science are admitted to the college in the following postgraduate subjects:—Mathematics, Physics and Chemistry.

There is an admission fee equal to one month's tuition fee and the monthly tuition fee charged for each standard is as follows:—I.Sc., Rs. 7; B.Sc. Pass, Rs. 8; B.Sc. Honours, Rs. 9; M.A. and M.Sc., Rs. 10 (Mathematics), Rs. 11 (Physics and Chemistry).

The following scholarships are tenable in the college:—

1. The following *Saiyid Kazi Reza Husain scholarships* open to Muhammadan students, awarded annually, are tenable in the college:—

1. One B.Sc. Scholarship of Rs. 12
2. Two I.Sc. Scholarships of Rs. 10 each.

2. The *Saiyid Kazi Reza Husain scholarship* of Rs. 11 a month will be awarded by the Director of Public Instruction,

† The college was formally opened on the 15th November, 1928 by His Excellency The Rt. Hon'ble Edward Frederick Lindley Wood, Baron Irwin of Kirby Underdale, P. C., Viceroy and Governor-General of India.

Bihar and Orissa, to the best Muhammadan student of this college every alternate year.

3. The *Saiyid Lutf Ali Scholarship* of Rs. 8 a month, open to Muhammadans, awarded annually by the Director of Public Instruction.

4. A prize is awarded annually out of the Rai Sahib Ashutosh Chattarji Prize Fund to the student who stands first in the annual examination of the first year class of this college.

There are three hostels attached to the college and three large playing fields.

Large Laboratories for Chemistry and Physics have been built and equipped at a cost of Rs. 13,78,851.

The accommodation for the teaching of other subjects is provided in the Administrative Block.

A Philosophical Society has been started in the college. Membership is open to staffs of the college and of other colleges and to others interested in scientific research.

The following societies are conducted by students:—

(i) Chemical Society, (ii) Physical Society, (iii) Mathematical Society, (iv) Bazme-Sokhan, (v) Debating Society, (vi) Athletic Club, (vii) Bengali Literary Society, (viii) Hindi Literary Society, and (ix) Photographic Society.

The college has its own magazine.

1st April, 1938	...	A. S. Khan, M.Sc. (Manchester).

Ravenshaw College, Cuttack.

The college had its origin in a school established by Government in January, 1841, with eighty-six boys on the rolls. After being held in a rented house for two years it was transferred in 1843 to a substantial building near the main Government offices. In January, 1868, it was raised to the status of a high school with two college classes. In the following year a Law class for

instruction in the Licentiate-in-Law and Pleadership courses was opened, and in 1876 the institution became a first grade college. In 1878, contributions of Rs. 25,000 and Rs. 20,000 were made towards the cost of maintenance by the Maharaja of Mayurbhanj and the people of Orissa, respectively ; it was at the request of the former that the college was named after Mr. T. Ravenshaw, the then Commissioner of Orissa, to commemorate his services in the cause of education. In 1881, B.L. classes were opened. The school classes were removed in 1912, and the Cuttack Survey school in 1915, the available accommodation for college purposes being thus greatly increased. Various alterations and additions were made from time to time to the original buildings, including two double-storied blocks mainly for the accommodation of the science classes. The foundation stone of the new buildings was laid in November, 1919, and they were formally opened in April, 1922. They have, however, been occupied since July, 1921, and afford ample accommodation for all the college classes, there being an Arts block, Chemical, Physical, and Botanical laboratories, and a library erected through the liberality of the Raja of Kanika. There are also large playing-fields, hostels, a gymnasium, quarters for six members of the Indian Educational Service, for three of the Senior Branch of the Bihar and Orissa Educational Service and for four of the Junior Branch. A generous donation of a lakh of rupees by the Maharaja of Mayurbhanj has provided the college with an electric installation, opened in April, 1925. The college celebrated its Diamond Jubilee on January 18th, 1936.

Serious attention was first paid to the housing of students in 1886, when the main portion of the old hostel was erected, the Rajah of Keonjhar contributing Rs. 5,000 towards the cost thereof. This hostel was extended in 1897, and the lower and upper stories of the new hostel were completed in 1908 and 1914, respectively. The present hostels consist of two blocks capable of accommodating three hundred and eighty-four boarders, two Wardens, two Superintendents and two Assistant Superintendents, a sanatorium and necessary kitchens, dining rooms and servants' quarters.

The number of students, which in 1890 was hundred and in 1907 had reached one hundred and eighty-three, has increased more rapidly since the latter year, and there are now seven hundred and five students reading in the college. The teaching staff, which in 1876 consisted of the Principal, one Professor and one Lecturer, and in 1906 comprised only eight members in all, has also undergone a rapid increase in recent years, owing to the new Regulations of the Calcutta University which

came into force in 1907, and to the recommendations of the Patna University Committee. As a result also of these Regulations the B.L. classes were closed, the occasional instruction given in postgraduate work ceased, and there was a reduction in the number of subjects taught for the B.A. course. A generous donation by the Maharaja of Sonapur of Rs. 1,71,500, Government 3½% stock enabled the college to open the M.A. classes in English in July, 1922. The B.L. classes were re-opened in July, 1920, and at present instruction is given up to the M.A. (English), B.L., B.A. and B.Sc. standards, the college being admitted in ten Pass and seven Honours subjects in the B.A. course, and in four Pass and four Honours subjects in the B.Sc.

The college is maintained by Government. Tuition fees amount to Rs. 6 in the I.A. classes, to Rs. 7 in the I.Sc. and B.A. Pass and Honours classes, to Rs. 8 in the B.Sc. Pass and Honours classes and to Rs. 10 in the M.A. and B.L. classes.

Besides common rooms in the college and in the hostels there are a College Union of English and three Vernacular Debating Societies, a Historical Society, a Botanical Society, a Chemical Society, a Law Union, a college magazine, an Economics Society, a Social Service Guild and an Athletic Club with five branches. Provision is also made for compulsory drill, gymnastics and other games.

Woodburn Prize. A prize of the value of about Rs. 20 awarded annually to the student standing highest at the B.A. or B.Sc. examination.

Jagannath Memorial Prize. A prize in books of the value of Rs. 17-8 awarded annually to the student who obtains the highest marks in Sanskrit in the Honours examination; failing such student, to the student obtaining the highest marks in the Sanskrit Pass B.A. examination, or I.A. examination, provided that he obtains not less than 60 per cent. of the marks in that subject.

Sonapur State Peace Celebration Medal. A silver medal of the value of Rs. 25 awarded annually to the student of this college belonging to Sonapur or to one of the Orissa Feudatory States who passes highest at the Intermediate examination.

Rai Bahadur Janakinath Bose's Prize. A prize of the value of Rs. 10-8-0 awarded annually to the best all-round student of the college.

Scholarships. Junior Scholarships awarded to residents of Orissa on the results of the Matriculation examination and tenable for two years in the college:—

(a) One *Dhenkanal Scholarship* of Rs. 8, and one of Rs. 7 and two of Rs. 6 each per mensem and one *Mayurbhanj scholarship* of Rs. 7.

(b) One *Baker Scholarship* of Rs. 5 per mensem open only to inhabitants of the District of Puri.

Senior Scholarships awarded to residents of Orissa on the results of the Intermediate examinations and tenable for two years in the college :—

Two *Mayo Scholarships* of Rs. 10 per mensem.

One *Peck Memorial Scholarship* of Rs. 15 per mensem.

There are also a number of Scholarships, awarded by certain Feudatory States to students who come from those states.

Dr. Bhusan Chandra Bhattacharya Memorial Prize. A prize of Rs. 10-8-0 preferably in books, awarded annually to the student who stands first at the annual examination of the first-year class (I.A. and I.Sc. alternatively).

The Orissa Muhammadan Hostel Trust Fund. Two prizes in books of the value of Rs. 15 and Rs. 10 are awarded annually to two Muhammadan students of the college who stand first and second from this college at the I.A. or I.Sc. examination and continue their studies at the Ravenshaw College in the B.A. or B.Sc. classes of the college.

The *Bora Sambar's Senapati Prize* of Rs. 21 is awarded annually to the best debator in the college.

The Biswa-Jayanti Prize. A prize of Rs. 17-8-0 awarded annually to a student who stands first at the I.Sc. examination from this college and reads in the B.Sc. classes of the college.

Free-studentships. One full or two half free-studentships from the Ravenshaw College Improvement Fund are awarded annually to poor and meritorious students of the college. Besides nine-tenths of five per cent of the students of the college reading Arts and Science are awarded free-studentships by the Governing Body and the Director of Public Instruction.

Tej Narayan Jubilee College, Bhagalpur.

This institution was founded as a Middle English school in the year 1883, by the late Rai Tej Narayan Sinha Bahadur. In the same year it was raised to the status of a high school. In 1887 in commemoration of the Jubilee of the Queen-Empress Victoria it was converted into a Second Grade college. In 1890 it was made a First Grade college with a Law Department. The Law Department was abolished in 1920.

The college is under the control of a Board of Trustees and a Committee of Management, of which latter body the Commissioner of the Division is the *ex-officio* President.

The college was maintained with the tuition fees paid by the students and funds supplied by the founder, and after his death by his son Mr. D. N. Singh who created monthly endowments totalling Rs. 200 only for its maintenance. From the year 1905 the Banaili Raj made large yearly grants to the college until the year 1917 when late Rajah Kalanand Singh and Rajah Kirtyanand Singh Bahadur created an endowment of Rs. 16,000 a year for the maintenance of the institution. In the year 1914 the Government of Bihar and Orissa sanctioned a monthly grant for the college from January, 1913. Since that year Government have every year made recurring and non-recurring grants to enable the college to balance its budget and in the year 1927 the annual grant was increased to Rs. 57,000 and fixed at that figure for the five years on liberal terms.

The college now occupies the magnificent new buildings at Jantikri which have been erected by the Government of Bihar and Orissa, the generous Rajas of Banaili having made most munificent contributions towards the cost. The new buildings possess ample accommodation for the college in all its departments and contain hostels for Hindu and Muhammadan students, quarters for the Principal, six Professors and the Superintendents of the hostels, a Gymnasium and play-grounds. The hostel charges for board and lodging are Rs. 9 a month for ground floor boarders and Rs. 10 a month for the occupiers of the first floor. All hostels have Resident Superintendents who are Professors, Lecturers or Demonstrators in the college.

The tuition fee is Rs. 7 a month for the B.A., Rs. 8 for the B.Sc. Extra Re. 1 for Honours and Rs. 6 for the Intermediate Arts classes. Students taking up a Science subject have to pay Re. 1 a month extra. The admission fee and transfer fee are each equal in amount to the tuition fee.

The college possesses a good library and well-equipped laboratories with arrangements for practical work in Physics and Chemistry.

There are two *Bailey Scholarships*, of Rs. 6 and Rs. 4 a month tenable in the college for two years and accompanied with half free-studentships. They are the gift of the Founder of the college and are awarded to the two best boys from the collegiate school, who have not secured Government scholarships.

The *Harballava Narayan Scholarship*, the gift of the Sonbarsa Estate, is awarded to the Bihari student who secures the highest marks in Geography and History taken together among the candidates appearing at the Matriculation examination from Bhagalpur and Monghyr Districts. The Scholarship is of Rs. 10 a month and is tenable for two years.

Besides these there are several free-studentships granted to deserving students of the college.

1934 Hari Chand, D.Litt, I.E.S.

Bihar National College, Bankipur.

This institution was started as a school teaching up to the Entrance standard, in the year 1883, by Babu Biseswar Singh, Zemindar of Kulharya, in the district of Shahabad, for students not in affluent circumstances. The success which attended the institution encouraged the proprietor to take steps for raising it to the status of a college teaching up to the standard of the F.A. examination and it was affiliated to Calcutta University under the name of Bihar National College in September, 1889.

In the year 1892 the college was raised to the B.A. standard and a Law Department was added, in which instruction was given for the Pleaderships and B.L. examinations. The Law Department has been abolished. The college is admitted up to the I.A., I.Sc., B.A. and B.Sc. standards of Patna University.

The tuition fee is Rs. 6 a month for the I.A. and I.Sc. and Rs. 7 for the B.A. and B.Sc. classes.

The institution is now under an Association registered under Act XXI of 1860, the Governing Body having full financial and administrative control over it.

In November 1900, a fund under the name of "Students Mutual Aid Fund" was started for helping poor students with stipends, books, medical attendance, etc. The expenses are met by subscription from students, professors, and others who sympathise with the movement.

The college has a magazine, an Athletic Club, a Debating Society, a Common Room, Rabindra Sabha, an Economics, a Philosophical and an Historical Society.

There are three Hostels in three blocks accommodating about 230 students in the immediate vicinity of the college.

Scholarships. One scholarship of Rs. 14 a month, tenable for two years, is awarded to the student who stands first among those passing the I.A. examination from the college and who continues his studies in the college. A Scholarship of Rs. 10 a month is awarded to a student in the first-year class on the results of the Matriculation examination. Some help is paid to a student out of the Fund which owes its origin to Mr. J. G. Jennings, the first Vice-Chancellor of the University.

A Psychological Laboratory is attached to the Arts Department of the college.

Greer Bhumihar Brahman College, Muzaffarpur.

The college, the name of which is associated with Mr. R. T. Greer, I.C.S., C.S.I., a former Commissioner of Tirhut Division, was founded in July, 1899, as the result of zealous efforts on the part of the local Bhumihar Brahman community. The object of that community in founding the college was to bring the benefits of higher education within the reach of the students of North Bihar. With this end in view the Bhumihar Brahman Sabha met in March, 1899, to discuss the most feasible methods of achieving their object. The authorities of the high school very generously came to their help and made over the school to the Sabha. From the outset the college has been fortunate in enlisting the cordial sympathy of local officials and the loyal support of many public-spirited zemindars and gentlemen of the

Tirhut Division. In particular, His Highness Sir Prabhu Narain Sinha, G.C.I.E., Maharaja of Benares, generously gave, through the Commissioner of Tirhut Division, a munificent donation of Rs. 50,000 in aid of the college funds.

The college was opened first as a second-grade college on the 3rd July, 1899. In June, 1900, an application was made for affiliation to Calcutta University up to the B.A. standard, and the sanction of the Governor-General was obtained in the first week of January, 1901.

A sum of Rs. 50,000 was originally set apart in trust for the maintenance of the college, and a registered trust deed, executed by the late Chaudhuri Mahanth Raghunath Das, Zemindar of Jaintpur; the late Rai Parmeshvar Narayan Mahtha Bahadur, Banker; the late Babu Langat Singh, Zemindar; and the late Babu Jugeshvar Prasad Singh, Pleader, was submitted to the Syndicate along with the first petition for affiliation. The trust fund consisted in a donation by Babu Langat Singh. In 1907 a representative committee under the chairmanship of the District Magistrate and Collector took over the management of the college, and strenuous efforts were made to establish it on an efficient and permanent basis. A new trust deed was executed and registered, and the Board of Trustees became the Governing Body of the college.

Among the other benefactors of the college may be mentioned the late Dulhin Bisheshvari Kuer of Narhan who, in addition to giving a donation of Rs. 3,000, sanctioned an annual grant of Rs. 1,500.

The college owns landed property, given by the late Babu Vishvanath Prashad Mahtha and Babu Maheshvar Prashad, which yields an income of Rs. 857 per annum.

On the 1st July, 1915, the college was taken over by Government and the name Bhumihar Brahman College was changed to Greer Bhumihar Brahman College.

The fine original site measures fourteen acres. About 28½ acres more have been acquired for the college by Government. New buildings have been constructed in accordance with the scheme of the Patna University Committee. The college has now good laboratories, a useful library, a gymnasium and extensive play-grounds; while electric light was installed throughout the college in July, 1929.

The Principal and five professors have residences within the college compound, while two others have quarters in the hostels.

Intermediate Science classes were instituted in July, 1919, and B.Sc. classes in July, 1924.

Each student pays a sum of Rs. 8 as caution money, plus one month's tuition fee as an admission fee. The tuition fees are: Rs. 6 monthly for Intermediate Arts, Rs. 7 for Intermediate Science, B.A. Pass, and B.A. Honours, and Rs. 8 for B.Sc. classes.

Other annual charges are: Rs. 2 for athletics, Re. 1 for the Common Room, Rs. 2 for the College Magazine, Re. 1 and annas 8 for college examinations and annas twelve (0-12-0) for Social Service Guild.

The college has an active Athletic Club, a College Magazine, a Scouting Organisation and the following Societies:—Debating, Philosophical, Historical, Urdu, Sanskrit, Science, Hindi, Hostel Literary, Persian, Economics, Bengali and Photographic, which aim at inculcating higher and broader conceptions of life and encouraging friendly feelings and co-operation amongst the members of the college. There are also an Astronomical Observatory, a Meteorological Observatory, a Co-operative Store, managed by the students themselves, an Economics Museum, a Social Service Guild, a branch Post Office, and a Staff Club. For the past eight years there have also been extra-mural lectures given throughout the session by members of the staff.

In 1922 the college was provided with a hostel accommodating one hundred and twenty-two boarders, and a new wing, with accommodation for one hundred and seven additional boarders, was opened in 1929. Free accommodation is also provided for about 12 students in an Ashrama in the college compound maintained by private subscriptions and students contributions. The hostel charges are:—Rs. 3 monthly for single rooms on the first floor, Rs. 2-8-0 for similar rooms on the ground floor, and Re. 1-8-0 for other rooms. The boarders pay in addition a sum of Rs. 3-8-0 in case of single seated rooms and Rs. 2-8-0 in case of four-seated rooms a month for hostel contingent charges. The caution money for hostel boarders is Rs. 5, which is returned when they quit the college. Science students deposit, in addition, a sum of Rs. 8 to cover breakages, which is also returnable. Each boarder pays besides six annas a month as electric fitting charge. The Government have recently sanctioned reduction in hostel seat rent, as an experimental measure for one year, as follows, for 10 months in a year with effect from session 1938-39:—Rs. 2 monthly for single rooms on the first floor, Re. 1-12-0 monthly for similar rooms on the ground floor and Re. 1* for four-seated rooms.

The college is now affiliated in History, Sanskrit and English Honours and teaches, in addition to other usual Arts and Science subjects, Hindi principal up to the B.A. standard

and Urdu principal up to the I.A. standard. It has recently been affiliated in I.A. Elementary Economics and Public Administration.

**St. Columba's (Dublin University Mission) College,
Hazaribagh.**

St. Columba's College, Hazaribagh, is under the management of the Dublin University Mission. It was founded in June, 1899. In the year 1904 the college became a residential one and began also to teach up to the B.A. standard.

The college entered into the possession of its own permanent buildings in 1908. These buildings now comprise eleven spacious class-rooms, a library, a Professors' common room, and a large central hall. Attached to these buildings is the college hostel consisting of three blocks of single-seated rooms, one containing twenty-eight rooms, one thirty-one and the third thirty-seven, together with a smaller building containing five three-seated rooms and a common room for students. A large Science wing was completed in 1917 containing in all seventeen rooms, namely, separate lecture theatres and laboratories for Botany,* Chemistry and Physics, together with smaller rooms for stores, preparation of experiments, etc. The college has been admitted up to the I.Sc. standard in Physics from July, 1920.

The tuition fee is Rs. 6 a month for I.A., Rs. 7 for B.A. and I.A. with Chemistry, and Rs. 8 for I.Sc.

The Cunningham Memorial Scholarship is awarded in the college to the aboriginal student who gains the highest marks in the Matriculation examination. The scholarship is tenable for two years. The value is Rs. 5 a month.

The Nim Narain Scholarship is awarded to the candidate who stands first among the successful candidates from St. Columba's Collegiate School, provided that he does not obtain a Government scholarship. The value is Rs. 5 a month.

* Teaching of Botany has been discontinued since January, 1921.

The Mrs. Burn Scholarship is awarded to the Christian aboriginal student of St. Columba's College who secures the highest marks at the University Intermediate examination, provided that he does not secure a Senior Government scholarship. If no third year student is eligible, it may be awarded on the result of the Matriculation examination. The value is Rs. 5 a month.

Diamond Jubilee College, Monghyr.

To commemorate the Diamond Jubilee of Her Most Gracious Majesty the Queen-Empress Victoria, it was resolved at a public meeting that the most appropriate way of celebrating the happy event would be to found a college by the amalgamation of the three local schools, *viz.*, the Zila school, the Kamleshwari Prasad Institution, and the Victoria Jubilee school, and in pursuance of that resolution the amalgamation of the schools took place on the 1st September, 1899. Subscriptions were liberally contributed for the purpose of establishing the college, and amongst contributions the following may be mentioned :—

NAMES OF DONORS.	DONATIONS.
Raja Kamleshwari Prasad Singh, Monghyr	... 6,000
Maharaja Sir Ravaneswar Prasad Singh Bahadur K.C.I.E., of Gidhaur	... 3,000
Raja Ashutosh Nath Roy, Karanchowra	... 3,000
Musammat Shyam Kumari, Ulao	... 3,000
Raja Rama Narain Singh Bahadur, Khaira	... 2,000
Babu Ganga Prasad, Monghyr	... 2,000
Maharaja Sir Haraballabh Narain Singh Bahadur, K.C.I.E. of Sonbarsa	... 1,000

Musammat Shyam Kumari of Ulao and Raja L. P. Singh Bahadur have endowed properties yielding an annual income of Rs. 1,200 and Rs. 770, respectively. Besides the above there are small investments in Railway shares.

The college was opened in the beginning of the session 1898 ; and the college authorities made an application for its affiliation to the Calcutta University in Arts up to the F.A. standard. The sanction of the Governor-General in Council authorising the affiliation was received on the 15th November, 1898. The college was admitted in the following subjects:—English, Logic, Mathematics, History, Sanskrit, Persian, Physics and Chemistry. The teaching of Science was discontinued in 1909, and under section 24 of the Indian University Act, with effect from June, 1909 the affiliation was restricted as follows:—*Intermediate Examination in Arts*—English, Vernacular Composition, Logic, History, Mathematics, Sanskrit and Persian. No subsequent addition has been made to the range of subjects taught.

In pursuance of the new scheme recommended by the Indian Universities Commission of 1902 for the separate management of schools and colleges the management and financial responsibilities of the school were assumed by Government. The District Board and Municipal contributions previously given for the maintenance of the school were transferred to the college. These contributions have been discontinued since April, 1913.

From July, 1919 to May, 1925, the college met in the spacious building of what was intended to be the Central Jail, near Pir Pahar, at a distance of about three miles from the town.

On a site acquired near the town a new college building called the Prince of Wales Building was constructed, as well as the Johnston hostel. The foundation stone was laid by His Excellency the Governor of Bihar and Orissa on the 18th February, 1921, and the building was opened on the 6th July, 1925, by the Commissioner of Bhagalpur Division. Babu Rajniti Prasad Singh, Zemindar, has gifted a block of three rooms named after his mother Srimati Parmeshwari Devi. There is accommodation for 400 college and school boys. The site is extensive (about 14 acres) and is healthy and picturesque.

In January, 1927, four school classes (XI—VIII) were added to the college, three of which are now duplicated. The number on the rolls has risen from 72 to 252. The lecturers share in the teaching of the school.

The college is not maintained by Government. It is aided by Government and is managed by a Governing Body which is constituted as follows:—

1. President—The District Magistrate (*ex-officio*).
2. Secretary—Babu Kedar Nath Goenka.

3. The Principal of the college (*ex-officio*).
4. The District Judge (*ex-officio*).
5. The Inspector of Schools, Bhagalpur Division.
(*ex-officio*).
6. One representative of the teaching staff of both the college and the school sections.
- 7—10. Four other members.

The tuition fee is Rs. 5 a month. Students are required to contribute Rs. 3 each annually for sports and Common Room, and Re. 1 for medical examination, Re. 1 for medical advice and deposit Rs. 2 for the use of Library books, which sum is refunded on the student leaving the college.

The hostel has accommodation for 33 boarders. They make their own messing arrangements under the guidance of the resident Superintendent of the hostel. The messing charge is about Rs. 6 per month. Medical attendance is free. The Principal lives in his quarters in the college compound and acts as the warden.

Medals. A gold medal called the *Raja Shivanandan Prasad Singh Medal* is awarded every year to the student of the college who passes the I.A. examination of the University with the highest number of marks. Prizes are also awarded to first-year students on the results of the college Annual Examination. Four Silver Medals worth Rs. 70, viz., the 'Marriott,' 'Roe,' 'Lyall' and 'Karunamoy Banerjee' are awarded from the proceeds of the Bahadurpur endowment to successful candidates at the Annual Examination for proficiency in English, Mathematics, Hindi and Sanskrit respectively.

Two stipends, each of the annual value of Rs. 48, are awarded by Babu Kedar Nath Goenka to deserving students of the college.

Free-studentships. Free-studentships and half free-studentships are given to poor students on condition of good progress and satisfactory conduct. They are also helped from University subvention for poor students.

INSTRUCTIONAL STAFF, 1937-38.

Principal and Professor of History	...	K. P. Mitra, M.A. (Cal.) (English and History 1st Class).

1898 Baidyanath Bose, M.A. | 1919 K. P. Mitra, M.A.

Ranchi Zila School (I.A. Classes).

In 1926 the Ranchi Zila School was affiliated up to the I.A. standard in English, Vernacular composition (Bengali, Hindi and Urdu), History, Logic, Mathematics, Sanskrit and Persian, as an experimental measure.

In 1936, Geography was added to the list of subjects offered.

The I.A. classes are now held in the Zamindars' Hostel where a common room for boys and one for the girl students have been provided and furnished. The teachers whose main work is to teach these classes have also a common room of their own.

There is no separate hostel for the I.A. classes, but accommodation is available for the I.A. students in either the ordinary or the Zamindars' Hostel.

The school, and especially the I.A. classes, are very picturesquely situated and there are adequate arrangements for sports and games which are compulsory.

The tuition fee is Rs. 6 a month for the I.A. classes.

INSTRUCTIONAL STAFF, 1937-38.

Lecturer in Sanskrit and Hindi ...	R. Pandey, Vyakaranopadhyaya (Benares).
Lecturer in Persian and Urdu ...	S. A. Karim, M.A. (Pat.).
Lecturer in Geography and Bengali ...	S. C. Chatterji, D.Sc. (Cal.), F.R.G.S. (Lond.).

Ravenshaw Girls' High School, Cuttack.

The I.A. classes were opened as an experimental measure on the 19th of July, 1915, and the school has been admitted up to the I.A. standard in English, Sanskrit, History (History was discontinued in 1922 and Botany was introduced. Again Botany was discontinued and History was introduced in its stead in 1925. Mathematics was also introduced in the years 1918 and 1919), Logic, Oriya and Bengali since July, 1920 and Oriya as principal subject from July, 1937.

There is a Managing Committee consisting of the following members :—

- | | |
|---|------------------------------|
| 1. The Magistrate of Cuttack | <i>Ex-officio President</i> |
| 2. The Civil Surgeon of Cuttack. | |
| 3. Mr. Brajasundar Das, M.A. | |
| 4. The District Inspectress of Schools, Cuttack. | |
| 5. Miss S. Ray, Senior Mistress, Ravenshaw Girls' School, Cuttack | } <i>Members.</i> |
| 6. The Principal, Ravenshaw College, Cuttack. | |
| 7. Mrs. Sukhalata Ray. | |
| 8. Rev. Brajananda Das. | |
| 9. Mrs. S. Ray. | |
| 10. Miss E. C. Wigner. | |
| 11. Khan Bahadur Ahmad Baksh. | |
| 12. The Lady Principal of the Ravenshaw Girls' School ... | <i>Ex-officio Secretary.</i> |
| 13. Mrs. G. Verghus. | |

The tuition fee is Rs. 3 a month and the admission fee is also Rs. 3.

The Library of the I.A. class is well-furnished.

There is a common room where students are provided with useful periodicals, newspapers, and magazines. The grant under this head was Rs. 65 from which papers were purchased for common room during 1936-37.

Attached to the high school, where the I.A. classes are held and under the direct control of the Principal who has quarters in the compound, is a hostel for both school and college students. The college students have a separate dormitory, study, and dressing room. The hostel fee is Rs. 10-6 a month. There is a Lady Doctor who looks after the health of the students on an usual allowance admissible under the rules of the education code both for this school hostel and the hostel attached to the Hindu Women's Training School, Cuttack.

INSTRUCTIONAL STAFF, 1937-38.

1. Miss Sudhanshubala Hazra, B.A., B.L. ... *Principal.*
2. Miss Bhaktilata Chanda, M.A. (Cal.) ... *Lecturer.*
3. Pandit Visvanath Rath, Kavyatirtha ... *Lecturer.*
4. Miss I. L. Khan, B.A. (History Hons.) ... *Lecturer.*

Nalanda College, Bihar.

The college is named after the ancient Buddhist University of India, the ruins of which are still to be seen in the neighbourhood of Bihar. The college was endowed by the late Rai Bahadur Edal Singh. The annual income from the endowment amounts to Rs. 8,000. Attached to the college are four upper classes of a high school. This section of the college, started originally in 1867 as a Middle English School, developed later into the Bihar H.C.E. School.

The college has a Literary and Debating Society, the debates being conducted alternatively in English and the Vernacular. There is a Common Room, supplied with daily news-papers, literary, scientific, and art journals and vernacular periodicals. There is also an Athletic Club which provides cricket, tennis, foot-ball, hockey, badminton, tennis-court and volley-ball and indigenous games. Two Scout Troups have been started under two duly trained Scout Masters and are being trained by them.

There are two scholarships of the monthly value of Rs. 10 each endowed by Babu Kesarichand Suchanti a Zamindar of Bihar. One of these scholarships is awarded to the student of the first year class who has secured the highest marks in the aggregate in the preceding Matriculation Examination of the Patna University; the other is awarded to the student of the second year class who stands first in the college first year final examination.

The tuition fee is Rs. 5 a month in the I.A. classes.

The college hostel which has cost over Rs. 18,000 and is intended for thirty-two boarders has been in occupation since 1927. It is situated on a fine site.

The average monthly expenses for a student who joins the Hostel including tuition fees, Hostel mess charges, seat-rent, etc. amount to Rs. 15 only.

INSTRUCTIONAL STAFF, 1937-38.

<i>Lecturer in Sanskrit and Hindi</i>	Umanath Pathak, M.A. (Skt. and Hin.) (Pat.).

Patna Training College.

The Patna Training College is an institution maintained by Government for the professional training of prospective masters of secondary schools, and subordinate inspecting officers. It was first instituted in October, 1908 by the Government of Bengal to prepare students for the L. T. examination of the Calcutta University. During the year 1915-16 two classes were opened—one class to prepare graduates for B. T. examination and another to prepare Intermediate passed hands for the L. T. examination of the University of Calcutta. In 1918, the Patna University courses—B.Ed. (one year's course) for graduates and L. T. for I. A. passed hands—were adopted in place of the Calcutta courses. In 1926, new regulations were sanctioned by which the L. T. examination was abolished and a new course consisting of one year for a diploma and two years for the B.Ed. degree was instituted. The admission to the training college was restricted to graduates only. In 1927 the college moved to the new site and a class for the new B.Ed. degree was first opened. In 1931 the Diploma course was divided into two branches—one for the training of teachers in secondary schools, and the other for the training of prospective sub-inspectors of schools, and the headmasters of training schools. In 1935 the

regulations were again changed by which the B.Ed. examination was abolished and a new course for the Master of Education degree was instituted. The college now prepares candidates for the Diploma in Education and Master of Education examinations, the courses of study for which are laid down in Chapter XXXI of the Patna University Regulations.

Fifteen stipendiary students are admitted annually into the class reading for the Diploma examination, and 5 such students may be admitted annually into the class reading for the Master of Education degree. In addition to stipendiary students the Principal may admit at least twenty-five non-stipendiaries to the diploma class at his discretion; he may also admit a few non-stipendiary students to the degree class.

The college is housed in a spacious two-storied building which meets all modern requirements. Each member of the staff is provided with a tutorial room, and, in addition to the well-furnished lecture rooms and offices, provision is made for a Library, a Reading Room, a Science Room, a History Room, an Art Room and a Psychological Laboratory.

The hostel accommodates forty students, a separate room being provided for each student. The management of the hostel is in the hands of a Prefect under the general supervision of the Principal, and one of the Medical Officers appointed by Government to look after the health of students in Bankipore, attends the hostel daily.

The Patna Collegiate School, close by, which is under the control of the Principal, serves the purpose of a Demonstration school. Practice in class-teaching is also carried on in the Patna High School and in Primary Schools.

The college is under the control of a Governing Body consisting of three *ex-officio* members, namely, the Principal of the Patna Training College, the Inspector of Schools, Patna Division, and the Headmaster, Patna Collegiate School, and two non-official members, namely, Mr. S. M. Hafeez, M.L.C. and Mr. Baldeva Sahay, M.A., B.L., M.L.C.

Cuttack Training College.

The Cuttack Training College was first opened in July, 1923, and was instituted by the Government of Bihar and Orissa to provide facilities for professional training for secondary school teachers in the Oriya-speaking parts of the province, as then constituted, consisting of Bihar and Orissa, now separated from it and formed into the Province of Orissa with effect from April 1, 1936. The college prepares candidates for the examination for the Diploma in Education of the University of Patna.

The college session is divided into three terms, and attention is given to practical and theoretical work in each term. The practical work consists of (1) demonstration lessons given by members of the staff; (2) criticism lessons given by the students in turn; and (3) practice in class teaching by the students under supervision. Lectures are given in (1) History of Educational Practice; (2) Principles of Education; (3) Methods of Teaching; (4) Hygiene of the School Child.

Graduates are eligible for admission. 22 candidates (5 stipendiary plus 15 non-stipendiary plus 2 candidates from

Orissa States) are trained annually, the stipendiaries getting Rs. 20 each, per month. The fifteen (15) non-stipendiary candidates are provided each with a set of text-books not exceeding Rs. 50 in value which is returned to the college in good condition at the end of the session.

The college is housed in a two-storied building. It has a demonstration room, a lecture room, library, common room, black-board and drawing room and offices, and Tennis and Badminton courts.

Classes IV to XI in the Ravenshaw Collegiate School are utilised for demonstration and practising purposes. This institution is adjacent to the Training College and under the control of the Director of Public Instruction, Orissa, at the moment. Practice work is also carried on at the P. M. Academy and Town Victoria High School which are at a short distance from the college.

The Library of the college consists of a fair number of carefully selected works on education and other subjects of general interest. The common room is supplied with educational and literary periodicals. There is a debating society which usually discusses subjects of educational interest.

The rooms of the college hostel are single-seated. The management of the hostel is in the hands of a Prefect under the general supervision of the Principal, and the Medical Officer appointed to look after the health of the students attends the hostel every alternate day.

The college is under the control of a Governing Body consisting of three *ex-officio* members, namely the Principal of the Cuttack Training College, the Inspector of Schools, Orissa Division, the Headmaster, Ravenshaw Collegiate School, and two non-official members, Khan Bahadur Ahmad Buksh and Rai Bahadur Lakshmidhar Mahanty.

INSTRUCTIONAL STAFF, 1937-38.

<i>Principal</i>	M. C. Pradhan, M.A., B.L. (Cal.), Dip. in Edn. (Pat.), Dip. in Edn. (Edin.).
* <i>Assistant Professor</i> ...	S. C. Mahapatra, M.A., B.L. (Pat.), Dip. in Edn. (Pat.), Dip. Ed. (T.C.D.).

* On account of the creation of the Province of Orissa the Officers were transferred to Bihar and the posts are vacant at the moment.

OCCASIONAL TEACHERS.

<i>Lecturer in Hygiene</i>	...	Dr. G. C. Pattanayak, M.B., B.S.
<i>Drawing Master</i>	...	B. K. Panda.
<i>Physical Instructor</i>	...	G. Maharaj.

Government Law College, Bankipur.

The college was established in July, 1909, and was duly affiliated to Calcutta University. In 1917 it was transferred to the newly created Patna University. The college is a Government institution and is under the control of the Director of Public Instruction, Bihar and Orissa.

1. The college was for the first time admitted to the Patna University on October 1, 1917, under section II of the Patna University Act (1917).

2. There was three years' course when the college was first admitted and the subjects of the Examinations are given below :—

PRELIMINARY LAW :

- (1) Jurisprudence, (2) Roman Law and (3) Hindu Law.

INTERMEDIATE LAW :

- (1) Mohammadan Law, (2) Law of Transfer, (3) English Law of Real Property, (4) Law of Contract and Tort.

FINAL LAW :

- (1) Land Tenures, (2) Equity and Trust, (3) Evidence and C. P. C., (4) Criminal Law.

The college teaches Law up to B. L. standard.

3. Since 1924 there is now 2 years' course and the subjects are given below :—

PRELIMINARY.

- (i) Jurisprudence, (ii) Roman Law, (iii) Hindu Law, (iv) Mohammadan Law, (v) Criminal Law.

FINAL.

- (i) Land Tenure, (ii) Equity, (iii) Civil Procedure Code, (iv) Transfer, (v) Contract and Tort.

But from 1932-33 a slight change as given below has been introduced :—

LAW—PART I.

- (i) Jurisprudence and the elements of Roman Law.
- (ii) Constitutional Law of England and of India.
- (iii) The Law of Crimes and the general principles of Criminal Procedure and Law of Evidence relating thereto.
- (iv) Hindu Law including all legislative enactments relating thereto.
- (v) Law of Contract and the Law of Torts.
- (vi) University Selection of Leading Cases.

LAW—PART II.

- (i) The Law relating to property including the Law of Land Tenures, Land Revenue and prescription.
- (ii) The Principles of Equity, including the Law of trusts and the Law relating to Specific Relief.
- (iii) The Law of Pleadings and the general principles of Civil Procedure and the Law of Evidence.
- (iv) (a) The Law of Transfer, (b) The Principles of Intestate and Testamentary succession, (c) The general principles of the Law of Limitation.
- (v) Mohammadan Law and other specified Act.
- (vi) University Selection of Leading Cases.

The internal management of the college is conducted by a Governing Body which consists of nine members as follows :—

1. A Puisne Judge of the High Court of Judicature at Patna—*President (ex-officio)*.
2. The Vice-Chancellor of the Patna University—*Vice-President (ex-officio)*.
3. The Principal of Patna Law College.
4. } Two representatives of the Bar, elected by the Faculty
5. } of Law.
6. } Two representatives of the Syndicate of the Patna
7. } University.
8. A representative of the teaching staff of the college.
9. } Two members to be nominated by the local Govern-
10. } ment.

The tuition fee for the B.L. classes is Rs. 10 a month. An admission fee of Rs. 10 is charged. Law students are not allowed to take up in Government school or Government office

any remunerative work without the special permission of the Government.

The Library of the college is furnished with all necessary and important law books to which the students have free access. Besides the law literature transferred from Patna College to this institution, law books and reports worth Rs. 18,000 have been purchased during the last ten years. There is a Government grant of Rs. 1,000 per annum for the Library of the college. A special grant of Rs. 2,395, for the purchase of three hundred and eighty-four volumes of English Law Reports from 1866 to 1912 was sanctioned in 1927-28.

A students' common room is in existence, where students are provided with useful periodicals, newspapers, magazines, and books of light literature, the fee rate being one rupee and eight annas per annum. There is a grant of Rs. 165 (besides Rs. 70 for newspapers and periodicals) from Government for its equipment.

The college has also got an Athletic Club, a Debating Society and a college magazine.

There is a hostel Doctor who looks after the health of the students free of charge. There is a hostel for the college at Ranighat under the control of the Vice-Principal as Resident Superintendent with accommodation for fifty-eight boarders. Mr. S. M. Shareef resigned his appointment of the Superintendentship on the forenoon of July 16, 1935, and Mr. B. K. Sinha, a part-time Lecturer of the college, now the V P, took over charge of the office and continues to be the Superintendent of the hostel.

The charges are as follows:—

	Rs.	A.	P.
1. Caution money ...	5	0	0
2. Electric fitting charges ...	4	8	0
3. Seat rent, single-seated, first floor	25	0	0
4. Seat rent, single-seated, ground floor	20	0	0
5. Three-seated ground or first floor	15	0	0

A maintenance charge of Rs. 3-8 for single-seated rooms and Rs. 2-8 for three-seated rooms is charged monthly from each boarder.

The Governing Body of the college at present consists of the following:—

1. The Hon'ble Mr. Justice S. B. Dhavle, I.C.S.,
President.
2. Dr. S. Sinha, *Vice-Chancellor*, Patna University.

Bihar College of Engineering, Patna.

This institution originated in the year 1876 as a survey school which developed some twenty years later into the Bihar School of Engineering. The school buildings were erected in the year 1899 by means of a fund called the "Prince of Wales Fund." This fund was raised by the residents of Bihar to commemorate the visit of His Royal Highness the Prince of Wales to India in 1875. A donation of a lakh of rupees by the late Nawab Looft Ali Khan was subsequently added to the fund. The buildings and workshops were enlarged later and the status raised to that of a University College in the year 1924 under the direction of the late Principal F. Walford, O.B.E., A.R.C.S., M.I.Mech.E., Wh. Ex.

The college is maintained by Government and is administered by the Governing Body with the assistance of the Principal. As at present constituted, it undertakes to train civil engineers, overseers, sub-overseers, and industrial engineers. The course of study in civil engineering extends over four years, and is followed by a year of practical training. The course is intended to qualify young men for entry to the Public Works Department, the engineering services of the District Boards and for the civil engineering profession generally. A final college examination is held at the end of the fourth year after passing which students are sent for practical training on construction work. The final certificate or diploma is not given until the period of practical training has been satisfactorily completed. The Bihar College of Engineering, Patna, is affiliated to the University of Patna and its students if successful are granted the Degree of Bachelor of Civil Engineering. This degree is recognized as giving exemption from the Associate Membership examination of the Institute of Engineers (India), and as entitling the holder to sit at the Public Service of Engineers' Examinations held by the Public Service Commission. This is to say, it cannot be justly imputed that a graduate in Engineering of the University of Patna is of inferior status to the graduate of any other University in India.

The Civil Engineering classes are primarily intended for young men who are natives of or domiciled in the province of Bihar. Students not domiciled in the province will be admitted only in the event of the number of Beharis and domiciled candidates being insufficient to fill all vacancies. Applications for admission are considered by a special committee consisting of the Principal of the college as Chairman, one

representative of Behari Hindus and one representative each of the Muhammadan and domiciled communities.

Note.—It has been decided provisionally by Government that after separation of Orissa a minimum of 12 seats should be reserved in the 4 classes in the Bihar College of Engineering for students from Orissa. The Government of Orissa will have to pay for these seats irrespective of the fact whether they are filled up or not. Orissa will also be entitled to eight additional seats provided they are available.

The minimum educational qualification for admission is represented by a pass at the Intermediate examination in Science of an Indian University with Mathematics, Physics and Chemistry. Students who have passed the I.Sc. examination of Patna, Aligarh or Benares Universities will have prior claim to admission.

The number of students admitted annually to the first-year class is limited to thirty. Candidates aged 20 years or more will not ordinarily be selected for admission.

Candidates for admission are required to undergo a medical examination at the hands of the college doctor on payment of Re. 1 which must be paid in office and to produce certificates of fitness signed by him. Candidates who are rejected by the college doctor may appeal to the Civil Surgeon on payment of a fee of Rs. 4.

Applications for admission should be made in the form prescribed and should reach the Principal not later than fifteenth June, accompanied by copies of the following certificates. Candidates who are accepted will be required to submit the originals of the certificates when they present themselves for admission:—

- (i) University certificate of having passed the I.Sc., or higher examination in Science.
- (ii) Leaving or transfer certificate from the college in which the applicant was last a student.
- (iii) In the case of domiciled candidates a certificate by a District Magistrate proving domicile in Bihar.
- (iv) Candidates from other provinces must furnish adequate reasons for their migration as well as letters of introduction from two persons of position resident in the place from which they come.
- (v) University certificate of passing the Matriculation examination.

Every applicant for admission must send his admission fee of Rs. 8 with his application. The fee will be returned if ad-

mission is refused but will be forfeited if the candidate is selected and does not join at the commencement of the session.

Students are required to reside in the college hostel. Exceptions to this rule will be allowed only in the case of students whose parents or guardians reside sufficiently near the college to enable the students to attend at the times required. Each student is provided with a bed, chair, locker, hat-rack, etc. He should bring his own mosquito-net and mattress. Messing arrangements are made by the students themselves under the supervision of the Hostel Superintendent.

College Fees—

	Rs.
Admission Fee	8
Tuition Fee	8 monthly.
Hostel Fee	4 monthly.
Athletic Club Subscription ...	5 annually.
Deposit (caution money) ...	15 (returnable).

Examination Fees—

Bachelor of Civil Engineering	50	} University Fees.
Intermediate in Civil Engineering	30	

Each student is required to provide himself with an efficient set of drawing instruments and with the prescribed text-books. The cost of these amounts to Rs. 100 approximately.

Scholarships and stipends.—

- (a) Scholarships gained at the I.Sc. examination of Patna University may on application to the Director of Public Instruction be made tenable in the college.
- (b) Each student who successfully passes the final examination of the college is given a stipend of the value of Rs. 50 a month to enable him to support himself during his practical training. These stipends are tenable for one year only.
- (c) The first and second in order of merit at the I.C.E. examination are awarded scholarships of Rs. 25 and Rs. 20 per month, respectively, for the next two years.
- (d) Free-studentships numbering five per cent. of the total number of students are awarded to poor students.
- (e) The "Prince of Wales" scholarship available for study in England is awarded to the first class first at the P.C.E. examination

Medals.—

- (a) *Walford Medal* is awarded every year to the candidate who, sitting for the first time, stands highest in the final examination for the Degree in Engineering.
- (b) *Rai Bahadur Ramji Das Gupta Medal* is awarded every year to the candidate who stands first in Structural Design at the B.C.E. examination at the first attempt.

Students are required to attend workshops and lectures during the hours notified in the time-table. At least seventy-five per cent. of the lectures or attendances in the class, in the workshop and in the survey camp separately must be made in order to qualify for admission to the Annual examination.

Periodical examinations in class and workshop subjects are held during the session. At these examinations, which are regarded as part of the Annual examination, students are expected to secure at least forty per cent. of the total marks obtainable during the session.

The names of students who fail to pass any of the Annual examinations are struck off the rolls. Students who fail to pass the first year Annual examination will not ordinarily be readmitted unless the failure was due to circumstances over which the student had no control. In such cases, readmission may be allowed once but in no case will students be allowed to remain in the first-year class for more than two years. Under no circumstance will the number of repeaters in the first-year be allowed to exceed 10 per cent. of the strength of the class.

Students who fail to pass the second year examination may be allowed readmission once. Two failures in the second year's examination will automatically involve removal.

Failures of the third and fourth-year classes must apply for readmission which will however not be granted if the failure is so complete as to suggest unfitness for the engineering profession.

Repeaters shall not be eligible for prizes, scholarships and stipends.

Prince of Wales Medical College, Patna.

This college has been evolved out of the Temple Medical School established in 1874, to meet the increasing demand for medical education in the province. The college opened on July 1st, 1925 with thirty students only in the first-year class. It commemorates the visit of His Royal Highness Edward, Prince of Wales to Patna in the year 1921.

The college consists of five new buildings, with fully equipped laboratories, and large hospitals fitted up with the latest appliances, and can teach up to the M.D. and M.S. standards of the Patna University.

Forty students (including lady students) can be admitted annually for the M.B., B.S. degree, which is a six-year course and there are five University examinations. Students must have passed at least I.Sc. with Physics or the Intermediate examination in Arts with Physics and Chemistry before they can be admitted.

Two scholarships of the value of Rs. 25 and Rs. 20 each, which are tenable for one year are awarded annually to the best two students of each year on the result of the class examinations.

There are other two special scholarships of the value of Rs. 20 each with free tuition which are tenable till the completion of medical course from the date of award. They are awarded annually to the two poor students who are by birth natives of Orissa and not merely persons domiciled in it.

There is also one special scholarship of the value of Rs. 20 with free tuition for aboriginal of Chota Nagpur which is tenable till the completion of medical course from the date of award.

Silver medals are also awarded to students standing first in the following class examinations, provided, funds are available and that students obtain 75 per cent. of marks in that subject and 40 per cent. of marks in other subjects.

Third year—Anatomy, Physiology.

Fifth year—Pathology, Forensic Medicine, Hygiene and Public Health, Medicine, Surgery, Midwifery, and Diseases of Women, Pharmacology and Therapeutics.

Fifth year—Diseases of the Eye, Ear, Nose and Throat.

The college and the hospitals are maintained by the Government. The hospitals have five hundred and thirty-nine beds and large out-patient departments for clinical instruction.

Since 1926 the Maternity Ward of the Medical College Hospital has developed considerably. Practical Midwifery is now taught at this Hospital.

Instruction in Mental diseases is carried out at the Indian Mental Hospital, Kanke (Ranchi). The entire curriculum is based upon the requirements of the Indian Medical Council for the recognition of the University degrees.

The consolidated tuition fee is Rs. 125 for the first-year and Rs. 150 for subsequent years.

The hostel provides residence for one hundred and forty students and is under the control of a warden with a resident assistant warden who is also the medical officer.

There is a Governing Body of eight members to advise the Government in the management and improvement of the college. This body is appointed by the Government.

X

FOREIGN UNIVERSITIES AND THEIR EXAMINATIONS.

I.

Recognition by the University of London.

(1)

COPY OF LETTER FROM THE EXTERNAL REGISTRAR.

(a)

London, S. W. 7,
19th May, 1927.

Dear Sir,

At the request of the High Commissioner for India the Senate have recently had under consideration the question of exempting Graduates of the University of Patna from the Matriculation Examination of this University, and at their meeting yesterday they passed the following resolution:

“That the University of Patna be added to the Schedule of Universities whose Graduates are eligible under Statute 116 for exemption from the Matriculation Examination.”

Candidates desiring to be registered as matriculated students in virtue of these Degrees would be required to satisfy the conditions laid down in the form R 2, enclosed.

I am also enclosing for your information particulars of the Examination under Statute 116, which may be taken by Under-graduates of foreign Universities on the conditions laid down in the form 116/1. This examination is alternative to the Matriculation, and can only be taken in London.

Yours faithfully,
GEO. F. GOODCHILD,
External Registrar.

(b)

UNIVERSITY OF LONDON.

SOUTH KENSINGTON,

LONDON, S. W. 7.

A Graduate of or a person who has passed all the Examinations required for a degree of the University of Patna can be registered as an External Student of this University on payment of a fee of £3-3s. and on production either of the candidate's original Diploma, or of a Certification under the hand of an Officer duly authorised in that behalf showing that the Candidate has passed the necessary Examination.

Such registered Student will then come under the Regulations of the University with respect to every Examination above the Matriculation, all of which he will proceed to take in accordance with the said Regulations, his standing in the University dating for the purposes of External Examinations, from the Matriculation Examination immediately preceding the date of his Registration.

For further Registration as an Internal Student evidence must be produced showing that an approved course of study has been commenced in a School of the University or under a Teacher or Teachers recognised by the University.

For the convenience of candidates proposing to enter the University by Registration, the following instructions should be carefully noted :—

- (1) Applications for Registration must be accompanied by the proper fee (£3-3s.) and by official documentary evidence of the qualification referred to above. Cheques must be made payable to the "University of London" and crossed "Westminster Bank, Limited, Brompton Square, S. W., University of London Account." **THE FEE AND EVIDENCE MUST BE FORWARDED UNDER THE SAME COVER.** There is no special form for such Applications.
- (2) Registered External Students cannot as a rule be admitted to the Final Examination for a Degree until after the expiration of three years (in Medicine and Veterinary Science five and a half years) from the date of their registration. But
- (A) Oxford and Cambridge Graduates in First or Second Class Honours can be admitted to their Degree Examination after two years from any September

Matriculation Examination provided that their Registration be completed before January 14th of the year succeeding such September Matriculation Examination ;

and further provided that in each case the interval specified by the Regulations between the Intermediate and Final Examination is observed.

- (3) For admission as an External Student to the first Examination, after Matriculation in any year, Registration must be completed before the date prescribed in the Regulations for the Forms of Entry to such Examination, or before June 7th of that year, whichever be the earlier.

(2)

REGULATIONS FOR THE EXAMINATION UNDER STATUTE 116.

The following classes of persons may apply for examination before the Board of Examiners under Statute 116, instead of entering for the ordinary Matriculation Examination :—

I. Persons of nineteen years of age and upward who present (a) Certificates of Matriculation in Colonial Universities,* or (b) Indian† or Foreign Certificates‡ from an academical or other Educational authority which in the opinion of the Principal Officer indicate that they have attained a standard *prima facie* involving an education equivalent in their own country to that required in England for Matriculation in this University.

*The age of a Candidate with regard to admission to this Examination is reckoned thus:—

A Candidate who attains the age of nineteen years between January 14th and July 31st of any year will be admissible to any examination under Statute 116 held between those dates or subsequently; and a Candidate who attains the age of nineteen years between August 1st of any year and the 14th day of January in the year next ensuing will be admissible to any Examination under Statute 116 held between those dates or subsequently.

†Diplomas of Degrees granted by recognised Colonial or Indian Universities entitle the holders thereof under Statute 116 to registration as Matriculated Students without further examination.

‡The Foreign Certification which must be either the Original Certificate or a Certification signed by the Registrar of the University at which the examination has been passed on which the application is based must be submitted to the University when the application is made, and must be accompanied by a translation thereof into English. The candidate must be prepared if required by the University, to procure the attestation of this Translation by a Consul or other official Representative of this Government in England.

II. Persons over 25 years* of age who possess certain definite professional qualifications, a schedule of which has been approved by the Senate. Until further order, this schedule will include the following:—

Ministers of Religion, Barristers and Solicitors, Registered Medical Practitioners and Dentists who are licensed to practise in the United Kingdom, Commissioned Officers of His Majesty's Regular Forces, and holders of Army Special Education Certificate, Engineers, Architects, Surveyors, Chemists, Accountants, and Auditors, who possess recognised qualifications conferred by their respective Association and approved for this purpose by the Senate, Holders of the University Diploma in Librarianship, Associates of the Institute of Bankers, of the Chartered Institute of Secretaries, and of the Chartered Insurance Institute, Teachers whose names are on the Register of the Teachers' Registration Council.

III. Persons over 25 years* of age who in the opinion of the Matriculation Board have had a good general education and possess suitable qualifications for studying for a degree.

No person who has entered for the Matriculation Examination will be permitted to enter for the Examination under Statute 116, except in cases submitted to and approved by the Principal Officer.

The dates for the Examinations under Statute 116 will be fixed by the Principal Officer.

Each Candidate will be required to pay a fee of Five Guineas.

The Examination shall in each case be individual, and conducted *viva voce* as well as by printed papers; the Principal Officer, before each Meeting, shall decide what papers are requisite.

There shall be no Syllabus, but the Board may apply any test they may consider necessary in the case of any Candidate; it shall not, however, be necessary to adhere strictly to the list of subjects included in the Matriculation Examination. Candidates proceeding as Internal Students to the Intermediate Examination in Arts with Latin, will be required to satisfy the Board of Examiners in the subject of Latin.

* Applications from persons under 25 years of age will not be considered.

The Board may take into account any Certificates that the Candidate may present or any Examination that he may have passed ; but in no case shall a Candidate be passed without *viva voce* Examination.

The Board will report to the Senate through the Matriculation Board the names of the successful Candidates, who may be registered forthwith as Students of the University.

No Candidates shall be allowed to appear a third time for Examination under this Scheme, nor a second time without the express permission of the Board of Examiners. If this permission is granted, the Fee for a second entry shall be two and a half guineas.

If a Candidate, after entering for an Examination before the Board of Examiners, fails to present himself at that Examination, his Fee shall not be returned to him; but he may, with the sanction of the Principal Officer, present himself at the next ensuing Examination before the Board of Examiners on payment of an additional Fee of two and a half guineas. But his standing in the University can be reckoned only in accordance with the Regulations as applied to the Examination at which he actually appears, and not to that for which he first made application.

No Certificate will be delivered to candidates successful at the Examination before the Board of Examiners save only the ordinary notification of Registration as issued by the External Registrar or other appropriate Officer.

Amendment of Regulations for Examination under Statute 116.

For Examinations held in and after May, 1927, the time allowed for the papers in Elementary Mathematics, and in Logic when taken as Subject II, will be two hours instead of one and a half hours.

INSTRUCTIONS TO CANDIDATES.

All Communications relating to this Examination must be addressed to THE EXTERNAL REGISTRAR, UNIVERSITY OF LONDON, S. KENSINGTON, S. W. 7.

SECTION I.

1. Candidates applying under Section I must write individually to the External Registrar for a Form of Entry, stating what Colonial, Indian or Foreign Certification they are prepared to submit.

2. This Form of Entry, duly filled in, must be returned to the External Registrar by the appointed date,* together with the Certification aforesaid, a Certificate of age, and the appropriate Fee. Evidence of age and certificate must be Official.

3. Where a foreign Certification is submitted, it must be accompanied by a translation thereof into English; and the Candidate must be prepared, if required by the University, to procure the attestation of this translation by a Consul or other official Representative of his Government in England.

SECTION II.

4. Candidates applying under Section II must write individually to the External Registrar for a Form of Entry, stating their professional qualifications. The Form of Entry must be returned by the appointed date,* together with a Certificate of Age, the appropriate Fee, and evidence, in some recognised official form, of their qualifications. Printed lists cannot be accepted as evidence of qualifications.

SECTION III.

5. Candidates applying under Section III must write individually to the External Registrar for a special Form of Application. This Form, when duly completed, should contain a detailed statement as to the special qualifications on which the Candidate bases his claim to enter for the Examination under Statute 116, and should show also for what Degree he intends to study.

6. The application will be submitted to the Matriculation Board for consideration and decision. Their decision will be communicated to the Candidate by letter.

7. When an approved Candidate has decided to sit for the Examination, he must send (about four weeks before the date of Examination) for a Form of Entry, forwarding as evidence of approval the letter from the Matriculation Board (para. 6). The Form of Entry must be completed and returned with the appropriate Fee and Certificate of Age, by the appointed date.*

GENERAL INFORMATION.

1. The Examination is a shortened form of the Matriculation Examination; it is held in London only; the written portion

* "The appointed date" is three clear weeks before the date of the Examination at which the Candidate selects to present himself.

lasts one day, and there is an oral examination, for which attendance on a second day is necessary.

2. There are no published syllabuses or examination papers; but in both these respects the written part of the Examination, except in the case of subjects marked with an asterisk, corresponds approximately to the Matriculation Examination.

3. The written portion of the Examination for all Candidates will usually be conducted in accordance with the following scheme, but the Board may vary the form of examination in such cases as they think fit:—

(a) Candidates will be examined in four subjects selected as follows:—

I.—**English*. (Obligatory on all Candidates)

II.—*Elementary Mathematics or Logic*—at the choice of the Candidate, except that Candidates proceeding to a Degree in Engineering or in Estate Management must take Elementary Mathematics.

III.—Candidates under Section I are *advised*, and under Sections II and III are *required* to select their *Third Subject* according to the Degree to which they are proceeding, as set out below:—

Divinity.—Latin, Greek, or **New Testament Greek*.

Arts, Music.—Latin, Greek, French, German, Spanish, Italian, or Dutch.

Laws.—Latin, **History* (English) or a subject of the Intermediate Laws Examination (*i.e.*, **Roman Law*, **Jurisprudence*, **Constitutional Law*).

Medicine.—Chemistry, Physics, Botany, Zoology, or **General Biology*.

Science (incl. Agric. Hort. Vet. Sci.).—**Physics* or *Chemistry*.

Engineering.—Mathematics (More Advanced), Mechanics, **Physics*, Geometrical and Mechanical Drawing.

Economics, Commerce.—**Economics*, History (English) or Geography.

IV.—The *Fourth Subject* must be selected by the Candidate from among those given under Sections II and III above, provided they have not already been taken, or been one of the following: History

(*Modern European, or *Ancient, or British Empire*), *British Constitution, Geology.

N.B.—Candidates' choice of subjects is further limited as follows :—

Candidates offering Greek may not offer also New Testament Greek. Candidates offering English History, or Constitutional Law, or British Constitution, may not in addition offer a second one of these three subjects. Candidates offering General Biology may not offer in addition Botany or Zoology. Candidates offering both Elementary Mathematics and Logic are required to take the Morning Paper in Mathematics. Only one Branch of History may be offered.

Candidates whose native language is not English are not permitted to offer their native language at this Examination, although they are permitted to do so at the ordinary Matriculation Examination in accordance with the relevant Regulations.

(Note.—The time allowed for the paper in each of the subjects English, Elementary Mathematics, and Logic, will be one and a half hours. In all other subjects the time will be one hour for each paper).

(b) The Examination will, as a rule, be held four times a year in March, May, September, and December. The written portion of the Examination will take place on a Friday. The oral examinations for Candidates resident at a considerable distance from London will whenever possible take place on the following day, *i.e.* Saturday. The oral examination for Candidates resident in or near London will generally be held on such day or days as may be appointed during the week following the date of the written examination.

4. The attention of students is directed to the following notes :—

(i) For students whose native language is not English, the examination in English consists mainly of an Essay; but English-speaking Candidates will also be examined, orally or otherwise, in English Grammar and may further be examined as to their general reading in English Literature.

(ii) The examination paper in Physics includes questions in Heat, Light, and Sound, as well as questions in Magnetism and Electricity; candidates may obtain full credit by answering

questions either in one or in both sections, but may not offer the two sections as separate subjects of examination.

(iii) The Examination paper in Economics will contain questions both in the principles of Economics and in Industrial History; candidates may obtain full credit by answering questions either in one or in both sections, but may not offer the two sections as separate subjects of Examination.

(iv) The Examination in English History covers the whole period 55 B.C.—1901; a choice of questions is allowed.

(v) In all other subjects marked with an asterisk a general elementary knowledge is required.

5. All students who intend to enter for this Examination, and who are in any doubt as to the choice of their subjects or as to any other point in the Regulations, are advised to communicate directly with the External Registrar before commencing their preparation for the Examination, giving an account of past studies and stating for which Degree they propose to study.

6. (a) Entry forms for the Examination must be received three clear weeks before the date of the written examination.

(b) Cards of admission to the Examination, on which are given all necessary instructions, will be despatched from the University one week before the date of the Examination.

7. Notification of the result of the Examination will be sent from the University about ten days after the date of the Written Examination.

8. Students who have passed the Examination under Statute 116 should observe carefully that, while they are entitled within the University to all the privileges of Matriculated students, it does not follow that other public authorities, or Bodies outside the University, will accord to them the facilities or exemptions which they may have undertaken to accord to students who have passed the Matriculation Examination of the University of London. All enquiries as to the conditions under which such facilities or exemptions are given must be directed not to the University but to the Bodies from whom such privileges are sought.

9. Candidates who are rejected at this Examination can proceed to a Degree of this University only by passing the Matriculation Examination or one of the other Examinations recognised in lieu thereof.

**Recognition by the General Council of Medical Education and
Registration of the United Kingdom.**

COPIES OF LETTERS FROM THE REGISTRAR.

(a)

44, Hallam Street, Portland Place,
London, W. S.,
10th December, 1918.

No. 54584

SIR,

I am in receipt this morning of the duplicate copy of your communication of the 24th of September last, in which you requested that this Council would grant to your University the same privileges in the matter of the recognition of its Arts and Science Degrees and examinations as had been granted to the Calcutta University.

The application was considered by the Education Committee of the Council at the meeting held on the 26th ultimo, and the Committee decided that the application should be granted.

I am,

Sir,

Your obedient servant,

A. J. COCKINGTON,

Acting Registrar.

THE REGISTRAR,

PATNA UNIVERSITY,

Patna,
India.

(b)

25th January, 1921.

DEAR SIR,

I desire to draw your attention to the fact that on and after the 1st of January, 1923, all those who desire to be registered as medical or dental students will have to produce evidence that they have attained the age of 17 years, and the minimum standard of general education required will be that of the University Matriculation or Entrance Examination.

Before registration as a medical student every applicant will be required to have passed, in addition to the examination in General Education, an examination in Elementary Physics and Elementary Chemistry conducted or recognised by one of the Licensing Bodies.

A student who has diligently attended an approved course of instruction in Elementary Biology at a Secondary School or other teaching institution recognised by a Licensing Body may be admitted to the Professional Examination in Elementary Biology immediately after his registration as student.

Yours faithfully,
NORMAN C. KING,
Registrar.

The Registrar,
Patna University,
PATNA,
India.

(2)

THE FOLLOWING PRIVILEGES ARE GRANTED BY THE GENERAL COUNCIL OF MEDICAL EDUCATION AND REGISTRATION OF THE UNITED KINGDOM.

A candidate who has passed the Matriculation Examination of Patna University in the first division (*i.e.*, with an average of at least 50 per cent.) with the following subjects *viz.*—(1) English, (2) Mathematics, (3) Classical Language, (4) Vernacular Language, (5) History, and (6) Geography, or has passed the Intermediate or the final Examination for the Bachelor's Degree in Arts or Science shall be considered to have passed a Preliminary Examination in general knowledge such as is demanded by the General Council of Medical Education and Registration of the United Kingdom from students entering upon Medical Study.

(3)

FORM OF CERTIFICATE PRESCRIBED BY THE GENERAL MEDICAL COUNCIL FOR THE USE OF INDIAN AND COLONIAL UNIVERSITIES AND COLLEGES.

Name of Examining Body.....

This is to certify that.....
passed the..... Examination conducted
by..... on the.....
of..... 19..... and that the Examination included
the following subjects:—

(a) ENGLISH, (b) LATIN, (c) MATHEMATICS.

(d) (Optional Subject, viz., GREEK OR MODERN LANGUAGE).

It is further certified that this Examination satisfied the conditions laid down by the General Medical Council for its recognition.

Dated.....(Signed).....

Officer (Dean, Registrar, etc.)

In the case of natives of India or other Oriental countries, whose vernacular is other than English, an examination in a Classical Oriental Language (*i.e.*, Sanskrit, Arabic, Chinese) may be accepted as equivalent to an examination in Latin.

(4)

COPY OF A LETTER RECEIVED FROM GENERAL COUNCIL OF
MEDICAL EDUCATION AND REGISTRATION OF THE
UNITED KINGDOM.

With reference to the new requirements for the registration* of students, which will come into force on 1st January, 1923, I am directed to point out, in order that there may be no misunderstanding, that the Preliminary Examination in Elementary Chemistry and Elementary Physics is intended to be taken *in addition to* the Matriculation or other examination in general education. The latter examination must be complete in itself, without reference to the subjects of the Preliminary Examination in Science.

I have also to state that, at the recent Session of the Council, it was resolved that the requirements for the registration of dental students in regard to age, Matriculation or other examination in general education, and Preliminary Examination in Elementary Chemistry and Elementary Physics should be the same as for medical students.

Yours, etc.,

NORMAN C. KING,

Registrar,

June 14th, 1921.

* Note—The Regulations of the General Medical Council in regard to the Registration of Medical and Dental Students may be consulted at the Patna University Office.

(5)

RESOLUTIONS OF THE GENERAL MEDICAL COUNCIL IN REGARD TO
PROFESSIONAL EDUCATION ADOPTED BY THE GENERAL
MEDICAL COUNCIL ON MAY 25 AND 26, 1922.

To come into operation on January 1, 1929.

Every Medical student at the commencement of his studies should be registered in the *Medical Students' Register*, in the manner and under the conditions prescribed by the Council.

Pre-registration Examination in Chemistry and Physics.

Before registration as a student or commencement of the regular Medical Curriculum every person shall be required to pass in addition to an approved examination in general education, an examination or examinations, conducted or approved by one of the Licensing Bodies, in the following subjects:—

- (1) Physics (theoretical and practical), including the elementary Mechanics of solids and fluids, the elements of Heat, Light, Sound, Electricity, and Magnetism. (This course should not include Bio-physics or the clinical applications of Physics, which are to be taken in the Medical Curriculum).
- (2) Chemistry (theoretical and practical). The elements of the science. (This course should not include Bio-chemistry, Pharmacological Chemistry, or the clinical applications of Chemistry, which are to be taken in the Medical Curriculum).

COPY OF A LETTER, DATED JANUARY 20, 1932, FROM THE SECRETARY, THE EXAMINING BOARD IN ENGLAND, TO THE REGISTRAR, PATNA UNIVERSITY, PATNA.

Your letter of the 7th November last, No. 11436, has now been submitted to the Committee of Management of this Board, and I am directed to say that on June 25th, 1931, the Committee addressed a second letter to the Indian Universities on the Recognised List.

I am sending you a copy of this letter, which the Committee regrets to find was not addressed to your University at

In view of the facts stated in that letter the recognition of your University thus continues until June 1st, 1933, when the question will be reconsidered.

Yours, etc.,

HORACE H. REW,

Secretary,

The Examining Board in England.

COPY OF A LETTER DATED, JUNE 25, 1931, FROM THE SECRETARY, THE EXAMINING BOARD IN ENGLAND, TO THE DEAN, MEDICAL FACULTY.

With reference to my letter of the 5th February, 1931, concerning the recognition by this Board of the Indian Universities, I am now directed by the Committee of Management to say that, in view of further information submitted to the Committee by the President of the Medical Board of the India Office—Sir Leonard Rogers, C.I.E., F.R.S., F.R.C.P., F.R.C.S., concerning certain matters of Medical Education in India which are at present under consideration, the Committee has now determined to postpone the operation of the Resolution referred to in my previous letter for an additional period of twelve months.

In the event of the All-India Medical Council Bill having passed into Law and been approved by the General Medical Council before the 1st June, 1933 the conditions of recognition of Indian Universities would then be considered *de novo* by this Board. If, however, by that date the said Bill has not passed into Law and been so approved by the General Medical Council, then the existing recognition of all the Indian Universities by this Board would cease automatically at that date.

I am, dear Sir,

Yours, etc.,

HORACE H. REW,

Secretary,

The Examining Board in England.

Copy of telegram dated June 1, 1936, from the Secretary, Medical Council of India, Simla, to the Registrar, Patna University :

"Telegraphic information received from General Medical Council, Great Britain, your degree recognized from May 11, Year Nineteen Hundred Thirty-five—Medical Council India."

Copy of letter No. F54/36/393, dated June 24, 1936, from Secretary, Medical Council of India, to the Registrar, Patna University.

In continuation of this office Telegram, dated June 1, 1936, I have the honour to send herewith for your information a copy of the relevant extracts from letter M.H/ED No. 33270, dated June 6, 1936, from the Registrar, General Medical Council of Great Britain.

I have, etc.,
G. T. BURKE, LT.-COL., I.M.S.,
Secretary, Medical Council of India.

Extract from a letter M.H/ED No. 33270, dated June 6, 1936, from the Registrar, General Council of Medical Education and Registration of the United Kingdom, London, to the Secretary, Medical Council of India.

With reference to previous correspondence on the subject of the recognition under Section 13 of the Medical Act, 1886, by the Executive Committee of the General Medical Council, acting on behalf of the Council in accordance with the Standing Orders of the Council, of medical qualifications granted in India, I am directed by the President of the Council to say in confirmation of the telegram sent to you in the matter on the 30th May that he has pleasure in acquainting you for the information of the Medical Council of India that the Committee at their meeting on the 25th May resumed their consideration of the documents with which the Medical Council of India had been so good as to furnish them, and were satisfied in the light of the authoritative information thus placed at their disposal that it was consistent with the performance of the duty delegated to them by the General Medical Council that they should recognise qualifications granted by the University of Patna as being diplomas which comply with the condition enacted by Section 13 of the Act that qualifications granted in any country to which Part II of the Act applies may be recognised for the time being by the General Medical Council "as furnishing a sufficient guarantee of the possession of the requisite knowledge and skill for the efficient practice of medicine, surgery, and midwifery."

The Executive Committee of the General Medical Council accordingly passed the following resolution, which was reported to the Council at their meeting on the 29th May :—

“(1) That the diplomas granted

* * * * *

(d) by the University of Patna on or after May 11, 1935, specified in the subjoined table be recognised for the time being by the Council under section 13 of the Medical Act, 1886, as furnishing a sufficient guarantee of the possession of the requisite knowledge and skill for the efficient practice of medicine, surgery, and midwifery, and that holders of any of the said diplomas be entitled accordingly, on fulfilment of the conditions prescribed by section 11 of the Act, to be registered in the Colonial List of the Medical Register kept by the Council.

Patna	M B., B.S.	Medicine & Surgery	U. Patna.

Recognition by the Indian Medical Council.

GOVERNMENT OF BIHAR AND ORISSA.

(Ministry of Local Self-Government).

NOTIFICATION.

Ranchi, the 20th May, 1935.

No. 625-L. S. G. R. The following notification issued by the Government of India in the Department of Education, Health and Lands is republished for general information :—

M. HAMID,

Offg. Secretary to Government.

“No. F 43-10/35 H, dated the 11th May, 1935—In exercise of the powers conferred by sub-section (2) of section 11 of the Indian Medical Council Act, 1933 (XXVII of 1933), the Governor-General in Council is pleased to make the following further amendment in the First Schedule, to the said Act,

namely :—After the entry in the said schedule, relating to the Punjab University, the following entry shall be inserted namely :—

University of Patna	Bachelor of Medicine and Bachelor of Surgery	M.B., B.S. Patna.
---------------------	---	----------------------

RAMCHANDRA,
Joint Secretary to Government".

Recognition by the University of Cambridge.

(1)

COPY OF A LETTER FROM THE REGISTRAR.

REGISTRY OF THE UNIVERSITY,
Cambridge,
30th October, 1926.

DEAR SIR,

I have the honour to inform you that the Senate of this University has added Patna University to the list of Universities and Colleges approved with reference to our regulations for affiliated students. In the terminology of our new Statutes, Patna University becomes thereby an "Associated Institution" in relation to the University of Cambridge. The pamphlet which I enclose will shew you what privileges attach to your graduates, and under what conditions, if they proceed to Cambridge. The pamphlet is out-of-date in some small points of wording owing to the recent changes of our Statutes, but not in any point of substance.

Yours faithfully,
E. HARRISON,
Registrar.

For details of affiliation in the University of Cambridge please see P. U. Calendar 1931-32, pp. 207-229.

CERTIFICATES GRANTED BY INDIAN UNIVERSITIES.

Grace 13 of 13 March, 1925, confirming a Report of the Council of the Senate (Reporter, page 613).

That a candidate who has obtained a First Class in the Intermediate Examination in Arts or Science or a First or Second Class in the Examination for the Degree of Bachelor of Arts or Bachelor of Science, in any Indian University approved for the purpose by the Council of the Senate, be granted exemption from the whole of the Previous Examination, provided that, in some examination leading up to the Degree of Bachelor of Arts or Bachelor of Science in that University, he has passed in Arabic, Persian, Persian with Arabic, Sanskrit, or Pali, in Mathematics or Science, and in English.

COPY OF LETTER NO. E. S. 236/19, DATED THE 29TH NOVEMBER, 1928, FROM THE SECRETARY TO THE HIGH COMMISSIONER FOR INDIA; EDUCATION DEPARTMENT, TO THE REGISTRAR, PATNA UNIVERSITY, PATNA.

I am directed to enclose herewith, for your information, a copy of a circular giving details of a Research Studentship to be offered by Trinity College, Cambridge, in 1929: Indian students can compete. The Trinity College authorities desire that it be emphasised that there is very great competition for this Studentship and that a high standard is required.

Recognition by the University of Oxford.

(1)

COPY OF A LETTER FROM THE REGISTRAR,
UNIVERSITY REGISTRY,
Oxford, 9th December, 1919.

DEAR SIR,

I am glad to be able to inform you that on December 2, the following Decrees were passed by the University in Convocation, viz.:—

15.

That Patna University be admitted to the privileges of *Statt. Tit. II, Sect. VIII, "On Colonial and Indian Universities."*

[105.]

16.

That any member of Patna University who shall have passed the Examination at that University for the Degree of

Master of Arts and shall have been placed in the First or the Second Class in that Examination, shall be deemed to have taken Honours as required by the provisions of *Statt. Tit. Sect. VIII, Cl. 4.**

[106]

I enclose a copy of the Statute for reference.

Yours faithfully,
C. LEUDES DORF,
Registrar.

THE REGISTRAR,
PATNA UNIVERSITY.

(2)

COPY OF A LETTER FROM THE REGISTRAR,
UNIVERSITY REGISTRY,
Oxford, May 12th, 1922.

DEAR SIR,

Your letter asking for the recognition of the Degree of M.Sc. of Patna University has been carefully considered by the Hebdomadal Council, and I am to say that they have approved that Degree for the purpose of Clause 2 of the Statute on Indian Universities, a copy of which I enclose.

Yours faithfully,
C. LEUDES DORF,
Registrar of the University.

THE REGISTRAR,
PATNA UNIVERSITY.

STATT. TIT. II.

Section VIII.—On Indian Universities.

1. Any Student of an Indian University who shall have pursued at that University a course of study prescribed by it and extending over two years at the least, and shall have obtained the Degree of Bachelor of Arts or Bachelor of Science at that University, may be admitted to the status and privileges of a Junior Student provided that such Degree and such University shall have been approved by the Hebdomadal Council. No Degree shall be approved for the purposes of this clause which does not include the study of English and in

* Cl. 2 in the amended Statutes.

addition, of two of the following languages, Latin, Greek, French, German, Sanskrit, Arabic, Persian, Pali, Classical Chinese, of which two, either Latin or Greek or French or German must be one.

2. Any Student of an Indian University who shall have pursued at that University a course of study prescribed by it and extending over three years at the least, and shall have obtained at that University a Degree with First or Second Class Honours, may be admitted to the status and privileges of a Senior Student, provided that such Degree and such University shall have been approved, for the purpose of this clause, by the Hebdomadal Council.

3. The status and privileges of a Junior Student shall be as follows:—

(a) The Term in which he is matriculated shall be reckoned, for the purposes of any provisions respecting the standing of members of the University, as the fourth Term from his Matriculation.

(b) A Junior Student shall not be required to pass Responsions.

(c) A Junior Student shall be entitled to supplicate for the Degree of Bachelor of Arts if he shall have passed the First Public Examination and kept statutable residence for six Terms, and either:

(1) shall have obtained a place, or his name shall have been placed as *ægrotat*, in the Class List of an Honour School of the Second Public Examination; or

(2) having obtained Honours in the First Public Examination, shall have passed the Second Public Examination; or

(3) shall have satisfied the provisions of *Statt. Tit. VI Sect. 1 D. s., 3. cl. 17*;

provided that he shall have satisfied the Examiners in Holy Scripture or in a book offered instead thereof.

No Junior Student shall be entitled to supplicate for the Degree of Bachelor of Arts unless he shall have satisfied the provisions of this sub-clause.

4. The status and privileges of a Senior Student shall be as follows:—

(a) The Term in which he is matriculated shall be reckoned, for the purposes of any provisions res-

- pecting the standing of members of the University, as the fourth Term from his Matriculation.
- (b) A Senior Student shall not be required to pass Responsions or any part of the First Public Examination or any Preliminary or Previous Examination of the Second Public Examination.
- (c) A Senior Student shall be entitled to supplicate for the Degree of Bachelor of Arts if he shall have kept statutable residence for six Terms, and either (i) shall have obtained a place, or his name shall have been placed as ægrotat, in the Class List of an Honour School of the Second Public Examination; or (ii) shall have satisfied the provisions of *Statt. Tit. VI, Sect. 1 D. s. 3. cl. 17.*

No Senior Student shall be entitled to supplicate for the Degree of Bachelor of Arts unless he shall have satisfied the provisions of this sub-clause.

5. Any person who desires to become a Senior or Junior Student under the provisions of this Statute shall send his application through an officer of a College or Hall or of the Delegacy of Non-Collegiate Students, or of the Society of Oxford Home-Students, to the Registrar of the University for submission to the Hebdomadal Council, and shall at the same time produce all necessary certificates and information in support of his application. If the application is granted, he shall pay to the University Chest, through the Assistant Registrar, an admission fee either of five pounds if he register as a Senior Student, or of two pounds ten shillings if he register as a Junior Student. If at the time when the application is granted he has not yet been matriculated, this fee shall be paid within fourteen days of Matriculation; if he has been matriculated, it shall be paid within fourteen days from the date of the granting of the application. Any person who makes his application later than four weeks after his Matriculation shall pay, if his application is granted, an additional fee of one pound.

6. Any person who has been granted permission to be admitted as a Senior or Junior Student, and who does not pay the required fee within the time prescribed in the preceding clause, shall on admission pay an additional fee of one pound. If he fails to pay the required fee before the Saturday in the eighth week of the Full Term next following that in which he was granted permission to be admitted as a Senior Student or was matriculated, whichever happened later, the grant shall

lapse, and shall not be renewable without the consent of Convocation.

7. A Junior Student who has passed an Examination or Examinations of his University in which he has shown a knowledge of the Greek Language approved by the Hebdomadal Council as sufficient, shall be exempt from the provisions of Statt. Tit. VI. Sect. 1 A. s. 2 cl. 7. Provided that he shall have made application to the Hebdomadal Council for such approval before the end of the term next following that in which he has been matriculated, and that if the approval has been given he shall have paid to the University Chest, through the Assistant Registrar, a registration fee of one pound. If the Junior Student fails to make his application within the named period or if he fails to pay the registration fee within fourteen days from the day on which the approval of the Hebdomadal Council was notified to him, he shall in either case pay an additional fee of one pound.

8. The Assistant Registrar shall have power to make and vary from time to time regulations for the admission of qualified persons to the status of a Junior or Senior Student, provided that all such regulations and any variation in them shall be submitted to the Vice-Chancellor and Proctors for approval.

9. It shall be the duty of the Assistant Registrar to keep a sufficient record of the members of the University who have the status and privileges of a Junior or Senior Student respectively, and to see that no person is admitted to any of the privileges of a Junior or Senior student who has not satisfied the conditions of this section.

(3)

30th October, 1924.

FROM

THE JOINT SECRETARY, INDIAN STUDENTS DEPARTMENT,
OFFICE OF THE HIGH COMMISSIONER FOR INDIA,
LONDON.

TO

THE SECRETARY TO THE GOVERNMENT OF INDIA, DEPARTMENT OF EDUCATION, HEALTH AND LANDS, DELHI, INDIA.

SIR,

I am directed to refer to previous correspondence ending with your letter No. 1273 of the 18th June relative to the

Statute regarding Junior and Senior Status for Indian Students at the University of Oxford, and to say that the Convocation of the University of Oxford, held on the 28th October, added a new clause to exemptions from Responsions as follows:—

“Any person who has obtained the Degree of Bachelor of Arts or Bachelor of Science at an Indian University approved by the Hebdomadal Council, provided that his course at his Indian University included the study of English and of one of the languages, Latin, Greek, French, German, Sanskrit, Arabic, Persian, Pali, Classical Chinese.”

This clause is now in force. . . .

2. It will be seen that a graduate of an Indian University under the new Clause, will be eligible for exemption from Responsions, provided his course of study has included English and one Classical Oriental language. A student so exempted will of course be required to take the full three years course leading to a Pass or Honours Degree at Oxford, unless his qualifications render him eligible for recognition as a Junior or Senior student, in which case, in addition to his exemption from Responsions, he would be entitled to exemption from the first year course.

3. I am to say that the High Commissioner is of opinion that the exemption now granted, is one which will prove of real value to Indian students generally, and will tend to remedy any hardship caused by the recent Statutes governing the grant of Senior or Junior Status.

4. In this connection it may perhaps be pointed out that the grant of Junior Status, whilst securing exemption from Responsions, is not always a desirable privilege in the case of Indian students, seeing that they are then expected to take the First Public Examination (Moderations) at the end of their First Year, and their Final or Honour School at the end of their Second Year, whilst as a general rule it has been found that it is difficult for a really good Degree to be taken within that period. Senior Status, on the other hand, exempts both from Responsions and the First Public Examination, and is therefore a valuable privilege.

5. It might also perhaps be pointed out that although to obtain the new exemption now notified, for the information of the Government of India, an Indian graduate need not necessarily have taken a modern European Language, such graduates would do well to bear in mind that a good knowledge

of Latin or French is as a general rule necessary for the purpose of the particular school they desire to take at Oxford.

6. I am to add that it is understood that a similar proposal in regard to the exemption of Indian graduates from the Cambridge Previous will in the near future come forward for discussion and definite particulars will be communicated as soon as a decision is reached.

7. A copy of this letter is being sent to the Local Governments, and the Provincial Advisory Committees are being informed.

I am,
SIR,
Your obedient servant,
T. QUAYLE,
*Joint Secretary,
Indian Students Department.*

IV.

Recognition by the University of Dublin.

(1)

COPY OF A LETTER FROM THE REGISTRAR.

Registrar's Office,
TRINITY COLLEGE, DUBLIN,
13th January, 1926.

THE REGISTRAR,
Patna University.

DEAR SIR,

I have the pleasure of informing you that the University of Patna has been recognised by the University of Dublin.

Most faithfully,
E. P. CULVERWELL,
Registrar

For information concerning the school of medicine, medical degree and diplomas, and Post-graduate medical study and research please see P. U. Calender 1931-32, pp. 237-248.

(2)

The following privileges are granted by the University of Dublin :—

The University of Dublin is prepared to recognise the Arts Studies of the following Colonial and Indian Universities and such others as the Board and Council may, from time to time, direct to be added to the list :—

The University of Adelaide, Allahabad, Bombay, Calcutta,Madras.....Punjab. [N.B.—Patna must now be added to the list].

Any student producing the proper Certificate that he has passed two years in Arts Studies at such Universities, or has passed the examinations belonging to that period will be entitled to put his name on the College Books as a senior Freshman, a student with one year's credit; with this reservation, that if the Course of Arts which he has pursued does not include all the subjects of the Junior Freshman year, the Senior Lecturer may require him to qualify by examination in the omitted subject or subjects within one month after his name has been entered on the Books.

V.

Recognition by the University of Edinburgh.

(1)

COPY OF A LETTER FROM THE SECRETARY TO THE UNIVERSITY.

UNIVERSITY OF EDINBURGH,

23rd February, 1920.

To

R. SHAW, ESQ., M.A., REGISTRAR,
UNIVERSITY OF PATNA.

DEAR SIR,

Your letter of the 5th May last has now been considered by the University Court and the Faculties concerned, and I write to inform you that the University of Edinburgh will be pleased to grant your University the same privileges in the matter of recognition of its Arts and Science Degree Examinations as are granted to the University of Calcutta, and it was decided to include the University of Patna in the list of

Universities to which a general recognition is given by the University of Edinburgh.

I am,
Yours faithfully,
WILLIAM WILSON,
Secretary to the University.

(2)

The following privileges are granted by the University of Edinburgh :—

The attention of candidates who may intend to proceed to the Degrees of M. B. and Ch. B. of the University of Edinburgh, is specially directed to the following regulation regarding the Medical Preliminary Examination which it is necessary to pass before entering upon the Course of Study for the Degrees :

“Before commencing Medical studies each student must pass a Preliminary Examination in—

1. English,
2. Latin,
3. Elementary Mathematics,
4. Greek or French or German ;

provided always that in the case of a candidate whose native language is not English, an examination in the native language of the candidate may be substituted for one in either French or German, and an examination in any other classical language for one in Latin or Greek.”

The following examinations, in so far as they include the subjects above stated, are accepted as exempting from the Medical Preliminary Examination :—

University of Allahabad Intermediate Examination in Arts.

“	“ Patna	“	“	“
“	“ Punjab	“	“	“
“	“ Calcutta First Examination in Arts.			
“	“ Madras	“	“	
“	“ Bombay Matriculation Examination.			

VI.

Exemption by the Entrance Board.

Candidates who have passed the Intermediate Examination in Arts or Science in a recognised Indian University (1) will be

exempted from the Preliminary Examination in Arts, Science or Medicine, respectively subject to the following conditions:—

(a) Candidates whose native language is other than English will in all cases be required to pass the Special Examination in English in accordance with the provisions under-noted (2).

(b) Candidates for degrees in Engineering shall produce evidence of a knowledge of Mathematics equivalent to that required in Higher Mathematics in the Preliminary Examination.

The Entrance Board will accept as evidence of a sufficient knowledge of Mathematics, a satisfactory pass in the Intermediate Examination of any of the Indian Universities. A note of the marks obtained in that examination by the applicant, certified by the Registrar of the University, must be communicated to the Secretary of the Board.

(1) The following Indian Universities have been recognised by the Board:—Aligarh, Allahabad, Benares, Bombay, Calcutta, Dacca, Delhi, Lucknow, Madras, Mysore, Punjab, Patna and Rangoon.

(2) N.B.—Candidates whose native language is other than English will be required to pass an examination in English designed to test their ability to understand and use the language sufficiently for the purpose of study at a Scottish University.

The written examination in English will consist of one paper of three hours.

In addition to the written part of the examination, there will also be an oral examination to test the candidates' power of speaking and understanding English.

VII.

Exemption by the Entrance Board.

THE BRITISH EMPIRE OVERSEAS.

Candidates from British Dominions, Colonies, Dependencies, and Protectorates, who present evidence that they have passed all the Preliminary Examinations prescribed for students proceeding to graduation in Medicine in a University or College empowered to confer degrees in the Dominion, Colony, Dependency, or Protectorate from which they come will be exempted from the Medical Preliminary Examination, provided:—

(1) That their Examination includes all the subjects prescribed by the Medical Ordinances of the Scottish Universities, and that they are recognised by the General Medical Council.

(2) That there is evidence to show that their knowledge of English is sufficient to enable them to follow the Courses of Instruction with profit.

N.B.—Candidates whose native language is other than English, who have not passed in English at the Intermediate or Final Examination for a degree in Arts, will be required to pass an examination in English designed to test their ability to understand and use the language sufficiently for the purpose of study at a Scottish University. The written examination in English will consist of one paper of three hours. The paper will consist of (i) an essay, (ii) questions on the substance of three books, including an easy play of Shakespeare, a novel, and an essay.

In addition to the written part of the examination, there will also be an oral examination to test the candidate's power of speaking and understanding English.

CERTIFICATE OF FITNESS.

Every student about to enter upon a course of study qualifying for Graduation in any Faculty must obtain from the Scottish Universities Entrance Board a Certificate attesting his fitness to enter upon that course. Forms of application may be obtained from the Secretary of the Board, 81, North Street, St. Andrews, or from the Secretaries of the several Scottish Universities. The fee for the Certificate is 2/6.

VIII.

LETTER DATED JUNE 13TH, 1922, FROM THE SECRETARY, SCOTTISH UNIVERSITIES ENTRANCE BOARD, TO THE REGISTRAR, PATNA UNIVERSITY.

I have received your letter of the 23rd May.

With reference to your letter of 10th January, 1921, sending a copy of the proceedings of a meeting of the Committee of the Syndicate appointed to consider the regulations of the Scottish Universities Entrance Board, the Committee's Minute is based upon a misapprehension. The Matriculation Examination of Patna University would in no case exempt the holder from the Preliminary Examination of the Scottish Universities either in Arts or in Science or in Medicine. The Intermediate Examination (in Arts or Science) would be accepted as exempting in any one of these three Faculties, provided the applicant passes in Scotland the Special Examination in English prescribed for Foreign students (*i.e.*, students whose native language is not English) and provided in the case of all Engineering students that a pass in Mathematics with sufficient marks at an Intermediate Examination in India has been obtained, or if that pass

has not been obtained that the applicant shall pass in Higher Mathematics at the Scottish Universities' Preliminary Examination.

81, NORTH STREET,
ST. ANDREWS, SCOTLAND,
June 13th, 1922.

Note.—The pamphlet issued by the Entrance Board can be seen in the University Office.

IX.

Recognition by University in France.

Calcutta, the 30th January, 1923.

To

THE REGISTRAR OF THE UNIVERSITY OF PATNA.

SIR,

I have the honour to inform you that the Minister for Public Instruction in Paris has taken, on the 6th October, 1924, a decision by which the candidates to Doctor in Law, in Sciences or in Arts of the French University will be dispensed to produce the diploma of "licencie" if they could justify of following titles or grades recognised to this purpose as equivalent or superior :

1. Law.

L.L.B.—Division 1 of the University of Bombay.

B.L.—Division 1 of the University of Calcutta.

L.L.B.—Division 1 or "honours in law" of the University of Punjab.

B.L.—Division 1 of the University of Patna.

2. Sciences.

B.Sc.—of the Universities of Bombay, Calcutta, Madras and Mysore.

3. Arts.

B.A.—of the Universities of Bombay, Calcutta, Madras and Mysore.

I have the honour to be,

SIR,

Your most obedient servant,

R. LARONCE,

Consul-General for France.

COPY OF LETTER NO. 3533-3549, DATED FEBRUARY 22, 1929,
FROM THE SECRETARY, INTER-UNIVERSITY BOARD, INDIA,
TO THE REGISTRAR, PATNA UNIVERSITY.

I have the honour to forward herewith copy of a communication from the High Commissioner for India, through the Government of India, Department of Education, Health and Lands, regarding recognition of the examinations and degrees of Indian Universities by the Universities of France.

I have, etc.,
P. SESHADRI,
Secretary, Inter-University Board.

COPY OF LETTER NO. E. S. 72/1, DATED THE 22ND NOVEMBER,
1928, FROM THE HIGH COMMISSIONER FOR INDIA, LONDON,
TO THE GOVERNMENT OF INDIA, DEPARTMENT OF
EDUCATION, HEALTH AND LANDS :

I am directed to transmit herewith for the information of the Government of India and for such action as may be considered necessary, a copy of a letter from the French Embassy, London, regarding the recognition of foreign University certificates as equivalent to the French *baccalaureated l'enseignement secondaire*. It will be noted that, subject to attestation by the Universities Bureau of the British Empire, the Intermediate certificate of an Indian University will be accepted as a qualification for admission to a degree or other course at a French University.

Translation.

Copy (L6695/6695/405)

FRENCH EMBASSY IN ENGLAND,
LONDON,
23rd October, 1928.

SIR,

I have the honour to inform your Excellency that the French Government has recently revised the list of foreign diplomas, qualifications and certificates accepted as equivalent to the French *baccalaureat* for the school year 1928-29.

The qualifications obtained in the British Empire which possess this advantage are as follows:—

(1) A Matriculation Certificate awarded by one of the Universities of Great Britain and Northern Ireland, the

Irish Free State, Canada, Australia, New Zealand, South Africa, Malta or Hong Kong.

(2) Any diploma, obtained on territory forming part of the British Empire, accompanied by an attestation of the "Universities Bureau of the British Empire," 50 Russell Square, London, certifying that this diploma confers on the person to whom it has been awarded the right to be admitted as a regular student, with a view to obtaining a University degree, to one of the Universities of Great Britain and Northern Ireland, the Irish Free State, Canada, Australia, New Zealand, South Africa, Malta or Hong Kong.

(3) Any certificate accompanied by an attestation of the "Universities Bureau of the British Empire" to the effect that the candidate has passed the Intermediate Examination for the degree of B.A., B.Sc., I.L.B., M.B., B.E., B.Com., B.Ag., B.O.L. at an Indian University.

I have the honour to be,

Sir,

Your Excellency's most obedient servant,

A. DO. FLOURIAU.

HIS EXCELLENCY LORD CUSHENDUN,

Principal Secretary of State ad interim

*of His Britannic Majesty for Foreign Affairs
Foreign Office.*

X.

Recognition by the Institute of Chartered Accountants.

(1)

MOORGATE PLACE,

London, E. C. 2, 4th February, 1925.

DEAR SIR,

I laid your letter of the 2nd December last before the Council at their meeting to-day when they approved of the University of Patna being recognised as a University of which the Graduates are entitled to exemption from the Preliminary Examination of this Institute.

Yours faithfully,

GEORGE COLORTH,

Secretary.

(2)

OFFICE OF THE HIGH COMMISSIONER FOR INDIA,
42, Grosvenor Gardens, London, S. W. 1.
11th February, 1925.

SIR,

I am directed to inform you that the Secretary to the Institute of Chartered Accountants has notified me that the Council have added the University of Patna to the list of those Universities, the graduates of which are entitled to exemption from the Preliminary Examination of the Institute. I am to draw attention to the fact that this recognition only involves exemption from the Preliminary Examination and does not entitle the holder to any reduction of the period of Articles prescribed, that is five years.

I am etc.,
THOMAS QUAYLE,
Joint Secretary.

XI.

UNIVERSITY OF BOMBAY.

CIRCULAR

No. 5479 of 1922.

Recognition of Examinations of other Universities.

The following are the Regulations regarding the recognition of Examinations of other Universities :—

159. The Matriculation Examination of every Indian University* will be deemed equivalent to the Matriculation Examination of this University.

160. The Intermediate Arts and Intermediate Science Examinations of other Indian Universities* and the University of London will be accepted as equivalent to the corresponding Examinations of this University in the case only of those Universities which reciprocate with this University in this respect. Where such reciprocation does not exist, the Interme-

*By the expression "Indian University" is meant every statutory Indian University and the University of Mysore.

Except in the case of the European High School Examination and the Government of India, Simla, School-Leaving Certificate Examination, the School-Leaving Examination held in a province other than Bombay is not recognized as entitling the student to matriculate at this University even though it may qualify him for Matriculation at some other Indian University.

diates Arts Examination will be deemed equivalent to the First Year Certificate Examination of an Arts College affiliated to this University and will qualify for admission to the Intermediate Arts, Intermediate Science, Intermediate Commerce, Intermediate Agriculture and First Engineering Classes of this University and the Intermediate Science Examination will be deemed to qualify for admission to the Intermediate Science, Intermediate Agriculture and First Engineering Classes of the University.

A student passing the Intermediate Arts Examination of a University reciprocating with this University may join the Intermediate Science Class of this University.

161. The First Year Examination of the Mysore University will be deemed equivalent to the First Year Certificate Examination of an Arts College affiliated to this University.

162. In conformity with the principles underlying regulations 159, 160 and 161, the Syndicate shall have power to declare any other Examinations of these or any other Universities equivalent to the Examinations of this University.

With reference to Rule 160, the Syndicate after making enquiries as to reciprocity by the various Universities, have decided to notify as follows:—

(a) That the Intermediate Arts and Science Examinations of the Calcutta, Punjab, Patna, and Aligarh Universities be deemed equivalent to the corresponding Examinations of this University.

(b) That the Intermediate Examination of the Madras, Allahabad and Benares Universities be deemed equivalent to the Intermediate Arts Examination of this University, if passed in a literary optional group and to the Intermediate Science Examination, if passed in a science optional group.

(c) Principals of Colleges are desired by the Syndicate to note that in no circumstances will the First Year's College Examination by Colleges affiliated to any other Indian University be considered equivalent to the First Year College Examination by the Colleges affiliated to this University.

2. With reference to Rule 162, it is hereby notified that the Syndicate have declared the Examination for the Diploma in Commerce of the Punjab University as equivalent to the Intermediate Examination in Commerce of this University.

By order,

FARDUNJI M. DASTUR,

University Registrar.

Bombay, 31st October, 1922.

XI

5. Mr. Baridbaran Sen (Prince of Wales Medical College).
- 1936.—1. Mr. Sudhir Chandra Ghose (Science College) up to November 9.
2. Mr. Sudhangsu Kumar Chakravarti (Science College).
3. Mr. Syed Ahmad Jafary (Patna College).
4. Pandeya Ramavatar Sharma (Patna College) up to September 10.
5. Mr. Haribans Narayan Yadava (Science College).
6. Mr. Harnandan Prasad (Patna College).
- 1937.—1. Mr. Haribansh Narayan Yadava.
2. Mr. Syed Ahmad Jafary.
3. Mr. Harinandan Prasad.
4. Mr. Sudhangsu Kumar Chakravarti.
5. Mr. Shamboo Datt Tiwari.
6. Mr. Ram Behari Singh.
7. Mr. Ram Bhadra Thakur.

The Sir Ganesh Dutta Singh Loan Scholarship.

The Hon'ble Sir Ganesh Dutta Singh endowed "The Sir Ganesh Dutta Singh Loan Scholarship Fund" by giving a generous donation of one lakh of rupees in the year 1931 which was thankfully accepted by the Senate on the 27th November, 1931.

1. The Scholarship shall be awarded in accordance with the terms of endowment which are as follows:—

(1) The Scholarships shall be restricted to permanent residents of the area within the jurisdiction of Patna University. The term "permanent residents" includes permanent incumbents in permanent appointments under the local Government.

(2) The scholarships shall be awarded for higher study in medicine or in science, in India or abroad. They shall be available only for (a) officers in the Medical and Public Health services of Government in the said area, (b) officers in the Medical and Public Health services of the local bodies in the said area, provided that the local body concerned guarantees repayment of the loan and (c) failing suitable candidates among the officers included in categories (a) and (b), for professors,

lecturers or demonstrators in the following scientific subjects, namely, Physics, Chemistry, Botany, Geology, Mineralogy, Zoology, Physiology, who are in the service of that Government or (if the Syndicate considers realisation of the loan certain), for professors, lecturers or demonstrators in any such scientific subject in colleges within the said area which are aided from Government funds.

(3) Other things being equal, preference shall be given to a candidate belonging to a community not included in the subjoined list.

Agarwalas and other Vaishya communities, Anglo-Indians and Domiciled Europeans, Bengalees, Bhumihar Brahmins, Brahmins, Christians who or whose ancestors belonged to any other community included in this list, Kayasthas (including Karan Kayasthas), Khattris, Muhammadans not being of aboriginal race, Rajputs.

(4) Subject to the above, the award shall be made on all round merits, in estimating which, the career of a candidate in his college, the result of his University examinations and his subsequent academical or professional work shall be among the important points to be taken into consideration.

(5) The value of the scholarship to be given in each case, and the instalments in which it shall be paid and recovered, shall be determined by the Syndicate. The value may include the cost of the scholar's journey to and from his place of study.

(6) Interest at a rate to be prescribed by the Syndicate shall be chargeable on loan scholarships from the date on which there is any default of payment of an instalment and on the total amount due on the date of default.

(7) All arrangements in connection with the management of the fund and the award of the scholarships shall be made by the Syndicate of the Patna University but always so as to be consistent with the terms set out in paragraph 1 hereof.

2. Applications for the award of one or more scholarships shall be invited by the Registrar in the month of January provided that funds are available.

3. A list of the applicants together with their applications (on the prescribed form) shall be placed by the Registrar before the first meeting of the Syndicate in the month of March. The Syndicate shall then appoint a Committee consisting of the Vice-Chancellor, Principals of the Science and Medical colleges and two others to be nominated by the Syndicate with powers to co-opt others, if necessary, to advise it, particularly in respect of paragraph 1(4) and 1(5) of the terms of the endowment.

4. The report of the Committee shall be placed before the Syndicate with a statement showing the amounts available for awarding the scholarships. The Syndicate shall then examine the report of the Committee and finally decide as to the award of the scholarship.

5. Before the scholarship is finally awarded, the selected candidate shall furnish a medical certificate from a Civil Surgeon to the effect that he is a fit person to carry on the proposed studies.

6. The selected candidate shall also be required to insure his life in favour of the University for a sum equal to the amount of scholarship to be paid and also the amount of premium to be paid on the policy by the University till the amount paid to the candidate is fully reimbursed together with an amount equal to $12\frac{1}{2}$ per cent. of the total sum to cover any interest chargeable on account of over-due payments. The insurance policy shall be assigned by the candidate to the University and shall be reassigned to him by the University on his repaying all the amounts due.

7. The selected candidate shall execute a bond in the form appended to these rules. (See Appendix).

8. The total amount of scholarship, passage money and premium for insurance paid to or on behalf of any candidate shall not exceed the amount of the salary which the candidate would have drawn if he had been on active service during the period of his studies.

9. If a candidate fails to pay any instalment due from him on due date, he shall be charged interest on each instalment at the rate of 6 per cent. per annum from the date of default till the date on which such instalment is paid.

10. The Syndicate shall have power to write off the loan partially or wholly in case the amount of the scholarship paid or any part of it becomes irrecoverable for any reason.

APPENDIX.

Form of Bond as required by rule 7 of the rules for the management of the Hon'ble Sir Ganesh Dutta Singh Loan Scholarship.

PATNA UNIVERSITY.

Know all men by these presents that I.....
residing at.....
by occupation....., hereinafter called the
Scholar, am held and firmly bound unto the University of
Patna, a body politic and corporate incorporated by and

under Act XVI of 1917 of the Governor-General of India in Council, its successor in office, in the aggregate sum of.....or such other sum and sums of money as may be advanced to me, the Scholar, by the said University in pursuance of the scheme for loan scholarships created out of the interest of the corpus of the Endowment made by the Hon'ble Sir Ganesh Dutta Singh, Kt., and accepted by the Senate of the said University in its resolution No. 10, dated the 27th November, 1931, to be paid unto the said University, its successor in office, in terms hereinafter specified, of which payment to be well and truly made I bind myself, my heirs, executors, administrators, representatives and assigns by these presents sealed with my seal this day.....

Whereas the Hon'ble Sir Ganesh Dutta Singh, Kt., has placed with the said University a sum of rupees one lakh as an endowment for creating out of the interest of the corpus of the fund Loan Scholarships to be awarded by the Syndicate of the said University according to the terms of the said Endowment.

And whereas the said University has in terms of the said Endowment created and established the said Loan Scholarships and in pursuance of the resolution of the Syndicate No....., dated....., the University has awarded one of the said Scholarships to me, the Scholar, to be paid unto me, the Scholar, in the following manner, to wit.....

And whereas under the terms of the said Endowment and under the rules framed by the University I, the Scholar, am to pay back to the said University the entire amount of Rs.....paid and to be paid to me....., as hereinbefore provided in the following instalments, to wit
.....

And whereas according to the rules framed by the Syndicate for the administration of the said endowment I, the Scholar, have to get my life insured in favour of the said University with such Insurance Company or Companies as may be approved by the Syndicate of the said University.

And whereas according to the rules framed by the Syndicate for the administration of the said endowment the University is required to pay out of the interest of the said Endowment the premium on the said life Policy of me, the Scholar, until such time as all the sums advanced by the said University to me, the Scholar, and all the premiums paid by the said University for the said life insurance be entirely satisfied.

Now these presents witnesseth that I, the said Scholar, shall pay unto the said University the said sum of Rs.....

as hereinbefore specified according to the instalments herein-after specified, to wit.....

And I, the said Scholar, do further bind myself, my heirs, executors, administrators, representatives and assigns to pay, in case of default of any of the aforesaid instalments, interest on such instalment at the rate of 6 per cent. per annum from date of each default till the said instalment is satisfied.

And I, the said Scholar, do further bind myself to continue during the currency of the said Loan Scholarship, to be of good behaviour and diligently pursue the course of studies for the prosecution of which the said Scholarship has been awarded and to furnish to the said University from time to time such informations regarding the progress of my studies as may be required by the said University. In case the said University be not satisfied with the progress of me, the Scholar, of which the Syndicate of the said University will be the sole judge, it will be open to the said University to stop the further payment of the Loan Scholarship and on the happening of this event the entire sum of money till then advanced by the said University shall at once become due with interest.

That after all the sums to be paid by me, the Scholar, are repaid to the said University, the said University if so desired by me, the Scholar, shall assign the said life insurance policy to me, the Scholar, and this bond shall become null and void, otherwise the same will remain in full force and virtue.

Date.....

.....
Signature.

Scholars :

- 1934.—1. Mr. Basudeva Narayana, M.Sc., M.B., *Lecturer in Physiology*, P. W. Medical College, Patna.
2. Mr. Badri Narayan Prasad, M.Sc., M.B., D.T.M., *Assistant Surgeon*, Barh (Patna).
- 1935.—1. Mr. Maheshwar Prasad Sinha, M.B., B.S., *Assistant Surgeon*, Bihar.
- 1936.—1. Mr. Bhupendra Nath Banarji, B.Sc., M.B., *Lecturer in Pathology*, P. W. Medical College, Patna.
2. Mr. Ugra Pratap Sinha, B.Sc., M.B., B.S., *Surgical Registrar*, Medical College Hospital, Patna.

I.—List of Bihar and Orissa State scholarships (other than technical scholarships).

State scholarships of the following classes, payable from provincial revenues for study abroad, are from time to time awarded by the Government of Bihar and Orissa to persons who are natives of, or domiciled in, the province :—

- (a) University scholarships.
- (b) Scholarships for the study of oriental languages or any other literary or scientific subject.
- (c) Scholarships open to Indian women.
- (d) Scholarships open to male candidates of the domiciled community.
- (e) Scholarships open to female candidates of the domiciled community.

One scholarship will be awarded by the University every other year commencing from 1925. Government will award one scholarship for the study of an oriental language or some other literary or scientific subject in the year in which the University makes an award and two in the next year. Out of the four scholarships awarded during each period of two years, one will be awarded to an Oriya, if a suitable candidate from Orissa is available. Apart from these four scholarships, one scholarship will be awarded from time to time to a female Indian candidate or to a male or female candidate of the domiciled community, provided that suitable candidates are available, but only one such scholarship will in any event be current at one time. Applications will be invited in December of every year and scholars other than the scholar nominated by the University will be selected on the recommendation of a selection committee consisting of the Minister of Education as President, three educational experts, three members of the Legislative Council, one of whom will be an Oriya, and the Director of Public Instruction as Secretary.

II.—General rules for the award of State scholarships.

(i) On the publication of notices inviting them, applications for the University scholarship should be made to the Registrar of Patna University and those for other scholarships to the Director of Public Instruction.

(ii) Applications must be accompanied by the information detailed below :—

- (1) Date and place of birth.
- (2) Father's name, address and occupation.
- (3) Race or caste.

- (4) Places of education (including schools and colleges).
- (5) Examinations passed.
- (6) Subjects taken and honours (if any) obtained at the degree examination.
- (7) Subject the applicant proposes to study. (For research candidates the precise subject of study must be stated.)
- (8) Any special suggestions that may be made by college professors or other educational authorities regarding the course of study which a candidate might follow with advantage.
- (9) Testimonials as to character.
- (10) Medical certificate as to fitness to undergo a course of study abroad.
- (11) A certificate of domicile signed by a District Officer, in the case of a candidate claiming to be domiciled in the province.

(iii) The authority awarding the scholarship will forward complete information, including the candidate's application, and copies of all certificates and recommendations, to the High Commissioner for India some time before the scholar's arrival in England and, if possible, before the end of March. In the case of a candidate who is resident in the United Kingdom at the time of his application, Government will consult the High Commissioner before making the award.

(iv) As soon as a selected scholar is informed of his selection he will be required to submit, for transmission to the High Commissioner :—

- (1) the original certificates and diplomas of all University examinations which he has passed ;
 - (2) a statement, signed by the Registrar of the University concerned, showing the subjects in which he passed at each such examination ; and
 - (3) a statement, signed by the Principal of each college he studied at that college, and the University to which that college is affiliated.
- (v) Selected scholars should communicate with the Secretary to the University Students' Information Bureau, Patna University office, in order that they may obtain advice regarding certificates and documents which they should take with them when proceeding to England, and other matters.
- (vi) Male scholars are required to proceed to England so as to arrive there not later than the middle of September and

female scholars should arrive there by the end of July or beginning of August. They will reside there for the period of their scholarship, unless compelled to return sooner in consequence of ill-health. The scholarships will be payable from the date on which the scholars report their arrival in England.

(vii) Selected scholars will be provided with a second-class passage from India to England, with the cost of their railway journey to the place of study in the United Kingdom, and also with a second-class passage from England to India if they carry out the instructions of the High Commissioner, and complete the full period of residence or are compelled by sickness to return within that period. Second-class railway fares from the home of the candidate to the port of embarkation and, on the completion of the scholarship period, from the port of arrival to the home of the candidate will also be provided. Claims for expenses in India on account of the railway journey, including freight for personal luggage not exceeding three maunds, should be submitted to the Director of Public Instruction. Claims on account of railway journeys in England in the case of scholars who have to go to a place of study outside London should be submitted to the High Commissioner.

(viii) On receipt of the certificate of eligibility for passage from the Accountant-General, the Director of Public Instruction will arrange for the passage of the scholar from India to London with the steamship company or through their recognized representatives.

(ix) State scholars are required to execute an agreement, in the form given in the Appendix. No scholar will be given the passage ticket until he submits the agreement to the Director.

III.—Special rules relating to University scholarships.

Object.—The scholarship is awarded for the purpose of encouraging students to proceed to England to perfect their education and to study for the various learned professions or for the civil or other services in India.

Value of the scholarship.—The value of the scholarship is £360 per annum inclusive of University or college fees for scholars at colleges at Oxford or Cambridge or £325 for non-collegiate scholars at Oxford or scholars at Fitzwilliam House, Cambridge. For scholars at London the value of the scholarship is £240 per annum exclusive of tuition, etc., fees and sanctioned

NOTE.—In case a scholar is selected for the Indian Civil Service, his scholarship allowance will cease with effect from the date on which his allowance as probationer becomes payable.

travelling expenses. For scholars at other places the value of the scholarship is £216 exclusive of University or college fees, which will be defrayed by the High Commissioner.

Period.—The scholarship will ordinarily be tenable for two years, unless the High Commissioner sees reason to terminate it sooner.

Country in which tenable.—The scholarship is tenable in the United Kingdom, and, as a general rule, at either Oxford or Cambridge.

Eligibility.—Candidates must be Indians who are statutory natives of India. The term “native of India” does not exclude a person, who, though born in an Indian State or temporarily residing in such a State, is domiciled in British India.

Age-limits.—Candidates should be between twenty-two and twenty-five years of age on the 31st of March of the year in which the selection is made. The conditions of study in the University in the subject selected will be taken into consideration.

Qualifications.—The M.A. or M.Sc. degree, or the B.A. or B.Sc. degree with Honours, in either case from Patna University.

Date of selection.—This will be notified by the University, but the award will be communicated to Government not later than the end of February.

IV.—Special rules relating to scholarships for the study of oriental languages, or any other literary or scientific subject.

Object.—The object of these scholarships is to enable Indian students to complete at a University in Europe the study of some literary or scientific subject in which they have specialised in India.

Value of the scholarship.—The value of the scholarship is £360 per annum inclusive of University or college fees for scholars at colleges at Oxford or Cambridge or £325 for non-collegiate scholars at Oxford or scholars at Fitzwilliam House, Cambridge. For scholars at London the value of the scholarship is £240 per annum, exclusive of tuition fees, etc., and sanctioned travelling expenses. For scholars at other places the value of the scholarship is £216 exclusive of University or college fees, which will be defrayed by the High Commissioner.

NOTE 1.—Government will be prepared to consider the grant of travelling expenses for journeys on the Continent of Europe in indi-

vidual cases recommended by the High Commissioner, especially when the scholars selected are men who have had teaching experience before leaving India, and for any reason cannot or do not take any regular course but have to move from place to place.

NOTE 2.—On the recommendation of the High Commissioner Government may make an additional grant to a scholar for the purchase of apparatus required for a scientific course.

Period.—The scholarship will ordinarily be tenable for two years, unless the High Commissioner sees reason to terminate it sooner.

Country in which tenable.—The scholarship is tenable at a European University.

Eligibility.—Candidates must be Indians who are statutory natives of India. The term “native of India” does not exclude a person, who, though born in an Indian State or temporarily residing in such a State, is domiciled in British India.

Age-limits.—Candidates should not ordinarily be above twenty-five years of age on the 31st of March of the year in which the selection is made.

Qualifications.—The M.A. or M.Sc. degree or the B.A. or B.Sc. degree with Honours.

V.—Special rules relating to scholarships for Indian women.

Object.—The scholarship will be awarded for the study of medicine, or for some other educational or professional course.

Value of the scholarship.—The value of the scholarship is £360 per annum inclusive of University or college fees for scholars at colleges at Oxford or Cambridge or £325 for non-collegiate scholars at Oxford or scholars at Fitzwilliam House, Cambridge. For scholars at London the value of the scholarship is £240 per annum, exclusive of tuition fees, etc., and sanctioned travelling expenses. For scholars at other places the value of the scholarship is £216 exclusive of University or college fees, which will be defrayed by the High Commissioner.

Period.—The scholarship will ordinarily be tenable for two years, unless the High Commissioner sees reason to terminate it sooner, and may be extended to five years.

Country in which tenable.—The scholarship is tenable in the United Kingdom, but, with special sanction, it is tenable also in a foreign country.

Eligibility.—Candidates must be Indians who are statutory natives of India. The term “native of India” does not exclude a person, who, though born in an Indian State or temporarily residing in such a State, is domiciled in British India.

Age-limits.—No limits are imposed.

Qualifications.—A candidate must have a degree of an Indian University or some professional qualification.

Remarks.—

If a selected scholar has friends or relatives in the United Kingdom willing to receive her during vacations, their names and addresses should be forwarded to the High Commissioner.

VI.—Special rules relating to scholarships for male candidates of the domiciled community.

Object.—The two main principles which govern the grant of these scholarships are—

(a) that as the object in view is to assist a scholar to take up a University course in England, the scholarship will, when possible, be awarded to a young man at the close of his school or college career in India so that he may join the University as far as possible at the same age as boys educated in England;

(b) the scholarship will be given to the scholar who is most fitted to benefit from a course of study at a University, i.e., preference will be given to graduates.

The scholars will be required to follow a course of study which will qualify them to take an active part on their return to India in the professions of education, engineering, medicine or agriculture.

Value of the scholarship.—The value of the scholarship is £360 per annum inclusive of University or college fees for scholars at colleges at Oxford or Cambridge or £325 for non-collegiate scholars at Oxford or scholars at Fitzwilliam House, Cambridge. For scholars at London the value of the scholarship is £240 per annum, exclusive of tuition fees, etc., and sanctioned travelling expenses. For scholars at other places the value of the scholarship is £216 exclusive of University or college fees, which will be defrayed by the High Commissioner.

Period.—The scholarship will ordinarily be tenable for two years, unless the High Commissioner sees reason to terminate it sooner, and may be extended to three or four years.

Country in which tenable.—The scholarship is ordinarily tenable in the United Kingdom, but, with special sanction, it is tenable also in a foreign country.

190 SCHOLARSHIPS FOR STUDY OUTSIDE INDIA

Eligibility.—Candidates must be European or Anglo-Indian male students who are natives of India within the meaning of Statute 33 Vict., Chap. 3, Section 6.

Age-limits.—Candidates must be over eighteen years and under twenty-two years of age on the 31st of March of the year in which the scholarship is awarded.

Qualifications.—Candidates must have passed the European High School examination or have obtained a degree of an Indian University. Preference will be given to graduates.

VII.—Special rules relating to scholarships for female candidates of the domiciled community.

Object.—These scholarships are granted for educational or medical training. Educational training is construed in a wide sense so as to include training (1) of a secondary character for the teaching profession, (2) in domestic science, (3) as teachers of modern languages, (4) as music mistresses, (5) as art teachers, or (6) in kindergarten methods.

Value of the scholarship.—The value of the scholarship is £360 per annum inclusive of University or college fees for scholars at colleges at Oxford or Cambridge or £325 for non-collegiate scholars at Oxford or scholars at Fitzwilliam House, Cambridge. For scholars at London the value of the scholarship is £240 per annum, exclusive of tuition fees, etc., and sanctioned travelling expenses. For scholars at other places the value of the scholarship is £216 exclusive of University or college fees, which will be defrayed by the High Commissioner.

Period.—The scholarship will ordinarily be tenable for two years, unless the High Commissioner sees reason to terminate it sooner, and may be extended to five years.

Country in which tenable.—The scholarship is ordinarily tenable in the United Kingdom, but with special sanction, it is tenable also in a foreign country.

Eligibility.—Candidates must be European or Anglo-Indian female students who are natives of India within the meaning of Statute 33 Vict., Chap. 3, Section 6.

Age-limits.—No limits are imposed.

Qualifications.—Candidates should possess a degree of an Indian University. For music, candidates must, in addition to the highest certificate in music obtainable in India, have

passed the European High School examination or an equivalent examination.

Remarks—

If a selected scholar has friends or relatives in the United Kingdom willing to receive her during vacations, their names and addresses should be forwarded to the High Commissioner.

VIII.—Rules for State scholars under the supervision of the High Commissioner.

1. Every scholar will be required to forward to the Secretary to the High Commissioner for India (Education Department), India House, Aldwych, London, W. C. 2, ordinarily at least one month before the date of departure from India, the sum of £40 for initial expenses on arrival in the United Kingdom. A scholar will not be granted a passport, nor will he have any claim to the payment of any instalment of his scholarship unless this deposit has been made. The deposit is held at the disposal of the scholar and may be reclaimed as soon as he reaches England to meet expenses for the purchase of clothes or other necessary equipment, but a scholar is advised to leave at least £10 on deposit to be available for emergencies or other expenses not covered by the conditions of the scholarship.

2. A scholar will be provided with a passage from India to the place of study in the United Kingdom, and, as a general rule, is required to travel by the all-sea route from India to England unless he himself elects to pay the cost of the overland journey from Marseilles to London, in which case he may apply for payment of the overland allowance as fixed from time to time by the High Commissioner. The full cost of the overland journey (rail and baggage expenses) will in no case be refunded to a scholar unless he has been provided by Government with a steamer ticket to Marseilles and has been expressly instructed to travel overland.

3. Every scholar on reaching England must report himself to the office of the High Commissioner for India (Education Department), India House, Aldwych, London, W. C. 2, and sign the undertaking referred to in Rule 6. He will be required to furnish his private address and to notify immediately any changes thereafter.

4. Accommodation for new arrivals (men only) is provided at 21, Cromwell Road, South Kensington, London, S. W. 7. A

192 SCHOLARSHIPS FOR STUDY OUTSIDE INDIA

scholar who wishes accommodation to be reserved should write to the Warden, 21, Cromwell Road, S. W. 7, or should cable from Marseilles the exact date of his arrival. Every scholar will be required, whenever possible, to reside in the hostel of the University or College where he is pursuing his course, though in special cases the High Commissioner will be prepared to consider applications for permission to live in private lodgings.

5. Every scholar pursuing courses of study or training in the United Kingdom, in Europe or in the United States of America is under the direct charge of the Secretary to the High Commissioner for India (Education Department), with the exception of those at Edinburgh, Cambridge, Glasgow, Manchester, and Oxford, who must follow the instructions given through the following officers, hereinafter referred to as Local Advisers :—

Edinburgh	...	The University Adviser to Indian Students, Department of Chemistry, The University, King's Buildings, Edinburgh.
Cambridge	...	The Secretary, Inter-Collegiate Indian Students' Committee, 22, Fitzwilliam Street, Cambridge.
Glasgow	...	The Local Adviser to Indian Students, The University, Glasgow.
Manchester	...	The Local Adviser to Indian Students, College of Technology, Manchester.
Oxford	...	The Secretary, Delegacy for Oriental Students, Indian Institute, Oxford.

All communications regarding course of studies or training, payment of fees, or other matters connected with the scholarship must be addressed, either to the Secretary to the High Commissioner for India (Education Department) or in the case of scholars at Edinburgh, Cambridge, Glasgow, Manchester, or Oxford to the Local Adviser concerned. Scholars are not permitted to communicate direct with the Government of Bihar and Orissa in any matter affecting their scholarship.

6. Every scholar will be expected to consult the Secretary to the High Commissioner (Education Department) or his Local Adviser regularly in regard to his course of study or training. He must submit, either direct or through his Local Adviser, within one month after the beginning of his University, college or other training, a statement for the approval of the High Commissioner showing the exact course which he is pursuing.

The High Commissioner will prescribe the course of study or training considered necessary to fulfil the purpose for which the scholarship has been awarded, and every scholar must obey all instructions regarding his course of study or training which he may receive either direct from the Secretary to the High Commissioner (Education Department) or from his Local Adviser. The course of study which has received the sanction of the High Commissioner may not be changed without his approval, and no additional course or subject of study or training may be undertaken without his prior sanction. A scholar will not be permitted, without the previous sanction of the High Commissioner, to enter for any examination not forming a normal portion of his sanctioned course. He will be required to give a written undertaking that he will at once and without discussion of possible alternatives devote himself exclusively to the course of study and training prescribed for him and that he will not delay or neglect his prescribed course in anticipation of orders regarding possible alternatives.

7. A scholar undergoing practical training in such subjects as veterinary science or medicine will be entitled to three weeks' leave each year and must obtain the approval of the authorities under whom he is working and of the High Commissioner to the exact dates on which he proposes to take such leave. He must also submit, at least two months in advance, a full statement of his proposals for practical training during the vacations. A scholar attending University or college courses who proposes to spend his vacations on the Continent must submit his plans for the approval of the High Commissioner not less than one month before the beginning of the vacation.

8. In the absence of any special instructions from Government, scholarship allowance will be payable from the date on which the scholar reports his arrival at the office of the High Commissioner until the expiration of the full period for which it has been granted or extended or to any earlier date that the High Commissioner may determine having regard to the date at which the sanctioned course of study or training has been completed. Scholarship allowance will not be paid beyond the date of the sailing from London of the steamer on which the passage has been booked, except as provided in Rule 20.

9. Subject to a due compliance with the rules, each scholar will be paid his annual stipend quarterly in advance. A first instalment to cover a full quarter will be paid as soon as possible after the scholar has arrived and has signed the necessary declaration on the form which is obtainable from the

office of the High Commissioner. Three months after the date of arrival the amount due up to the ensuing official Quarter Day* will be paid to the scholar either direct or through the Local Adviser. Subsequent payments will be made in advance, on or after each official Quarter Day. It should, however, be understood that the High Commissioner (or the Local Adviser on his instructions) has full discretion to disburse the annual allowance of any scholar in such instalments as he may consider desirable.

10. Each scholar must submit, not less than fourteen days before the date on which his scholarship instalment falls due, an application on a prescribed form endorsed with a certificate of satisfactory conduct and progress from the University or College authority. He will also be required to furnish annually on a prescribed form, copies of which will be supplied, a full statement of the course of study or training which he has pursued during each year ending 30th of September. The instalment of scholarship allowance due on 1st of October of each year will not as a general rule be issued until this annual report has been received. It should, however, be noted that the High Commissioner at his discretion may require a report on a scholar's work or conduct at any time.

11. The allowance of a scholar in receipt of wages whilst undergoing practical training will be reduced by a corresponding amount.

12. Advances on the quarterly instalments of scholarship allowance will not as a general rule be granted, except in respect of (a) caution money payable to Universities or Colleges, and (b) purchase of expensive instruments essential for the scholar's sanctioned course of study or training. Any advances thus sanctioned will be recoverable from the quarterly instalments of scholarship spread over a total period not exceeding one year.

13. The special attention of every scholar is drawn to the fact that no claim for payment of any expenditure whatsoever can be admitted unless the scholar has obtained previous sanction from the High Commissioner.

14. Scholars at Oxford and Cambridge will be required to meet from their scholarship allowance all their expenses, including University or college fees, except journeys to and from their place of study on arrival from India and on departure

*The official Quarter Days are 1st January, 1st April, 1st July and 1st October.

to India. A language scholar at Oxford or Cambridge (*i.e.*, a scholar pursuing research in Arabic, Persian, or Sanskrit) may, however, be granted travelling expenses from his place of study, when going abroad, where such visits are certified as *essential* to his studies by the professor concerned and are sanctioned by the High Commissioner.

15. For scholars (other than those at Oxford or Cambridge), charges for University and college fees, including membership of the Students Union or equivalent society, and the necessary travelling expenses of scholars by second-class, or by third-class if no second be available, shall, if sanctioned in advance, be defrayed by the High Commissioner. A scholar undergoing professional training may be required at the discretion of the High Commissioner to join the appropriate society or institution, in which case his entrance fees and annual subscriptions will be defrayed by the High Commissioner. University or college terminal or sessional fees will be paid direct to the University or college concerned by the High Commissioner. Examination fees and subscriptions, etc., to other institutions, where such have been sanctioned by the High Commissioner, will be paid by the scholar himself in the first place and refunded to him on production of the necessary voucher.

16. A scholar who proposes to undertake journeys or tours for the purpose of his course of study or training must submit an application either direct or through his Local Adviser at least fourteen days before the date of the proposed visit. The application must be supported by a certificate or recommendation from the professor or head of department under whom the scholar is working that the journey is necessary for the purpose of his work. [*If the proposed visit or tour and estimate of expenses is approved by the High Commissioner, third-class travelling expenses (second-class on the Continent) will be paid to the scholar on receipt of the claim on the appropriate form, supported by the necessary vouchers, together with halting allowance at the rate authorised, unless otherwise laid down when the journey is sanctioned.]

17. Charges for private tuition, unless specially sanctioned in advance, books, instruments, and medical attendance must be paid by the scholar himself.

18. Unless the conditions under which the scholarship was awarded preclude any extension, a scholar who wishes to apply

*This sentence does not apply to scholars at Oxford and Cambridge.

for the extension of his scholarship must submit an application to the Secretary to the High Commissioner (Education Department), either direct or through the Local Adviser not less than six months prior to the expiration of the term of tenure. This application should state definitely the purpose for which the extension is desired and should be supported by the recommendations of the University or other authority under whom the scholar is pursuing his course of study or training.

19. A scholarship may be terminated at any time within the discretion of the High Commissioner—

- (a) if the scholar's work and progress be considered unsatisfactory,
- (b) if his conduct prove unsatisfactory, or
- (c) if he fail in health,

in which cases, unless the High Commissioner sees reason to the contrary, the scholar will retain his right to a passage to India, provided he returns when instructed by the High Commissioner. Any scholar failing to return to India when instructed to do so by the High Commissioner will forfeit his right to a free passage. A scholar who resigns his scholarship before the expiration of its tenure for reasons which, in the opinion of the High Commissioner, are not satisfactory, will be held to resign his claim to a return passage to India.

20. A scholar will be entitled to a return passage from the place of study to India. The arrangements for the voyage will be made by the office of the High Commissioner and a scholar is not entitled to make his own passage arrangements or to claim an allowance in lieu of a provided passage. At least three months before the termination of his course of study or training the scholar must submit to the Secretary to the High Commissioner (Education Department), either direct or through the Local Adviser, an application for a return passage. The scholar will normally be required to embark from a port in the United Kingdom, but he may be allowed at the discretion of the High Commissioner to join the steamer at Marseilles and will then be paid the overland allowance as fixed from time to time by the High Commissioner. If a scholar is definitely instructed by the High Commissioner to join the steamer at Marseilles, he will be allowed second-class travelling expenses from London to Marseilles and his scholarship allowance will be payable to the date of embarkation from Marseilles (unless it has already expired or been terminated). Travelling expenses in India will not be payable by the High Commissioner.

21. A scholar who desires to defer his return to India after the expiry or termination of his scholarship will, unless Government desire his return, be allowed to do so provided that the High Commissioner approves the purpose of the deferment and is satisfied that the scholar is in a position to maintain himself during the whole period of the proposed deferment.

22. Each scholar will be given a grant of £5 to meet incidental expenses during the voyage to India. This allowance will not be payable to officers in Government employ who are temporarily holding a scholarship, but whose official pay commences on the termination of the scholarship, nor will it be applicable to the case of a scholar returning to India on appointment to a Government post which entitles him to an advance of pay.

23. A scholar who intends to marry during the tenure of his scholarship must so inform the High Commissioner, who, in consultation with Government, may terminate or suspend the scholarship if he thinks fit in the special circumstances of the case.

NOTE—In all the above Rules the masculine (he, him) must be understood to include the feminine (she, her).

APPENDIX.

FORM OF AGREEMENT.

[*Vide* clause (ix) of section II of the Hand-book.]

Know all men by these presents that we.....
 (name of the scholar) and we.....(name of the surety
 or member of the scholar's family) do hereby bind ourselves, and each
 of us, our and each of our heirs, executors, administrators and assigns
 to pay to the Secretary of State for India in Council the penal sum of
 £1,000.

Sealed with our seals, dated this day of 19 ..
 Whereas the above bounden.....(name of scholar)
 has been nominated by the Government of Bihar and Orissa to a State
 Scholarship.

And whereas the above bounden.....as nominee of such
 scholarship is entitled under the conditions contained in parts.....of
 the Hand-book for Bihar and Orissa State Scholarships (1931) to £.....
 per annum for.....years and also to a second-class return passage
 from India to England and back.

And whereas it is further intended and agreed that the above
 bounden.....(name of scholar) shall on his return to India after
 completion of his study serve the Secretary of State, if required, as a
 teacher or lecturer in the Province of Bihar and Orissa for a period of
 five years at such salary not being less than Rs.....per mensem
 and upon such other terms and conditions and at such place in Bihar
 and Orissa as the Government of Bihar and Orissa may direct.

Now the condition of the above written bond is such that—

- (1) if the above bounden.....(name of scholar) fulfils
 and carries out the abovementioned covenants, or
- (2) if, in the event of the above bounden.....(name of
 scholar) not returning to India, as and when directed by
 the High Commissioner or the Government of Bihar and
 Orissa, he shall forthwith refund to the Secretary of State
 in Council the sum paid to him or on his behalf in respect
 of the said scholarship and passage; or
- (3) if, in the event of the above bounden.....(name of
 scholar) refusing to serve the Government of Bihar and
 Orissa for five years after his return to India in accordance
 with the condition mentioned above, he shall forthwith
 refund to the Secretary of State in Council the cost of his
 passage to and from England and a sum of Rs. 3,000 unless
 he is able to prove to the satisfaction of the Government of
 Bihar and Orissa (whose decision as certified by the Director
 of Public Instruction, Bihar and Orissa, on its behalf shall
 be final) that he is unable to comply with the said terms on
 account of illness or of some other reasonable cause over
 which he has no control:

then the above written obligation shall be void and of no effect, other-
 wise it shall be and remain in full force and virtue.

Signed, sealed and delivered by the

above bounden.....

XII

UNIVERSITY ENDOWMENTS.

I. UNIVERSITY READERSHIPS.

(1) THE BANAILI READERSHIP IN INDIAN ECONOMICS.

In March, 1920, Raja Kalanand Singh and the Hon'ble Raja Kirtyanand Singh Bahadur of the Banaili Raj generously placed at the disposal of the University the sum of Rs. 20,000 for the creation of a University Readership in Indian Economics, and also a sum of Rs. 5,000 for the purchase of books on the same subject for the University Library.

The Senate on the 27th of March, 1920, accepted the offer and tendered their grateful thanks to the Rajas in the following resolution:—"That the Senate accept the contribution of Rs. 20,000 generously offered by Raja Kalanand Singh and the Hon'ble Raja Kirtyanand Singh Bahadur of the Banaili Raj for the endowment of a University Readership in Indian Economics, and of Rs. 5,000 also offered by the Banaili Raj for the purchase of books for the Economics section of the University Library ; also that the Senate tender their grateful thanks to Rajas Kalanand Singh and Kirtyanand Singh for their generous contributions and for the assistance afforded thereby to the cause of learning in the University."

The amount of the Readership Fund and the balance left after purchase of books for the Library Fund have been invested in Govt. Paper of the face value of Rs. 28,900 and Rs. 3,700 respectively and vested in the Treasurer of Charitable Endowments, Bihar, *vide* Government Notifications No. 106-E, dated January 7, 1936, No. 568-E, dated March 20, 1937 and No. 80-E, dated January 4, 1936. The interest is devoted to the maintenance of the Readership to which an appointment is made annually on the following terms:—

The lecturer shall receive a fee of Rs. 600 for a course of original lectures, not fewer than 6 nor more than 12 in number.

Travelling allowance for not more than two journeys at Government first class rates shall be allowed to all lecturers not resident in Patna.

The lectures shall be delivered, on convenient days, after the commencement of the session in July.

The lectures shall be open to the public.

The University Readership lectures should not appear in print before they are published by the University provided that this condition will not apply if the University does not print the Readership lectures within six months after the receipt of the manuscript from the Reader.

Copyright in first printed edition of lectures (limited to 300 copies) by the University to remain with the University—the University supplying 30 copies to the Reader.

(2) THE SUKHRAJ RAY READERSHIP IN NATURAL SCIENCE.		

In February, 1924, Rai Bahadur Sukh Raj Ray of Nathnagar, Bhagalpur, generously placed at the disposal of the University the sum of Rs. 20,000 for the endowment of a University Readership in Natural Science.

The Senate on the 29th of March, 1924, accepted the offer and tendered their grateful thanks to the Rai Bahadur in the following words:—

*Lectures not delivered.

“That the Senate accept the contribution of Rs. 20,000 generously given by Rai Bahadur Sukhraj Ray of Nathnagar, Bhagalpur, for the endowment of a University Readership to be called the Sukhraj Ray Readership in Natural Science, also that the Senate tender their grateful thanks to Rai Bahadur Sukhraj Ray for his generous contribution and for the assistance afforded thereby to the cause of learning in the University.”

The amount has been invested in the 3½ p. c. Government Promissory Notes of the face value of Rs. 35,000 and vested in the Treasurer of Charitable Endowments, Bihar (*vide* Government Notifications No. 2046-E, dated April 8, 1936 and No. 538-E, dated March 18, 1937).

The lecturer shall receive a fee of Rs. 600 for a course of original lectures, not fewer than 6 nor more than 12 in number.

Travelling allowance for not more than two forward and two return journeys at the ordinary rate admissible for a first class Government Officer shall be allowed to all lecturers not resident in Patna. Halting allowance at the same rate shall be allowed to them (*vide* Syndicate item 438, dated February 15, 1936).

The lectures shall be delivered on convenient days, after the commencement of the session in July.

The lectures shall be open to the public.

The University Readership lectures should not appear in print before they are published by the University provided that this condition will not apply if the University does not print the Readership lectures within six months after the receipt of the manuscript from the Reader.

Copyright in first printed edition of lectures (limited to 300 copies) by the University to remain with the University—the University supplying 30 copies to the Reader.

(3) RAMDIN READERSHIP IN HINDI.

In August, 1925, Rai Bahadur Ram Ran Vijaya Sinha, Proprietor, Khadgavilas Press, Bankipur, expressed to His Excellency the Chancellor his desire to endow a Readership in Hindi to be called the "Ramdin Readership in Hindi" in memory of his distinguished father Babu Ramdin Sinha, and generously placed at the disposal of the University the sum of Rs. 7,500 for the purpose on the following terms:—

1. The sum to be constituted into a fund for the establishment and maintenance of a Readership in Hindi.

2. The Readership shall be called the Ramdin Readership in Hindi.

3. The trust fund shall, whenever practicable, be invested in Government securities.

4. The Reader shall be appointed whenever funds permit and shall deliver in Patna a course of original lectures not fewer than eight in number.

5. The honorarium of the Reader shall consist of Rs. 600 in cash.

6. The lectures shall be delivered on convenient days after the commencement of the session in July, and shall be open to the public.

7. The Reader shall be appointed by the Senate on the recommendation of the Syndicate. Before making the recommendation the Syndicate shall consult a Board consisting of the following persons—

(i) Senior Professor of Sanskrit at Patna College conversant with Hindi;

(ii) Senior Professor of Hindi at Patna College (when admitted in that language as principal subject up to the degree standard); till this is done by a nominee of the donor;

(iii) One nominee of the All India Sahitya Sammelan;

(iv & v) Two nominees of the donor.

8. After the death of the donor the senior member of his family for the time being shall have the right to nominate the members of the Board.

9. The subject for the lectures shall be fixed by the Syndicate on the recommendation of the Board.

10. The balance of the income from the endowment shall be utilised for paying travelling allowances to members of the Board and for printing the Readership lectures.

The Senate on the 28th of November, 1925 accepted the offer and tendered their grateful thanks to the Rai Bahadur in the following words :—

“That the Senate accept the contribution of Rs. 7,500 generously given by Rai Bahadur Ram Ran Vijaya Sinha, Proprietor, Khadgavilas Press, Bankipur, for the endowment of a University Readership to be called the Ramdin Readership in Hindi; also that the Senate tender their grateful thanks to Rai Bahadur Ram Ran Vijaya Sinha for his generous contribution and for the assistance afforded thereby to the cause of learning in the University.”

In 1930 at the desire of Rai Bahadur Ram Ran Vijaya Sinha, the amount has been invested in 8 per cent. Titaghur Debentures of the face value of Rs. 7,000, but under the Syndicate order, the Debentures were sold and $3\frac{1}{2}\%$ G. P. Notes of the face value of Rs. 7,300 were purchased (*vide* Syndicate Resolution No. 295, dated November 27, 1935).

These G. P. Notes have been vested in the Treasurer of Charitable Endowments, Bihar (*vide* Government Notification No. 1154-E.R., dated August 29, 1936).

II. BAYLEY MEMORIAL LIBRARY.

The Bayley Memorial Library was founded to perpetuate the memory of Sir Charles Bayley, the first Lieutenant. Governor of the province of Bihar and Orissa who retired in 1915. Subscriptions to the extent of Rs. 48,550 were promised, but little or no progress was made till January, 1920. In order to put the matter on a stable basis Government in their letter No. 785-E., dated March 1, 1923, suggested that the trustees

should after collecting the arrears, make over the money to the Patna University for the foundation of a section of its library to be known as the Bayley Memorial Collection. The trustees agreed to accept this proposal, and at a meeting held on March 29, 1923, resolved to make the fund over to the University provided :

(1) that the books purchased with the whole, or part, of the fund and placed in the University Library were called the "Bayley Memorial Collections,"

(2) that any separate library building constructed with this fund was called the Bayley Memorial Library, and

(3) that the Bayley Memorial Collection and library should be open to the public for both reading and lending purposes.

The Syndicate accepted the conditions on September 11, 1923. Subsequently Government sanctioned a grant of Rs. 50,000 in their letter No. 336-E., dated February 4, 1924, for the said Bayley Memorial Collection. In March, 1924, the University received the sum of Rs. 46,049-9-0 from the Secretary of the Bayley Memorial Trust of which Rs. 43,125 was actual amount donated and the balance was the accumulated interest less contingent expenditure. The following are the donors:—

	Rs.
Maharajadhiraja of Darbanga ...	10,000
Maharaja Bahadur of Hathwa ...	10,000
Maharani Sahiba of Bettiah ...	10,000
Maharaja Bahadur of Gidhour ...	4,000
Raja Bahadur of Amawan ...	4,000
Raja Bahadur of Banaili ...	2,000
Sir Edward Gait ...	1,000
Raja Bahadur Jyoti Prasad Singh Deo of Panchet (Manbhum) ...	1,000
H. H. the Maharaja of Mayurbhanj ...	500
H. H. the Raja of Dhenkanal State ...	300
The Hon'ble Babu Ganesh Dutt Singh ...	100
H. H. the Raja of Rampur State ...	50
H. H. the Raja of Athgarh State ...	50
H. H. the Raja of Talcher State ...	50
Raja of Chainpur ...	50
Nawab Saiyid Imdad Imam ...	25
	<hr/>
	43,125

In order to give permanency to the fund, 3½% G. P. Notes of the face value of Rs. 1,21,500 has been purchased and vested in the Treasurer of Charitable Endowments, Bihar (*vide* Government Notification No. 149-E, dated January 8, 1936). The balance is also being utilized for purchase of useful but popular books.

III UNIVERSITY MEDALS.

(1) GAIT ENGLISH MEDAL.

At the Convocation held on November 30, 1918, the Vice-Chancellor stated that it gave him great satisfaction to be permitted to announce that His Honour the Chancellor would commence the list of University prizes with the handsome endowment of Rs. 1,500 from his private purse for the award of a gold medal annually to the successful student obtaining the highest marks in English in the B.A. examination.

The Senate at a meeting held on March 8, 1919, sanctioned the institution of the medal under regulation 20, Chapter III of the Regulations, and resolved that the medal be called the "Gait English Medal."

The amount has been invested in the 3½% Government Promissory Notes of the face value of Rs. 2,200 and vested in the Treasurer of Charitable Endowments, Bihar (*vide* Government Notification No. 168-E, dated January 9, 1936).

(2) SHRIMATI RADHIKA SINHA MEDAL.

In August, 1919, the Hon'ble Mr. Sachchidananda Sinha expressed to His Honour the Chancellor his desire to endow a medal to be awarded annually in memory of his late wife, Shrimati Radhika Sinha, and offered a sum of Rs. 1,500 for the purpose. It was his wish that the medal should be awarded to the successful student obtaining the highest marks in History in the B.A. examination.

The Senate on November 4, 1919, in sanctioning the institution of the medal passed the following resolution:—

"That the medal be called the Radhika Sinha Gold Medal; that the medal be awarded annually to the successful candidate who stands first in History in the B.A. examination and that the thanks of the Senate be conveyed to the donor."

The amount has been invested in the 3½% Government Promissory Notes of the face value of Rs. 2,200 and vested in the Treasurer of Charitable Endowments, Bihar (*vide* Government Notification No. 172-E, dated January 9, 1936).

The name of the medal has since been changed to "Shrimati Radhika Sinha Medal."

(3) THE GIDHAUR GOLD MEDAL.

Maharaja Sir Ravaneshwar Prasad Singh Bahadur, K.C.I.E. of Gidhaur, to commemorate the celebration of his Silver Jubilee, placed at the disposal of the Calcutta University a sum of Rs. 1,000 for the purpose of creating an endowment for the annual award of a gold medal to the best student of the Jamui H. E. School who passed the Matriculation examination in the First Division.

On the creation of the Patna University, in October, 1917, Jamui H. E. School ceased to be under the jurisdiction of the Calcutta University. The Hon'ble the Vice-Chancellor and the Syndicate of the said University therefore requested the Bank of Bengal to transfer the funds to the Patna University and sent an intimation to the Registrar of this University. The Syndicate considered the matter at a meeting on the 13th of August, 1919, and resolved that the endowment be accepted if the medal be thrown open to Matriculation candidates from all the schools of the Province. The Maharaja Bahadur having agreed to the suggestion of the Syndicate, the endowment was accepted at a meeting on the 10th September, 1919, subject to the sanction of the Senate.

The Senate on the 4th of November, 1919, sanctioned the acceptance of the endowment and passed the following resolution—

“That the Senate accept the offer of Rs. 1,000 made by the Hon'ble Sir Ravaneshwar Prasad Singh, K.C.I.E., Maharaja Bahadur of Gidhaur, to endow a medal to be awarded annually to the successful candidate standing first in the Matriculation examination and that the medal be called the Gidhaur Silver Jubilee Gold Medal, and that the thanks of the Senate be conveyed to the donor.”

The promissory notes were transferred to this University in January and the cash balance in February, 1920. The interest accruing for the years 1918 and 1919 was made over to the Headmaster of Jamui H. E. School for the award of the medals for those years to the candidates of the Jamui School. The University has been awarding medals on the results of the Matriculation examination of 1920 onwards. The promissory note was sold for Rs. 669-6-0 under the orders of the Syndicate (*vide* item 357 dated 6th March, 1924) in order to place the money in Fixed Deposit with the B. & O. Provincial Co-operative Bank, Ltd. at 7 per cent. per annum. But investment

in the B. & O. Provincial Co-operative Bank, Ltd. was not found safe, the money was again invested in 1927 in 3½% Government Paper, the face value of which is Rs. 900 (*vide* Syndicate item 314, dated 26th February, 1927), and vested in the Treasurer of Charitable Endowments, Bihar (*vide* Government Notification No. 188-E, dated January 9, 1936).

The name of the medal has since been changed to "The Gidhaur Gold Medal" as approved by the donor.

(4) BAKHSHI RAMYAD SINHA MEDAL.

In September, 1920, the Hon'ble Mr. Sachchidananda Sinha expressed to His Honour the Chancellor his desire to endow a University gold medal to be called the "Bakhshi

Ramyad Sinha Medal," in memory of his father, to be awarded annually to the student who heads the list of successful students in the B.A. examination taking all subjects together.

The Senate on November 18, 1920, in sanctioning the institution of the medal passed the following resolution :—

"That the Senate accept the Hon'ble Mr. Sinha's offer of Rs. 1,500 to endow a gold medal to be called the "Bakhshi Ramyad Sinha Medal" to be awarded to the student who heads the list of successful candidates in the B.A. examination, and that the thanks of the Senate be conveyed to the donor."

The Hon'ble Mr. Sinha also paid a sum of Rs. 75 for the award of the medal in 1920.

The amount has been invested in the 3½% Government Promissory Notes of the face value of Rs. 2,200 and vested in the Treasurer of Charitable Endowments, Bihar, (*vide* Government Notification No. 164-E, dated January 9, 1936).

(5) MADHAVA MEDAL AND PRIZE.

In May, 1920, Kumar Madhaveshwarendra Sahi, Honorary Lieutenant, a Fellow of Patna University, expressed to the Vice-Chancellor his desire to endow a University gold medal and prize to be called the "Madhava Medal and Prize" for the

encouragement of the study of Sanskrit. He paid the sum of Rs. 2,500 as half instalment at that time. The second instalment of Rs. 2,500 was paid in March, 1922.

The Senate on March 31, 1922, in sanctioning the institution of the Medal and Prize passed the following resolution :—

“That the Senate accept the offer of Rs. 5,000 made by Lieut. Kumar Madhaveshwarendra Sahi for the endowment of a Prize of Rs. 200, and a Gold Medal to be called the “Madhava Medal and Prize” to be awarded to the most successful candidate at the B.A. examination who secures first class Honours in Sanskrit and that the thanks of the Senate be conveyed to the donor.”

It is the wish of the donor that if in any year there is no qualified candidate the Syndicate may exercise their discretion in awarding the Medal and the Prize, provided that the claims of the candidate who stands first in B.A. Honours in Hindi and the candidate who stands first in the first class in M.A. Sanskrit be first considered.

The amount has been invested in the 3½% Government Promissory Notes of the face value of Rs. 7,800, and vested in the Treasurer of Charitable Endowments, Bihar (*vide* Government Notification No. 292-E, dated January 16, 1936).

At the express wish of the donor the first award of the Medal and Prize was made at the Convocation held in April, 1922, to the candidate who had qualified in the examination of 1920.

(7) I. N. CHANDRA GOLD MEDAL.

Babu I. N. Chandra, Zemindar and Colliery Proprietor Nirsachuti (Manbhum District) expressed his desire to offer an endowment of Rs. 1,500 for a gold medal to be called "I. N. Chandra Gold Medal" for proficiency in Bengali composition among the Matriculation candidates, and the Syndicate, at their meeting held on 17th April, 1929, accepted the offer. In March, 1931, $3\frac{1}{2}\%$ Promissory Note of the face value of Rs. 1,000 was received from him. As the donor died, no further sum could be endowed. The amount has now been vested in the Treasurer of Charitable Endowments, Bihar (*vide* Government Notification No. 180-E, dated January 9, 1936).

(10) SIFTON HINDI GOLD MEDAL.

In September, 1932, Rai Bahadur Ram Ran Vijaya Sinha, Proprietor, Khadga Vilas Press, placed a sum of Rs. 1,500 at the disposal of the University for creating a fund for the annual award of a gold medal from the interest thereof. The medal is to be called the "Sifton Hindi Gold Medal" and is to be awarded to the student who passes the B.A. examination and secures the highest number of marks in Hindi Composition. The Syndicate, at their meeting held on November 27, 1932 thankfully accepted the offer. The amount has been invested in 3½% Government Promissory Notes of the face value of Rs. 2,000 and vested in the Treasurer of Charitable Endowments, Bihar (*vide* Government Notification No. 141-E, dated January 8, 1936). A further sum of Rs. 50 was paid by the Rai Bahadur for the award of the medal in 1932.

(13) WALFORD MEDAL.

To perpetuate the memory of Mr. F. Walford, late Principal of the Bihar College of Engineering, the sum of Rs. 1,100 was collected by public subscriptions and was placed at the disposal of the University in September, 1933 for the endowment of a medal to be called 'Walford Medal' to be awarded annually to the candidate who, appearing for the first time, stands highest in the final examination for the degree in Engineering. The Syndicate, at their meeting held on August 16, 1933 gratefully accepted the offer. The amount has been invested in $3\frac{1}{2}\%$

Government Promissory Notes of the face value of Rs. 1,200 and vested in the Treasurer of Charitable Endowments, Bihar (*vide* Government Notification No. 194-D, dated January 7, 1936).

(15) SIR JWALA PRASAD MEDAL.

To perpetuate the memory of the late Hon'ble Sir Jwala Prasad, Kt., Rai Bahadur, a sum of Rs. 1,800 was placed at the disposal of the University in May 1934, by the representatives of the deceased for endowing a gold medal, called 'Sir Jwala Prasad Medal' to be awarded annually to the most distinguished graduate in Law (B.L. degree) of his year. For the award the most distinguished student of his year is to be ascertained by reference to the aggregate of marks in the examinations for the degree of Bachelor of Law obtained by a student sitting for each examination immediately following the completion of

attendance at the lectures therefor and for the first time in each case, and taking all the examinations within the minimum period allowed in his particular case by the University Regulations.

The Syndicate at their meeting held on February 10, 1934, thankfully accepted the offer. The amount has been invested in $3\frac{1}{2}\%$ Government Promissory Notes of the face value of Rs. 1,900 and vested in the Treasurer of Charitable Endowments, Bihar (*vide* Government Notification No. 153-E, dated January 8, 1936).

(16) WHEELER GOLD MEDAL.

The administration of the Wheeler Gold Medal Fund endowed by Sir Ganesh Datta Singh, Kt., for the annual award of a medal to the best student who obtains the highest aggregate at the Final M.B., B.S. Part II was made over to the University by the Principal, Prince of Wales Medical College with the approval of the Syndicate at their meeting held on September, 1934.

The amount of the fund consisted of Rs. 1,000 placed in Fixed Deposit with the B. & O. Provincial Co-operative Bank, and a small amount in P. O. Savings Bank. On maturity of the Fixed Deposit in May, 1936, a $3\frac{1}{2}\%$ p.c. G. P. Note of the face value of Rs. 1,000 was purchased and vested in the Treasurer of Charitable Endowments, Bihar (*vide* Government Notification No. 1162—L.S.G. dated March 16, 1937).

In January, 1935, the donor contributed Rs. 60 more for awarding a medal for the year 1934.

(17) JYOTIRMOYEE SILVER JUBILEE COMMEMORATION MEDAL.

Rai Bahadur J. L. Das, Assistant Director of Public Health, addressed His Excellency the Chancellor, on behalf of Mrs. J. L. Das, enquiring whether the University would accept the offer of Mrs. J. L. Das to hand over to the University $3\frac{1}{2}\%$ G. P. Notes of the face value of Rs. 1,500 for endowing a gold medal to be called "Jyotirmoyee Silver Jubilee Medal" to be awarded annually to the student who successfully passed Part I of the Final M.B., B.S. examination with Honours in Hygiene, securing the first place in the subject. Should more students than one be bracketted together in Hygiene Honours, then the medal was to be given to the candidate securing the highest number of marks in the aggregate, passing in all the subjects of that part of the Final M.B., B.S. examination together in addition to standing first in Hygiene Honours. If in any year no candidate secured Honours in Hygiene at the Final M.B., B.S. examination then the medal was to be awarded to the girl candidate who secured the highest number of marks among the successful girl candidates at the Annual Matriculation examination of that year. The Syndicate, at their meeting held on July 20, 1935, thankfully accepted the offer. At the wish of the donor the name of the "Jyotirmoyee Silver Jubilee Medal" was changed to "Jyotirmoyee Silver Jubilee Commemoration Medal" (*vide* Syndicate resolution No. 106, dated August 16, 1935). $3\frac{1}{2}\%$ G. P. Notes of the face value of Rs. 1,500 was received from the donor and vested in the Treasurer of Charitable Endowments, Bihar (*vide* Government Notification No. 2100-L-S-G., dated February 21, 1936).

No medal was awarded in 1935 for want of funds.

(18) RABINDRA NATH DUTT MEMORIAL MEDAL.

To perpetuate the memory of his deceased son Rabindra Nath Dutt, Mr. Brajendra Nath Dutta, Dewan, Hathwa Raj offered Rs. 1,500 for endowing a medal to be called "Rabindra Nath Dutt Memorial Fund" to be awarded annually to the successful student who secures the highest marks in Economics (with Honours) at the B.A. Examination. The Syndicate, at their meeting held on August 20, 1937, accepted the offer (*vide*

Syndicate Resolution No. 138), and $3\frac{1}{2}\%$ G. P. Notes of the face value of Rs. 1,500 were purchased. These $3\frac{1}{2}\%$ G. P. Notes have been vested in the Treasurer of Charitable Endowments, Bihar, (*vide* Government Notification No. 2327-E, dated December 14, 1937).

(19) HARENDRANATH-MANORAMA MITRA SCHOLARSHIP.

To perpetuate the memory of Harendranath Mitra, deceased son of Rai Sahib Annada Prasad Mitra, Retired Inspector of Schools, Patna Division, and of his son's deceased wife Manorama Mitra, the sum of Rs. 1,000 was endowed by the Rai Sahib for the award of a scholarship to be called "Harendranath-Manorama Mitra Scholarship" to the deserving student who after passing the I.Sc. examination joins the B.Sc. class with Mathematics and Chemistry as his combination and who fails to secure a Government or other scholarship. It was the wish of the donor that the sum of Rs. 1,000 might be placed in Fixed Deposit @ 6 per cent. for six years with the Provincial Co-operative Bank, Ltd., Patna, and that at the end of five years, the sum of Rs. 1,000 would amount to Rs. 1,350 with interest. The interest at 6 per cent. per annum accruing from Rs. 1,350 would at the end of 5 years make it possible to award Rs. 6-8-0 or Rs. 7 a month either in two scholarships or in one. In the latter case the award will have to be made once every two years, and in the former one scholarship every year.

The Syndicate, at their meeting held on March 12, 1927, accepted the above terms of the donor.

An additional sum of Rs. 200 was received in the year 1932. A further sum of Rs. 500—Rs. 200 in cash and Rs. 300 in Government Promissory Notes—was received in the year 1933. The whole amount has been invested in $3\frac{1}{2}\%$ Government Promissory Notes of the face value of Rs. 2,700 and vested in the Treasurer of Charitable Endowments, Bihar (*vide* Government Notification No. 288-E, dated January 16, 1936).

The Syndicate at their meeting held on March 27, 1933 resolved that a scholarship of Rs. 5 be awarded in alternate years with effect from session 1933-34.

(20) THE SIR GANESH DUTTA SINGH LOAN SCHOLARSHIP.

The Hon'ble Sir Ganesh Dutta Singh made over to the University a sum of rupees one lakh in Government Paper and cash as detailed below for creating "The Sir Ganesh Dutta Singh Loan Scholarship Fund":—

			Rs.	A.	P.
6%	Bonds of 1933-36 of the face value of				
	Rs. 69,000	...	68,827	8	0
6½%	Treasury Bonds of 1935 of the face value				
	of Rs. 24,000	...	23,940	0	0
Cash	7,232	8	0
TOTAL			Rs. 1,00,000	0	0

The 6% Bonds and 6½% Treasury Bonds and the money have since been converted into 4% Loan of 1960-70 and 1951-54 respectively and 3½% Government Paper. The face value of the Government paper as it stands now are given below:—

4%	Loan of 1960-70 of the face value of	...	Rs. 69,000
3%	Loan of 1951-54	...	„ 25,000
3½%	Government Paper	...	„ 29,900
TOTAL			Rs. 1,23,900

The amount has been vested in the Treasurer of Charitable Endowments, Bihar (*vide* Government Notification No. 618-E, dated February 5, 1936).

SCHOLARS:

SYNDICATE'S ANNUAL REPORT
FOR 1937 ·

SYNDICATE'S ANNUAL REPORT FOR 1937.

I. *Scope of the Report.*—The Report covers the calendar year January 1st to 31st December, 1937.

II. *The Chancellor.*—His Excellency Sir James David Sifton, K.C.S.I., K.C.I.E., I.C.S., became Chancellor on April 7, 1932, and continued to be the Chancellor up to October 11, 1934. His Excellency Mr. J. T. Whitty, C.S.I., C.I.E., I.C.S., acted as Chancellor from October 12 till 10th February, 1935. His Excellency Sir James David Sifton, K.C.S.I., K.C.I.E., I.C.S., became Chancellor from 11th February, 1935 and continued to be the Chancellor till 10th March, 1937. His Excellency Sir Maurice Garnier Hallett, K.C.S.I., C.I.E., B.A. (Oxon), I.C.S. became Chancellor from 11th March, 1937 and continued to be the Chancellor till the end of the year 1937.

III. *The Senate.*—Under regulation 1 of Chapter XLI of the Regulations one-fifth of the Representative and Nominated Fellows were due to retire in November, 1937. A drawing of lots was held on July 21, 1937, with the result that the following Fellows were balloted out :—

1. *Class III (i)*—COLLEGE TEACHERS.

1. Rai Bahadur T. N. Banarji.
2. Mr. B. V. Roy.
3. Rai Sahib N. C. Banarji.
4. Mr. B. K. Chattarji.
5. Mr. B. Sanjana.

The seats of Mr. J. Tullis and Capt. P. B. Mukharji were vacant.

2. *Class III (ii)*—SCHOOL TEACHERS.

The number of Fellow elected from the constituency of School Teachers in 1932 was 1, but as there were 4 vacancies in this class, no lot was drawn.

3. *Class III (iii)*—REGISTERED GRADUATES.

Number to be drawn 4.

As a result of drawing lots the following Fellows balloted out :—

1. Miss S. B. Hazra.
2. Mr. G. P. Shahi.
3. Mr. S. K. P. Sinha.
4. Mr. Godavaris Misra.

4. *Class III (iv)*—ASSOCIATION OR PUBLIC BODIES.

The number of Fellow elected from the constituency of Association or Public Bodies in 1932 was 1 and therefore no lot was drawn.

5. *Class III (v)*—LEGISLATIVE ASSEMBLY, BIHAR, LEGISLATIVE COUNCIL, BIHAR, AND LEGISLATIVE ASSEMBLY, ORISSA.

All the five seats are vacant as the old Legislative Council is not in existence. No lot was, therefore, drawn.

6. *Class IV*—NOMINATED FELLOWS.

Number to be drawn was 2.

As a result of drawing lots the following Fellows were balloted out :—

1. Dr. S. C. Sarkar.
2. The Rt. Rev. B. J. Sullivan.

The election to fill the above vacancies was held on October 2, 1937 and the following were elected :—

REGISTERED COLLEGE TEACHERS.

Rai Sahib N. C. Banarji.	Mr. B. Sanjana.
Dr. Basudeva Narayan.	Mr. G. H. Sinha.
Mr. Bhagwat Prasad.	Rai Bahadur T. N. Banarji.
Mr. B. V. Roy.	

REGISTERED SCHOOL TEACHERS.

Tirhut Division	... Mr. Ram Narayan Lal.
Bhagalpur Division	... Rai Sahib Siddhinath Misra.
Chota Nagpur Division	... Mr. Gokuleshwar Sahay.
Orissa	... Rai Sahib Bankanidhi Patnaik.

REGISTERED GRADUATES.

Mr. Ganesh Prasad Shahi.	Mr. Lingaraj Misra.
Mr. S. K. P. Sinha.	Mr. Godavaris Misra.

LEGISLATIVE ASSEMBLY, ORISSA.

Mr. Nanda Kishore Das.

Sri Govind Chandra Thatraj Bahadur.

The following gentlemen were re-nominated :—

Dr. S. C. Sarkar.

The Rt. Rev. B. J. Sullivan.

Meetings of the Senate were held on March 17, and November 26, 1937.

Among the important business considered by the Senate may be mentioned the following :—

(1) Amendment to regulation 21 of Chapter XXVII of the Regulations.

(2) Amendments to regulation 23 of Chapter XXVI of the Regulations.

(3) Amendment to Chapter XI of the Regulations.

(4) Amendments to regulation 2 of Chapter VI of the Regulations.

(5) Amendment to Chapters XXVII and XXXV of the Regulations.

(6) Amendments to regulation 6(1), of Chapter XXV of the Regulations.

(7) Admission of the B. N. College up to the I.A. standard in Elementary Economics and Public Administration with effect from the session 1937-38.

(8) Admission of the Patna College up to the I.A. standard in Elementary economics and Public Administration with effect from the session 1937-38.

(9) Extension of admission granted to the Ranchi Zila School in respect of the I.A. classes for a further period of two years with effect from the session 1937-38.

(10) Admission of the G. B. B. College, Muḡaffarpur, up to the I.A. standard in Elementary Economics and Public Administration with effect from the session 1937-38.

(11) Admission of Patna College in Hindi up to the B.A. Honours and M.A. standards with effect from the session 1937-38.

(12) Admission of the T. N. J. College, Bhagalpur, in Economics up to the B.A. Honours standard with effect from the session 1937-38.

(13) Admission of the T. N. J. College, Bhagalpur, in Hindi as a principal subject up to the B.A. standard with effect from the session 1937-38.

(14) Amendments to regulations 24(2) and 2(3) of Chapters XXVI and XXIX respectively of the Regulations.

(15) Extension of admission granted to the Ravenshaw College up to the B.Sc. Honours standard in Physics, Chemistry and Botany for a further period of two years with effect from the session 1937-38.

IV. *The Syndicate*.—Vacancies occurred among the members of the Syndicate and these were filled by the election of :—

(1) Mr. S. M. Haq *vice* Mr. N. Niyogi (term expired) (from among whole-time members of the staff of a college in the Faculty of Arts) ;

(2) Rai Bahadur Dr. T. N. Banarjee was duly re-elected as a member of the Syndicate (from among the whole-time members of the staff of a college in the Faculty of either Medicine or Engineering) ;

(3) Mr. S. N. Sahay was elected (from among persons who were not members of the staff of a college or a school in any Faculty) *vice* Mr. K. P. Jayaswal (deceased) ;

(4-5) Messrs. Baldeva Sahay and S. K. P. Sinha were re-elected from among persons who were not members of the staff of a college or school in any Faculty ;

(6) Mr. Gajendra Prasad Das was re-elected to the seat reserved or permanent residence in Orissa from among persons who are not members of the staff of a college or school in any Faculty.

The Syndicate met on twelve occasions during the year, the number of resolutions passed was five hundred and sixty-four. As in previous years, in many cases several items of the same nature were included under one resolution, and the action taken by the Vice-Chancellor under the authority delegated to him by the Syndicate, also came under review. A great part of the work of the Syndicate was again done for it by Committees.

Thus—

(1) *The Finance Committee* met on five occasions. It scrutinized and checked the monthly statements of income and expenditure. It prepared the annual Budget Estimates for submission to the Senate, through the Board of Accounts.

(2) *The Committee of University Inspectors*. Law College Section met on two occasions, Medical Section on one occasion and Arts and Science Section on two occasions.

There are standing Committees of the Senate which report to the Syndicate and whose reports are subject to confirmation by the Syndicate.

(i) *The Students Residence Committee*.—Most of the work of the Committee continues to be performed by the Government Committee dealing with the residence of school and college students in Bankipore.

(ii) *The Transfer Committee* met to consider applications for condonation of late admission. A large part of the work of this Committee was done by circulation of papers among its members.

(iii) *The University Library General and Executive Committees*.—Their work is reported in the section dealing with the University Library.

V. *The University Examination Delegacy for Secondary Education* met on four occasions during the year. The action taken by the President under the authority delegated to him also came under review.

VI. *The Faculties*.—The Faculties of Arts, Science, Law, Education, Engineering and Medicine met on three occasions. The Joint Faculties of Arts and Science and Arts, Science and Education met on two occasions. The Joint Faculty of Science and Medicine met on two occasions. The Courses of Study for the I.A., I.Sc., B.A., B.Sc., M.A., M.Sc., Law, Diploma in Education, Bachelor of Civil Engineering, M.B., B.S., and Matriculation examinations were recommended to the Syndicate and subsequently published.

VII. *Boards of Studies*.—These Boards met as usual and their reports, submitted to the Faculties concerned, formed the basis for the Courses of Study prescribed by the Faculties.

VIII. *Postgraduate and Higher Degree Work*.—The University has continued to provide for and encourage research work by the grant of research scholarships.

IX. *The Annual Report of the Library General Committee for the year 1936*.

The report covers the period from January to December, 1936.

The Library General Committee met twice and the Library Executive Committee three times during the year.

The annexed statement shows the amounts available for expenditure on books for the General Library, the Bayley Memorial Collection and the Banaili Economics section.

General Library Fund.

The amount available for expenditure was Rs. 7,199-13-11. The expenditure during the year under report amounted to Rs. 4,022-1-8. A sum of Rs. 3,177-12-3 left unspent was carried over for expenditure during the current year as some lists of books were received towards the close of the year 1936. The orders for books of that value were placed in 1936 but the books were received during the current year.

The total number of books in the General Library was 15,507 including 1,173 volumes added during the year under report.

Bayley Memorial Collection Fund.

The amount available from this fund was Rs. 7,594-14-6 and the expenditure amounted to Rs. 3,298-12-11. There was a balance of Rs. 4,296-1-7 which was carried over for expenditure during the current year. G. P. Notes of the face value of Rs. 1,21,500 were transferred to the Treasurer, Charitable Endowments, Bihar, under Government Notification No. 149-E dated the 8th January, 1936. The Imperial Bank of India, Patna Branch, charged Rs. 303-12-0 for the withdrawal of the Government Papers for transmission to the said Treasurer as their fee for keeping them in safe custody since the Government Papers were purchased up to the date of their withdrawal. This was done with the sanction of the Board of Accounts.

The total number of books in this Collection was 7,613 including 277 added during the year 1936.

Banaili Economics Section.

Rs. 338-8-2 was available for expenditure from this Fund of which Rs. 81-2-0 only was spent during the year under report. Nothing was spent on the purchase of books. Government Papers of the face value of Rs. 3,700 were withdrawn from the safe custody of the Imperial Bank and they were transferred to the Treasurer Charitable Endowments, under Government Notification No. 80-E. dated the 4th January, 1936, with the sanction of the Board of Accounts.

The total number of books in this section was 490.

2. The Library was inspected by Messrs. J. S. Armour and J. L. Hill on March 12, 1936. This inspection covered a period

of 20 months, *i.e.*, from the 25th April, 1934 to 31st December, 1935.

The following recommendations of the inspectors were accepted by the Syndicate :—

(a) That the books presented by Lt.-Col. Owen Berkeley-Hill of Ranchi be housed in the University Library when the extension is completed.

(b) That rule 1 of the Library Rules should read as follows :—

“I. (a) The Library is for the use of Fellows, University Professors, Assistant Professors, Assistants to Professors, Readers, Lecturers, Assistant Lecturers of the University, Registered Graduates, students of the University post-graduate classes, research students working under University Professors, and students of the Colleges admitted to the Patna University and they alone have the privilege of using it subject to the Rules.

Note.—Until the teaching University at Patna is established, Professors and Lecturers of admitted colleges, shall be entitled to the same privileges as Fellows.”

(c) That during the summer when the colleges are closed the Library should open in the early morning and late in the evening, *i.e.*, from 7-30 to 11 a.m. and from 3 to 7 p.m.

(d) That the annual list of additions continue to be printed and that estimates for printing the list of books acquired in 1931-33, which has not been printed, be called for.

Accordingly the lists of additions made in 1934-35, and 1936 were printed and circulated. The list for 1931-33 is in the press.

3. The total number of books lent to the Science College up to December, 1936 was 297 of which 10 new volumes were lent during the year.

4. 15,253 volumes were taken out of the Library for home study as against 11,190 in 1935. The average number of daily readers was 22. The number of depositors was 263 up to December, 1936.

A statement of accounts is appended.

KAMALA PRASHAD,

Registrar.

X. *University Printing*:—The University continues to employ private presses for its printing. The following publications have been issued during the year under report :

- (i) The Volume of Calendar for 1936-37.
- (ii) Minutes of the Senate, etc. for 1936-37.
- (iii) Early Persian Poets of India by Dr. Iqbal Hosain.

XI. *Inspection of Colleges*:—During the period under report the following colleges were inspected by the University Inspectors.

Name of College.	Inspected by	Inspected on
Ravenshaw Law Classes, Cuttack	(1) Mr. Justice F. G. Rowland (2) Mr. S. S. Alam	} April 19, 1936
Ravenshaw College, Cuttack	(1) Mr. S. M. Huq, O.B.E. (2) Mr. A. T. Mukherjee	} December 3, 1936
Nalanda College, Biharsharif	(1) Mr. J. S. Armour (2) Mr. Gorakh Nath Sinha	} September 27, 1937
Patna Law College,	(1) Mr. Justice S. Fazal Ali (2) Mr. Justice S. P. Varma	} December, 1937

XII. *Admitted Colleges*:—The number of admitted colleges remained the same as in previous years.

The number of students in all the admitted colleges during 1936-37 was 5,898 as compared with 5,267 in 1935-36 and 4,726 in 1934-35.

XIII. *Number of approved high schools* was 240 as against 227 in 1936.

XIV. *Government grant to the University*:—

(a) For Establishment

(i) Bihar Government Rs. 18,000.

(ii) Orissa Government Rs. 2,000.

(b) For Students' Information Bureau Rs. 1,400.

XV. *The Budget* for the year 1937 was passed by the Senate on November 24, 1936. The accounts for the year 1937 are given in Appendix I.

XVI. *The University Provident Fund* was started on the 1st of July, 1918. A statement of the accounts up to December, 1937, will be found in Appendix II.

XVII. *Trust Funds*:—(i) The G. P. Notes of the face value of Rs. 5,000 were purchased for the Reserve Fund.

(ii) Out of the "Rai Bahadur Ganga Prasad Singh Chair of Hindi Fund" a lecturer has been appointed on Rs. 144-7-200 to teach Hindi in Post-graduate Classes at Patna College.

(iii) Mr. Brajendra Nath Dutta, Dewan, Hathwa Raj, has offered Rs. 1,500 for endowing a gold medal to be called "Rabindra Nath Dutt Memorial Medal" in order to perpetuate the memory of his deceased son Rabindra Nath Dutt. The medal is to be awarded annually to the successful student who secures the highest marks in Economics (with Honours) at the B.A. examination.

Out of this sum 3½% G. P. Notes of the face value of Rs. 1,500 have been purchased and vested with the Treasurer of Charitable Endowments, Bihar.

A statement is appended showing the present state of the Trusts, Reserve, and other Funds (see Appendix III). G. P. Notes belonging to the Trust Funds are all vested in the Treasurer of Charitable Endowments, Bihar.

XVIII. *University Research Scholarships*:—Scholarships were granted to Messrs. Shambhoodutt Tewary, Rambhari

Singh for two years with effect from January 1 and March 30, 1937 respectively.

XIX. *The University Office Staff*:—The following list shows the pay of the posts in the Registrar's Office during the year 1937:—

Serial No.	Name of Officer	Designation	First Appointment	Grade	Present Pay	REMARKS
Officers :						
1	Raj Bahadur Kamala Prashad, B.A.	Registrar	1931	750-50-1,000	1000	
2	Mirza Akhtar Hosain, Esq., M.A.	Asst. Registrar	1925	300-40-500	500	
Assistants :						
1	Raj Saheb, Mrityunjaya Chatterji ...	Head Assistant	1917	175-12½—250	250	Also draws a personal allowance of Rs. 30 a month
2	B. Seetal Prasad ...	Accountant	1917	100-10-150	150	Also draws a personal allowance of Rs. 20 a month
3	B. Basudeva Sinha, B.A. ...	Asst. to Accountant	1932	40-2-50	50	
4	B. Lakshmana Prasad ...	Cashier	1918	75-5-100	100

16	B. Dhan Kumar Lal	Examination Clerk	1926	45-2-55	55	
17	Pt. Ganga Prasad Tewari, ...	1st Library Assistant	1919	75-5-100	100	
18	M. Sayed Abdul Jalil, ...	2nd ..	1931	75-5½-100	90	
19	B. Ramanugrah Narain ...	Additional Typist	1930	40-1-50	44	
20	Pt. Sadanand Jha ...	Proof Reader	1937	50-3½-80	50	

During the period of high pressure in examination work, temporary clerks were employed in order to get through the work in the short time at the disposal of the office. The cost at both the Annual and Supplementary examinations together amounted to Rs. 552-8-9.

XX. Examination results.

MATRICULATION EXAMINATION, 1937.

(a) *Annual*.—The number of candidates for the examination held in February, 1937 was 5491, of whom 2879 passed, 2272 failed, 340 were absent and 4 were expelled. Of the successful candidates, 120 were placed in the First Division, 1248 in the Second Division, 1506 in the Third Division and 5 passed in single subjects. Of the unsuccessful candidates, 1771 failed in English, 572 in vernacular composition, 531 in Compulsory Classical Language, 27 in Elementary Physics and Chemistry, 428 in Compulsory Mathematics, 1131 in History and Geography and 53 in the aggregate. In additional papers, out of 2633 candidates in Additional Mathematics 305 failed, out of 2144 candidates in Additional second languages 144 failed, out of 63 candidates in Mechanics 9 failed, out of 3 candidates in Botany all passed, out of 37 candidates in Commerce 2 failed, out of 59 candidates in Manual Training all passed, out of 108 candidates in Drawing 12 failed, out of 15 candidates in

Domestic Science all passed, out of 16 candidates in Elementary Physics and Chemistry 2 failed and in Music 1 appeared and passed.

(b) *Supplementary*:—The number of candidates for the examination held in June, 1937, was 1335 of whom 818 passed, 511 failed and 6 were absent and 1 was expelled. Of the successful candidates 2 were placed in the First Division, 90 were placed in the Second Division, 332 were placed in the Third Division and 394 passed in compartmental. Of the unsuccessful candidates, 385 failed in English, 112 failed in Vernacular Composition, 110 in Compulsory Classical Language, 109 in Mathematics, 171 in History and Geography, 8 in Elementary Physics and Chemistry and 20 in Aggregate. In Additional Papers, out of 383 candidates in Additional Classical Languages, 6 failed, out of 406 in Additional Mathematics, 38 failed and out of 15 in Manual Training, 23 in Drawing, 5 in Mechanics, 4 in Commerce, 3 in Elementary Physics and Chemistry, 2 in Domestic Science and one in Music all passed.

INTERMEDIATE EXAMINATION IN ARTS, 1937.

(a) *Annual*:—The number of candidates who were registered for the examination held in February, 1937 was 964, of whom 511 passed, 382 failed, 71 were absent and 1 was expelled. Of the successful candidates 6 were placed in the First Division, 49 in the Second Division, 442 in the Third Division and 6 passed in single subjects. Of the unsuccessful candidates 245 failed in English, 99 in Vernacular Compositions and 2 in the aggregate. Out of 713 in Classical language 105 failed, out of 660 in History 183 failed, out of 767 in Logic 133 failed, out of 268 in Mathematics 36 failed, out of 92 in Economics 14 failed, out of 60 in Geography 12 failed, out of 13 in Chemistry 4 failed, out of 13 in Botany 11 failed, out of 16 in Education 2 failed and in Domestic Science 3 appeared and none failed.

(b) *Supplementary*:—The number of candidates who were registered for the examination held in the month of June, 1937 was 209 of whom 100 passed, 106 failed and 3 were absent. Of the successful candidates 2 passed in the Second Division, 79 in the Third Division and 19 passed by compartmental. Of the unsuccessful candidates 91 failed in English, 15 in Vernacular Composition, and only one in the aggregate. Out of 160 candidates in Classical languages 21 failed, out of 157 in History 41 failed, out of 162 in Logic 20 failed, out of 54 in Mathematics

15 failed, out of 26 in Economics 5 failed, out of 12 in Geography 3 failed, out of 4 in Botany 1 failed, out of 8 in Education, 1 in Chemistry and 1 in Domestic Science none failed.

INTERMEDIATE OF SCIENCE EXAMINATION, 1937.

(a) *Annual*:—The number of candidates who were registered for the examination held in the February, 1937 was 415 of whom 206 passed, 186 failed and 23 were absent. Of the successful candidates 12 were placed in the First Division, 41 in the Second Division, 152 in the Third Division and 1 passed in Single Subject. Of the unsuccessful Candidates 98 failed in English and 46 in Vernacular Composition. Out of 390 candidates in Mathematics, 46 failed, out of 390 candidates in Chemistry, 114 failed, out of 390 candidates in Physics, 127 failed, and out of 15 candidates in French, 3 in German and 3 in Botany all passed.

(b) *Supplementary*:—The number of candidates who were registered for the examination held in June, 1937 was 107 of whom 61 passed, 45 failed and one was absent. Of the successful candidates only one was placed in the Second Division, 41 in the Third Division and 19 passed under the regulation for compartmental. Of the unsuccessful candidates 36 failed in English and 5 in Vernacular Composition. Out of 89 candidates in Mathematics 11 failed, out of 92 candidates in Chemistry 18 failed, out of 95 in Physics 21 failed and in Botany only one appeared and passed.

BACHELOR OF ARTS EXAMINATION, 1937.

(a) *Annual*:—The number of candidates who were registered for the examination (Pass and Honours) held in February, 1937 was 512 of whom 276 passed, 178 failed, 58 were absent and one was expelled. Of the successful candidates 11 obtained First Class, 78 Second Class, 2 Passed with Distinction and 185 were placed in the Pass List. Of the unsuccessful candidates 101 failed in English, 22 in Vernacular Composition and 9 in aggregate. Out of 204 candidates in Classical languages, 17 failed, out of 250 candidates in Economics, 55 failed, out of 211 in History, 42 failed, out of 92 in Mathematics, 28 failed, out of 22 in Geography, 4 failed and 1 appeared in Botany and passed.

(b) *Supplementary*:—The number of candidates who were registered for the examination held in July, 1937 was 130 of whom 89 passed, 38 failed and 3 were absent. Of the successful

candidates 2 obtained distinction and 87 were placed in the Pass List. Of the unsuccessful candidates 27 failed in English, 8 in Vernacular Composition and one in aggregate. Out of 56 candidates in Classical languages 1 failed, out of 60 in History, 7 failed, out of 76 in Economics, 10 failed, out of 24 in Philosophy, 4 failed, out of 29 in Mathematics, 8 failed and in Geography and Botany one candidate appeared in each and passed.

BACHELOR OF SCIENCE EXAMINATION, 1937.

(a) *Annual*:—The number of candidates who were registered for the examination (Pass and Honours) held in February, 1937 was 99 of whom 75 passed, 22 failed and 2 were absent. Of the successful candidates 3 obtained First Class Honours, 21 Second Class, 14 passed with Distinction and 37 were placed in the Pass List. Of the unsuccessful candidates 8 failed in Mathematics, 8 in Chemistry, 12 in Physics and one in Honours subjects.

(b) *Supplementary*:—The number of candidates who were registered for the examination (Pass) held in the month of June, 1937 was 12 of whom 7 passed and 5 failed. Of the successful candidates 3 passed with Distinction and 4 were placed in the Pass List. Of the unsuccessful candidates 2 failed in Chemistry and 4 in Physics.

MASTER OF ARTS EXAMINATION, 1937.

The examination was held in July, 1937 in 9 subjects, namely, English, History, Economics, Philosophy, Sanskrit, Persian, Hindi, Urdu and Mathematics. Out of 47 candidates in English 22 passed, out of 25 candidates in History 16 passed, out of 25 in Economics 16 passed, out of 4 candidates in Philosophy 3 passed, out of 6 in Sanskrit 3 passed, out of 2 in Persian all passed, out of 10 in Hindi 5 passed, out of 5 in Urdu 3 passed and out of 4 in Mathematics 3 passed. The total number of candidates were 128, of whom 73 passed, 19 failed and 36 were absent.

MASTER OF SCIENCE EXAMINATION, 1937.

The examination was held in July, 1937 in 3 subjects, namely, Mathematics, Physics and Chemistry. The total number of candidates was 20 of whom 10 passed, 7 failed and 3 were absent. Out of 8 candidates in Mathematics 3 passed, out of 5 in Physics 2 passed and out of 7 in Chemistry, 5 passed.

DIPLOMA IN EDUCATION, 1937.

The examination was held in March, 1937. There were 66 candidates of whom 52 passed, 10 failed and 4 were absent. 4 passed with Distinction and 48 were placed in the Pass List.

MASTER OF EDUCATION EXAMINATION, 1937.

The examination was held in April, 1937. There were 10 candidates registered, of whom 6 passed, 2 failed and 2 were absent. Of the successful candidates 2 passed in the Second Division and 4 were in the Third Division.

BACHELOR OF CIVIL ENGINEERING
EXAMINATION, 1937.

The examination was held, in March, 1937. 13 were registered for examination of whom 11 passed and 2 failed. Of the successful candidates 7 were placed in the Second Division and 4 in the Third Division.

INTERMEDIATE EXAMINATION IN CIVIL
ENGINEERING, 1937.

The examination was held in March, 1937. The number of candidates were 18 of whom 12 passed and 6 failed. Of the successful candidates one was placed in the First Division, 3 in Second Division and 8 in the Third Division.

FIRST M.B., B.S. EXAMINATION, 1937.

The Annual examination was held in January, 1937. 31 candidates were registered of whom 24 passed and 7 failed. Of the unsuccessful candidates 6 failed in Botany and 4 in Zoology.

The Supplementary examination was held in March, 1937. 17 candidates were registered of whom all came out successful.

SECOND M.B., B.S. EXAMINATION, 1937.

PART I.

The Annual examination was held in March, 1937. 44 candidates were registered, of whom 28 passed and 16 failed. Of the unsuccessful candidates 6 failed in Organic Chemistry and 16 in Materia Medica.

The Supplementary examination was held in September, 1937. 15 candidates were registered, of whom 11 passed and 4 failed. Of the unsuccessful candidates 4 failed in Materia Medica and 2 in Organic Chemistry.

SECOND M.B., B.S. EXAMINATION, 1937.

PART II.

The Annual examination was held in March, 1937. 42 candidates were registered, of whom 25 passed and 17 failed. Of the unsuccessful candidates 17 failed in Anatomy and 11 in Physiology.

The Supplementary examination was held in September, 1937. 19 candidates were registered of whom 6 passed, 12 failed and one was absent. Of the unsuccessful candidates 10 failed in Anatomy and 5 in Physiology.

FINAL M.B., B.S. EXAMINATION, 1937.

PART I.

The Annual examination was held in March, 1937. 31 were registered, of whom 19 passed, 11 failed and one was absent. Of the unsuccessful candidates 6 failed in Pathology, 2 in Forensic Medicine, 3 in Hygiene and 9 in Pharmacology.

The Supplementary examination was held in September, 1937. 29 candidates were registered, of whom 11 passed and 18 failed. Of the unsuccessful candidates 8 failed in Pathology, 5 in Forensic Medicine, 7 in Hygiene and 7 in Pharmacology.

FINAL M.B., B.S. EXAMINATION, 1937.

PART II.

The Annual examination was held in March, 1937. 42 candidates were registered, of whom 21 passed and 21 failed. Of the unsuccessful candidates 9 failed in Medicine, 11 failed in Surgery, 11 in Midwifery and 6 in Ophthalmology.

The Supplementary examination was held in September, 1937. 31 were registered of whom 17 passed, 11 failed and 3 were absent. Of the unsuccessful candidates 5 failed in Medicine, 6 in Surgery, 6 in Midwifery and 3 in Ophthalmology.

LAW EXAMINATION, 1937.

The examinations were held in January and June, 1937.

January, 1937:—At the LAW EXAMINATION, PART I, there were 129 candidates, of whom 92 passed, 25 failed and 12 were absent. Of the unsuccessful candidates one failed in Juris-

prudence, 6 in Constitutional Law, 5 in Law of Crime, 2 in Law of Contract and 3 in Aggregate.

At the LAW EXAMINATION, PART II, there were 89 candidates of whom 66 passed, 13 failed and 10 were absent. Of the unsuccessful candidates 2 failed in Equity, one in C. P. C. and 9 in Aggregate.

June, 1937 :—At the LAW EXAMINATION, PART I, there were 111 candidates, of whom 42 passed, 52 failed and 17 were absent. Of the unsuccessful candidates 17 failed in Jurisprudence, 3 in Constitutional Law, 38 in Law of Crime, and 4 failed in Aggregate.

At the LAW EXAMINATION, PART II, there were 134 candidates, of whom 53 passed, 61 failed and 20 were absent. Of the successful candidates 2 obtained First Class and 51 Second Class. Of the unsuccessful candidates 11 failed in Equity, 4 in C. P. C., 27 in Transfer of Property, 9 in Mohammedan Law and 50 failed in Aggregate.

BACHELOR OF ORIENTAL LEARNING EXAMINATION, 1937.

The examination was held in February, 1937. 3 candidates were registered of whom 2 passed and one was absent.

PATNA UNIVERSITY

COURSES OF STUDY

FOR THE

MATRICULATION EXAMINATION, 1940.

ENGLISH

The Matriculation Examination in English shall be a test (a) of ability to write clear, simple and correct English, (b) of intelligent comprehension of plain modern English on familiar subjects.

Questions shall be set under the following heads :—

- (a) Simple prose passages.
- (b) Grammar and composition.
- (c) Translation from one of the recognized vernaculars into English.
- (d) Simple essays.
- (e) Questions on the prescribed texts.

Candidates may be asked to explain, summarize, or paraphrase the passages set, or to answer any question thereon which will test their understanding of the meaning and the construction. Historical, geographical and literary allusions shall be excluded.

The head "Grammar and Composition" shall include :

- (a) Questions involving the practical application of the elementary rules of Grammar ;
- (b) Questions on the right use of words and phrases ; and
- (c) Exercise in Composition.

Passages for translation may be narrative or descriptive, or may consist of simple conversations on ordinary subjects. They must be such as may be easily rendered from the one language into the other. They shall, where possible, be taken from recognized vernacular authors and they shall not consist of any translation made for the purpose of the examination from English into the vernacular.

Questions in original composition (essays, letter-writing, etc.) may include *two* essays, giving in one case not merely the subject but also the heading under the subject for the candidates to expand in their own words, and in the other merely the subject without headings.

There shall be *Two* papers in English. Each paper shall be of *three* hours and shall carry 100 marks.

The distribution of the heads and of marks in the two papers shall be as follows :—

Paper I.

- (a) Translation from a vernacular (Hindi, Urdu, Oriya, Bengali or Nepali) into English; *two* passages of about 20 lines each of print shall be set, of which only *one* must be attempted 30 marks.

Note.—For students, other than students of Anglo-Indian schools, whose mother tongue is not one of the recognized vernaculars, alternative questions shall be set in English Composition. Students from Anglo-Indian schools shall be required to obtain not less than 36 per cent of the marks assigned to translation from a vernacular into English.

- (b) Short prose passages, *one* from each of the recommended books, of which *two* are to be attempted 30 marks

- (c) Original Composition (essays, letter-writing, etc.) 40 marks.

Paper II.

- (a) Questions on the prescribed prose text .. 40 marks.
 (b) Questions on the prescribed poetry text .. 30 marks
 (c) Grammar and composition 30 marks.

PRESCRIBED TEXTS.

Prose.

Patna University Prose Selections

Poetry.

The Dragon Book of Verse, Book 1 (O. U. P.)

GEOGRAPHY.

(MATRICULATION, 1940).

There shall be one paper in this subject. The paper shall be of three hours and shall carry 100 marks.

The course shall include the following syllabus :—

A —Mathematical and Physical Geography .. 30 marks.

The Shape of the Earth. Its movements and their effects (days, nights and seasons). Zones, Latitude and Longitude, their determinations.

General distribution of Land and Water.

Lithosphere. Earth's crust—Igneous, Sedimentary and Metamorphic rocks. Weathering and the agents of denudation. Rivers, Glaciers, Springs, Icebergs, Volcanoes, Earthquakes.

Hydrosphere, Ocean Currents. How caused and their effects on climate.

Important currents of the Atlantic and the Pacific Oceans, Tides. How caused and their effects on commerce,

Atmosphere. Atmospheric Pressure and its Measurement. Movements of the Atmosphere and their causes. Trade and Antitrade Winds. Land and Sea breezes, Monsoons. Occasional winds. Moisture in Atmosphere. Dew, Fog, Mist, Hail, Snow. Clouds.

Climate and Weather. Factors determining climate. Broad Types of World-Climate.

Zones of Vegetation

B.—General Geography of the World .. 30 marks.

Position and Relative sizes of different continents, their boundaries, shapes, coast lines, islands, surface and Relief (Important mountains, plains, rivers, and lakes), Climate and its broad division into Climatic and Vegetation Zones. Political divisions (different countries and their capitals.)

A more detailed knowledge of the British Empire will be expected.

Different countries forming the British Empire ; broad division of each country into natural regions and a very brief account of the human activities of each region in so far as they are influenced, at least practically, by geographical conditions. Other important factors influencing their development. Chief means of communication. Important towns and factors influencing their growth and development. Chief ports and trade routes, foreign and empire trade, how each part of the empire is interdependent on the other.

Students may be required to draw outline maps of the British Isles and to fill up important details in given outline maps of the different continents.

C.—Detailed Geography of India .. 40 marks.

Boundaries and extent;

Natural regions and surface features.

Distribution of economic minerals.

Climate.

Vegetation, Forest Pasture-land, Agricultural land and Desert. Areas rendered cultivable by systems of Irrigation, Brief account of systems of Irrigation. The distribution of important Timbers, Food stuffs and Fibrous stuffs and causes favouring their growth.

Animal life. The principal animals and their distribution.

Industries. The leading industries and their location. Circumstances favouring their growth.

Relative density of population and factors controlling it.

Means of Communication, Chief roads, Water-ways, Railways, Airways and factors controlling these.

Commerce. The principal commodities exchanged and the countries of exchange. The chief ports and their leading exports.

Important towns and reasons of their importance.

A more detailed knowledge of Bihar and Orissa will be expected.

Students will be required to draw outline maps of India and of the provinces of Bihar and Orissa and may be required to fill up important details.

The following books are recommended as indicating the methods of study as well as the standard of knowledge required :—

BOOKS IN ENGLISH.

- Dudley Stamp .. The World (Longmans).
- Pickles .. India, World, and the Empire (O. U. P.)
- Dudley Stamp .. The Indian Empire (Longmans).
- J. F. Unstead .. The Practical Geography, Parts I and II.

- Bartholomew .. Indian School Atlas.
 Longmans .. Tajmahal Atlas.
 W. A. K. Johnston Enlarged Atlas for Indian Schools.
 Bacon .. All Essentials ' ' School Atlas'

BOOKS IN HINDI.

- Munshilal Agarwal .. Bhulok (Macmillan.)
 Kazimi .. Probesika Bhugol (Macmillan.)
 Mackenzie & Tydeman.. Prithvi-ka-Bhugol (Indian Press, Allahabad).
 Bharatvarsh ka Bhugol .. Ram Narayan Misra, Allahabad.
 The Hindi Versions of Dudley Stamp's Geography of the World.
 Bharatbarsh, Bhumandal, Angraji Samrajya (O. U P.)

BOOK IN URDU.

- Kazimi .. Jugharafia-i-Alam (Macmillan).
 The Urdu version of Dudley Stamp's Geography of the World.

BOOKS IN BENGALI.

- Bhattacharya .. Bhugol Prabeshika (Macmillan).
 Bhugol Bijnan published by Albert Library, Dacca.

The following book is recommended for the use of teachers in connection with the teaching of sand modelling in the lower classes of schools :—

- A. E. Frye .. The child and nature.

The following books are recommended for the use of teachers :—

- Blanford .. The Rudiments of Physical Geography for the use of Indian Schools.
 Frew .. A Regional Geography of the Indian Empire (Blackie),

Wallis	.. The teaching of Geography (Camb. University Press).
O'Malley	.. Bengal, Bihar and Orissa and Sikkim.
Lake	.. Physical Geography, (Camb. University Press).
Fairgrieve	.. The teaching of Geography in Schools (Lond. Univ. Press).
Carter	.. A Grammar of Geography, (Christophers).

'The World we live in (Waverley Book Co.)

The Essentials of World Geography (Philip & Sons.)

"The reason Why" Geographies.

Lyde—Man on the Earth (Blackie).

The Indian Empire (Longmans).

All recognised Schools are required to provide the following apparatus :—

1. A measuring tape. 2. A magnetic compass. 3. Square paper and tracing paper. 4. A globe not less than 14 inches in diameter, with writing surface and with lines of latitude and longitude and outlines only of the land masses marked upon it. 5. A map of the school locality on a scale of 4 inches or 6 inches to the mile. 6. A map of the district in which the school is situated on the scale of 1 inch to the mile. 7. A coloured map of the province. 8. A coloured political map of India. 9. A physical map of India. 10. A relief map of India. 11. A map of the world on Mollweide's equal area projection and a map of Asia. 12. A thermometer. 13. A weather cock. 14. A rain gauge. 15. A good standard atlas. 16. A collection of geographical pictures.

NOTE.—It is essential that students should be provided with drawing instruments and atlases and with necessary hand maps. A magic lantern, a School Museum and a Barometer are useful helps to the teaching of this subject.

MATHEMATICS.

(MATRICULATION, 1940).

Compulsory Paper.

There shall be one paper in Compulsory Mathematics. The paper shall be of three hours and shall carry 100 marks.

The marks shall be distributed as follows:—

Arithmetic 30 marks.
Algebra 30 marks.
Geometry 40 marks.

Besides questions on Theoretical Geometry, the question paper shall include questions designed to test the candidate's knowledge of Experimental and Practical Geometry.

The course shall include the following subjects:—

(1) *Algebra*:—The four simple rules. Simple Equations with one, two and three unknown quantities. Proportion. Easy problems. Resolution into factors. Highest Common Factor. Least Common Multiple. Fractions. Simple graphs of temperature, rain-fall, population, etc. Graphs of linear equations. Easy quadratic equations with one unknown quantity. Extraction of square root. Elementary laws of indices.

(2) *Arithmetic*:—The four simple rules. Vulgar and Decimal Fractions. Reduction. Practice. Proportion. Simple Interest. Square Root. Metric System. Square and Cubic Measure.

N. B.—Problems more Easily Solvable by Algebra should not be required to be solved Arithmetically. Abbreviated Methods of multiplication and division may be used.

(3) *Geometry*:—

PRACTICAL.

Bisection of angles and of straight lines.

Construction of perpendiculars to straight lines.

Construction of an angle equal to a given angle.

Construction of parallels to a given straight line.

Construction of triangles with given parts.

Division of a straight line into a given number of equal parts.

Construction of a parallelogram equal to a given triangle and having one of its angles equal to a given angle.

Construction of a triangle equal in area to a given rectilinear figure.

Construction of a tangent to a circle.

NOTE.—Candidates may be required to give the reasons for any particular construction involved in any question.

The use of the following instruments is permitted :—
A hard pencil, dividers, pencil compasses, and a straight ruler shewing centimetres and inches.

THEORETICAL.

[Experimental demonstrations of Theorems, wherever practicable, may be required.]

Angles at a Point.

If a straight line stands on another straight line, the sum of the two angles so formed is equal to two right angles; and the converse.

If two straight lines intersect, the vertically opposite angles are equal.

Parallel Straight Lines.

If a straight line cutting two other straight lines makes—

- (i) the alternate angles equal,
- or (ii) two corresponding angles equal,
- or (iii) the interior angles on the same side of the line supplementary,

then the two straight lines are parallel; and the converse.

Straight lines which are parallel to the same straight line are parallel to one another.

Triangles and Rectilineal Figures.

The sum of the angles of a triangle is equal to two right angles.

If the sides of a convex polygon are produced in order, the sum of the exterior angles so formed is equal to four right angles.

Two triangles are equal in every respect—

- (i) if two sides and the included angle of one triangle are respectively equal to two sides and the included angle of the other.
- (ii) if two angles and a side of one triangle are respectively equal to two angles and the corresponding side of the other.

If two sides of a triangle are equal, the angles opposite to these sides are equal ; and the converse.

Two triangles are equal in every respect if the three sides of one triangle are respectively equal to the three sides of the other.

Two right-angled triangles are equal in every respect if they have their hypotenuses equal and one side of the one equal to one side of the other.

If two sides of a triangle are unequal, the greater side has the greater angle opposite to it, and the converse.

Any two sides of a triangle are together greater than the third.

Of all the straight lines that can be drawn to a given straight line from a given point outside it, the perpendicular is the shortest.

The opposite sides and angles of a parallelogram are equal, each diagonal bisects the parallelogram, and the diagonals bisect each other.

If a series of parallel straight lines cut off equal segments on one transversal, they cut off equal segments on any other transversal.

Parallelograms on the same or equal bases and of the same altitude are equal in area.

Triangles on the same or equal bases and of the same altitude are equal in area.

Equal triangles on the same or equal bases are of the same altitude.

Illustrations and explanations of the geometrical theorems corresponding to the following algebraical identities:—

$$k(a+b+c+\dots) = ka + kb + kc + \dots$$

$$(a+b)^2 = a(a+b) + b(a+b)$$

$$a(a+b) = a^2 + ab$$

$$(a+b)^2 = a^2 + 2ab + b^2$$

$$(a-b)^2 = a^2 - 2ab + b^2$$

$$a^2 - b^2 = (a+b)(a-b)$$

The square on a side of a triangle is greater than, equal to or less than, the sum of the squares on the other two sides, according as the angle contained by those sides is obtuse, right or acute. The difference in the cases of inequality is twice the rectangle contained by one of the two sides and the projection on it of the other.

Loci.

The locus of a point which is equidistant from two fixed points is the perpendicular bisector of the straight line joining the two fixed points.

The locus of a point which is equidistant from two intersecting straight lines consists of the pair of straight lines which bisect the angles between the two given lines.

The Circle.

A straight line drawn from the centre of a circle to bisect a chord, which is not a diameter, is at right angles to the chord. Conversely, the perpendicular on a chord from the centre bisects the chord.

There is only one circle which passes through three given points not in a straight line.

In equal circles (or in the same circle) :—

- (i) If two arcs subtend equal angles at the centre, they are equal ;
- (ii) conversely, if two arcs are equal they subtend equal angles at the centre.

In equal circles (or in the same circle) :—

- (i) If two chords are equal, they cut off equal arcs ;
- (ii) conversely, if two arcs are equal, the chords of the arcs are equal.

Equal chords of a circle are equidistant from the centre ; and the converse.

The tangent at any point of a circle is perpendicular to the radius through the point.

If two tangents are drawn to a circle from an external point, (i) they are equal, (ii) they subtend equal angles at the centre of the circle.

If two circles touch one another, the point of contact lies on the straight line drawn through the centres.

The angle which an arc of a circle subtends at the centre is double that which it subtends at any point on the remaining part of the circumference.

Angles in the same segment of a circle are equal ; and if the line joining two points subtends equal angles at two other points on the same side of it, the four points lie on a circle.

The angle in a semi-circle is a right angle ; the angle in a segment greater than a semi-circle is less than a right angle and the angle in a segment less than a semi-circle is greater than a right angle.

The opposite angles of any quadrilateral inscribed in a circle are supplementary ; and the converse.

If straight line touches a circle and from the point of contact a chord be drawn, the angles which this chord makes with the tangent are equal to the angles in the alternate segments.

If two chords of a circle intersect either inside or outside the circle, the rectangle contained by the parts of the one is equal to the rectangle contained by the parts of the other.

NOTE 1.—Question on Geometry may contain easy deductions from the theorems or problems of the above schedule.

NOTE 2.—Any proof of a proposition will be accepted which appears to the Examiner to form part of a systematic treatment of the subject ; but proofs of theorems should, as far as possible, be based on first principles and obtained by analysis. The order in which the theorems are stated in the above schedule is not to be regarded as essential. In the proofs of theorems and deductions from them it shall be permissible to use hypothetical constructions. The ordinary symbolical abbreviations may be used.

NOTE 3.—In Experimental Geometry the use of mathematical instruments is permitted.

• ADDITIONAL PAPER.

There shall be one paper in Additional Mathematics ; the paper shall be of three hours and shall carry 100 marks,

The course shall include the following subject :—

1. *Geometry*—In addition to the syllabus for the compulsory paper together with harder deductions thereon the following :—

PRACTICAL.

Simple cases of the construction of circles satisfying given conditions.

Construction of regular figures of 3, 4, or 6 sides in or about a given circle.

Construction of a square equal in area to a given rectangle.

THEORETICAL.

Proportion : Similar Triangles.

The segments cut off on two transversals by a series of parallels are proportional. (Only the commensurable case).

If a straight line be drawn parallel to one side of a triangle, the other two sides are divided proportionally ; and the converse.

Two triangles ABC and A'B'C' are similar, if

- (i) $A=A', B=B', C=C'$; or
- (ii) $a=ka', b=kb', C=C'$; or
- (iii) $a=ka', b=kb', c=kc'$;

where k is a constant factor.

Any two right-angled triangles are similar if an acute angle of the one is equal to an acute angle of the other or if any two sides of the one are proportional to the corresponding sides of the other.

In any right-angled triangle the perpendicular let fall from the right angle upon the hypotenuse divides the triangle into two similar triangles, each being similar to the original triangle.

The bisector of the vertical angle of a triangle divides the base in the ratio of the sides.

If a polygon is divided into triangles by lines joining a given point to its vertices, any similar polygon can be divided into corresponding similar triangles.

The ratio of the areas of two similar triangles or of two similar polygons is equal to the ratio of the squares on the corresponding sides.

Angles subtended at the centre of a circle are proportional to the arcs on which they stand.

2. *Trigonometry*—Measurement of angles, sexagesimal and circular. Trigonometrical ratios (sine, cosine, tangent, secant, cosecant, cotangent). Relation between the trigonometrical ratios of any angle. Relations between the trigonometrical ratios of two positive angles, complementary or supplementary. Trigonometrical ratios (sine, cosine, tangent, secant, cosecant, cotangent) of the following angles.—0, 30, 45, 60, 90, 120, 135, 150, 180 degrees. Expansions of sine and cosine of the sum and difference of two acute angles. Functions of $2A$. Solution of right angled triangles. Problems on heights and distances depending on solution of right-angled triangles.

N. B.—The use of logarithms is not required.

3. *Mensuration*—Areas of plane rectilinear figures; perimeters and areas of similar rectilinear figures. The circumference, area, chords, arcs, sectors and segments of a circle. The surface, area and volume of a right-angled triangular prism, a rectangular parallelepiped, a right circular cylinder.

ELEMENTARY MECHANICS.

• (MATRICULATION, 1940).

There shall be one paper in this subject. The paper shall be of three hours and shall carry 100 marks.

The course shall include the following syllabus :—

1. Motion.—

Varieties of motion. Elementary motions of velocity and acceleration. Motion of a body with constant acceleration. Composition and resolution of motions. Vertical motion under gravity. Motion under gravity on a smooth inclined plane. Motion under gravity of a projectile.

2. Force.—

Elementary motions of mass, inertia, momentum. Force measured by rate of change of momentum. Units of force : poundal, dyne, and gravitational units. Relation between mass and weight. Atwood's Machine. Impulsive force, impulse. Newton's Laws of motion. Balancing of forces. Conditions for the equilibrium of three forces not parallel. Triangle and parallelogram of forces. Moments. Conditions for the equilibrium of three parallel forces. Composition and resolution of parallel forces in one plane. Centre of parallel forces. Centre of gravity. Mass-centre. Position of centre of gravity in stable and unstable equilibrium. Methods of finding the centre of gravity of a system of particles in elementary cases. Mass-centres of a triangle, of the perimeter of a triangle and of two bodies whose individual mass centres are given. Illustrations of conditions of equilibrium in simple machines, levers, balance, pulleys, inclined plane.

NOTE 1.—The subject is to be treated, mainly experimentally. No knowledge of Mathematics except such as may be necessary for elucidating experiments and as may fall within the limits of the Matriculation Mathematics, compulsory and additional, shall be required.

NOTE 2.—A list of apparatus required may be had on application from the University Office.

ELEMENTARY PHYSICS AND CHEMISTRY.

(MATRICULATION, 1940).

There shall be one paper of three hours in this course. The paper shall be divided into two groups, one on Physics and the other on Chemistry, each group carrying 50 marks.

The course is intended for the last two years in the school classes. It should be preceded by a course of nature study in the earlier classes. The treatment of the course should be experimental throughout, each experiment together with the conclusions possible from it being discussed and criticised and the conclusions tested.

Only those schools which are approved by the Director of Public Instruction for this purpose shall be allowed to present candidates for examination in this subject.

No practical examination will be held by the University, but all students shall go through an approved practical course. In these practical classes the proportion of students per teacher shall not exceed 15 to 1. Every candidate shall produce a certificate from the Head Master of his school to the effect that he has completed in an approved school the prescribed practical course.

The course shall include the following Syllabus :—

The practical methods of measuring lengths, area, and volumes. Comparison of scales. The use of square paper. The construction and use of the ordinary balance. Methods of obtaining the true weight of a body with an ill-adjusted balance by the method of substitution. The spring balance.

Density and specific gravity and their determination. The principle of Archimede. Pressure of liquids and gases. The Barometer.

Phenomena connected with the changes of temperature, expansion and contraction, Thermometers. Laws of gases.

Convection currents in water and air. Changes of state: ice water, steam. Liquefaction, evaporation attended with cooling.

Conduction. Comparison of metals with wood, stone, glass, etc. Rectilinear propagation of light. Reflection. Refraction (Plane surfaces), Prisms, Decomposition of light.

Radiation and absorption. Formation of dew.

Action of magnets on magnets and on soft iron. The magnetic compass. Exploration of magnetic fields by means of iron filings. Simple experiments on the interaction of electrified bodies, on electric conduction and on electrostatic induction. Production of electric currents. Action of current on magnets.

Elementary study of simple processes such as solubility, filtration, distillation and sublimation.

Combustion.

The study of—Air, oxygen, and nitrogen, carbon and its oxides. Water and hydrogen. Metals and non-metals, Acids, alkalies and salts.

NOTE 1.—An acquaintance on the part of students with the atomic theory is not expected.

NOTE 2.—The course in elementary Physics and Chemistry is primarily intended for students whose object is to study for an Arts degree. Students who intend to take a course leading to the B. Sc. degree are advised to take additional Mathematics rather than Elementary Physics and Chemistry, for the Matriculation Examination.

NOTE 3.—A list of apparatus required for the teaching of Elementary Physics and Chemistry at the Matriculation stage may be had, on application, from the University Office.

Books recommended for the guidance of teachers .—

Charles H. Draper	..	A course of Physics.
Hill and Mackenzie	..	Physics and Chemistry for Secondary Schools of India.

- Gregory and Simmons .. Lessons in Science (Indian Edition).
- Perkin and Lean .. An Introduction to Chemistry and Physics.
- Armstrong .. The teaching of Scientific Methods and other papers on Education.

MANUAL TRAINING.

(MATRICULATION, 1940).

There shall be two papers of 50 marks each.

First Paper—Drawing and Theory.

There shall be a written examination including questions under the following heads carrying 50 marks, the paper being of three hours' duration. .

Syllabus :—

- (a) Drawing instrumental and geometrical, Use of set squares, T square, drawing board, scales and mathematical instruments.
- (i) Construction of triangles, rectilinear figures and regular polygons from given data.
- (ii) Describing circles, ellipses and laying out simple curves.
- (iii) Elements of proportion.
- (iv) Plan (simple) scales.
- (v) Plain, Elevation and Isometric projection of simple rectangular solids.
- (b) Theory :—
 - (i) Elementary knowledge of timber, the chief kinds of timber as are found and used in Bihar and Orissa; the structure, growth, felling, seasoning, shrinkage and defects of timbers in general; properties and uses of timbers.

- (ii) Use, care and maintenance of common tools used in M. T. classes, Sharpening tools ; the way and means employed.
- (iii) Sketching from memory of the common tools and naming of the different parts of each of these tools.

**Second Paper—Practical test in wood-work carrying
50 marks of four hours' duration.**

The students shall be asked to prepare from a given drawing or sketch a completed model true to dimensions,

Syllabus : —

- (i) Uses of Jack plane and smoothing plane ; face planing, edge planing and end planing.
- (ii) Uses of marking gauge, cutting gauge, L-square, Bevel square, marking awl and rule.
- (iii) Uses of hand saw, tenon saw, and frame saw ; sawing with the grains and across the grains.
- (iv) Chiselling and gouging—horizontal, vertical and oblique.
- (v) Uses of compasses, callipers.
- (vi) Uses of spokeshave, wood rasps and file.
- (vii) Boring—Uses of gimlet auger, brace and bit; hand drill.
- (viii) Nailing and screwing :—uses of bradawl, screw drivers, nail punch, brads, nails, screw, pliers & pincers.
- (ix) Uses of hammer, mallet and G-clamp.
- (x) Uses of glue and sand paper.
- (xi) Inlaying, chamferring and rebating.
- (xii) Joints—half-lap joint, half-lap dovetail, tenon and mortise, simple bridle joint, picture-frame joint, box dovetail and housing.

The following models will be found suitable to cover the syllabus—

1. Rectangular prism.
2. A plant label.
3. Luggage label.
4. Key rack.
5. Round ruler.
6. Teapot stand.
7. Egg stand.
8. Watch stand.
9. Tooth-brush rack.
10. 'I-Square.
11. Paper rack.
12. Photo frame.
13. A rectangular box.
14. Book rack.
15. Water pot stand.
16. Sorahi stand.
17. Coat peg
18. A chakki.
19. A belan.
20. Towel rail.
21. Picture frame.

AGRICULTURAL BOTANY.

(MATRICULATION, 1940).

There shall be one paper of three hours; 100 marks shall be allotted to the paper. The paper shall include questions based on field observation. It should be preceded by a course of Nature Study in the earlier classes.

No practical examination will be held by the University, but all students shall go through an approved practical course of a simple character. A number of simple experiments should be shown in class, and gardens should be cultivated by the students, the whole course being taught as practically as possible.

(a) *General Morphology* :—The flowering plant as a whole with its roots, stems and leaves, flowers, fruits and seeds, and common modification of these parts,

(b) *Histology* :—Very elementary conception of cells—their contents; the internal structure of stems, roots and leaves to be studied as far as is necessary to enable students to understand the physiology of these parts.

(c) *Physiology* :—Absorption of food materials in solution, osmosis—the ascent of sap and its utilisation in the leaves, leaves and sunlight, leaves and carbon dioxide—assimilation—respiration—transpiration—growth—all treated in a very elementary way.

Reproduction—asexual and sexual; cross and self-pollination. Dispersal of seeds and fruits, germination and the factors which influence it. Seed-testing. Rotation of crops and its significance. Weeds—their injurious effects on crops and their utilisation.

(d) *Elementary Horticulture* :—Such propagation of plants as is commonly practised by gardeners in the locality, such as cutting, grafting, budding, layering and nurseries,

(e) *Classification of plants* :—Basic idea of classification as illustrated by resemblances or differences in commonly occurring plants with a knowledge of the cultivated plants belonging to the following six natural orders :—

CRUCIFERÆ SOLANACEÆ PALMACEÆ PAPI-
LIONACEÆ, CUCURBITACEÆ, GRAMINACEÆ.

NOTE.—It is particularly requested, that examples of anything dealt with in class should be shown, if possible, from crops or weeds of the farm or field. The pupil should be taught to keep a systematic note of whatever he has observed and drawings or sketches should be encouraged. Precision in drawing should be insisted on and the idea of proportion should be adhered to in the drawings.

Soil—What constitutes a soil. Common kinds of soil in the locality. The essentials of a soil for plant growth. Moisture and air in the soil and the subsoil.

The objects and effects of ploughing at different seasons.

The object of after cultivation, such as weeding and hoeing.

Food requirements of plants—manuring, including green manure. Transplanting.

Books Recommended :—

1. Fortey—Lessons in Elementary Botany.
2. M. J. Legoc—Introduction to Tropical Botany. (Macmillan and Co.)

MUSIC.

(MATRICULATION, 1940).

(a) There shall be a written examination on the theory of Music carrying 30 marks, the paper being of one hour's duration, and a practical test in vocal and instrumental Music carrying 40 and 30 marks respectively.

(b) *Tals :—*

Trital, Jhaptal, Teora, Ektal, Dadra (Khemta) and Kaharwa.

(c) *Rags :—*

Yaman Kalyan, Yaman Bilawal, Khambaj; Bhairab, Purbi, Marwa, Asawari, Tori, Bhairabi, and Kafi

(d) *Types :—*

Any two of the following :—Sargam, Khayal and Thumri.

(e) *Books Recommended :—*

1. Sangit Prabeshika, Pt. I by Murari Prasad
2. Rager Gathan Shiksha by Dakshina Charan Sen.
3. Sangit Prabeshika, Parts I and II by Sibendra Basu.

4. Hindustani Sangeet Paddhat, Parts I and II by Bhalchandra Sitaram Sukthankar, price 8 as. and Rs. 2-8.
9. Theory of Indian Music by Bishun Svarup (Chaps. 1, 2, 6, 10, 11 and 13 only).

(f) *Instruments :—*

Any one of the following ;—Esraj, Setar, Violin

[NOTE;—As accompaniment for Vocal Music, Tanpura, Esraj or Harmonium may be allowed.]

COMMERCE.

(MATRICULATION, 1940).

A. Book Keeping 60 marks.
Definitions of ordinary commercial terms and use of commercial abbreviations as given on pp. 93 to 97 of " Practical Book-keeping by Grierson" omitting " Forwarding and Shipping terms."

Double Entry ; Keeping the journal and recording therein transactions involving purchases and sales : cheques ; bills receivable and payable ; personal accounts ; real accounts and nominal accounts like rent, salaries, interest, discount, bad debts and depreciation ; keeping simple consignment accounts ; posting and closing the ledger from the journal ; preparing balance sheets ; and the profit and loss accounts.

Books recommended :—(1) Practical Book-keeping by Grierson.

(2) Arther Fieldhouse s Students' Elementary Commercial Book-Keeping.

B. Commercial correspondence 20 marks
Preparation of invoice ; bills of exchange, cheques ; promotes ; simple business letters such as enquiries about goods, prices, acknowledgment of letters, and money and goods received ; orders and their execution, and applications in reply to advertisements for situations.

C. Commercial Geography 20 marks

Physical features, Climate, density of population, raw and manufactured products, exports and imports, centres of production, trade and position of seaports, aids and obstacles to industries and commerce of India and Great Britain,

Drawing of outline maps of England, India, Bihar and Orissa showing the position of ports and fields of production.

Books recommended for correspondence :—

1. Commercial Correspondence by Pitman.
2. Business English by M. D. Pant, Lecturer in Economics and Commerce, Lucknow University.

Books recommended for Geography :—

1. The World and its workers by Herbert Prickles
2. The British Empire by Herbertson and Thomson

DOMESTIC SCIENCE.

(MATRICULATION, 1940).

1. The examination will consist of one written paper which will be set on sections I to VI and an oral and practical test on sections V, VI and VII. The former will be a 2½ hours' paper and will carry 75 marks. There will be a practical test based on section VII and an oral and practical test on sections V & VI. The practical and oral test together will carry 25 marks. Of these 15 will be given to sections V and VI and 10 to section VII. The practical and oral test will be held at the same centre as the written examination.

2. Throughout the course special attention should be given to Indian conditions as regards the food, remedies and mode of life suited to the different areas of the province.

3. The questions may be answered in English or in the vernacular at the option of the candidate.

Syllabus.

I.—Physiology.

As a basis for the teaching of hygiene and home-nursing there should be a preliminary simple treatment of the following topics in elementary physiology :—

The human skeleton, the organs of digestion, the circulation of the blood, the Nervous system, respiration, the muscular system and the excretory system.

II.—Hygiene.

Note.—Great importance should be attached to practical work whenever the subject admits of this.

Air—Composition of air, ventilation, importance of pure air, impurities of air, diseases caused by impure air.

Water—Composition of water, quantity of water required; source of water supply, springs, deep wells, surface wells, rivers, tanks; how water is polluted; how to prevent pollution of water, how to purify water; boiling and filtering.

Food—Composition of food; composition of good diet and its importance; preservation of food; cooking of food; drinks and condiments.

Personal hygiene—Cleanliness of body (hair, nails, teeth etc.). clothing; exercise; importance of temperance; the use of *pan*, opium and other drugs; spitting.

Precautions against diseases—Infectious diseases (small-pox, measles and diphtheria, etc.); tuberculosis, enteric fever; dysentery and diarrhoea; cholera; plague; malaria; itch; leprosy; ophthalmia (sore eyes).

III.—Care and training of babies and children up to five years of age.

Food, sleep, exercise, play, clothing, cleanliness surroundings.

IV.—Household Management.

A—Choice of house; furniture and decoration; distribution of rooms; cleansing and care of house and furniture; disposal of refuse and sewage; precautions against flies and mosquitoes.

B—Duties of the mistress of the household.

Proper distribution of daily activities. Accounts and budgeting of expenditure.

V.—First Aid.

Roller bandage, figure of eight as supplied to knee, elbow, finger, ear; bandage for eye, chin; many-tailed bandage for chest. Bleeding of different kinds; how to stop bleeding; drowning; burns; scalds; bruises; sprains; broken bones; dislocation; carrying injured people; fainting; sunstroke; hysteria; epilepsy; suffocation; foreign bodies in eye, ear, nose and throat; bites of mad dogs; signs of madness in dogs; snakebite, stings.

VI.—Home-nursing.

NOTE.—None of the work is to be purely theoretical. Practical must be given in every point which allows of practical work.

Room—Bed; bedding; furniture; light; warmth; ventilation

Nurse—Health; dress; duties and qualifications of a nurse.

External remedies—Poultices; plasters; fomentations; ice; baths—hot and cold; temperature of baths.

Food—Kind of food and preparation; way of giving.

The sickroom:—Administration of medicine, pulse and temperature charts; bathings; changing of garments and bedding.

• *Infectious illness*:—Precautions during illness; disinfection of room, clothing and bedding after illness; use of disinfectants.

Convalescence.—Occupations; visitors; rest, sleep and food.

6. Human Physiology—Furneaux and Smart.
7. A Manual of mother craft.
8. Domestic Science for High Schools in India by Needham and Strong (O. U. P.; price Rs. 2-8).

DRAWING.

(MATRICULATION, 1940).

The course for Drawing as an additional subject for Matriculation examination may consist of two papers of three hours each, bearing 50 marks for each paper, the total marks being 100.

Syllabus of Drawing as an additional subject for Matriculation examination :—

Paper I.—Geometrical Drawing.

(Time 3 hours. Full marks 50.)

The syllabus as detailed below is intended to acquaint the students with the proper use of Compasses, T square, Set Squares, Protractor, Scales to show their knowledge of ordinary geometrical constructions and their power of applying these constructions to ornamental and decorative work. Candidates will be required to qualify in :—

(a) Construction of triangles, quadrilaterals and polygons from given data.

Describing circles to satisfy given conditions—passing through given points, touching lines and circles. Drawing straight line touching circles.

Construction of figures similar to given figures.

Proportional division of lines, including third, fourth and mean proportions, extreme and mean ratio.

Plain and diagonal scales.

Inscribing and describing rectilinear figures and circles within and about others.

Plan and elevation of simple geometrical solids in simple positions.

(b) The application of geometrical constructions to setting out schemes of ornamental patterns.

Paper II.—Freehand, Model drawing, Brushwork or shading.

Without the help of mathematical instruments).

Time 3 hours—*Full marks 50.*)

(a) Freehand drawing:—Patterns in outline.

Enlargement & reduction.

(b) Model Drawing.—Elements of perspective.

Geometrical, natural or manufactured objects.

(c) Brush work or shading:—Simple natural and manufactured objects shown in one colour.

1939
INTERMEDIATE IN ARTS AND SCIENCE

ENGLISH

There shall be three papers, *viz.*, *Paper I*, Poetry texts: *Paper II*, Prose texts: *Paper III*, Essay and unseen passages (Prose and Poetry). In *Paper III* one of the unseens shall be taken from the books recommended for rapid reading. Each paper shall be of three hours and shall carry 100 marks.

Note 1:—In paper I questions shall be set demanding an elementary knowledge of prosody. The marks allotted to prosody shall not exceed 10 per cent. of the total marks for the paper.

Note 2:—In paper II and III grammatical questions may be asked, including parsing, analysis, the sequence of tenses and the conversion of the direct and indirect forms of speech. The marks allotted to grammatical questions shall not exceed 10 per cent. of the total marks for each paper.

The following books are prescribed :—

Poetry.

Arnold	..	Sohrab and Rustum.
Tennyson	..	Enoch Arden.
Poems Old and New (Cairncross) :—		

pp. 40-53, 58-67, 101-111, 134-137 and 163-175.

Prose.

Intermediate Essays (Blackie), the following selections :—

Nos. 6-12, 14-21 and 24

Blackmore	..	Lorna Doone (abridged, Macmillan).
Walker	..	Short Stories (O. U. P.)—Rip Van Winkle, The Squire's Story, Rab and his Friends, Malachi's Cove, The Punishment of Shahpesh, Christopher, The Seven Poor Travellers.

The following books are recommended for supplementary rapid reading and to indicate the standard of unseen prose passages to be set in Paper III :—

Triumph of Modern Exploration (Blackie),
Crime and Detection (O. U. P.)

Stevenson Treasure Island.

Bridges The Book of Inventions (Harrap).

If the mother-tongue of a candidate is a language not included in the list of vernacular languages in reg. 10(2) of Chapter XXVII of the Regulations, he shall have for the paper on vernacular an alternative paper in English of a higher standard than is required in the compulsory papers in *English*. This paper shall contain questions on translation from one of the languages included in the list mentioned in reg. 10(2) of Chapter XXVII of the Regulations, into English carrying 30 marks. These questions shall be compulsory for European and Anglo-Indian candidates, who shall be required to obtain at least 12 marks for them ; for other candidates there shall be alternative questions carrying the same number of marks, (See page 64).

GREEK AND LATIN.

(I.A. AND I.Sc. 1939).

There shall be two papers in each of the subjects, each paper shall be of three hours and shall carry 100 marks.

The course shall consist of suitable selections from the following authors to be prescribed from time to time by the Board of Studies :—

(a) In Greek—Herodotus, Thucydides, Plato, Homer, Euripides and Sophocles ;

(b) I.. Latin—Cicero, Livy, Vergil and Horace (Odes)

The marks shall be distributed as follows :—

Paper I.

(a) Questions on the prose selections.

Not more than 20 marks shall be

assigned to mere translation, 40 marks,

- (b) Questions on the poetry selections.
Not more than 20 marks shall
be assigned to mere translation. . . . 40 marks.
- (c) Questions on syntax and accidence. . . . 20 marks.

Paper II.

- (a) Translation of simple passages from
English into Greek (or Latin). . . . 40 marks.
- (b) Translation of unseen passages from
Greek (or Latin) into English. . . . 60 marks.

The following text-books are prescribed :—

GREEK.

Thucydides I—The following selected Chapters :

1-30, 44-66, 88-100.

Homer—Odyssey, Book IX,

Sophocles—Antigone.

LATIN.

Cicero— Pro Lege Manilia,

Livy— Book I, 1—32

Vergil Æneid, Book V and VI.

FRENCH, GERMAN AND ITALIAN.

(I.A. AND I.SC. 1939).

There shall be two papers in the subject : each paper shall be of three hours and shall carry 100 marks.

The course shall consist of one work in prose and selections in verse from one or more writers. The course shall include grammar.

The marks shall be distributed as follows :—

• Paper I

- (a) Questions on the prescribed texts, prose
and verse ; not more than 25 marks
shall be assigned to mere translation . . . 50 marks.
- (b) Questions on Grammar. . . . 20 marks.
- (c) Passages for translation from English
into the language. . . . 30 marks.

Paper II.

- (a) Unseen passages of prose and verse in the language for translation into English 70 marks.
- (b) Passages for translation from English into the language 30 marks.

The following text books are prescribed :—

FRENCH.

- Rappoport .. Readings in Contemporary French. (Blackie and Son).
- Watson Bain .. French Poetry for Students—1928 Edition.
Nos. 4, 9, 12, 13, 14, 15, 20, 25, 27,
30—36, 38, 42—44, 48, 51, 53, 56, 58, 61,
64, 65, 67, 76, 77, 79, 82, 84, 86, 88, 92,
93, 95, 99, 100, 102, 105, 108, 109, 111,
112, 116, 117, 119, 120.

GERMAN.

- Lessing .. Minna Von Barnhelm.

'Deutsche Lyrik, C. A. Buchheim (Macmillan's Golden Treasury series, 1934 edition) Nos. 1, 3, 4, 10, 14, 26, 28, 37, 41, 44, 46, 59, 65, 72, 75, 95, 98, 105, 106, 107, 108, 110, 113, 120, 123, 124, 126, 134, 135, 144, 150, 151, 152, 156, 172, 179, 182, 183, 185, 193, 201, 208, 211, 228, 251.

ITALIAN.

- Marraro .. Contemporary Italian Short Stories. Page 1—74. (George Harrap).
- Dante .. *Inferno*, cantos 5 and 9. (George Harrap).

SANSKRIT.

(I.A. 1939).

There shall be two papers in the subject. Each paper shall be of three hours and shall carry 100 marks.

The course shall include the elements of Sanskrit Grammar of which a fuller knowledge shall be required than at the Matriculation examination.

Questions on the texts shall comprise—(i) passages from the texts set for translation into English ; (ii) questions on the subject-matter of the texts ; and (iii) questions on the language of the texts and grammatical questions relating thereto.

Unseen passages shall consist of simple prose not exceeding in difficulty the prose texts set for the Matriculation examination.

No questions shall be set on Prosody or Rhetoric.

The marks shall be distributed as follows :—

Paper I.

- | | | |
|--|----|-----------|
| (a) Poetry texts (including grammatical questions arising therefrom) | .. | 60 marks. |
| (b) Translation from English into Sanskrit | .. | 40 marks. |

Paper II.

- | | | | |
|---|----|----|-----------|
| (a) Drama | .. | .. | 40 marks. |
| (b) Grammar not arising out of the text | .. | .. | 30 marks. |
| (c) Translation of simple unseen Sanskrit passages into English | .. | .. | 30 marks. |

The following text books are prescribed :—

Kalidasa	Raghuvamsa—XIII and XIV.
Bhatti	Bhatti-Kavya, Canto II.
Bhasa	Svapnavasavadatta.
Kale	Higher Sanskrit Grammar..
Apte	Composition.
U. Vidyabhusana	Sanskrit Grammar.
S. N. Bhattacharya	Practical Sanskrit Grammar.

VERNACULAR COMPOSITION

HINDI, URDU, ORIYA, NEPALI AND BENGALI.

(I.A. and I.S.C. 1939).

There shall be one paper in Composition in each of the vernaculars. . .

The paper shall be of three hours and shall carry 100 marks.

The following is the allotment of marks for all the vernaculars at the examination :—

Translation from English into the vernacular.	..	30 marks.
Composition (including substance).	..	30 marks
Essay	..	40 marks.

The course for the Intermediate Examination in each of the vernaculars shall consist of a small number of standard works (not exceeding six), recommended by the Board of Studies, to be read as models of style.

Intermediate candidates shall not be asked to answer any questions on the subject-matter of the Books recommended or on the History of the Vernacular Literature.

If the mother-tongue of a candidate is a language not included in the above list, he shall have an alternative paper in English of a higher standard than is required in *English*. This paper shall contain questions on translation from one of the languages included in the above list into English, carrying 30 marks. These questions shall be compulsory for European and Anglo-Indian candidates, who shall be required to obtain at least 12 marks for them ; for other candidates there shall be alternative questions carrying the same number of marks, (See page 60).

VERNAÇULAR AS PRINCIPAL SUBJECT.

(I.A., 1939)

Paper I.

Questions on poetry texts	..	60 marks.
„ Grammar	..	20 marks.
Unseens	..	20 marks.

Paper II.

Questions on prose texts	..	60 marks.
Unseens	..	20 marks.

N. B.—20 marks will be equitably distributed over the text question or the unseens at the discretion of the Board of Examiner.]

Recommended text-books.

ENGLISH.

Poems of to-day. First (Series) .. (Sidgwick and Jackson.)
Intermediate Prose Selections. .. (Bihar Publishing House)
Short Stories of the 19th century .. (Blackie.)

HINDI (Composition).

(I.A. AND I.SC. 1939).

The following books are recommended to be read as presenting models of style :—

M. P. Dwivedi .. Sahityalap (*K. V. Press*).
Kamta Prasad Guru .. Padyasamuchchaya (*Indian Press, Allahabad*).
Chandra Prakash .. Sahitya Lahari (R. N. Lall, price Re. 1).

Punya Kirtan (*K. V. Press*).

HINDI (As Principal Subject).

(I.A. 1939).

Paper I.

Sahitya Sudhakar (*Ram Ch. Sukla*), omitting Nos. 13, 16, 19, 20, and 21, published by N. K. Press, Lucknow.
Price 1-4.

Sura-Sukti-Sudha (*K. V. Press*).

General knowledge of Chhandi and Alankar is also recommended.

Books recommended :

Alankar Chandrika (*Hindi Pustaka Bhandar, Laheria Sarai*).

or

Alankara Praveshika by Sree Chandra Sekhar (*R. N. Lall, Allahabad*).

Hindi Chhanda Chandrika (*Hindi Pustaka Bhandar, Laheria Sarai*).

or

Sarasa Pingala by Ramchandra Sukla (*Ram Narayan Lal, Allahabad*).

Sarala Hindi Vyakarana by Sivanarayan Lal (Published by Sankar & Co., Calcutta. Price Re. 1).

Paper II.

Kadambari by Gadadhar Sinha.

Vishakha by Jaya Sankar Prasad.

Gadya Prakasa (omitting pieces 2, 3, 10, 17, 21 and 22) by Sadguru Saran Avasthi, (Published by Indian Press, Allahabad 1934 Ed.)

URDU (Composition.)

(I.A. AND I.SC. 1939).

The following books are recommended for study as presenting models of style :—

Nazir Ahmad	.. Ibn-ul-waqt.
Ghalib	.. Udi-Hindi (<i>Ram Narayan Lal, Allahabad</i>).
Azad	.. Maktubat.
Z. Husain	.. Ganjina-i-Nazm.
A Mannan	.. Nazm-i-Jadid, Part II.

URDU (As Principal Subject).

(I.A. 1939).

Poetry.

- A. M. Bedil .. Ashaar i-Mir.
 A. M. Bedil .. Ashaar-i-Momin.
 Nasir Hosain .. Haqiqat -i - Ilmi - Shaeri pp. 5—21
 25—30, 34—41, 45—84
 Ashaar-i-Zauq.

Prose.

- Jalil Ahmad Siddique .. Sair-i-Gul
 Wiqar Azam .. Iqbal-i-Adab.

Grammar.

- M Jalal-ud-din Haider.. Qawaid Urdu (*Ram Dayal Agarwal,*
Allahabad).

(ORIYA Composition.)

(I.A. AND I.SC. 1939).

The following books are recommended to be read as presenting models of style :—

- F. M. Senapati .. Chhaman Athguntha.
 K. S. Misra .. Barabati.
 Gangadhar Meher .. Pranaya Ballary.
 Kartik Das .. Rukmini Bibaha (*Prachi Publication.*)
 Aswini K. Ghosh .. Hindu Ramani.

ORIYA (As Principal Subject).

(I.A. 1939).

Paper 1.

- R. N. Rai .. Chilika.
 Pratab Rai .. Sashi Sena (*Prachi Publication*)
 Ram Chandra Mahapatra Sudama,

- R. N. Rai .. Vyakarana Prabesh including
Chhanda and Alankar Chapters,
N. K. Bal .. Sarmistha.

Paper II.

- R. Pati .. Prabandha Prakash,
F. M. Senapati .. Lachhama.

NEPALI (Composition.)

(I.A. AND I.SC. 1939).

The following books are recommended to be read as presenting models of style, and also prescribed for female candidates in lieu of a classical language.

1. History of Nepal (Modern Period from p. 84) by
Pt. Ambika Prasad Upadhyaya.
2. Bikramorbashi by Comdg. General Sir Kaiser Sham-
sher Jang Rana.
3. Rajaputa Ramani by Shrimati Ambalika Devi.
4. Vyakarana Chandrika (All the 4 parts) by Gururaj
Hemaraja Panditji.)

BENGALI (Composition).

(I.A. AND I.SC. 1939).

The following books are recommended to be read as presenting models of style:—

- Chandi Charan Banerji .. Vidyasagar.
Sarat Chandra Chatterjee. Bindur Chhele and Ramer Sumati
Rabindranath Tagore .. Charitrapuja.
Michael M. S. Dutt .. Chaturdashapadi Kavita,

BENGALI (As Principal Subject).

(I.A. 2939.)

The following books are prescribed :—

Hem Chandra Banerji	..	Vritrasamhara, Cantos 1, 3, 4 and 5.
Nabin Chandra Sen	..	Kurukshetra, Cantos 13, 14 and 15
Ramendra Sundar Trivedi	..	Karmakatha.
R. N. Tagore	..	Jibansmriti

ARABIC.

(I.A. 1939).

There shall be two* papers in the subject. Each paper shall be of three hours and shall carry 100 marks.

Paper I.

- (a) Questions on the poetry text : not more than 25 marks shall be assigned to mere translation 50 marks.
- (b) Grammar including passage for correction and unvocalised passage for vocalisation 30 marks.
- (c) Simple English passages for translation into Arabic. 20 marks.

Paper II.

- (a) Questions on the prose texts, not more than 15 marks being assigned to mere translation 60 marks.
- (b) Unseen passages of Arabic for translation into English 30 marks.
- (c) Questions on Grammar 15 marks
- (d) Translation from English into Arabic .. 25 marks.

The passages for translation from English into Arabic shall in no case be translated portion of the prescribed text.

Questions on the text shall comprise ;—

- (i) Passages from the set texts for translation into English: (ii) questions on the subject matter ; and (iii) questions on the language of the text.

The unseen passage shall consist of simple prose not exceeding in difficulty the texts set for the Matriculation examination.

No questions shall be set on Prosody or Rhetoric,

The course shall also include Arabic Grammar, of which a fuller knowledge shall be required than at the Matriculation examination.

The following text books are prescribed :—

1. Prose—Al-Qiratur Rashidiyya, Part III (pages 1-103)
 Edited by Abdul Fattah Sabri Bek and Ali Umar Bek
Macmillan & Co. 0-12-0.

2. Poetry—Ad Darari, Part II by Dr A Hasan.
 Grammar—Kitabus Sarf and Kitabun Nahv.

PERSIAN

(I.A. 1939).

The course in Persian shall consist of selected passages in prose and verse from some standard works.

The course shall also include Persian Grammar.

The marks shall be distributed as follows :—

Paper I.

- (a) Questions on Poetry texts. Not more than 25 marks shall be assigned to mere translation. 50 marks

- (b) Questions on Grammar. 20 marks.
 (c) Translation from English into Persian. 30 marks.

Paper II.

- (a) Questions on the prose texts : Not more than 16 marks shall be assigned to mere translation. 30 marks.
 (b) Translation of unseen Persian passages into English. 30 marks.
 (c) Questions on Grammar. 15 marks.
 (d) Translation from English into Persian. 25 marks.

The passages for translation from English into Persian shall in no case be translated portions of the prescribed texts.

Questions on the Persian texts shall comprise :—

- (i) Passages from set texts for translation into English;
 (ii) Questions on the subject matter.
 (iii) Questions on the language of the texts.

The unseen Persian passages shall consist of easy prose and verse not exceeding in difficulty the texts prescribed for the Matriculation examination.

The following text books are prescribed .—

Patna University I. A. Persian Selections (compiled by Messrs. Md. Muslim, H.S. Ahmad and N. Bulkhi), omitting pages 138-142.

S. Zafar Husain Asi . . . Tahzibul Qawaid (*Ram Dayal Agarwalla, Allahabad*)

The following book is recommended for rapid reading :—

Adabiat-i Ajam, Part I by Abid Husain Faridi, published by Sri Ram Mehra & Co., Agra, price Re. 1.

HISTORY.

(I.A. 1939).

N. B.—There shall be two papers in I. A. History ; each paper shall be of 3 hours and shall carry 100 marks. A knowledge of historical geography will be expected from every candidate. The course shall include the following :—

Paper I.—Outlines of English History, from 1485.

Paper II—History of India, from 1526.

The following books are recommended for study as indicating the standard :—

For Paper I :

Tout—An Advanced History of Great Britain. (Book III).
Warner and Marten—Groundwork of British History.
(Parts II and III)

Tennen . . . History of England (1485—1932)
(Macmillan, Rs. 4.-)

For Paper II :

Sarkar and Dutta . . . Text Book of Modern Indian History
(1526—1933) vol. 1 (3 Parts) and
vol. 2 (2 Parts) (Bihar Publishing
House, Patna)

V. Smith , . . . Oxford History of India, Vols. 2 & 3.

LOGIC.

(I.A. 1939).

There shall be two Papers in Logic. Each paper shall be of three hours and carry 100 marks.

Paper I.

Nature, Scope and Use of Logic. Place of Logic among the Sciences.

Formal and Material Logic. Fundamental Principles, Laws of Identity, Contradiction and Excluded Middle.

Word, Concept and Term. Denotation and Connotation. Classification of Terms, and their signification.

Definition and Division.

Proposition. Kinds of Proposition. Quantity, Quality, and Modality of Propositions, Verbal and Real Propositions, Opposition of Propositions.

The Predicables.

Inference. Deductive and Inductive. Immediate Inference. Education and Opposition.

Syllogism, its Structure and Figure and Moods. Aristotle's Dictum. Rules, General and Special. Reduction direct and indirect.

Hypothetical and Disjunctive Syllogisms. Dilemma, Enthymeme, Trains of reasoning. Sorites and Epicheirema.

Function and Value of Syllogism. Fallacies in Deductive Reasoning.

Paper II.

Nature, Problem and Procedure of Induction. Relation of Induction to Deduction.

Postulates of Induction: Uniformity of Nature and the Law of Causation.

Observation and Experiment, Scientific and Unscientific Induction.

Scientific view of Causation, The Conservation of Energy, Plurality of Causes and Intermixture of Effects.

The Method of Hypothesis, its place in scientific inquiry. Conditions and Verification of Hypothesis.

The Experimental Methods, their uses and application,
The Deductive Method, and its uses.

Analogy : its Nature and Value.

Explanation and Laws of Nature.

Classification.

Fallacies in inductive Reasoning.

General Significance of Chance and Probability in relation
to Induction.

The following books are recommended for students .—

C. Read .. Logic (Deductive and Inductive).

A. C. Mitra .. Logic (Deductive and Inductive).

Welton and Monahan : Intermediate Logic.

The following books are recommended for teachers :—

J. S. Mill .. A System of Logic.

A. Bain .. Logic (Deductive and Inductive).

J. N. Keynes .. Studies and Exercises in Formal Logic.

W. S. Jevons .. Principles of Science.

F. H. Bradley .. Principles of Logic.

Dewey .. Studies in Logical Theory.

ELEMENTARY ECONOMICS AND PUBLIC ADMINISTRATION.

(I.A. 1939).

There shall be two papers. Each paper shall be of three
hours and shall carry 100 marks.

The course shall include the following :—

Paper I.—Elementary Economics treated mostly from the
descriptive and historical point of view.

A. Elements of Economic Geography including a know-
ledge of the world's natural resources—their capacity to satisfy
human wants and their distribution in various countries

Description of the various industries based on them, their technique and organisation in various parts of the world.

B. Elements of English Industrial History as typical of world economic development with special reference to industrial changes in the last two centuries.

C. Elementary Economic theory with illustrations from Indian conditions. Meaning of Economics; Production; Division of Labour; Large scale business; value, exchange and its mechanism.

Paper II.—Public administration with special reference to India and Bihar and Orissa.

Civil Rights, Freedom of speech, association and press, Safeguards against the abuse of these rights; The State, theories of State, forms of Government; Economics function of Government; Local Self Government, constitution, powers and functions of Local Authorities; Provincial Governments, constitution, powers and functions; Indian States, their place in the Indian Constitution; Growth of public life, Administration, Revenue, Justice, Police, Public Health and Education.

The following text books are recommended :—

Paper I. E. Cressy—Social and Industrial History (omitting first six chapters).

Chapman—Elementary Economics.

R. Brown—Principles of Economic Geography.

Paper II. E. M. White—Foundation of Civics.

R. Mukerjee—Civics.

Polande—Indian Administration.

The following are recommended for reference :—

Paper I —Chilsholm—Commercial Geography.

Clay—Economics for the General Reader.

Moreland—Economics for Indian Students.

Paper II.—E. M. White—Philosophy of Citizenship.

Puntambekar—Introduction to Civics and Politics.

India (latest issue).

Bihar and Orissa (latest issue).

The Government of India Act, 1935.

PHYSICS.

(I.Sc. 1939).

There shall be two theoretical papers in Physics. Each paper shall be of three hours and shall carry 75 marks. In addition to the theoretical papers, there shall be an examination in practical work, carrying 50 marks.

The course shall include the following :—

Theoretical.

1. *General Ideas.*—Units of measurement and definitions of mass, force and motion. Laws of motion. Work and energy. General properties of solids, liquids and gases; Motions of translation and rotation. Laws of pressure of liquids and gases; measurement of pressures. Equilibrium of floating bodies. Specific gravity. Motion of Pendulum.

Definition of viscosity. Streamline and turbulent flow. Motion of a flat plate through air. Lift and drag; their dependence on the angle of incidence. Cambered aeroplane wings. Ailerons. Aerofoil. Airscrew treated as aerofoil. Functions of tail elevators, fin and rudder. Stability in horizontal and vertical planes. Air-ships.

The students will not be required to study aero-engines. The treatment of the subject will be mostly descriptive and will involve knowledge of elementary mathematics but no knowledge of calculus.

The whole course in aeronautics to be completed in about six lectures.

2. *Heat*.—Laws of expansion of solids, liquids and gases under heat. Measurement of temperature. Quantity of heat. Specific heat. Changes of molecular state and latent heat; molecular change of state. Vapour pressure; boiling point; dew point; formation of cloud, fog and dew. Radiation, conduction and convection of heat. The connection between heat and work. Steam engines.

3. *Light*.—Laws of transmission of light, its intensity and velocity. Shadows. Photometry, Reflection of light at plane and spherical surfaces and the formation of images. Refraction of light at plane and spherical surfaces and by prisms. Chromatic dispersion. Spectra. Formation of images by single lenses. The combination of two lenses to form (1) a simple telescope, (2) a compound microscope.

4. *Magnetism*.—Properties of magnets. Simple phenomena of magnetism and magnetic induction. The magnetic field; lines of forces; the laws of magnetic force. The earth as a magnet.

5. *Frictional Electricity*.—Electrical attractions and repulsions, properties of conductors and non-conductors. Electrical induction. The laws of electric force.

$$* \left\{ \begin{array}{l} \text{Electrical field : strength of field.} \\ \text{Potential ; capacity.} \end{array} \right.$$

Distribution of electrification on conductors. Simple condensers, Leyden jars, Electrophorus. Frictional machines and Voss's machine. Electric discharge.

6. *Dynamic Electricity*.—Voltaic cell; electric current. Magnetic effects of a current; simple galvanometers, Primary batteries. Electromotive force; difference of potential, resistance. Ohm's Law; volt; ohm; ampere. Heating effects of currents. Elementary phenomena of electrolysis. Electromagnets. Action of magnets on currents and of currents on currents. Elementary phenomena of electromagnetic induction.

* Only elementary notions of these points will be required.

7. *Sound*—The production and propagation of sound. Reflection and refraction of sound. Nature of wave motion.

Experimental determination of velocity of sound in air. Musical sound and noise. Relation between frequency and pitch ; siren ; vibration of strings ; sonometer. Vibration of air columns ; organ pipes.

Note.—The Course in Physics shall be mainly experimental. Candidates will be expected to show general acquaintance with the apparatus by which the elementary principles of Physics are illustrated and applied.

The papers and subjects shall be distributed as follows :—

Paper I.—(a) General Ideas (b) Heat (c) Sound,

Paper II.—(a) Light (b) Magnetism (c) Electricity.

. *Practical.*

The following experiments are suggested as a practical course bearing on the preceding syllabus. In the practical examination questions will be set involving a knowledge of the methods of measurement illustrated by these experiments :—

Length measurements by millimetre rule. Eye estimation of tenths of a division.

Use of the vernier—linear and angular. Measurement of areas by plotting on squared paper.

Measurements of angles by protractors.

Verification of the laws of the inclined plane.

Verification of the laws of friction.

Determination of the centre of gravity of a plate.

Time of swing of a simple pendulum. Verification of the formula t^2 varies as l .

Use of the balance weighing to one centigramme.

Determination of specific gravities of solids and liquids by the hydrostatic balance.

Verification of Boyle's Law.

Determination of fixed points of thermometers.

Simple methods of determining specific heat and latent heat of fusion.

Reading the barometric height.

Verification of the laws of reflection and refraction.

Use of simple photometers.

Refractive index of glass plates.

Focal length of a concave mirror.

Focal length of convex lenses.

Production of a pure spectrum by means of a slit, lens, and prism

Verification of the simple laws of magnetism.

Determination of the poles of a bar magnet.

Tracing the lines of force in the neighbourhood of a magnet.

Verification of the simple laws of electrostatics.

Use of gold-leaf electroscopes.

Setting up common and voltaic cells.

Use of simple galvanometers.

Measurement of resistance by a simple form of Wheatstone's Bridge.

The Laboratory note-books of each candidate shall be inspected by the examiner and the examiner shall take them into consideration along with the results of the practical examination. A note-book which has not been signed at frequent intervals by the professor under whom the candidate worked shall not be accepted.

Note.—No text books are prescribed, but the following is mentioned in order to indicate the standard expected in theoretical work :—

Cambridge Physical Series.

CHEMISTRY.

(I.Sc. 1939).

There shall be two theoretical papers in Chemistry ; each paper shall be of three hours and shall carry 75 marks. Paper I shall be on general principles and mainly on non-metals. Paper II shall be on general principles and mainly on metals. In addition to the theoretical papers there shall be an examination in practical work, carrying 50 marks.

The course shall include the following :—

Theoretical.

Gaseous, liquid, and solid states of matter. Effect of pressure and temperature on volumes of gases. Elements and Compounds. Chemical and physical changes. Symbols. Formulæ, Equations. Calculation of formulæ from percentage composition and calculations relating to weight and volumes. Laws of Chemical combination. Atoms and Molecules. Dalton's Atomic Theory. Avogadro's Hypothesis. Equivalent weight. Atomic weight. Valency. Diffusion of gases.

Common Laboratory processes :—Determination of weights and volumes ; Solution ; Distillation ; Crystallisation ; Evaporation ; Precipitation ; Filtration ; Decantation ; Desiccation ; Combustion ; Oxidation ; Reduction ; Neutralisation and Titration.

Study of the following substances :—

Non-Metals—Hydrogen, Oxygen, Water, Nitrogen, Air, Ammonia, Sulphur, Sulphuretted Hydrogen ; Carbon ; Important oxides and oxy-acids of Nitrogen, Carbon and Sulphur. Phosphorus, Phosphine, and Orthophosphoric acid ; Chlorine, Bromine, and Iodine and their hydrides.

Metals.—Sodium, Ammonium, Calcium, Magnesium, Zinc, Iron, Copper, Mercury, and their oxides, hydroxides, chlorides, nitrates, sulphates and carbonates.

Practical.

Fitting up of a simple apparatus.

Performance of experiments involving the common laboratory process indicated in the theoretical course.

Determination of water of crystallisation of Hydrated salts.

Performance of experiments illustrating the chemistry of air and water and involving oxidation and reduction.

Simple methods of finding equivalent weights.

Preparation and study of the principle properties of —

Oxygen, hydrogen, nitrous oxide, nitric oxide, nitric acid, ammonia, sulphuretted hydrogen, sulphur dioxide, carbon dioxide, chlorine, and hydrochloric acid.

Study of the general, chemical and physical properties of common substances.

Simple blowpipe analysis and detection of common elements by dry tests, *viz.*, Ag, Pb, Hg, Bi, Cu, As, Sb, Sn, Fe, Cr, Al, Zn, Mn, Ni, Co, Ca, Sr, Ba, Na, K, and also Ammonium.

Simple qualitative detection of Mercury, Copper, Iron, Zinc, Calcium, Magnesium, Sodium, and Ammonium in a solution containing only one of these substances.

Detection of Simple Salts.

Simple experiments on Acidimetry and Alkalimetry.

*The laboratory note-books of each candidate shall be inspected by the examiner and the examiner shall take them into consideration along with the results of the practical examination. A note-book which has not been signed at frequent intervals by the professor under whom the candidate worked shall not be accepted.

ELEMENTARY PHYSICS AND CHEMISTRY

(I.A. 1939).

There shall be two papers in this course. Each paper shall be of three hours and shall carry 100 marks.

The papers and subjects shall be distributed as follows :—

Paper I.—Physics.

Paper II.—Chemistry.

Physics.—The same course is prescribed as for the I. Sc. examination, but the subject should be treated in a more elementary manner. Attention should be paid to general principles and historical development rather than to theoretical details.

The following book is mentioned as showing the standard of the experimental treatment of the subject :—

Gregory and Hadley . . Elementary Physics.

Chemistry.—The same course is prescribed as for the I. Sc. examination, omitting the following :—marsh gas, hydrobromic acid, hydriodic acid, magnésium ; but the subject should be treated in a more elementary manner. Attention should be paid to the general principles and historical development rather than to theoretical details.

No special text-book is recommended.

The practical course in each subject should represent one year's work in the laboratory. Both theoretical and practical classes should be quite separated from the organization of the I. Sc. classes.

BOTANY.

(I.Sc. 1939).

There shall be two theoretical papers in Botany. Each paper shall be of three hours and shall carry 75 marks. In addition to the theoretical papers there shall be an examination in practical works carrying 50 marks,

The course shall include the following syllabus :—

Theoretical.

Distinction between living and non-living matter and between animals and plants.

(a) *General Morphology*.—The plant as a whole—root—stem—leaf—inflorescence—flower—fruit and seed. Modifications of the foregoing.

(b) *Histology*.—The cell—its contents—micro-chemical reactions—formation of cells. Tissues—tissue system—laticiferous vessels and glandular tissues. Structure of leaves and of monocotyledonous and dicotyledonous stems and roots.

(c) *Physiology*.—Chemistry of the plant. Absorption of water—movement of water within the plant—transpiration. Assimilation—reserve materials—parasitism—saprophytism—symbiosis. Respiration. Growth—irritability of growing and other motile organs. Influence of external conditions, e.g., heat, light and moisture, on growth and structure. Reproduction—sexual and asexual—pollination—fertilization—dispersal of seed and fruit—germination.

Life history of the following plants treated in an elementary manner :—

Yeast	A fern.
Mucor	Selaginella.
Spirogyra	Cycas.
A moss.	A typical flowering plant.

General principles of classification and knowledge of the following natural orders :—.

Cruciferae	..	Compositæ.
Malvaceæ	..	Solanaceæ.
Rutaceæ	..	Amarantaceæ.
Leguminosæ	..	Palmaceæ
Cucurbitaceæ	...	Graminaceæ.

Students will be expected to have such a knowledge of Chemistry and Physics as is a necessary preliminary to the study of Botany.

Every student must keep a record of all practical work in a laboratory note-book which shall be inspected by the examiner and the examiner, shall take it into consideration along with the result of the practical examination. A note-book which has not been signed at frequent intervals by the Professor under whom the candidate worked shall not be accepted.

Use of simple and compound microscopes.

Dissection, examination, description and drawing of plants. Preparation of plant materials for the microscope. Examination, etc. of microscopic and other specimens prepared as above.

Referring plants to the Natural Orders mentioned in the theoretical.

Experiments on the following :—Water culture. The functions of chlorophyll—the formation of starch. Root pressure. Absorption of mineral substances by the root. Respiration—Influences of light and gravity on growth. Germination.

The following books are recommended :—

- | | | |
|--------------------|----|--|
| Farmer & Choudhury | .. | A practical Introduction to the Study of Botany (<i>Longmans</i>). |
| K. Ranga Achari | .. | A manual of Elementary Botany for India. (1922 edition). |
| F. Darwin | .. | The elements of Botany. |

GEOGRAPHY.

(I.A. 1939).

There shall be two papers in the subject. Each paper shall be of three hours and shall carry 85 marks. Candidates are to maintain a record of practical work carrying 30 marks

done throughout the two years course. A minimum of 12 marks for the record must be obtained for a pass.

Theoretical

Paper I.—Regional, including commercial and political geography of Eurasia with a fuller treatment of India, and of *either* the American Continent, *or* of Africa and Australia. One of the two latter alternatives will be prescribed alternately every two years.

Paper II.—Physical, Mathematical and world geography.

Theories regarding the origin of the earth, denudation, rock building; elevation and submergence. Constitution of the earth's crust; different kinds of rocks. Important minerals: how they can be recognized. Fossils; what they are, and how they indicate geological time. Earth movements, foldings; the origins of mountains. Rivers and lakes; how they are formed. Frost and ice; their influence on the earth's surface. Volcanoes. Earthquakes.

The atmosphere. Its composition: Pressure. Relation of wind to pressure, Cyclones and Anticyclones; Land and Sea breezes, Isobars, Isotherms and Isohyets. Water vapour in the atmosphere. Clouds. Rainfall; influence of land and sea on rainfall; seasonal variation of rainfall.

The Ocean. Its distribution. Continental shelves and slopes. The deeps. Movements of sea water; currents and tides.

Map-reading and map-making. Common Projections.

Movements of the globe, rotation, revolution. Latitude and Longitude. The moon, and other important heavenly bodies.

Configuration and distribution of land and sea forms. Distribution of temperature, and pressure, Precipitation and its seasonal distribution. Monsoon-lands and "Mediterranean" lands. Mediterranean type of climate. Vegetation; its dependence

on light, heat and moisture ; different kinds of vegetation ; deciduous and coniferous forests; tundra lands.

Agriculture, primitive and advanced.

Conditions governing growth and distribution of most important cereals and vegetable products of commercial value.

Forests ; most important kinds of trees, their distribution ; Animals, wild and domestic.

Main industries in different parts of the world ; the reasons for them, Transport by land, sea and air. Main ports and markets of the world; the reasons why they are in the places in which they are.

Peoples of the world. Main physical differences between different peoples. Their distribution on the earth's surface.

The following syllabus for practical work is recommended .

1. Measurement of length, area and volume. Comparison of scales.

2. Construction of the following scales:—Diagonal scale showing lengths and hundredths of an inch, 50—1", 1
showing miles. 1,600,000

3. Construction of verniers-barometric and ordinary.

4. Use of balance and determination of sp. gravity.

5. Identification of the following rocks ; including the recognition of the essential rock-forming minerals:

Igneous:—Granite, Rhyolite, Gabbro and Basalt.

Sedimentary—Sandstone, limestones shale, conglomerate, Metamorphic—Gneiss, schist, marble, slate, quartzite.

The demonstration and identification of different kinds of Indian soils.

6. Use of the following Meteorological instruments :—

Thermometer, Centigrade and Fahrenheit. Max. & Min.

Thermometers. Dry and Wet Bulb Thermometer, Barometer.

The use of rain gauge.

7. Chain survey and plotting of the surveyed area.

8. Use of the Plane table and the Prismatic Compass,

9. Methods of showing relief Contour lines.

10. Construction of sections from contour maps.

11. Construction of contour maps.

12. Construction of iso-thermal, isobaric and isohyet maps from statistical data.

13. Signs used in Weather maps and construction of climate maps of India. .

14. Reading of topographical maps, conventional survey signs.

MATHEMATICS,

(I.A. AND I.SC. 1939).

There shall be two papers in this subject. Each paper shall be of three hours and shall carry 100 marks.

The course shall include the following subjects :—

Paper I.

Algebra.—Arithmetical Progression. Geometrical Progression and Harmonical Progression. Theory of quadratic expressions and equations. Simultaneous quadratic equations one of which is linear. Permutations and Combinations. Variation and Proportion. Binomial theorem for positive integral indices. Use of logarithms. Theory of indices. Surds and imaginary quantities. Graphs of quadratic algebraic functions.

Plane Trigonometry.—Measurement of angles. Trigonometrical ratios. Application of algebraic signs—angles of any magnitude. Graphs of trigonometrical ratios. Elementary

trigonometrical formulae and their applications. Logarithmic sines, cosines etc. Relations between the sides and angles of triangles. Practical solution of triangles with applications.

Geometry.—Definitions of parallel lines and planes from their incidence at infinity and of cylinders & cones as infinite loci.

1. One and only one plane can be made to pass through two intersecting straight lines.

2. If two planes cut each other, their intersection is a straight line.

3. The intersections of two parallel planes with any third plane are parallel.

4. A plane containing only one of two parallel straight lines is parallel to the other.

5. If a straight line is parallel to a plane, the intersection of the plane with any plane drawn through the line is parallel to the line.

6. Through a given point only one plane can be passed parallel to two straight lines not in the same plane.

7. Through a given straight line only one plane can be passed parallel to any other given straight line in space, not parallel to the first.

8. If a straight line is perpendicular to each of two other straight lines at their point of intersection, it is perpendicular to every line in their plane through the foot of the perpendicular.

9. Every perpendicular that can be drawn to a straight line at a given point lies in a plane perpendicular to the straight line at the given point.

10. Of two parallel straight lines if one is perpendicular to a plane, the other is also perpendicular to the same plane.

11. Two straight lines are parallel to one another if they are both perpendicular to some one plane.

12. Of all straight lines drawn from an external point to a plane the perpendicular is the shortest ; of obliques drawn from the given point those which cut the plane at equal distances from the foot of the perpendicular are equal.

13. Through a given point only one perpendicular can be drawn to a given plane.

14. If two straight lines are parallel to a third, they are parallel to each other.

15. Two planes are parallel to each other if they are both perpendicular to some one straight line.

16. The locus of points equidistant from the extremities of a straight line is a plane perpendicular to that line at its middle point.

17. If two straight lines are cut by three parallel planes, their corresponding segments are proportional.

18. If two angles have their arms respectively parallel and lying in the same direction, they are equal, and their planes are parallel.

19. The projection of a straight line upon a plane is a straight line.

20. The acute angle which a straight line makes with its own projection on a plane is the least angle which it makes with any line of the plane.

21. If a line meets its projection on a plane, a line in the plane perpendicular to one of them at their intersection is perpendicular to the other also.

22. If a straight line is perpendicular to a plane, every plane passing through the line is perpendicular to the first plane.

23. If two intersecting planes are each perpendicular to a third plane, their intersection is also perpendicular to that plane.

24. Through a given straight line oblique to a plane only one plane can be passed perpendicular to the given plane.

25. Any two face angles of a trihedral solid angle are together greater than the third.

26. Every section of a right circular cylindrical surface made by a plane through its axis is a pair of parallel straight lines.

27. Every section of a right circular conical surface made by a plane passing through its axis is a pair of straight line through the vertex.

28. Every section of a right circular cone made by a plane perpendicular to the axis is a circle the centre of which is the intersection of the plane with the axis.

29. Every section of a sphere made by a plane is a circle.

30. A plane is tangent to a sphere if it is perpendicular to a radius at its extremity.

31. The distances of all points of a circle on a sphere from its poles are equal.

32. A point on the surface of a sphere which is at the distances of a quadrant from each of two other points, not the extremities of a diameter, is a pole of the great circle passing through these points.

Note.—The syllabus must not be regarded as exhaustive and cognate theorems may be added at the discretion of the teacher. A possible logical order is indicated, but there is no intention of insisting upon any definite order.

*Paper II.***Elementary Statics and Dynamics.—**

(a) Uniform and uniformly accelerated motion. Composition and resolution of velocities and accelerations. Definitions of mass, momentum, force. Newton's Laws of Motion. Units of force and measurement. Composition and resolution of forces acting at a point. Simple illustrations of Newton's Laws : projectiles, motion of a particle on an inclined plane, motion of two particles connected by string ; uniform circular motion.

(b) Equilibrium of forces. Resolution and composition of parallel forces in one plane. Centre of parallel forces. Centre of gravity. Mass centre. Reduction of any system of coplanar forces acting on a rigid body to a single resultant force or couple. Conditions of equilibrium for co-planar forces. Friction. Simple Machines.

(c) Impulse of a force. Conservation of linear momentum for a system of particles. Simple cases of direct impact of two spherical bodies moving in the same plane. Work and Energy. Application of the Principle of Energy to the solution of simple problems.

Differential and Integral Calculus—

Function, limiting values, differential co-efficient with respect to x of x^n where n is constant.

Geometrical interpretation of $\frac{dy}{dx}$

Differential co-efficients of a sum, a product, a quotient and a function of a function. Changing the variable.

Differential co-efficients of $\sin x$, $\cos x$, $\tan x$, $\operatorname{cosec} x$, $\cot x$. A differential co-efficient, considered as a rate-measurer. Integration considered as the reverse of differentiation. Differential ; changing the variable.

Simple definite integrals.

Integration by parts.

Note.—Integration involving the use of inverse trigonometrical functions, exponential and logarithmic series is to be omitted.

In all the subjects, theorems, problems and questions cognate to the syllabus may be introduced.

No text-book is prescribed but the following is mentioned as indicating approximately the scope of the syllabus :—

Baker, W. M. . . . The Calculus for beginners.

EDUCATION AND TEACHING

EDUCATION.

(I.A. 1939).

There shall be two papers in Education. . (1) Principles and Methods of Teaching, (2) School Administration and Hygiene. Each paper shall be of three hours and shall carry 100 marks.

The course shall include the following syllabus :—

Paper I.

Principles and Methods of Teaching.

(a) *Principles.* . Forty marks will be allotted to questions based on the following syllabus :—

Teaching as an art and as a science. The general facts of mental life and growth and their bearing on the learning process ; instinct and emotion ; sensation, perception, conception, judgment, imagination, attention, memory, character and will. Habit formation. The foundations of Method—general and special ; the principles underlying the Kindergarden, the Dalton, the Montessori and the Project methods,

(b) *Methods*.—Sixty marks will be allotted to questions on three of the following of which (vi) must be one :—

(i) The teaching of English, (ii) The teaching of Mathematics, (iii) The teaching of History, (iv) The teaching of Geography, and (v) The teaching of Nature Study, (vi) The teaching of the Mother Tongue.

Books recommended.

(a) For intensive study.

- | | | |
|--------------|----|---|
| J. H. Wimms | .. | "An Introduction to Psychology for the use of teachers." (Charles and Sons.) |
| E. A. MacNee | .. | "Instruction in Indian Secondary Schools" (Chapters V, VI, VII, VIII, IX and XI). |

(b) For teacher's use.

- | | | |
|--------------|----|--|
| Sir J. Adams | .. | "The New Teaching" (Hodder and Stoughton). |
| W. James | .. | "Talks to Teachers" (Longmans). |
| P. C. Wren | .. | "The Direct method of Teaching English in Indian Schools (Longmans). |

Board of Education—

Hand-book of suggestions for the consideration of teachers (H. M. Stationary Office).

Paper II.

School Administration and Hygiene.

(a) *School Administration.*

1. Functions of a school.
2. Moral training ; corporate life.
3. Punishments and rewards.
4. Co-operation between parents and teachers.
5. Qualifications and duties of Headmaster

and Assistant Master; Specialist and Form Master; Staff Meetings. 6. Classifications of pupils; examinations, promotions. 7. Time table. 8. Schemes and notes of lessons. 9. Text books, pupils' exercise and note-books. 10. Library. 11. Class, staff, and general.

(b) *Hygiene.*

AIR—Impurities in air and their origin. The need for pure air. Ventilation and its importance. Cubic air space in class-rooms and hostels. Breathing habits and posture. Exercise, recreation, rest, sleep.

WATER—Sources of water supply—how water gets polluted—how to prevent the pollution of water—purification of water. Water-borne diseases.

FOOD—Good and bad food. Contamination and adulteration of food. Preservation of food. Diseases due to over and under-feeding. Drugs and stimulants. Conservancy in schools and hostels—latrines, urinal, drain, Infectious diseases,—cholera measles, small-pox, plague, tuberculosis, malaria—their causation, prevention and arrest.

Hygiene of the ear, eye, nose and throat. Minor ailments of these organs and how to avoid them.

Skin diseases.

Books recommended.

(a) *For intensive study.*

- | | | |
|--------------|----|--|
| E. A. Macnee | .. | Instruction in Indian Secondary Schools.
(O. U. P.) |
| P. C. Wren | .. | Indian School Organization, (Longmans). |
| Banks | .. | Physiology and Hygiene (Macmillans). |

(b) *For teachers' use.*

- | | | |
|--------------|----|---------------------------------------|
| J. N. Fraser | .. | Notes on School equipment (Longmans). |
|--------------|----|---------------------------------------|

DOMESTIC SCIENCE.

(I.A. 1938).

The examination shall consist of two written papers of three hours each carrying 75 marks and a practical test of three hours' duration carrying 50 marks.

The first paper will contain questions on (1) activities of a modern home, (2) Physiology and Hygiene and the second paper on (1) Elementary Public health and (2) Child study

The practical test will be on any two of the following chosen by the candidate :--

- (1) Needle work, (2) Laundry work, (3) Care of the sick and children up to 5 years and (4) Cooking.

Paper I.—1.—Activities of the modern home.

(1) To provide for the physical needs and development of the members of the family.

(2) To provide for their mental, moral, and social needs.

(3) To co-operate with the community for the better meeting of these needs.

(4) To maintain the home on an economically sound basis so as to make possible meeting of the above needs.

2.—The Study of Physiology and Hygiene.

(A) The cells, the supporting tissues and their structure.

(B) The skeleton, bones, joints, the muscular system. A special study of the conditions making for the normal development of these systems, such as posture, etc.

(C) Digestion and nutrition.

(1) The organs and processes of digestion.

(2) Economic value of foods.

- (3) Physiological value of foods.
- (4) Well balanced meals, metabolism, condiments and narcotics.
- (5) Effects of cooking on food, methods of cooking.
- (6) Treatment of minor digestive ailments.
- (7) Alcohol and drugs and their effects on the digestive system.
- (D) The excretory system—the skin, kidney, bowels, health habits of children in relation to the above.
- (E) The circulation of the blood—the heart, arteries ; veins ; capillaries. The regulation of the blood supply. The composition of the blood and its work in the body.

The problem of the child with the weak heart

(F) Respiration.

- (1) The lungs ; trachea ; larynx ; the composition of pure and impure air ; effect of breathing in air.
- (2) Formation of proper breathing habits in children, posture ; special breathing exercises.
- (3) Ventilation for the school and home.

(G) The nervous system and sense organs.

- (1) The nerves, spinal cord, brain.
- (2) The structure of the eye, ear and nose.
- (3) Health habits to promote the normal development of these organs.
- (4) Common defects of these organs—how to detect them.
- (5) Treatment of minor ailments and accidents.
- (6) The effect of alcohol and drugs on the nervous system and sense organs.

(H) Clothing.

- (1) Selection of clothing.

(2) Training of children as to care and cleanliness of clothing.

(1) Occupation, exercise, recreation, rest sleep, Health habits to be established in children in the above.

(2) Health habits which will prevent the spread of infectious diseases.

Paper II.—1.—**Elementary Public Health.**

A. Responsibility of the individual.

B. Disposal of refuse and waste water. Drainage. Latrines, Methods suitable for use in villages with reference to local conditions in the province.

C. Water supply. Food supply.

D. Prevention and arrest of infectious disease.

E. Gardens, Playgrounds, Open space.

F. Modern movements for the education of society in the laws of health, e. g. "Child Welfare".

2.—Child Study.

The study of children's development from the point of view of physique, intelligence and character, based as far as possible on the observation of individuals and classes.

An elementary study of the means by which children acquire knowledge and skill, including such as the following :—

The senses and sense training, instincts and their relations to children's interests, especially the function of play and imitation ; attention and interest ; association of ideas ; memory ; habits and their formation ; consciousness, sensation, perception and the formation of concepts ; simple processes of reasoning, imagination, feelings and emotions, the growth of the will, suggestion,

The aims and methods of discipline ; training in responsibility in the right use of freedom and in the social duties.

Practical Work.

(A) Needlework.

- (i) Cutting out and making two sets of garments for a child of 5 (one for a boy and one for a girl) either hand sewn or machined.
- (ii) Knitting a vest or jumper or a shawl.
- (iii) Use and care of a Sewing Machine and simple adjustment of parts.

The Principal of the school or college from which candidates appear must sign a certificate stating that the work shewn is the work of the candidate. In case of a private candidate, person signing the admission certificate must be satisfied that the work shewn is the genuine work of the candidate.

(B) Laundry work.

- (i) Use of soap and soap powders—washing and ironing silk goods—washing, boiling, blueing, starching, ironing of cotton and linen goods—washing of coloured cloths—washing of woollens—drying and ironing of woollens—cleaning of laces and fine muslins—washing coloured cloths and setting the colour. Removal of stains and spots—Uses of permanganate potash—Hydrogen peroxide—lemon and other simple home methods.
 - (ii) Dyeing and dry cleaning.
- #### (C) Care of the sick :—

- (i) External remedies—making of poultices, plasters—fomentations, ice—hot and cold baths—sponging,

temperature charts—preparation of sick diet e. g. albumen water, barley water, boiled and steamed custard, soup, egg flip, junket, whey, sago pudding, gelatine and of food at convalescent stage. Disinfection of room, bedding, furniture and clothing during and after illness.

- (ii) Care of Infants and Children up to 5 years :—
Giving bath and taking weight of babies—preparation of food and way of giving it. Treatment of minor ailments—making of an ideal nursery.

(1) Cooking.

Building of slow, medium and quick fires—method of writing out the recipe cards, menu—building of daily meals, vegetarian and non-vegetarian and European and for special occasions as teas, picnics, luncheons and dinner.

Correct service at a table or in an Indian dinning room.

Correct rules about acting as hostess and writing of invitations.

- (b) Refrigeration, icing.

- (c) Fruit preserves—Jams and Jellies, Chutneys and pickles.

- (d) Preparation of three Indian dishes and three European dishes.

The following books are suggested :—

1. 'Human Physiology'—Furneaux and Smart.
2. Wymm's Physiology for Teachers.
3. Home Science section, Home Economics—Wyckoff Marshall.
4. Home nursing.

BIOLOGY, (*I. Sc. Examination, 1939.*)

BOTANY.

1. An outline classification of the Plant Kingdom and the Morphology and Life History of the following types :—
Thallophyta.

Algae—*Plourococcus*, *Volvox* *Ulothrix* and *Spirogyra* to illustrate the appearance of a soma and the differentiation of sex in gametes.

Fungi - *Mucor*, *Aspergillus*, *Saccharomyces* and *Agaricus*, Sapiophytism, Parasitism, Economic and Pathogenic importance. Symbiotic association of algae and fungi in lichens.

Bacteria—*Bacillus subtilis* and other common forms. Their importance.

Bryophyta, Pteridophyta and Spenmatophyta-typical examples of each, to illustrate alternation of generations.

Systematic study of the following Natural orders and a reference to important medical plants of the locality.

Ranunculaceæ or Anonaceæ, Leguminosæ, Papaveraceæ, Eupharbiaceæ, Solanaceæ, Compsitæ, Graminæ. Liliaceæ.

2. Plant History and Physiology :—

Structure of a herbaceous flowering plant, function of its organs and tissues. General Physiology of a green land plant (With simple experiments).

3. Structure of the flower and Pollination. Fertilization, formation of embryo and seed. Conditions of germination.

4. Difference between animals and plants and their inter-dependence, Adaptations and reaction to environment.

5. Evidences of Evolution. Principle governing classification of animals and plants.

6. Factors of Evolution ; Heredity ; Variation.

7. Mendelism.

(The whole subject to be treated in an elementary manner).

PRACTICAL WORK.

1. Candidates should be able to dissect and describe plants or parts of plants included in the course.

2. To prepare, stain and describe microscopic preparations from plants.

3. To identify botanical specimen and slides related to the syllabus.

4. To inspect and give an explanatory account of simple, already prepared experiments in plants Physiology.

Candidates will be required to bring to the Practical examination note-books containing a record of their practical work for inspection of the examiners, if required.

ZOOLOGY.

1. An outline classification of the Animal Kingdom and the morphology and life-history of the following types :—

Protozoa—Ameeba, Paramoecium, Monocystia, Malarial parasites.

Coelenterate --Liver-fluke.

Cestoda—Taenia.

Nematoda—Ascaris, Filaria.

Artherpoda—Mouth parts of mosquito, Distinction between Culex and Anophelee—Medital importance of the group.

Annelida—Earthworm.

Verfebrata—Dogfish, Frog, Rabbit, (Comparative study of the Central nervous, circulatory, respiratory and genitourinary systems.)

Snakes—Characteristics of poisonous and non-poisonous snakes.

2. Elementary History and Physiology of Vertebrates (Frog and Rabbit).

3. The eye and the ear of a large mammal.

The following text-books are prescribed :—

PASS COURSE.

Persian Selections for B. A. examination compiled by Dr. A. Ahmad, and Messrs A. Mannan, Hafiz Samsuddin Ahmad and Abu Syeed.

A Brief History of Persia by Sayid Abdul Majid (*Indian Press, Allahabad.*)

The Pass Course includes the elements of Persian Prosody and Rhetoric and the outlines of the History of Persia.

The following text-books are recommended :—

Ahsanul Qawaed.

Persia (*Story of Nations Series*).

HONOURS COURSE.

In addition to the Pass Course, the following text-books are prescribed :—

Paper IV.

Poetry :

Gulshan-i-Raz-i-Jadid, by Sir Iqbal Muhammad 35 marks.

The following Qasidahs from Zahir Fayyabi :—

- (۱) چون بر زمین طلایعنه شب گشت آشکار -
- (۲) سپیده دم چو زند ابر خیمه در گلزار -
- (۳) سفر گرندم و بشکست عهد قربی را -
- (۴) چو زهره وقت صبح از افق بسازد چنگ -
- (۵) سحر چو تافت ز دریای خاوران گوهر -
- (۶) گیتی که اولش عدم و آخرش فداست -
- (۷) نماز خفتن بیکارست و لا یعقل -
- (۸) نباشدت نقسی در سر از کله داری -

Translation from English into Persian (*Unseen Passages*) .. 30 marks.

Paper V.

Prose :

Nizami Aruzi's Chahar Maqala (The first two Maqalas) .. 20 marks.

Insha-i-Abul-Fazl, Part I (*Mobarak Ali, Lahore*) 20 marks.

Mard-i-Khâsis (*Mobarak Ali, Lahore*) .. 15 marks.

Humayun Namah, by Gulbadan Begam (*Ram Dayal Agarwala, Allahabad*) .. 15 marks.

Translation from English into Persian (*Unseen passages*) .. 30 marks.

Paper VI.

The Honours Course shall also include the outlines of Muhammadan History in so far as it relates to Persia, Central Asia and India, and the History of Persian Literature.

The following books are recommended :—

Mehdi Husain Nasiri—Sanadid-i-Ajam (*Ram Dayal Agrawala, Rs. 3*).

Abid Hussain Faridi—An Outline of the History of Persian Literature (*Ram Prasad and Bros., Agra, Rs. 1-8-0*).

HISTORY.

(B.A. 1939).

N.B.—There shall be three papers in the Pass Course, and six papers in the Honours Course (of which the subject-matter of the first three shall be the same as for the three Pass papers, the questions being separate). Each paper shall be of 3 hours and shall carry 100 marks. In each of the six Honours papers an Essay shall be set carrying not less than 25 marks.

A knowledge of historical geography, *i.e.*, a knowledge of the geography of the countries whose history is studied and the use of physical and historical maps, will be expected from every candidate. Historical atlases like Phillip's New School Atlas of Universal History (by Ramsay Muir and Phillip) should be used.

The Course shall include the following :—

A.

Pass and Common Honours Papers :

Paper I. History of Europe, from 1648.

Paper II. Elements of English Constitutional History.

Paper III. Ancient and Medieval Indian History (C. 600 B. C.—1526 A. D.), with special reference to developments in society, polity and culture.

B

Additional Honours Papers :

Paper IV. English History, from 1815.

Paper V. Greek and Roman History, from the earliest times to 146 B. C. and 476 A. D., respectively.

Paper VI. Political Science, including the new Indian Constitution

The following books are recommended for study as indicating the standard :—

Paper I. Hayes and Moon : Modern Europe (Macmillan).
H. Kettleby : History of Modern Times (Harrap).

For Honours only, for reference :

Guadella : The Partitions of Europe, 1715-1815.
Jane : Metternich to Bismarck, 1815-1878.

Paper II. Marriot : English Political Institutions.
Montague : Elements of English
Constitutional History.

For Honours only, for reference :

Adams : Constitutional History of England.

Paper III. V. Smith : Early History of India (4th edn).
Ishvari Prasad : History of Muslim Rule in India.
R. C. Majumdar : Outline of Ancient Indian History and Civilization (Chakravarty and Chatterjee, Cal.; Rs. 7-8-0)

For Honours only, for reference :

K. P. Jayswal : History of India (150-350 A. D.)
(Motilal Banarsi Das, Lahore ; Rs. 10.)
R. G. Basak : History of North-Eastern India
(320-760 A. D.) (The Book Co., Ltd., Cal.;
Rs 7-8-0)

Paper IV. Marriott : England since Waterloo.

Trevelyan : British History in the 19th century.

Ensor : History of England (1870—1914)
[O. U. P.]

Paper V. Cyril E. Robinson : A History of Greece.
(Methuen ; 7 s. 6 d.)

Cyril E. Robinson : A History of the Roman
Republic (Methuen ; 6s.)

Stevenson : The Roman Empire (Nelson ;
2s. 6d.)

Paper VI.

Leacock : Elements of Political Science.

Strong : Modern Political Constitutions.

ECONOMICS & POLITICAL SCIENCE PASS COURSE.

(B.A. 1939).

There shall be three papers in the Pass Course. Each paper shall be of three hours and shall carry 100 marks.

The course shall include the following :—

Paper I.—Analytical and Descriptive Economics.

Scope and methods of the Science. Definitions of Wealth, Capital, Income.

Consumption—being a study of utility and demand in relation to value.

Production—being a study of the agents and laws of production of the growth of population, and of business organisation.

Value—being a study of markets, of the temporary equilibrium of supply and demand, of value in relation to cost of production, and monopoly value.

Theory of Distribution—being a study of wages, interest, profits and rent.

Business organisation—and problems of economic reconstruction.

The materials for the study of this paper may be obtained from the following recommended books :—

Marshall	..	Economics of Industry.
Robertson	..	The Control of Industry.
Cannan	..	Wealth.

Paper II.—Currency, Banking, International Trade and Public Finance.

Recommended Books

Lehfeldt	..	Money.
Walter Loaf	..	Banking (<i>Home University Library</i>).
Dalton	..	Public Finance
Jack	..	Banking and Currency.
P. B. Whale	..	International Trade (<i>Home University Library</i> .)

The following are also recommended for further study in connection with Papers I and II :—

Chapman	..	Outlines of Political Economy.
Clay	..	Economics for the General Reader.
Lehfeldt	..	Descriptive Economics.
Taussig	..	Principles of Economics vol. I.

Paper III.—Indian Economics.

A general knowledge will be required of India's agricultural and mineral resources and their development of her manufactures and industrial and commercial organisation, and of the economic activities of Government (more specially with regard to railways, canals and the problem of famine relief) ; together with a knowledge of India's foreign trade, currency, banking, the revenue system (more specially the land revenue), the co-operative credit movement, and labour problems and legislation.

Recommended Books.

Jathar & Beri . . . Indian Economics.

The following are also recommended for further study.—

Agricultural Commission's Report, Chapters 1, 3, 5, 6, 8, 12 and 14.

The B. & O. Provincial Banking Enquiry Committee Report and the Fiscal Commission Report.

HONOURS COURSE.

There shall be six papers in the Honours Course. Each paper shall be of three hours and shall carry 100 marks

The course shall include the following :—

Paper I.—Analytical and Descriptive Economics.

Recommended Books,

Marshall—Economics of Industry.

Robertson—Control of Industry.

Carver—Distribution of Wealth.

Hendeson—Supply and Demand.

Saunders—Population.

Paper II.—Currency, Banking, International Trade and Public Finance.

Recommended Books.

Robertson—Money

Walter Leaf—Banking.

Hawtrey—Gold Standard in Theory and Practice.

Mackenzie—The Banking System of Great Britain France, Germany and U. S. A.

Cassel :—The downfall of the gold standard.

P. B. Whale—International trade (*Home University Library.*)

Dalton—Public Finance.

The following books are also recommended for further study ; for papers I and II.

Taussig—Principles of Economics.

J. E. Meade : Introduction to Economic Analysis and Policy.

Paper III.—Indian Economics with special reference to original documents such as :—

Agricultural Commission Report.

Industrial Commission Report.

Fiscal Commission Report.

Acworth Railway Committee Report.

Hilton-Young Commission Report.

Indian Central Banking Enquiry Committee Report.

Labour Commission Report.

Indian Taxation Committee Report (Chap. on Land Revenue only).

B. & O. Provincial Banking Committee Report.

Review of the Trade of India (*latest issue.*)

Paper IV.—Economic History of England and India from 1760.

Recommended Books.

Fay—Great Britain—From Adam Smith to the present day.

Knowles—Economic Development of Overseas Empire.

Knowles—The Industrial and Commercial Revolutions in Great Britain during the 19th century.

Dutt—India under Early British Rule.

Dutt—India to the Victorian Age.

Gadgil—Industrial Evolution of India.

Vera Anstey—Economic Development of India.

Paper V.—Political Science (Including a study of the constitution of the U. S. A., Germany, Italy and France.)

Recommended Books :—

Leacock—Elements of Political Science.

Strong—Modern Political Institutions.

Ogg—Governments of Europe (excluding part I.)
Paper VI.—Constitutions of England and India.
 Ogg—Government and Politics of England.
 Government of India Acts 1919.
 Montague Chelmsford Report.
 Simon Commission Report Vol. I.
 The Government of India Act, 1935.
 The Joint Select Committee Reports.

MENTAL AND MORAL PHILOSOPHY.

(B.A. 1939).

There shall be three papers in the Pass Course and six papers in the Honours Course. Each paper shall be of three hours and shall carry 100 marks.

The course shall include the following subjects :—

Paper I.—(Psychology Pass and Honours.)

Scope : The subject matter of Psychology ; Experience and Behaviour ; Definition of Psychology ; Psychology and Allied Sciences ; Biology, Physiology, Ethics, Metaphysics,

Methods : Introspection ; Objective observation ; Fields of Psychology ; Experimental, Physiological, Comparative, Social and Abnormal.

Mental Life : Its dynamic character ; the Conscious, the Subconscious and the Unconscious phases. Stimulus, Response and Adaptation.

Mind and Body : Psychophysical relations ; Parallelism and Interactionism.

• Nerve Cells and Nerves :—The Neuron theory ; the Cerebro-spinal System ; Receptors, Conductors, and Effectors ; Reflex-action.

Primary Mental Functions :—Interest and Attention ; Instinct and Emotion ; Satisfaction and Dissatisfaction ; Retentiveness ; Association ; Imagery and Ideation.

Sensation and Sense-organs :—Characterisation of sensation ; Exteroceptive, Interoceptive and Proprioceptive and general knowledge of the sense organs.

Learning Process :—The Process of Learning. Animal and Human Learning.

Perception :—Its cognitive character ; Sensation and meaning and their integration in perception : perception of distance, direction and solidity. Illusions.

Ideation : Percept, Image and Idea. Trains of ideas ; Laws of Association ; Anticipation ; Memory ; Forgetting ; a general idea of repression.

Imagination : Its forms ; Creation and Invention ; Imagination as an aid to adaptation in science.

Thinking : Thinking as the cognition of abstract aspects of experience ; analysis and synthesis. Reasoning and problem solving. Thinking distinguished from Association. Thinking process and language.

Dreams : Autistic Thinking, Wish fulfilment theory of Dreams.

Feeling, Emotion and Sentiment : Characterisation of Feeling. Pleasantness and Unpleasantness. Place of feeling in mental life. Emotions ; Organic changes in emotion and James-Lange theory. Formation of sentiments, Mood and Temperament

Volition and Self-consciousness : Impulsive action ; Desire ; Motive ; Conflict of impulses ; Deliberation ; Voluntary Decision ; Personality.

Paper II.—Ethics (Pass and Honours).

Definition, Province and End of Ethics.

Relation of Ethics to Psychology, Sociology, Politics, Metaphysics and Theology.

Method of Ethics ; Leading opinions on Character of Ethical Science.

Fundamental Ethical Concepts, Good and Evil, Right and Wrong, the Highest Good, Duty, Obligation. Virtue, Merit.

Action, Moral and Non-moral. Analysis of Desire ; Intention, Motive, and Volition.

The Moral Judgment : (a) its Nature, Method and Object ; (b) its Postulates ; Reason, Personality, Self-determination.

The Moral Faculty. The Evolution of conscience.

Moral Obligation. Various theories as to the seat of authority in morals. Sanctions.

Theories as to the true Ethical standard and a critical estimate of them, viz :—

- (1) Law (a) External (b) Internal—Intuitionism,
- (2) End (a) Pleasure ; (b) Perfection.

The Relation of the Individual to Society, Duties and Virtues.

Paper III.—(PASS AND HONOURS).

A course in Modern Philosophy embracing a general knowledge of the systems of Bacon, Descartes, Spinoza, Leibnitz, Locke, Berkeley, Hume and Kant—Critique of Pure Reason and Critique of Practical Reason.

Or

A course in Ancient Indian Philosophy comprising the systems of Sankhya, Vedanta, Nyaya and Vaisesika.

• The following books are recommended for study—

Max Muller	Six Systems of Indian^oPhilosophy.
	Three Lectures on Vedanta Philosophy.
A. B. Keith	.. Sankhya.
„ Indian Logic and Atomism.

The following books are recommended for the guidance of teachers—

- S. Radha Krishnan .. Indian Philosophy.
S. N. Das Gupta .. History of Indian Philosophy.

(HONOURS.)

Paper IV.—Metaphysics.

Philosophy.—Definition and province, relation of Philosophy to Epistemology and Ontology. Relation of Philosophy to Science.

Methods.—Dogmatism, Scepticism, Criticism and Dialectic.

Knowledge.—Philosophical knowledge as analysis, criticism and rationalisation of experience. Idealism, Realism and Ideal-Realism.

Origin of Knowledge.—*A priori* and *a posteriori* theories. Dogmatism and Criticism.

Categories of Knowledge.—Space, Time, Substance, Causality : the contents and origin of these ideas.

Dialectics as applied to Knowledge.—Subject, Object and the Absolute. Phenomenon and Noumenon. The Finite and the Infinite. The Conditioned and Unconditioned. The Relative and the Absolute.

The World.—Reality. The world as a system of reals. Temporal and Spatial order. Matter and motion. Energy, Conservation and Correlation. The Causal series. Substance and Attribute. The Individual and the Universal. Realism and Nominalism, Mechanism and Life. Organisation. The species idea. Evolution in nature. Mechanical and Teleological evolution.

The Soul.—Consciousness and life. The Physiological and Psychical series. Parallelism, and other theories of their relation. Mental evolution in the Animal kingdom. Mental evolution

in the race. Nature and origin of, Reason. The Soul and the Self. The Empirical Self, the Individual Self and Social Self. Organisation of Rights. The Ethos, and Ethicality. Personality and Personal Rights. The Moral Law. The Moral Reason.

The Noumenal Self as distinguished from the Empirical Self.

God.—Contents of the idea. God as conditioning the World and the Soul, God as the Absolute. The idea of the Absolute and its implications. Relation of God to the world-series and the soul-series. Types of Monism, Dualism and Pluralism. Transcendence and Immanence. Ultimate causality and end. Relation of God to man. Moral Government and Providence. Liberty and Necessity. Future life and Eternity. The cosmos considered sub-specie eternitatis. The Universal Reason.

HONOURS.

Philosophy of Religion.

Paper V.

Religion. Nature of, Relation to Science, Art, Philosophy, Morality.

Religion.—Natural and Revealed.

Theology.—Relation to (a) Science of Religion and Comparative Religion, (b) Ethics and (c) Philosophy.

The Religious Consciousness.—Its originality, its contents. (a) The cognitive element—the Idea of God as First Cause, as Ultimate Ground, as the Infinite and Absolute, as the self, (b) The emotional element—the religious sentiment, awe, reverence, worship. (c) The volitional element, the sense of duty.

Grounds of Belief in God.—(a) The idea of the Perfect Being, of the Infinite, of the absolute, of Necessary Being and of the contingency of the Cosmos; (b) the nature of Causality and the Cosmological argument (c) Final cause; (d) Conscience and Moral Law. Other grounds; consensus, intuition, criticism of experience and dialectic.

Evidence of Final Cause.—Adaptation-external and internal ; Explanations—Mechanism, Design, Immanent Finality. Arguments against these and substitutes offered. Criticism of the substitutes. Reconciliation of Mechanism and Teleology in Immanent Finality. Resulting conception of evolution.

The nature and attributes of the Divine Being, with special reference to Divine Personality.

The World, its creation, and conservation, Providence and Divine Government, natural and moral

The Problem of Pain and Moral Evil.

Types of Religion philosophically considered.

Theistic theories.

Quasi-theistic theories—Deism, Pantheism.

Antitheistic theories—Materialism, Naturalism, Phenomenalism, Agnosticism, Positivism, Pessimism, their import, origin and grounds.

HONOURS.

Special Texts and Essay.

Paper VI.

“The Monadology of Leibnitz translated by Wildon Carr (Fravil Press, London).”

“ Or

The English Translation of “Annambhatta’s Tarkasamgraha by S. Kuppaswami Sastri contained in “Primer of Indian Logic, S. Kuppaswami Sastri (P. Varadashay & Co., Madras).

The following books are recommended for studying the subjects as defined by the syllabus—

Psychology.

- | | | |
|-----------------|----|-------------------------------------|
| Murphy | .. | General Psychology, Briefer Course. |
| R. S. Woodworth | .. | Psychology. |

H. C. Warren and

L. Carmichael .. Elements of Human Psychology (*Houghton Mifflin Company, New York*).

Ethics.

Seth .. Study of Ethical Principles.
 Martineau .. Types of Ethical Theory.
 Mackenzie .. Manual of Ethics,
 Mazumdar .. Outlines of Moral Philosophy.

METAPHYSICS.

PAULSEN :—Introduction to Philosophy.

STEPHEN :—The Problems of Metaphysics.

CUNNINGHAM :—The Problems of Philosophy.

Philosophy of Religion.

Martineau .. Study of Religion.
 Fraser .. Philosophy of Theism.
 Pringle Pattison .. Idea of God.
 Ditto .. Idea of Immortality.
 Galloway .. Philosophy of Religion.

Preparatory Reading : Students are advised to read the following books before joining the regular class :—

J. C. Ghose .. Positive Religion.
 Rogers .. Religious Conception of the World.
 Armstrong .. God and the Soul.
 A. C. Mitra .. Moral Drama of the World.

History of Philosophy.

Weber .. History of Philosophy.
 Schwegler .. History of Philosophy.
 Thilly .. History of Philosophy (*Bell*).
 Rogers .. History of Philosophy.

The following books are recommended for the guidance of teachers :

Psychology

James Ward	.. Psychological Principles.
Ward	.. Principles of Psychology.
Ladd	.. Elements of Philosophical Psychology.
Herbert Spencer	.. Principles of Psychology.
Bain	.. Senses and the Intellect.
Bain	.. Emotions and the Will.
Sully	.. Human Mind.
Wundt	.. Outlines of Psychology.
Lickley, J. D.	.. The Nervous System.

Metaphysics.

Green	.. Prolegomena to Ethics.
Bradley	.. Appearance and Reality.
Caird, E.	.. Critical Philosophy of Kant.
Sidgwick	.. Philosophy of Kant and other Lectures.
Sidgwick	.. Philosophy, its scope and Relations.
Herbert Spencer	.. First Principles.
Hegel	.. Philosophy of Mind (<i>Wallace</i>).
Lotze	.. Metaphysics.
Pfleiderer	.. Philosophy of Religion.
Caird, J.	.. Introduction to the Philosophy of Religion.
Ward, W. G.	.. Philosophy of Theism.
Janet	.. Final Causes.
Hegel	.. Philosophy of Religion.
Lotze	.. Outlines of Philosophy of Religion.
Caird, E.	.. Evolution of Religion.
James	.. Varieties of Religious Experience.

Ethics.

Green	.. Prolegomena to Ethics.
Sidgwick	.. Methods of Ethics.

Wundt	.. Ethics.
Leslie Stephen	.. Science of Ethics.
Janet	.. Theory of Morals.
Paulsen	.. System of Ethics.
Abbott	.. History of Ethics.
Alexander	.. Moral Order and Progress.
Eucken	.. Main Currents of Modern Thought.
Bergson	.. Creative Evolution.
Bergson	.. Time and Free Will.
Hoffding	.. Philosophy of Religion.
Emile Boutroux	.. Science and Religion in Contemporary Philosophy.

PHYSICS.

(B. SC. 1939.)

PASS COURSE.

There shall be two Theoretical papers in the Pass Course. Each paper shall be of three hours and shall carry 100 marks. In addition to the Theoretical papers there shall be an examination in Practical work carrying 100 marks.

The course shall include the following:—

Theoretical.

Paper I.

1. *General Ideas:*

(a) *Wave motion.*—Simple harmonic motions. Combination of wave motions. Resolution of complex wave motion into simple harmonic wave motions.

(b) *Potential.*—Definition of potential. Calculation of potential. Fundamental propositions respecting lines of force. Equipotential surfaces and tubes of force.

(c) *General properties of matter.*—Elasticity. Young's modulus of simple elasticity treated experimentally. Friction.

Elementary kinetic theory of gases. Viscosity of liquids and gases. Surface tension. Capillarity.

2. *Heat*.—A more thorough acquaintance with the parts of the subject prescribed for the Intermediate examination in Science and a greater power of working out problems on heat will be expected from the candidates.

3. *Light*.—Besides a more thorough acquaintance with the parts of the subject prescribed for Intermediate examination in Science, a knowledge of the following will be expected from the candidates:—

Optical description of the eye. Optical instruments: sextants, lenses, microscopes, telescopes, spectrometers, Achromatic combinations. Elements of the wave theory of light. Simple cases of interference, diffraction, double refraction and polarisation.

Paper II.

4. *Sound*.—Besides a fuller treatment of the parts of subject prescribed for the Intermediate examination in Science, the following:—

Measurement of frequency and wave lengths of sound vibrations. Doppler's principle. Resonance. Interference of sound waves. Beats, Harmonic tones, their generation and function. Longitudinal vibration of rods. Vibration of plates. Vibration of tuning forks and bells. Nature of musical sounds. Vocal organs of man.

5. *Frictional Electricity*.—A treatment of this subject immediately in connection with potential, with the addition of the following parts:—

Theory of electric condenser of simple geometrical form. Specific inductive capacity and its measurement. Electrometers. Electrostatic units.

Electro-Magnetic induction; simple treatment of oscillatory discharge of a condenser. Discharge of electricity through gases.

6. *Dynamic Electricity*.—Besides a fuller treatment of the parts of the subject prescribed for the Intermediate examination in Science, the following :—

Galvanometers. Measurement of electric force, conductivity, resistance and current. Electro -Magnetic units and their relation to electrostatic units. Effects of temperature on electric resistance, Electrolysis.—Theory of voltaic and electrolytic cells. Thermo-electricity, including Peltier and Thomson effects.

7. *Magnetism*.—Besides a fuller treatment of the parts of the subject prescribed for the Intermediate examination in Science, the following :—

Magnetic elements and methods of comparing them, Determination of declination, dip and intensity of the magnetic force of the earth, Methods of magnetisation, Magnetic potential, Magnetic properties of iron and steel, Permeability, Hysteresis, Diamagnetism.

The subjects are to be treated mathematically as well as experimentally as far as the Mathematics of the Intermediate Course are applicable.

Practical.

The following experiments are suggested as a practical course bearing on the preceding syllabus. In the practical examination questions will be set involving a knowledge of the methods of measurement illustrated by these experiments,

Use of	{	Callipers.
	{	Screw gauge.
	{	Spherometer.

Use of the balance.

Reading and correcting the barometer.

Determination of specific gravities,

Determination of the modulus of elasticity of a given wire by stretching.

Determination of the intensity of gravity by the pendulum.

Measurement of the co-efficient of linear expansion of metals.

Measurement of the co-efficient of increase of pressure of a gas at constant volume.

Measurement of the co-efficient of expansion of air at constant pressure.

Verification of the laws of cooling.

Determination of the specific heat of solids and liquids.

Determination of the latent heat of fusion of ice and vaporisation of water.

Determination of dew-point.

Determination of the velocity of sound by resonance columns.

Use of the Sonometer.

Determination of the focal length of lenses and concave mirrors. Photometric measurements. Determination of the magnifying power of combinations of lenses. Adjustment and use of the spectroscope and the spectrometer.

Comparison of magnetic moments. Distribution of magnetism along a magnet. Determination of the axis of a magnetised body. Measurement of magnetic dip with corrections. Determination of the constant of a tangent galvanometer. Measurement of the resistance of wires. Comparison of electromotive forces.

The laboratory note-books of each candidate shall be inspected by the examiner and the examiner shall take them

into consideration along with the results of the practical examination. A note-book which has not been signed at frequent intervals by the Professor under whom the candidate worked shall not be accepted.

Note.—No text books is prescribed but the following is mentioned in order to indicate the standard expected in theoretical work:—

Watson .. Text book of Physics.

HONOURS COURSE

There shall be four Theoretical papers in the Honours Course. Each paper shall be of three hours and shall carry 100 marks. In addition to the theoretical papers there shall be two examinations in practical work each carrying 100 marks.

The papers shall be distributed as follows:—

Paper I. —General Ideas and Sound.

Paper II. —Heat.

Paper III. —Light.

Paper IV. —Electricity and Magnetism.

Paper V and IV.—Practical examinations.

Candidates will be expected to know the notation, — elementary principles of the Differential and Integral Calculus.

The Course shall include in addition to the subject of the Pass Course, the following :—

Theoretical.

• Brownian Movement. The elementary principle of Thermodynamics.

• Spherical aberration. Dispersion. Prismatic analysis of light. Explanation of lines in the solar and other spectra.

• Interference of light. Diffraction of light. Measurement of wave length. Colour of thin plates. Double refraction.

Polarisation of light by reflection. Refraction and double refraction. Interference of polarised light as shown by double refracting crystals. Polariscopes and Polarimeters. Elliptic and circular polarisation. Rotation of the plane of polarisation

Practical

Use of the balance with corrections for displacement of air.
Calibration of tubes.

Determination of Young's modulus of a given rod by bending.

Experimental determination of moments of inertia.

Measurement of surface tension by means of capillary tubes.

Determination of the coefficient of expansion of liquids.

Determination of the specific heat of liquids by the method of cooling.

Determination of vapour pressure.

Determination of vapour density.

Determination of frequency by a siren.

Determination of the velocity of sound in rods by Kundt's tube.

Determination of the refractive indices of solids and liquids.

Mapping of spectra.

Measurement of wave lengths by gratings.

Measurement of magnetic moment and earth's magnetic field

Calibration of galvanometer by electrolytic experiments.

Measurement of heat developed by currents.

Determination of the possible errors in measurements and their influence on the results.

The laboratory note-books of candidates shall be inspected by the examiner and the examiner shall take them into consideration along with the results of the practical examination. Note-books which have not been signed at frequent intervals by the professor under whom the candidates worked, will not be accepted.

CHEMISTRY

(B. SC. 1939.)

PASS COURSE.

There shall be two Theoretical papers in the Pass Course. Each paper shall be of three hours and shall carry 100 marks. In addition to the Theoretical papers there shall be an examination in practical work, carrying 100 marks.

The course shall include the following :—

Theoretical.*Paper I.*

Organic Chemistry.—Qualitative and quantitative analysis of organic compounds. Saturated hydrocarbons with their simple derivatives, halogen derivatives, alcohols, ethers, aldehydes, ketones monobasic acids, esters, amines, acid chlorides, anhydrides and amides. The cyanogen compounds. The carbohydrates. Oxalic, tartaric and citric acids. The unsaturated hydrocarbons of the aliphatic series. Benzene and its mono-substitution products. Diazo-reaction and phenylhydrazine.

Paper II.

Physical Chemistry.—Besides the subjects of the intermediate Examination in Science treated more fully, the following :—

Classification and the mutual relation of elements, Osmotic pressure and gas laws. Determination of equivalent, atomic and molecular weights. Chemical changes and the thermal changes accompanying them. Reversible reactions and dissociation. Law of Mass action. Ionic hypothesis and electrolytic dissociation. Dialysis. Allotropy, Isomerism, polymerism. Homology.

Inorganic Chemistry.—Study of the following elements and their chief compounds—Argon, Hydrogen, Sodium, Potassium, Copper, Silver, Gold, Magnesium, Calcium, Strontium, Barium,

Zinc, Cadmium, Mercury, Boron, Aluminium, Carbon, Silicon, Tin, Lead, Nitrogen, Phosphorus, Arsenic, Antimony, Bismuth, Oxygen, Sulphur, Chromium, Fluorine, Chlorine, Bromine, Iodine, Manganese, Iron, Cobalt, and Nickel.

Practical.

Easy qualitative analysis of mixtures of inorganic substances.

Experimental examination of the following organic substances given single :—methyl alcohol; ethyl alcohol; glycerine; formic, acetic, oxalic, tartaric and citric acids, urea; benzene and benzoic acid.

Simple organic preparations.

Volumetric analysis ; Acidimetry, Alkalimetry, and use of silver nitrate and potassium permanganate.

Gravimetric estimation of :—Iron, Silver, Barium and Hydrochloric and Sulphuric Acids.

The laboratory note-books of each candidate shall be inspected by the examiner, and the examiner shall take them into consideration along with the results of the practical examination. Note-books which have not been signed at frequent intervals by the professor under whom the candidates worked, shall not be accepted.

HONOURS COURSE.

There shall be four Theoretical papers in the Honours Course; each paper shall be of three hours and shall carry 100 marks. In addition to the Theoretical papers there shall be two examinations in Practical work, each carrying 100 marks.

The course shall include the following :—

Theoretical.

In addition to a fuller treatment of subjects, for the Pass Course, the following :—

Paper I.

Physical Chemistry.—Kinetic Theory of gases and Vander Waal's Equation, Chemical equilibrium in homogeneous and

heterogeneous systems. Law of Mass action ; Phase Rule ; Distribution Law ; Influence of temperature and pressure ; Principle of maximum work. Elementary study of Chemical dynamics. Rate of chemical transformations. Catalysis, Electro-Chemistry ; Colloids. Introduction to Thermodynamics and its application to the study of solution.

Paper II.

Inorganic Chemistry.—Study of the following elements and their principle compounds :—Helium group of elements ; Lithium ; Rubidium ; Caesium. Radium, Vanadium, Selenium. Molybdenum, Tellurium, Tungsten, Palladium and Platinum.

Paper III.

Organic Chemistry.—Sulphur compounds of the aliphatic series. Organo-metallic compounds of Zinc and Magnesium. Hydroxy, ketonic and amino acids, Dibasic acids and their derivatives. The ureides. Di-substitution products of benzene. Glucosides. Azo compounds. Triphenyl methane dyes, Nephthylene, Anthracene, Alizarine, Indigo.

Paper IV.

General.—This paper shall comprise questions on general knowledge of chemical literature, essays on industrial subjects, every-day science and historical essays. One essay question shall be compulsory and shall carry 40% of the total marks. In this question a wide choice of subjects for the essay shall be given.

Practical.

Physical.—

Calibration of a pipette, a burette and a set of weights. Measurement of density of gases (i) by Victor Meyer's method (ii) by the Effusion method.

Determination of molecular weights (i) by Beckmann's F. P. method, (ii) by Lumsden and Walker's Boiling point method

Setting up of a simple arrangement for the measurement of conductivity ; determination of the cell constant and molecular conductivity of potassium chloride. Setting up of a simple arrangement for the measurement of the E. M. F. of concentration cell ; measurement of the following cell ;

Inorganic.—Qualitative analysis and a more complete knowledge of volumetric and gravimetric analysis. Inorganic preparations.

Organic.—Determination and estimation of elements in organic compounds. Organic preparations. Identification of Organic compounds.

Note :—The laboratory note-books of candidates shall be inspected by the examiner and the examiner shall take them into consideration along with the results of the practical examination. Note-books which have not been signed at frequent intervals by the professor under whom the candidates worked shall not be accepted.

BOTANY.

(B. Sc. 1939.)

PASS COURSE.

There shall be two theoretical papers in the Pass Course. Each paper shall be of three hours and shall carry 100 marks. In addition to the theoretical papers, there shall be an examination in practical work, carrying 100 marks.

The Course shall include the following:—

Theoretical

1. General Morphology of :

(a) Phanerogams, including a study of the following subjects in detail,—branch systems, phyllotaxis, origin of members,

General morphology should be studied with reference to ecological principles.

(b) **Cryptogams.**

II. Histology—Cell-contents and their microchemical reactions. Structure and development of cells and tissues.

III. Physiology including the following subjects treated experimentally—absorption of water, movement of water and gases within the plant, chemistry of the plant body; food materials of plants, their sources and form; photosynthesis, digestion, assimilation, transpiration, nutrition, metabolism, transport of food-stuffs and of the products of photosynthesis, reserve materials; growth; movement of protoplasm; action of gravity; heat and light; symbiosis; carnivorous plants; mechanical movements (hygroscopic movements, dehiscence of fruits, mechanical ejection of seeds); autonomous movements (nutations and sleep); movements due to irritability (mechanical, chemical and physical irritants); twining; geotropism; heliotropism; asexual and sexual propagation of plants.

IV The study of the life history of the following:—*Mucor*, *Pythium*, *Eurotium*, *Yeast*, *Puccinia* and *Agaricus*; *Oscillatoria*; *Spirogyra*, *Ulothrix*, *Vaucheria* and *Chara*; *Fucus*; *Marchantia* and *Funaria*; *Aspidium*; *Marsilia*; *Equisetum* and *Selaginella*; *Cycas* and *Pinus*; *Monocotyledon* and *Dicotyledon*.

V. The principles of classification as illustrated by common plants with special reference to the following Families:—

Graminaceæ	..	Rosaceæ.
Cyperaceæ	..	Leguminosæ.
Palmaceæ	..	Myrtaceæ.
Liliaceæ	..	Umbelliferae.
Musaceæ	..	Apocynaceæ
Zingiberaceæ	..	Convolvulaceæ.
Moraceæ	..	Verbenaceæ.
Urticaceæ	..	Labiateæ.
Amarantaceæ	..	Solanaceæ.

Anonaceae	.. Scrophulariaceae.
Papaveraceae	.. Acanthaceae.
Cruciferae	.. Rubiaceae.
Tiliaceae	.. Cucurbitaceae.
Malvaceae	.. Compositae
Euphorbiaceae	.. Rutaceae

Outlines of the chief modern systems of classification.

VI. A knowledge of the systematic position, morphological characters, use and cultivation of some of the more important economic plants (rice and other cereals, pulses, vegetables, fruit trees, sugar-producing plants, the fan palm, the bamboo, a few important timber trees, indigo, jute, cotton).

Practical.

1. The making, staining and description of microscopical sections of plants (permanent mounts not being required.)
2. Referring commonly-occurring plants to their Families.
3. Identification of plants by analytical tables up to their genera.
4. Drawings of dissections of flowers and of microscopical sections.
5. Physiological experiment :—Water-culture experiments, experiments on the functions of chlorophyll, its formation and decomposition, experiments on the relation between starch formation and external conditions. Experiments on root pressure, on the flow of sap from injured parts, on the influence of external conditions on transpiration, on the mobility of water in wood, and on the absorption of mineral substances by the root. Simple experiments on respiration. Movements of growth ; germination experiments,

The laboratory note-books of each candidate shall be inspected by the examiner, and the examiner shall take them

into consideration along with the results of the practical examination. A note-book which has not been signed at frequent intervals by the professor under whom the candidates worked shall not be accepted.

HONOURS COURSE.

There shall be four papers, each of three hours, carrying 100 marks. In addition there shall be two practical examinations, each carrying 100 marks.

The paper shall be distributed as follows :—

Paper I—Algae Fungi and Bryophytes.

, II—Pteridophytes and Gymnosperms.

„ III—Angiosperms and General Biology.

„ IV—Physiology and Ecology.

Papers V and VI—Practical Tests.

In addition to the pass Course :—

1. The systematic morphology and physiology of the following groups :—

Bacteria, Cyanophyceae (Nostoc and Rivularia), Diatomaceae, Chlorophyceae (Chlamydomonas, Eudorina, Pandorina, Volvox, Entermorpha or Ulva, Coleochaete, Oedogonium, Cladophora, Hydrodictyon, Botrydium, Protosiphon and Zygnema), Phaeophyceae (Ectocarpus, Dictyota, Laminaria, Fucus and Sargassum), Rhodophyceae (Batrachospermum, Polysiphonia), Characeae (Nitella), Phycomycetes (Albugo, Phytophthora and Saprolegnia), Ascomycetes (Erysiphe, Penicilium, Claviceps and Peziza), Basidiomycetes (Polyporus, Lycoperdon and Ustilago), Lichens (Usnea), Bryophyta (Riccia, Anthoceros, Polytrichum), Pteridophyta (Ophioglossum, Polypodium, Adiantum, Salvinia, Azolla and Lycopodium), Gymnosperms (Taxus and Gnetum), and Fossils (Rhynia, Calamites, Sigilaria, Lyginodendron, Bennettitales).

2. The external morphology of angiosperms and a more extensive knowledge of the characterisation and classification of tissue systems from the anatomical and physiological standpoint.

3. Elementary principles of variation, heredity (including plant-breeding) and evolution ; an elementary study of cytology.

4. The general principles of classification, including an acquaintance with the chief modern systems of classification and the distinguishing characters of the following Families in addition to those mentioned in the Pass Course :—

Ranunculaceæ, Magnoliaceæ, Menispermaceæ, Nymphæaceæ, Capparidaceæ, Caryophyllaceæ, Guttiferae, Sterculiaceæ, Oxalidaceæ, Lythraceæ, Sapotaceæ, Meliaceæ, Rhamnaceæ, Anacardiaceæ, Loranthaceæ, Vitaceæ, Piperaceæ, Asclepiadaceæ, Boraginaceæ, Lauraceæ, Orchidaceæ, Commelinaceæ, Araceæ, Pontederiaceæ.

5. Plant Physiology :—

(a) *The physiology of the living cell* :—Physical and chemical properties of protoplasm and the cell wall ; organic and inorganic substances in the living plant ; distinction between colloids and crystalloids and their special properties ; and principal types of chemical action in the plant body including enzyme reactions ; Liebig's Law of the Minimum and Blackman's Law of Limiting Factors.

(b) *The gain of matter by plant body* :—The substances required by the plant ; their composition and sources of supply ; the soil and the atmosphere ; processes of absorption by the root ; absorption of gases by the plant organs.

(c) *Movement of substances in plant body* :—Root pressure, movement of water and the transpiration current ; cellular diffusion of gases and other substances ; permeability of the protoplasm and the cell-walls ; movement and storage of organised substances.

(d) *Constructive metabolism* :—Gain of potential energy ; ultimate source of energy . Carbon assimilation ; assimilation of Nitrogen.

(e) *Destructive metabolism* :—Respiratory processes in various types of plants—(1) respiration in higher plants, (2) respiration in succulents, (3) anaerobic respiration and alcoholic fermentation, (4) nitrifying bacteria, (5) energy liberated in respiration, waste products of destructive metabolism and their disposal by the plant.

(f) *Work done by the plant* :—Growth, mechanism of differentiation and development ; irritability, mechanism for perception of stimuli, reaction to stimuli ; protoplasmic, reversible and growth movements (autonomic and paratonic) ; sexual and asexual reproduction and conditions favouring these.

(g) *Organism and environment* :—Adjustment and adaptation, reaction of the individual to environment, different ecological types (mesophytes, etc.,) plant communities, association and formation ; plant successions ; principles of plant distribution in space and time.

6. Practical work :—

1. Identification of plants with or without the help of a Flora.

2. Preparation of material for microscopic examination Microtomy.

3. Experiments in Plant Physiology:—

Every candidate will be required to submit (1) a collection of plants made, identified and preserved by himself, (2) his laboratory note-books and (3) microscopic preparations.

PASS COURSE.

- | | |
|--------------|---|
| Bower, F. O. | .. The Botany of the Living Plant. |
| Scott, D. H. | .. Structural Botany, 2 Vols. (London 1904-06). |

Darwin and Acton	.. Practical Physiology of Plants.
Haines, H. H.	.. Botany of Bihar and Orissa (<i>Govt. Press, Gulzarbagh</i>).
Roxburgh	.. Flora Indica, edited by C. B. Clark (Calcutta 1874).
Lowson	.. Text-Book of Botany, Indian Ed. University Tutorial Press. (1930 Edition).
J. Small	.. A Text-Book of Botany.
Gideon, P. W.	.. An Introduction to Botany, (<i>Student's Own Book Depot, Dharwar</i>).

GEOGRAPHY.

(B.A. 1939.)

There shall be three papers, each of three hours and carrying 100 marks. The first paper will be set upon "Physical and Regional Geography"; the second upon "Historical, Political and Economic Geography"; and the third upon "Human Geography", with "Cartography and Surveying".

1. Physical Geography :—

Pressure, temperature and humidity, climatic Zones.
Observation and treatment of climatic data.
Ocean basins and their deposits. Tides, Currents.
Crustal phenomena ; processes of denudation and deposition ; relation between structure and surface relief.

2. Cartography and Surveying :—

Construction and use of maps.
General knowledge of simple instruments and methods of survey with the rudiments of astronomical methods.
Elements of map projection.

3. Regional Geography :—

The physical regions of the world ; coastal outlines, relief, climate, structure and drainage ; the influence of physical conditions on the life of man.

4. Historical and Political Geography :—

The political divisions of the world ; the control exercised by geographical factors upon internal and international political life.

5. Economic Geography :—

The development of regions of the world as influenced by position, climate, physical features, and economic resources ; general consideration of economic problems.

6. Human Geography :—

Classification of the races of mankind and the criteria on which it is based ; the distribution of races ; the influence of environment on the life and social organisation of typical peoples.

The following books are prescribed in so far as they cover the syllabus.

Paper I. Physical Geography—W. M. Davies.

A Shorter Physical Geography—De Martonne.
Climate—Kendrew.

A new Regional Geography of the world—Newbigin.

Paper II. Human Environment and progress—W. R. Kermack. The relation of Geography and History—H. B. George. Commercial Geography—Chisholm.

Paper III. The Races of man—Haddon.

Geographical Interpretation of Topographical maps—Alice Garnett.

.. A little book on map projection—Alice Garnett.

The following additional books are recommended for use by the teachers.

Climatology—Austin Miler. The continent of Europe—Lyde. Europe—Mac Munm & Coster. The New World—Bowman. North America—Jones & Bryan. Frontiers—Fawcett. Environment & Race—Taylor. Human Geography—Brunhes.

MATHEMATICS.

(B.A. & B. SC. 1939.)

PASS COURSE.

There shall be three papers in the Pass Course. Each paper shall be of three hours and shall carry 100 marks.

The course shall include the following subjects :—

Paper I.

Higher Plane Trigonometry.—Properties of triangles. General values of angles which have the same sine, cosine, etc. Sub-multiple angles. Inverse circular functions. Summation of series. De Moivre's theorem. Exponential values of sine and cosine. Expansion of $\sin x$ and $\cos x$ in powers of x .

Algebra.—Binomial theorem. Exponential and logarithmic series. Elementary notions of convergence and divergence of series. Partial fractions. Addition and expansion of determinants.

Plane Analytical Geometry.—Co-ordinates: Cartesian and polar. Transformation of co-ordinates; change of axes. The straight line; equations representing a pair of straight lines. The circle. The parabola. The ellipse.

Paper II.

Differential Calculus.—Functions; Graph of a Function. Limits; Differentiation; Ordinary and Hyperbolic Functions and their Differentiation, Infinitesimals; Differentials; Successive

Differentiation. Expansion of Functions by Taylor's and Maclaurin's Theorems. Indeterminate Forms. Partial Differentiation. Maxima and Minima. Tangents and Normals. Asymptotes. Singular points. Easy Curve Tracing. Radius of Curvature.

Integral Calculus.—Integration of algebraic (rational and irrational) and trigonometric functions without the use of successive reduction. Simple cases of definite integration. Areas and lengths of plane curves, surfaces and volumes of simple solids of revolution. Centroids and Moments of Inertia without the use of multiple integrals.

Differential equations of the first order involving two variables.

Paper III

Hydrostatics.—Nature and properties of fluid pressure. Density and specific gravity of a homogeneous mixture. Determination of the pressure of a heavy liquid in simple cases. Centre of pressure. Conditions of equilibrium for a floating body. Properties of gases and determination of pressure. Mixture of gases. Determination of heights by the barometer. Determination of specific gravities. Description of the barometer, air-pump, common and force pumps, the diving-bell, the balloon, siphon and Bramah's Press as applications of hydrostatic principles.

Astronomy.—The Earth. Transit instrument, meridian circle, equatorial and micrometer. Atmospheric refraction. The sun and the solar system. Parallax. Determination of the first point of Aries. Precession. Nutation, Aberration. The moon. Lunar and solar eclipses. Measurements of time. Determination of latitude and longitude by simple methods. The fixed stars.

Note :—The subject is in the main to be treated mathematically (without the use of spherical trigonometry); but the student will be expected to have an intelligent knowledge of the physical conditions of the heavenly bodies and the use of a small astronomical telescope.

No text-book is prescribed, but the following are mentioned as sufficiently including the scope of the syllabus :—

Parker W.	.. Astronomy (<i>Longmans</i>)
Ball, Sir Robert	.. A Primer of Astronomy.
D. N. Mallick	.. Astronomy.

HONOURS COURSE,

There shall be six papers in the Honours Course. Each paper shall be of three hours and shall carry 100 marks.

The course shall include the following subjects :—

Paper I.

Higher Algebra :—Binomial and multinomial theorems. Convergence and divergence of real series and products. Absolute convergence. Inequalities. Simple continued fractions. Summation of series. Determinants. Limits. Recurring series. Indeterminate equations of the first degree.

Theory of Equations :—General properties of equations. Relation between roots and co-efficients of equations. Transformation of equations. Algebraic solutions of cubics and biquadratics. Symmetric functions of the roots of an equation. Limits and separation of roots. Horner's method of finding the real roots of numerical equations.

Paper II.

Higher Plane Trigonometry :—Fuller treatment of the Pass Course, Hyperbolic and inverse hyperbolic functions, Expansion in series and resolution into factors of circular and hyperbolic functions.

Spherical Trigonometry :—Up to the end of solution of oblique-angled triangles.

Elements of Vectors :—Fundamental notions. Addition. Subtraction, Scalar and Vector Products of Vectors. Simple geometrical and mechanical applications.

Paper III.

Elementary Solid Geometry :—Cartesian and polar co-ordinates. The straight line and the plane. The sphere. The cone and the cylinder. The ellipsoid. The hyperboloids. The paraboloids. Generating lines and plane sections of quadrics. Conjugate diameters and principle planes (omitting general equation of the second degree). Tangent planes and normals to surfaces in general.

Plane Analytical Geometry :—Fuller treatment of the Pass Course. Hyperbola. Polar equations of conics. General equation of the second degree. Systems of conics. Contact of conics treated in Cartesian co-ordinates.

Paper IV.

Differential Calculus :—Definition of a Function. Definition of the limit of a function of a single variable. Examples of continuous and discontinuous functions. Fuller treatment of the Pass course. An increased number of applications of principles. Extensions of Euler's, Taylor's, and Maclaurin's Theorems to the case of several variables. * Extension of Maxima and Minima to the case of two variables. Envelopes. Asymptotes. Loci e.g. Pedals, Inverse Curves, Reciprocal Polars, Involutives and Evolutes. Contact of Curves.

Integral Calculus and Differential Equations :—Fuller treatment of the Pass Course. Reduction formulæ. *Definite integrals omitting gamma functions. Volumes and surfaces of solids. Moments of inertia. Differential equations of the first and second orders involving two variables.

Paper V.

Statics :—Equilibrium of a particle under coplanar forces. Parallel forces. Forces in two dimensions. Moments and couples. Astatics. Jointed rods. Virtual Work. Stability of equilibrium. Friction. Equilibrium of a particle on a plane

curve. Equilibrium of rigid bodies under coplanar forces. Simple machines, Centroids and centres of mass, Simple cases of equilibrium of flexible inextensible strings. Hooke's Law.

Dynamics :—Velocity, Acceleration, Laws of Motion. Rectilinear, parabolic, circular and harmonic motions. Impact of smooth bodies. Work and Energy. Central orbits. Motion on smooth plane curves. Motion of a rigid body about a fixed axis.

Paper VI.

Hydrostatics :—Fuller treatment of the Pass Course. Motion of a fluid as a rigid body about a fixed axis.

Astronomy :—Fuller treatment of the Pass Course. Use of simple formulæ of spherical trigonometry in solving Problems.

Books Recommended for Study.

N. B.—Only such portions as are indicated in the syllabus should be read.

Paper I :—*Higher Algebra* : C. Smith—Treatise on Algebra; Hall and Knight—Higher Algebra.

Theory of Equations : Burnside and Panton — Theory of Equations, Vol. I.

Paper II :—*Trigonometry* : Todhunter—Plane Trigonometry (edited by Hogg); Loney's Trigonometry, Part II. Todhunter and Leathem—Spherical Trigonometry.

Vectors :—Weatherburn — Elementary Vector Analysis.

Paper III :—*Solid Geometry* : Bell—Co-ordinate Geometry of three Dimensions; C. Smith—Solid Geometry.

Plane Analytical Geometry : —C. Smith—Conic Sections; Loney — Co-ordinate Geometry, Part I.

Paper IV :—Differential Calculus and Integral Calculus :
Lamb—Infinitesimal Calculus ; Williamson—
Differential Calculus ; Williamson—Integral Calculus.
Murray—Differential Equations.

Paper V :—Statics : Lamb—Statics. Loney—Statics.
Dynamics : Loney — Dynamics. Lamb — Dynamics.

Paper VI :—Hydrostatics : Greaves—Hydrostatics. Portions
of Hydrostatics in Lamb's Statics.

Astronomy : Godfray—Astronomy ; Barlow and
Bryan—Mathematical Astronomy.

CERTIFICATE IN MUSIC

1939

There will be one paper on the Theory of Music and another paper on the History of Music, each of three hours' duration and each carrying 100 marks. There will also be a practical test in vocal music, carrying 100 marks, and another in instrumental music, carrying 100 marks on Sraz, Sitar or Violin,

Books recommended :—

- (i) Hindustani Sangita Pravesika, Parts I (both Hindi and Urdu) and II, by Murari Prasad,
- (ii) Muarif-ul-Naghat, Part I, by Raja Nawab Ali Khan,
- (iii) Theory of Music, by Popley.
- (iv) Sangita Chandrika, Vol. I, by Gopeswar Banerjee.
- (v) Sangita Pravesika, Part III, by Vina Visarad Sri Sivendranath Basu.
- (vi) Hindusthani Sangita Paddhati, Part III (price Rs. 3) published by Bhalachandra Sitaram Sukhathankar.
- (vii) Theory of Indian Music by Rai Bahadur Bishun Swarup (Swarup Bros., Maithan, Agra, 1933).

Theory—Shruti and Swara, with vibration numbers, Grama, Murchana, Raga and That.

Talas—Sur-fakta, Ara-chautal, Dhamar, Dhima-tital, Jald-tital or Sitarkhandi, and Tilwara.

The Layas and their corresponding metres of Sanskrit prosody.

Ragas—In addition to those recommended for the Matriculation the following also will be practised :—*

Kaiyan That :—Bhupali, Gaur-Sarang, Bihag (in both Madhyamas) Chayanat, Kedara.

Bilawal That :—Alaya Vilawal.

Khambaj That :—Jayajayanti.

Bhairav That :—Kalangra.

Bhairavi That :—Ashavari (of Komal Rikhab).

Ashavari That :—Jaunpuri Tori.

Tori That :—Darbari Tori or Bilas-Khani.

Kafi That :—Bhim, pala-shri, Sindhura, Brindavani-Sarang, Megha Rag.

Purvi That :—Shri Rag.

Marwa That :—Rat-ki-Purya (not Raipuriya).

*N.B.—Each Raga is to be studied and practised with any two : one Sargam, one Lakshan Gita, one Bhajan, one Doha and one song of Khyal style.

DIPLOMA IN MUSIC.

1939.

There will be one paper on the 'Theory of Music' and another paper on the History of Music, each of three hours' duration and each carrying 100 marks. There will also be a practical test in vocal music carrying 100 marks, and another in instrumental music carrying 100 marks on Israz, Sitar or Violin.

Books recommended :—

1. Fox Strangway's Music of Hindusthan.
2. Captain Day's Music of Southern India.
3. Srimallakasya Sangitam (for Sanskrit-knowing students.)
4. Maurif-ul-Naghamat, Ragadhyaya (for Urdu-knowing students.)
5. Hindusthani Sangita Pravesika, Part II, by Murari Prasad.
6. Sangita Bodhodaya, Parts I and II, by Sivendranath Basu.
7. Sangita Chandrika, Vol. 2, by Gopeswar Banerji.
8. Hindusthani Sangita Paddhati, Part IV (price Rs. 3-8-0) published by Bhalachandra Sitaram Sukhathankar.
9. Theory of Indian Music by Rai Bahadur Bishun Swarup (Swarup Bros., Maithan, Agra, 1933).
10. Sangita Pravesika, Part IV., by Vina-Visarad Sri Sivendranath Basu.

Talas—Jhumra, Panchama-sawari, Dipchandi, Rupak, Brahma, Yat and Astamangal.

Ragas—Bagesri, Darbari Kanara, Malkosh, Hindol, Basant, Kamod, Paraj, Sohini, Lalit, Ramkeli, Mian-ki-Mallar. Suddha Kalyan, Multani, Sankara, Hambir Dhanasri, Desh. Bihag, Gauri, Arana, Sahana, Sindhu, Pancham, Tilak-kamod, Nat-rag, Khat-rag, Surat, Gandhari, Durga, Hans-Kankini, Nat-mallar, Surat-mallar, Gond mallar and Sukla-Vilawal.

N.B.—Each Raga is to be studied and practised with any two of the following :—one Sargam, one Lakshar Gita, one Doha, one Bhajan, one Dhrupad, one Khyal and one Tappa. Besides each song is to be sung in Vilambita Laya, Madhya Laya and Druta Laya.

1939.

M. A. & M. Sc.

ENGLISH

There shall be eight papers in this subject : each paper shall be of four hours and shall carry 100 marks.

The papers shall be divided into two groups.

The first five papers shall be identical for each group and shall cover the following periods and subjects :—

Paper 1. The Renaissance and Milton.

Paper 2. The Age of Reason, (from Dryden to the death of Pope).

Paper 3. The Romantic Revival.

Paper 4. Victorian Literature.

Paper 5. An Essay or³ Essays on subjects connected with the course.

The course for the above papers shall include standard works of each period which shall be specified from time to time.

In Paper I additional questions on Elizabethan Drama shall be set for Group "B" candidates only.

The remaining papers shall be taken from one of the following groups A, and B, but not from both.

GROUP A.

Paper 6. From Chaucer to the Renaissance, and the History of the English Language.

Paper 7. Elizabethan Drama.

Paper 8. Post-Victorian Literature.

GROUP B.

Paper 6. Old English Language and Literature.

Paper 7. Middle English Language and Literature.

Paper 8 History of the English Language with the elements of Indo-European Philology.

In every paper where texts are prescribed unseen passages from contemporary works shall be set carrying 10 marks. Questions on the texts shall include (a) questions on the subject matter, and (b) questions on the language of the texts.

The following text-books are prescribed :—

Paper I.—The Renaissance and Milton.

Spenser	.. The Faerie Queen, Book 2. (Cantos 7—12 only)
Browne	.. Religio Medici.
Milton	.. Samson Agonistes.
Book of Ecclesiastes	.. (Authorized Version).
Grierson	.. Metaphysical Poetry (Clarendon Press).

The Oxford Book of English Verse .. Nos. 53-366.

English Critical Essays (16th to 18th centuries). World's Classics. (The relevant portions).

Paper II.—The Age of Reason.

Dryden	.. Absalom and Achitophel, Part I.
Fielding	.. Tom Jones.
Swift	.. Gulliver's Travels.
Congreve	.. The Way of the World.
Pope	.. The Rape of the Lock.
Addison & Steele	.. The Coverley Papers.
Johnson	.. Lives of the Poets (Arnold's Selection).

The Oxford Book of English Verse .. Nos. 394—482.

English Critical Essays (16th to 18th centuries) World's Classics. (The relevant Portions).

Paper III.—The Romantic Revival.

Wordsworth	.. Michael, Tintern Abbey, The Prelude, Books, I, II, III and XIII.
Coleridge	.. Christabel.
Keats	.. Hyperion.
Byron	.. Childe Harold, Books 3 rd and 4 th .
Shelley	.. Prometheus Unbound.
Scott	.. Woodstock.
Jane Austen	.. Pride and Prejudice.

The Oxford Book of English Verse .. Nos. 483—665.

English Critical Essays. 19th century. (World's Classics).
(The relevant portions.)

Paper IV.—Victorian Literature.

Tennyson	.. Maud.
Browning	.. Men and Women.
Arnold	.. The Scholar Gipsy.
Dickens	.. David Copperfield.
Thackeray	.. Henry Esmond.
Stevenson	.. Weir of Hermiston.
Pater	.. Appreciations.

The Oxford Book of English Verse .. Nos. 666—831.

English Critical Essays 19th century, (World's Classics).
(The relevant portions).

•GROUP A.

**Paper VI.—From Chaucer to the Renaissance.*

Chaucer	Prologue to the Canterbury Tales; The Pardoner's Tale, Nun's Priest's Tale.
---------	--

- Piers Plowman .. Prologue, Passus 1 and 2.
(B. Version.)
- Malory .. Morte D' Arthur, Books 19, 20, 21.
- The Oxford Book of English Verse .. Nos. 1—52.

Books recommended for study of the language :—

- Nesfield .. Historical English.
- Bradley .. The Making of English.
- Kellner .. English Syntax.
- Wyld .. Historical Study of the Mother
Tongue.
- Jespersen .. Growth of the English Language.
- Emerson .. History of the English Language.
- Armour .. The Genesis and Growth of English.

Paper VII.—Elizabethan Drama.

- Shakespeare .. Othello ; Henry IV. Part I; Much
Ado about Nothing.
- Marlowe .. Dr. Faustus.
- Ben Jonson .. The Alchemist.
- Beaumont .. The Knight of the Burning Pestle.

Paper VIII.—Post-Victorian Literature.

- Shaw .. Man and Superman.
- Galsworthy .. To Let.
- Conrad .. Almayer's Folly.
- Barrie .. What Every Woman Knows.
- Masefield .. Reynard the Fox.
- A. Methuen .. An Anthology of Modern Verse
(Methuen).
- Hardy .. Return of the Native.
- A. E. Housman .. Last Poems.

The Oxford Book of English Verse .. Nos. 832—883.

GROUP B.***Paper VI.—Old English Language and Literature.***

Sweet .. Anglo Saxon Reader ; Pages 1 to 174.

Paper VII. --Middle-English Language and Literature

Chaucer .. Prologue to the Canterbury Tales ;
Knight's Tale ; Nun's Priest's Tale ;
The Parliament of Fowls ; House of
Fame.

Morris and Skeat .. Specimens of Early English, part I ;
The Owl and the Nightingale ;
Havelok the Dane. Part II Lang-
' land ; Barbour.

Sisam .. 14th Century Prose and Verse.

***Paper VIII.—History of the English Language,
Elements of Indo-European Philology.******Books recommended for study.***

Wyatt .. Old English Grammar,
Skeat .. Principles of English Etymology,
Wyld .. Historical Study of the Mother
Tongue.

Jespersen .. Growth of the English Language.
Armour .. The Genesis and Growth of English.

SANSKRIT.

(M.A. 1939).

Note.—Devanāgarī Script must be used in answering questions in Sanskrit.

There shall be eight papers in Sanskrit. Each paper shall be of four hours and shall carry 100 marks.

The Course shall be divided into seven groups.

The first four papers are identical for each group and shall cover the following subjects :—

Paper I.—Veda.

Ṛigveda Aṣṭaka I, Chapter I only (with Sāyaṇa's Introduction).

Siddhānta-Kaumudī	..	Vaidikī Prakriyā.
Aitareya Brāhmaṇa	..	Hariścandropākhyāna.
Yāska's Nirukta	..	Adhyāya I, II and VII.

Paper II.—Grammar.

Siddhānta-Kaumudī	..	Kāraka, Samāsa, Strīpratyaya. Nijanta to Lakārārtha, and Kṛdānta except Uṇādi.
-------------------	----	--

Paper III.—Philology.

Sweet	..	History of Language.
Gune	..	Comparative Philology.
Uhlenbeck	..	Sanskrit Phonetics.

Paper IV.—History and Geōgraphy, History of Sanskrit Literature, Essay Paper).

Rapson	..	Ancient India.
Pargiter	..	The Purāṇa Text dealing with the Dynasties of the Kali Age.
Cunningham	..	Ancient Geography of India— Edited by S. N. Majumdar Sastri (general knowledge)
Macdonell	..	History of Sanskrit Literature.
Max Müller	..	History of Ancient Sanskrit Literature.
Weber	..	History of Indian Literature.
Lassen	..	History of Indian Commerce. (Jayaswal and Banerji—Sastri, J. B. O. R. S., Sept., 1924).

The remaining papers shall be taken from one of the following groups but not from more. :—

A—(Dharma-Sāstra)

Paper V.—Dharma-Sūtras of Āpastamba, Baudhāyana Gautama, Vasiṣṭha.

Paper VI.—Manu (with Medhātithi.)

Yājñavalkya (with Viṣṇaneṣvara).

Paper VII.—Nārada, Viṣṇu and minor Smṛtis.

Paper VIII.—Mitramiśra—Vyavahāra.

GROUP B.—(Arthaśāstra and Niti.)

Paper V.—Kauṭilya.

Paper VI.—Kāṇinadaka.

Sukra.

Paper VII.—Manu, VII and VIII.

Mahābhārata : Śāntiparva. Chapters 26-157

Paper VIII.—Yājñavalkya, 1 and II.

A general knowledge of Political Institutions of Hindu times.

GROUP C.—(Prakṛit).

Paper V.—Gauḍavaho.

Setubandha.

Paper VI.—Kumārapālacarita.

Karpūramañjarī.

Mṛcchakaṭika.

Paper VII.—Hemacandra.

Vararuci.

Candra.

Kātyāyana.

Paper VIII.—Prakṛit Inscriptions : Aśoka Khāravela and

Kuṣaṇa, without palæography.

GROUP D.—(Poetics and Literature.)

Paper V.—Kāvyaṭprakāśa.

Dhanañjaya ; Daśarūpaka,

Aristotle's Poetics,

Paper VI.—Meghadūta.

Saundaranānda, VI—VIII.

Naiṣadha, XI, XII and XIII.

Megha (Prabhātavarṇana). Canto XI.

Aihole Inscription of Pulikeśin II and Deopara
Inscription of Vijayasena (without palaeography)**Paper VII.—Harsacarita.**

Jātakamāla by Āryasūra.

Paper VIII.—Mālavikāgnimitra.

Mudrārākṣasa.

Karpūramañjarī.

Mṛcchakaṭika

GROUP E.—(Philosophy).**Paper V.—Kārikā with Gaudapāda.**

Yoga Sūtra (with Maṇiprabhā).

Vedāntasāra.

Paper VI.—Vedānta Sūtras, Chapters 1-2, with Śaṅkara.

Bhāṣya and Rāmānuja's Catūssūtrī.

Arthasaṅgraha.

Paper VII.—Nyāyasūtra (with Viśvanātha-Vṛtti.).

Vaiśeṣikasūtra (with Praśastapāda)

Paper VIII.—Sarvadarsanasāṅgraha.

Sāddarśanasamuccaya.

GROUP C.

(Modern India, a select period, with reference to original sources).

Paper VII.—Political, Administrative and Constitutional History (from 1757).

For Study :—

Archbold : Outlines of Indian Constitutional History.

Ilbert : Historical Survey [Introduction to Govt. of India.]

Under Reference :—

B. B. Majumdar : History of Political thought in modern India (Cal. U. Pub.)

B. C. Thakore : Indian Administration to the Dawn of Responsible Government.

Cowell : Courts and Legislative Authorities in India.

S. Iyer : Problems of Indian Constitution.

Keralaputra : Dyarchy.

Pannikar : Indian Native State :

Montague-Chelmsford Report.

Reforms Enquiry Committee's Report.

Butler Committee's Report.

Simon Commission's Report.

Under Reference :—

Mukherjee : Indian Constitutional Documents.

Keith : Speeches on Indian Policy, 1750-1920 (O. U. P. 1922).

Keith : Constitutional History of India (O. U. P.)

Eddy and Lowtor's India's New Constitution.

For Reference :—

Cambridge History of India, Vol.6.

Paper VIII.—Economic and Social History, from 1757.

For Study :

Dutt : Economic History of India, Vol. 1 and 2.

Hamilton : Trade Relations between England and India.

J. C. Sinha : Economic Annals of Bengal.

Gadgil : Industrial Evolution of India.

Knowles : Economic Development of the British Overseas Empire (India).

Morison : Economic Transition of India.

Panadaikar : Economic Consequences of the Great War for India.

For Reference :—

K. K. Dutt.—Studies in Social and Economic History of Bengal Subah [(1740—65) Cal. Univ. Pr., 1936.]

K. K. Dutt : Education and Social Amelioration of Woman in Pre-Mutiny India (Patna Law Press, 1937).

Watt : Dictionary of Economic Products of India.

Jathar and Beri : Indian Economics, 2 Vols.

Indian Year Books from 1914.

ECONOMICS AND POLITICAL SCIENCE.

(M.A. 1939).

There shall be eight papers. Each paper shall be of four hours and shall carry 100 marks.

The papers shall be distributed as follows:—

General Economics—2 Papers.

1. A paper on advanced economic theory including elementary statistics.
2. A paper on modern industrial and business organisation including banking, methods of settling international indebtedness, the theory and functions of money and the theory of International Trade.

NOTE.—In connection with Papers I and II candidates will be expected to show a knowledge of the history of the more important economic theories.

3. A Paper on the Public finance and financial administration.

Political Science—2 Papers.

1. A paper on the political theory and the modern history of political ideas since Machiavelli.

2. A paper on modern political organisation with special reference to the constitutions of England and India.

Selected Economic and Political subjects for specialised study—2 papers.

Two papers on each of the following subjects or group of subjects studied with reference to Indian conditions and wherever possible with first-hand materials. A candidate can offer a thesis embodying a piece of research work in lieu of the two papers under clause 3, regulation 9, Chapter XXIX.

- A. Indian Rural Economics and Co-operation.
- B. Industries and Industrial Organisation.
- C. International Trade and Tariff Policy.
- D. Banking and Currency.
- E. Indian Finance.
- F. Theory and Practice of Statistics.
- G. General Economic History and Economic History of India.
- H. Dominion and Indian Constitutions.
- I. Public Administration with special reference to Indian and English Conditions.
- J. International Government (Political & Non-Political).

Essay.—1 Paper

The following books are recommended :—

General Economics.

Paper I.

- | | |
|-----------|-----------------------------|
| Davenport | .. Economics of Enterprise. |
| Marshall | .. Principles of Economics. |

Pigou	.. Economics of Welfare, Pt. II only.
Gide and Rist	.. History of Economic Doctrines.
Bowley	.. Elementary Manual of Statistics.

Paper II.

P. B. Whale	.. International Trade.
Marshall	.. Industry and Trade.
J. T. Maddan & M. Nadler.	.. International Money Markets.
Balfour Committee	.. Report on Trade and Industry (Vol. III.)
Einzig	.. Exchange Control.
Institute of International Affairs.	Monetary Theory and Trade Depression.
Keynes	.. A Treatise on Money, 2 Vols.
Kisch and Elkins	.. Central Bank.
Angell	.. Theory of International Prices.
Cassel	.. Downfall of the Gold standard.
Paul Einzig	.. Bank of International Settlement.
The League of Nations	Gold Delegation Report.

Paper III.

Bastable	.. Public Finance.
Stamp	.. The Fundamental Principles of Taxation.
Pigou	.. Public Finance
Seligman	.. Shifting and Incidence of Taxation.
Stamp	.. Taxation during War.
Hilton Young	.. The System of National Finance.
"	The Indian Taxation Enquiry Committee Report. (Vols. I and II).
Gyan Chand	.. The Financial System of India

(b) Co-operation.—

- Cahill .. Co-operation in Various Countries
 Ewbank .. Studies in Co-operation.
 Wolffe .. Co-operation in India.
 Report of the MacLagan Committee on Co-operation in India.
 Report of the Bihar and Orissa Committee on Co-operation.
 Report of the U. P. Committee on Co-operation.
 Report of the Central Banking Enquiry Committee.

B*(a) Foreign Industrial Organisation.—*

- Marshall .. Industry and Trade.
 Robinson .. Structure of Competitive Industry.
 Hobson .. The Evolution of Modern Capitalism.
 Marshall and Wright .. Readings in Industrial Society.
 Jenks . . . The Trust Problem.
 Britain's Industrial Future.
 Liberal Enquiry Committee Report.
 Balfour Committee's Final Report on Industry and Trade.

(b) Indian Industries and Industrial Organisation.—

- Indian Industrial Commission Report.
 Indian Fiscal Commission Report.
 Soni . . . Indian Industry and its Problems.
 Tariff Board Reports on the Cotton, Textile, Sericulture,
 Steel, Cement, Sugar and Matches industries.
 Coal Committee Report. . .
 Jute Committee Report. . .
 Broughton .. Labour in Indian Industries.
 Report of the Royal Commission on Labour in India.
 External Capital Committee Report. . .
 Chapters on Industrial Finance in the Indian Central Banking
 Committee Report.

PHYSICS.

(M.Sc. 1939).

There shall be four papers distributed as follows:—

First paper:—Optics including elements of Spectroscopy.

Second paper:—General Electricity and Magnetism.

Third paper:—Electron Theory.

Fourth paper:—This paper shall be of a special nature and the candidates will have the option of choosing one subject from the following list:—

(a) Spectroscopy.

(b) X-ray

- (c) Wireless Telegraphy and Telephony.
- (d) Radioactivity and Ionisation.
- (e) Mathematical Theory of Electricity and Magnetism

Detailed Syllabus.

Paper I.—Optics including elements of Spectroscopy:—

Nodal points and cardinal points;

Interference of polarised light. Interferometers. Echelon. Concave grating, Fresnel's theory of double refraction in crystals. Spectroscopy of infra-red and ultra-violet.

Series spectra. Elements of electromagnetic theory of light. Anomalous dispersion. Elementary knowledge of the effect of electricity and magnetism on light. Scattering of light.

Paper II.—General Electricity and Magnetism:—

Electrostatics; Theory of measuring instruments, Maxwell's Equations. Electromagnetic waves, dynamos, motors, alternators, and storage batteries. Discharge of a Leyden jar. Wireless Telegraphy and Telephony, Transformers. Alternating currents. Measurement of magnetic field.

Paper III.—Electron Theory :

Conduction of electricity through gases.

Ionisation currents. Mobility and diffusion of ions.

Determination of $\frac{e}{m}$ and e . Elements of radioactivity. The nuclear theory of the atom, Determination of the nuclear charge and the number of electrons in the atom. Positive ray analysis. Bohr's theory of the hydrogen spectrum. Application of Bohr's theory to spectrum analysis. Photo-electricity. Thermionics. X-ray. Dynamics of the electron. Variation of the mass of the electron with velocity. Radiation from accelerated electrons. Theory of magnetons.

SPECIAL COURSE

Paper IV.—Spectroscopy :—

Various methods of producing spectra. Prism spectroscopes of various types. Concave grating, echelon grating and Lummer Plates, Vacuum grating, spectrographs, Infra-red spectrometer. Photography of infra-red and ultra-violet spectra, Determination of wavelengths by interference methods. Band spectra; spectral series formulas and notation. Relations of atomic constants and series spectra; general principles of quantum theory of line spectra; Bohr's theory; resonance and ionisation potentials. Energy diagrams. Correspondence Principle. Kossel and Sommerfeld's Displacement Law. Emission and absorption spectra of elements. Stark effect, Zeeman effect and Fine Structure of lines. Thermal excitation. Laws of emission and absorption. Continuous Spectra. Application of spectroscopy to astrophysics. Theories of dispersion and absorption. Raman effect; intensity distribution.

X-rays:—

Phenomena in vacuum tubes; high voltage generators; generation of X-rays; X-ray bulbs; study of properties of X-rays; secondary X-rays; characteristic rays; absorption co-efficient of characteristic X-ray, ionisation by and scattering of X-rays; Laue's discovery. Bragg's methods of reflection. The Debye-Scherrer and Laue methods. X-ray spectrometers, Mosley's work; X-ray absorption and emission spectra and Siegbahn's work; Photo-electric effect of X-rays. Origin of Doublets.

Radioactivity.

(a) Radioactivity:—

Discovery of radioactive substances. Alpha, beta, and gamma ray electrosopes, and their use; study of the ionising power of the radiations; stopping power, absorption co-efficient of beta rays; velocity of beta rays; range of alpha particles;

separation of simple radioactive products ; analysis of decay curves from a mixture of two radioactive substances and the identification of the constituents ; counting scintillation, photography of paths of radiations ; theory of successive transformations, detailed study of alpha, beta and gamma rays ; estimation of age of radioactive minerals, natural ionisation and cosmic rays ; radioactive series, displacement law and the periodic classification of elements, alpha ray scattering from thin metal sheets and nuclear charge of the atom.

(b) *Thermionics* :—

Phenomenon of thermionic emission and Richardson equation ; effect of gases on emission ; energy of electrons ; thermionic work function and its relation to Photo-electric threshold frequency, Schotky effect.

(c) *Gaseous ionisation*:—

Saturation current; ionisation potential; impact ionisation; radiation potential; photo-electricity and value of h : velocity distribution among photo-electrons; mobility of gaseous ions and methods of their determination; co-efficient of recombination; extraction of electrons from cold bodies.

Mathematical Theory of Electricity and Magnetism:—

Gauss's Theorem; Equations of Laplace and Poisson; systems of conductors; dielectrics and inductive capacity; stress in a medium; Stoke's Theorem; Green's Theorem; Images; Inversion; spherical harmonics; general theory of net-work: Magneto-statics; Magnetic field due to currents, induction of currents in linear conductors; Dynamical theory of currents; electromagnetic waves; relativity.

Statistical Mechanics; theories of electric conduction, the nuclear theory of the atom, correspondence principle; adiabatic hypothesis; stationary states of a periodic system; dynamics of electron: X-ray; general theory of spectra and of atomic structure; wave mechanics,

The scope of the subject is indicated by the following books —

Jcans:—Electricity and magnetism.

Eddington:—Space, time and gravitation.

Haas:—Theoretical physics.

Haas:—Wave Mechanics and the new Quantum Theory.

Birtwistle:—Quantum Theory of the atom.

Wireless Telegraphy and Telephony :—

Generation, reflection, refraction, polarisation of Hertzian waves ; Oscillatory discharge ; Generation of short waves and their identity with dark heat rays. Radiation to long distances, reception.

Radiofrequency measurement of capacity, resistance, self and mutual inductance and current; measurement of wave length and wave meters.

Various types of antennæ; theory of radiation from antenna. Thermionic valves, their theory and uses. Theory of thermionic currents ; characteristic curve of valves ; the valve as a detector, amplifier and generator of waves ; principle of regeneration. Multistage amplification for high and low frequency. Direction finding. Atmospherics. Modulation. Loud Speakers. Day-light effects Filters. Measurement of signal strength. Practical knowledge of control gears and generators, Fading.

PRACTICAL.

There shall be four practical papers:—

Paper V.—Optics.

Paper VI.—General electricity and Magnetism.

Paper VII.—Radioactivity, thermionics, ionisation etc.

Paper VIII.—This paper will relate to the special theoretical subject selected by the student.

NOTE 1.—Candidates offering mathematical theory of Electricity and Magnetism will be examined in one extra theoretical paper in place of practical paper VIII.

2. Candidates may offer a piece of research work in place of papers IV and VIII and they will be examined orally on the subject of their research.

CHEMISTRY.

(M. SC. 1939.)

There shall be four theoretical papers in this course. Each paper shall be of four hours and shall carry 100 marks. In addition to the theoretical papers there shall be four papers in practical work ; each paper shall carry 100 marks. The practical examination shall extend over at least four days.

Candidates shall be required to show a good knowledge of the following :—

Theoretical I—Physical Chemistry.

II—Inorganic Chemistry.

III—Organic Chemistry and one of the following :—

IV—(a)—Physical Chemistry Special.

(b)—Inorganic Chemistry Special.

(c)—Organic Chemistry Special.

(d)—Metallurgy.

(e)—Electro-Chemistry.

(f)—Bio-Chemistry.

(g)—Agricultural Chemistry.

(h)—Some approved branch of Applied Chemistry.

Practical V—Physical Chemistry Practical.

VI—Inorganic Chemistry Practical.

VII—Organic Chemistry Practical and one of the following :—

VIII—(a)—Physical Chemistry Special, Practical.

(b)—Inorganic Chemistry Special, Practical.

(c)—Organic Chemistry Special, Practical.

(d)—Metallurgy, Practical.

(e)—Electro-Chemistry, Practical.

(f)—Bio-Chemistry, Practical

(g)—Agricultural Chemistry, Practical.

(h)—Some approved branch of Applied Chemistry, Practical.

In lieu of an examination in any of the additional subjects IV (a), IV (b), etc., and VIII (a), VIII (b), etc., a candidate may offer a piece of research work in that subject. Students offering research work may be required to undergo a *viva voce* examination.

MATHEMATICS.

(M.A. & M.SC. 1939.)

There shall be six papers on the subjects of Schedule A and two papers on a subject of Schedule B. Each paper will be of four hours' duration and shall carry 100 marks. If a candidate desires, he may offer one or more additional subjects of Schedule B.

Marks secured in these additional optional papers will not count towards the total in determining the position of the candidate; but if he satisfies the examiners in these subjects he will be given a mark of distinction.

SCHEDULE A.

Paper I.

Algebra, Plane Trigonometry and Theory of Equations.

(a) Algebra and Plane Trigonometry.

Inequalities, Limits. Convergence of Infinite Series and Products of real and complex arguments. Absolute convergence. Semi-convergence. Uniform convergence. Multiplication of series. Power series. Continued fractions. Simple and recurring convergence of infinite continued fractions. Convergence of double series. Exponential and Logarithmic series. Bernoulli's Binomial Numbers. Hyperbolic functions. Representation of circular functions in power series and as infinite products.

(b) Theory of Equations :

General properties of equations, including the fundamental theorem of Algebra. Relations between roots and co-efficients ; symmetric functions of roots. Transformation of equations. Algebraic solution of cubics and biquadratics. The roots of unity. Properties of derived functions. Limits to the roots of an equation. Solution of numerical equations. Determinants. Elimination. Simple Matrices.

Books recommended for use :—

Chrystal—Algebra, Part II

Hobson—Plane Trigonometry.

Burnside and Panton—Theory of Equations. Vols. I and II

Turnbull—Theory of Determinants, Matrices and Invariants.

Bromwich—Theory of Infinite Series, may be used for purposes of reference.

*Paper II.***Analysis.**

Arithmetical theory of irrational numbers. Continuity and differentiability of functions of one or more variables. The differential notation. Implicit Functions. Functional determinants. Transformations. Taylor's series including the theory of maxima and minima and singular points. Theory of definite integrals. Improper and line integrals. Functions defined by definite integrals. Approximate evaluation of definite integrals. Indefinite integrals including elliptic and hyperelliptic integrals. Double integrals. Green's Theorem. Change of variables. Improper double integrals. Surface Integrals. Area of a surface. Multiple Integrals. Change of Variables. Integration of total differentials. Implicit Functions. Analytic curves and surfaces. Fourier's series. Dominant functions. Substitution of one power series in another. Division of one power series by another. Lagrange's Expansions. Weierstrass's

Theorem on the expansion of a continuous function. Weierstrass's example of a function everywhere continuous but nowhere differentiable in a given interval.

Books recommended :—

Hardy—A Course of Pure Mathematics.

Phillips—Analysis.

Books recommended for purposes of reference :—

Goursat—Mathematical Analysis, Vol. I.

Gibson—Advanced Calculus.

Paper III.

(a)—DIFFERENTIAL EQUATIONS.

Equations of the first order. The general linear equation with constant co-efficients. Linear equations of the second order, including transformations into standard forms, variation of parameters, homogeneous equations and exact equations. Solution by series. Properties of general linear equations. Simultaneous differential equations with constant co-efficient. Total differential equations. Partial differential equations. Equations of the first order including standard forms. Lagrange's and Charpit's methods. Monge's method for solving equations of the second order. General linear equation with constant co-efficients.

(b)—ANALYTICAL GEOMETRY OF TWO DIMENSIONS.

Homogeneous and tangential co-ordinates. Reciprocation and projection. Systems of conics and their invariants and covariants.

Curves of the n^{th} order—intersection of curves—Chasle's theorem.

Cayley's theorem—Residuation theory—Singular points on curves—double points—deficiency—theory of polar curves.

Unicursal curves—Curves with unit deficiency.

Books recommended :—

Forsyth—Differential Equations.

Piaggio—Differential Equations.

Askwith—Analytical Geometry of Conic Sections

Loney—Co-ordinate Geometry, Part II.

Ganguli—Higher Plane Curves, Vol. I.

*Paper IV.***SOLID GEOMETRY.**

Confocal conicoids.

General equation of conicoids.

Systems of conicoids.

Intersection of conicoids. General theory of surfaces and envelopes. Ruled surfaces. Curvature of surfaces. Asymptotic lines. Geodesics.

Books recommended :—

J. T. Bell—Analytical Geometry of three Dimensions

Salmon—Geometry of Three Dimensions.

Eisenhart—Differential Geometry.

Weatherburn—Differential Geometry.

*Paper V.***(a)—STATICS.**

Equilibrium of a particle under coplanar forces. Parallel forces. Forces in two dimensions. Moments and couples. Astatics. Jointed rods. Virtual work. Stability of equilibrium. Friction. Equilibrium of a particle on a plane curve. Equilibrium of rigid bodies under coplanar forces. Centroids and centres of mass. Equilibrium of flexible strings. Forces in three dimensions including Poinot's Central Axis, Cylinders and Null Lines. Attraction and Potential of (1) a thin rod, (2) a circular plate, (3) a spherical shell and (4) sphere. Gauss's Theorem on

surfaceintegral of normal attraction. Laplace's and Poisson's Equations. Equipotential surfaces. Green's Theorem. Simple applications of spherical harmonics.

(b)—DYNAMICS OF A PARTICLE.

Velocity, acceleration. Laws of motion. Rectilinear motion. Circular and Harmonic motions. Impact of smooth bodies. Work and Energy. Central orbits. Motion on plane curves. Motion of a varying mass, or in a resisting medium. Small oscillations in two dimensions. Simple cases of motion in three dimensions. Hodograph. Motion in a revolving curve.

(c) —RIGID DYNAMICS.

Moments and products of inertia. D'Alembert's Principle.

Motion of a rigid body about a fixed axis. Motion in two dimensions including impulsive forces.

Books recommended :—

Loney—An Elementary Treatise on Statics,
Loney—Dynamics of a Particle and Rigid Bodies
Lamp—Statics.
Lamb—Dynamics.

For purposes of reference :—

Routh's Statics, Vols. I and II.
Routh's Dynamics of a Particle.
Routh's Elementary Rigid Dynamics.

• • Paper VI.

(a).—HYDROSTATICS.

Fluid Pressure. Centre of pressure. Stability of equilibrium of floating bodies. Figures of relative equilibrium of rotating liquids. Surface tension and capillarity.

(b).—HYDRODYNAMICS.

Kinematics. Equations of motion. Sources and sinks. Images. Motion of circular and elliptic cylinders in two dimensions. Motion of a sphere in a liquid. Simple cases of wave motion. Vibration of air in tubes.

Books recommended :—

Besant and Ramsey—Hydromechanics, Vol. I.

Ramsey—Hydromechanics. Vol. II.

SCHEDULE B.**1.—Theory of Functions of a Complex Variable.***Paper VII.*

Definitions. Properties of continuous functions. Analytic Functions—rational, irrational, algebraic and transcendental functions.

Infinite series—Circle of convergence—Power series—Double series—Infinite product as power series—The Exponential, Logarithmic, Trigonometric and Inverse trigonometric functions—Binomial Theorem.

Conformal representation in general of one plane on another. Stereographic and Mercator's projection—Bilinear transformation—Elliptic, hyperbolic, parabolic and loxodromic transformations.

Definite integrals. Formulae of Darboux and Weierstrass. Cauchy's Fundamental Theorem. Morera's Theorem. Taylor and Maclaurin series. Laurent series. Series of analytic functions. Properties of uniform functions. Cauchy's Residue Theorem.

Evaluation of definite integrals. Jensen's Formula. Poisson's Integral. Lagrange's Formula.

Analytic Continuation, Natural Boundary and Functions with Natural Boundaries

Paper VIII.

Weierstrass's Factor Theorem. Mittag-Leffler's Theorem.

Algebraic functions and their properties. Their mode of representation on a Riemann Surface. Simple examples of such representation.

Periods of definite integrals—periods of hyper-elliptic integrals—periods of elliptic integrals of three kinds.

Periodic functions. Doubly periodic functions. Elliptic functions and their general properties. Weierstrass's (P_1 , Zeta, Sigma) function, and their properties. Theta functions and their simple properties.

Relations between the periods and the invariants. The inverse functions to the elliptic integrals of different kinds. Application to cubics in a plane. General formula for parametric representation. Curves of deficiency zero and one.

Jacobi's sn, cn and dn-functions and their properties. The Abelian integrals. Abel's theorem. Application to hyperelliptic integrals.

Books recommended :—

Townsend—Theory of Functions of a Complex Variable.
Goursat—Mathematical Analysis, Vol. II, Pt. I.
MacRobert—Complex Functions.

For purposes of reference :—

Whittaker and Watson—Modern Analysis.
Forsyth—Theory of Functions of a Complex Variable.
Titchmarsh—The Theory of Functions.

II.—Theory of Functions of a Real Variable.

Number : Fundamental Concept. Mathematical Induction. Fractional and Negative Numbers. Cantor's and Dedekind's theories of irrational numbers. Arithmetical theory of limits.

Convergent sequences. The continuum. Descriptive properties of Sets of Points. Derivatives of a Set. Closed, dense-in-itself, perfect, everywhere dense and non-dense sets. Power and Potency of an aggregate Enumerable and unenumerable aggregates. Aggregates of first and second species. Transfinite ordinal number and transfinite derivatives of a set of points. Sets of the first and the second category. Hoine-Borel theorem. Non-dense perfect sets.

Metrical properties of sets of points : Content. The interior and exterior measures. Measurable sets. Sets that are Borel-measurable. Metric density of a set.

Functions of a Real Variable : Continuity. Uniform continuity. Absolute continuity. Semi-continuity. Approximate continuity. Classification of discontinuous functions. Pointwise discontinuous functions. Functions of bounded variation and bounded total fluctuation. Derivatives and Differential coefficient of a function. Maxima and Minima. Double and Repeated Limits. Partial Differential Co-efficients. Conditions of equality of $\frac{d^2 F}{dx dy}$ and $\frac{d^2 F}{dy dx}$. Implicit function of two variables. Maxima and Minima of such functions. Construction of continuous functions. Representation of a square on a linear interval.

Paper VIII.

Integration. Upper and Lower Reimann Integrals. Functions which are R-integrable. Properties of Riemann Integral. Integrable null functions. Fundamental theorem of Integral Calculus. Integration by parts. Mean value theorems. Improper integrals. Change of variables in a single integral. Repeated and Double Integrals. Lebesgue Integral and its properties. Definitions of Stieltje's, Harnack's and Hellinger's Integrals.

Sequence and Series of numbers : Full treatment of convergence of series and products, double-sequences and double series,

multiplication of series, uniform convergence, simple uniform convergence, continuity of sum—function, differentiation and integration of series, power series. Taylor's Theorem. Cesaro's sum of series. Weierstrass's theorem on polynomials of one variable. Functions representable by series of continuous functions. Baire's classification of functions. Cantor's method of condensation of singularities

Fourier's Series. Convergence. Dirichlet's investigation. Poisson's treatment. Fejer's theorem. Differentiation and integration of Fourier Series.

Books recommended :—

Hobson's Theory of Functions of a Real Variable, Vols.
I and II.

Young's Theory of Sets of Points.

Carslaw's Fourier Series and Integrals.

Pierpoint's Theory of Functions of a Real Variable, Vols.
I & II.

Titchmarsh—The Theory of Functions.

III. Non-Euclidean Geometry.

IV. Elliptic Functions.

V. Theory of Numbers.

VI. Theory of Groups.

VII. Calculus of Finite Differences with Applications to Statistics.

Paper VII.—Finite Differences.

History of the growth of the subject. Divided Differences. Difference operators. Interpolation formulæ of Newton, Gauss, Bessel, Stirling with Linear Process of Aitken. Polynomials of Bernoulli and Euler. Simple cases of Numerical Differentiation and Integration. Linear Difference. Equations with constant coefficients. Boole's iterative method.

Books recommended.

Milne-Thomson. L. M.—The Calculus of Finite Differences.
Boole—Finite Differences.

*Paper VIII.—Statistics.***I. Probability—**

Definition. Elementary theorems. Binomial distribution and the most probable Event. Mathematical expectation.

II. Theory of Variables.—**(a) Symmetrical Frequency Distribution.**

Errors—different kinds ; nature of accidental errors ; Gauss's Law of Error ; Error curve ; Law of least squares and deduction of the principle of A. M. Proof of Law of Error based on the median. Application to one unknown ; measure of precision ; mean square error ; probable error.

(b) Asymmetric Frequency Distribution.

Median, mode, standard deviation. Moments. Skewness. Theory of Dispersion.

(c) Frequency distribution of two variables.

Correlation and Contingency tables, Correlation regression. Correlation co-efficient and correlation ratio.

III. Theory of Sampling.

Normal correlation. Simple methods of curve fitting.

IV. Theory of Attributes.

Classification consistency, association and partial association.

Books recommended :—

Yule—Theory of Statistic.

Bowley—Elements of Statistic.

VIII.—Modern Geometry*Paper VII—Non-Euclidean Geometry.*

1. The works of Saccheri, Lambert, Legendre and Gauss. Bonola's proof of Saccheri's theorem without use of the principle of continuity.

- 2 The works of Bolyai and Lobatschewsky
3. Hilbert's system of axioms. Axioms of connection, order, congruence, continuity and parallelism.
4. Transmissibility, Reciprocity and Commutativity of Parallelism.
5. Congruence of triangles with one vertex at infinity.
6. The angle of parallelism and its limits.
7. The Saccheri quadrilateral and the angle sum of a triangle.
8. Hilbert's construction for a common perpendicular to two non-intersecting and non-parallel straight lines
9. Hjelmslev's middle-line theorem.
10. Correspondence between a right-angled triangle, a trirectangular quadrilateral and a rectangular pentagon.
The Engel set of five associated right-angled triangles.
11. Bolyai's parallel construction
12. Hilbert's construction for the common parallel to two straight lines.
13. Proper, improper and ideal points. Bolyai's theorem on the concurrence of the right-bisectors of the sides of a triangle.
14. Gauss's theory of corresponding points.
15. The Circle, Horocycle and Equidistant Curves.
16. Equivalent polygons. Any two equivalent triangles have the same defect. Any two triangles with the same defect are equivalent. Measure of area.
17. Formulæ relating to horocyclic arcs and the equation of the horocycle.
18. Hyperbolic Functions of Complementary Segments.
19. The fundamental trigonometric formulæ for the rectangular pentagons and their application to the trigonometry of the right-angled triangle.
20. Trigonometrical formulæ for oblique-angled triangles.

21. Fundamental Equation of Hyperbolic Trigonometry
 $\tanh (a) = \cos a$.

22. Euclidean Geometry as a limiting case of the Hyperbolic. The geometry on the horosphere is Euclidean.

23. The elements of length and area in Cartesian, polar and limiting curve co-ordinates.

Rectification and Quadrature of the Circle, Horocycle and Equidistant Curve.

24. The area of the tri-rectangular quadrilateral by direct integration

25. The surface and the volume of the sphere.

Books recommended :—

H. S. Carslaw	.. The Elements of Non-Euclidean plane Geometry and Trigonometry.
Sommerville	.. The Elements of Non-Euclidean Geometry.
Bonola	.. Non-Euclidean Geometry, translated by Carslaw.

For reference :—

Engelu Stackel	.. Theorie der Parallel-Linien.
Liebmann	.. Nicht-Euklidische Geometrie.
S. Mukhopadhyay	.. Papers on Non-Euclidean Geometry published in the Bulletins of the Calcutta Mathematical Society.

Paper VIII.—Four Dimensional Geometry.

1. The foundations of four dimensional Geometry : Points, Lines, Planes, Hyper-planes. Hyper-space, Half-lines, Half-planes, etc.

2. Angle Concept in four dimensional Geometry. Minimum angles between two planes. Perpendicularity and simple angles, absolutely perpendicular planes and simply perpendicular

planes. Hyperplane-angles. Common perpendicular planes (minimal planes) of two given planes mutually absolutely perpendicular. Polyhedroidal angles. Projection.

3. Symmetry, Order and Motion in Hyper-space. Rotation and translation, Axis plane of rotation. Composition of rotations. Rectangular system, Isocline planes—their properties, conjugate series, Pole and Polar series, Isocline rotation. Index of projectivity, Index of conjunctivity.

4. Intersections and parallelism. Half parallel planes. Parallel planes. Parallel lines, planes and hyperplanes. Planes and hyperplanes at infinity. Projection on isocline planes.

4. Hyper-solids and hyper-faces in four space :—

Pentahedroid, Hyperpyramid, hyper cones, double cones, hyper-sphere—their hyper volumes and surface-contents. Poles and Polars. Hyperprisms, double prisms. Hyper-conics. Hyper surfaces. Hyper Cubes. Polyhedroids.

The subject is to be studied both analytically and geometrically in accordance with the syllabus. No text-book is prescribed. The following are recommended for reference :—

1. E. Jouffret .. Traite Elementaire de Geometrie a quatre dimensions.
2. H. P. Manning.. Geometry of four dimensions.
3. S. M. Ganguli .. Analytical Geometry of Hyperspace.

IX. Integral Equations.

X. Calculus of Variations.

XI. Algebra of Quantics.

XII. Vector Analysis and Quaternions.

Addition, Subtraction. Multiplication and Differentiation of Vectors with illustrations from Geometry and Mechanics. The Differential operators with illustrations of their use. The Linear Vector Function and theories of Dyadics with illustrations

of their use. Addition and Multiplication of Quaternions. Expression of a quaternion as a power of a vector. Applications to Spherical Trigonometry. The operator $\nabla q()$.

∇

Differentiation of quaternions and functions of quaternions with their applications. Application to Solid Geometry and Mechanics.

Book recommended :—

Gibbs—Vector Analysis [Ed. by Wilson].

XIII. Advanced Dynamics.

XIV. Theory of Elasticity.

XV. Spherical and Dynamical Astronomy.

XVI. Hydrodynamics.

XVII. Electricity and Magnetism.

MENTAL AND MORAL PHILOSOPHY.

(M.A. 1939.)

There shall be eight papers in this subject. Each paper shall be of four hours and shall carry 100 marks.

The course shall comprise the following .—

Paper I.—Ancient and Mediaeval European Philosophy.

Ueberweg .. History of Philosophy.

Caird .. The Evolution of Theology in the
Greek Philosophers.

Zeller . Plato.

Inge .. The Philosophy of Plotinus.

De Wulf .. History of Mediaeval Philosophy.

Paper II.—History of Modern European Philosophy.

Descartes, Spinoza, Leibnitz, Locke, Berkeley, Hume, Kant, Fichte, Schelling, Hegel, Herbart, Lotze and Schopenhauer.

Candidates are expected to have a special knowledge of Kant's Critique of Pure Reason.

- Erdmann .. History of Philosophy, Vol. II.
 Watson .. The Philosophy of Kant as contained in extracts from his own writings.

Blackwood's Philosophical Classics..Descartes, Spinoza, Leibnitz, Locke Berkeley Hume, Kant, Fichte, and Hegel.

Paper III.—Contemporary Philosophy.

Absolute Idealism, Neo-Idealism, Neo-Realism Critical Realism Pragmatism, Bergson's Philosophy.

Bradley—Appearance and Reality [Chapters I..IV, Thought and Reality; also appendices].

Bosanquet .. The Principle of Individuality and Value.

Bergson .. Introduction to Metaphysics.

Russell ... An Outline of Philosophy.

Halder ... Neo-Hegelianism.

Paper IV.—Indian Philosophy.

Germes of Philosophic and Religious thought in the Rig Veda. The Upanishads:—Reality, World, Soul, God, Ethics and Religion, Karma and Rebirth; Moksha. The theism of the later Upanishads. The main currents of thought metaphysical and ethical, in the Bhagavadgita. The Charvaka theory. Buddhism. Its relation to the Upanishads. The four Truths. Conception of Reality, Soul, Karma and Rebirth. Ethics. Nirvana. The four Schools of Buddhism. Jaina Logic, Metaphysics and Ethics.

The Nyaya theory of Pramanas. Causality, God and Soul. The Vaisheshika Categories and Atomism. The Sankhya theory of Purusha and Prakriti and their mutual relation. Cosmic evolution. Nature of Cognition. The alleged Atheism of Kapila. Patanjali's view of God. The Purya Mimansa: General Character. Apurva. The theory of knowledge of Kumaila and Prabhakara. The Vedanta: Brahman, Jiva, Karma, and its relation to Jnana

according to Sankara and Ramanuja, Sankara on Adhyasa, Maya and Avidya Ramanuja's objections against Maya. His Conception of Reality. Personality of God. Moksha in the different systems.

Das Gupta	.. History of Indian Philosophy.
Kokileswar Sastri	.. Advaita Philosophy.
Radhakrishnan	.. Indian Philosophy, Vols. I and II.
Urquhart	.. Vedanta and Modern Thought.
Seal	.. The Positive Sciences of the Ancient Hindus. Chapters I & VII.
A. B. Keith	.. Indian Logic and Atomism.

Hume's 'Thirteen Principal Upanishads. Rhys Davids' Dialogues of Buddha, Sankarabhasya and Ramanujabhasya on the Védanta Surtras may also be consulted.

Paper V.—Logic.

Relation to Psychology and Metaphysics, Formal and Material Logic. Thought and Language. Names and their import. Extension and Intension of terms. Prædicables. Judgment. Theories of judgment. Varieties of judgment. Negation. Disjunction.

Inference. Theories of Inference. Deduction and Induction. Varieties of Deductive Inference.

Syllogism. Discovery and proof. Causal relation. Enumeration. Induction. Mathematical Reasoning.

Scientific Induction. Hypothesis. Bacon, Newton, Whewell and Mill on the Inductive method. Laws of nature.

Necessity in knowledge. The Laws of Thought. Explanation and its Limits.

Mill	.. System of Logic.
Bradley	.. Principles of Logic.
Hobhouse	.. Theory of Knowledge.

Paper VI and VII.—Any one of the following subjects, each consisting of two papers to be selected by candidates :—

I.—PSYCHOLOGY.

***Paper VI.*—General and Physiological Psychology.—**

Psychology as a science ; methods ; stand points ; mental life ; innate equipment ; learning process ; sensation ; perception ; attention ; memory ; recognition ; imagination ; thinking ; feeling, emotions and sentiments ; motivation ; action ; personality.

The general structure of the nervous system. Structure and function of receptors and effectors. Cerebral localization.

Endocrines and their influence on mental life.

***Paper VII.*—Contemporary Psychology and Abnormal, Psychology.**

Contemporary schools :—Structural, Behaviouristic, Gestalt, Functional, Hormic.

General survey of animal and child mind. Mental development.

The psychological theories of Freud, Adler and Jung. Unconscious and repression. Neuroses and psychoses. Dreams. Psychopathology of every day life.

Bentley :—Field of Psychology.

Murphy :—Historical Introduction to Modern Psychology.

Woodworth :—Contemporary Schools of Psychology.

Nicole :—Psychopathology Chapters. I-V and Appendices.

Dorcus and Shaffer ;—Text-book of Abnormal Psychology
McDougall :Energies of Men.

Psychologies of 1925 and 1930. (Clarke Univ. Press).

II.—ETHICS AND SOCIAL PHILOSOPHY.

Scope and Method of Ethics. Its relation to other Sciences. Psychology of Ethics. Moral judgment. Intention. Character.

The moral Ideal. Ethical Theories : Hedonism, Rationalism, Intuitionism, Idealism. Evolution and Ethics.

Moral Progress. Moral Development of the Individual. Rights and Obligations. Virtues. The Family. The State. Property. Punishment.

Metaphysics of Ethics. The ultimate value of the moral judgment. Free will. Morality and Religion. Future Life.

Social Philosophy. Its Scope and History. Its relation to other sciences. Society and its implications. The Social Mind. Social development in general. Progress. Family. Theories of Development. Forms of Marriage. Social Progress. Laws and Lands. Society and the Individual. The Nature and Ideal of Society.

Kant	.. Metaphysical Foundation of Morals.
Green	.. Prolegomena to Ethics.
Moore	.. Principia Ethica.
Wundt	.. Ethics Parts I—III.
Mackenzie	.. Social Philosophy.
Giddings	.. Principles of Sociology.

III.—PHILOSOPHY OF RELIGION.

Relation of Religion to Science, Art, Psychology, Anthropology, Ethics and Philosophy. Analysis of the Religious Consciousness. The different elements of Cognition and Will. The feeling of the numinous. Faith and Reason. Mysticism.

The place of tradition in Religious life. The nature of religious authority. The idea of God Origin and Development. Proofs for the existence of God. Nature and attributes of God. Personality of God. The Absolute and God.

Time and Eternity. Immanence and Transcendence. Incarnation. The problem of creation. Pantheism and Theism. Cosmic evolution. Miracles.

The Individual self. Its relation to God. Freedom of Self and Divine sovereignty. The problem of Evil and Suffering. Pre-existence and Immortality. Karma and Rebirth. Life Eternal.

Hegel	.. Philosophy of Religion.
Lotze	.. Outlines of the Philosophy of Religion.
Pringle Pattison	.. The Idea of God.

IV.—SPECIAL BRANCH OF INDIAN PHILOSOPHY.

1. Nyaya Vaisheshika Group:—

Nyaya-Sutras with Vatsyayana's Bhashya.

Prashastapada's—Padartha-dharmasamgraha.

Vishvanatha's Bhasha-pariccheda with Sidhanta-muktavali.

2. Sankhya-yoga Group:—

Ishvarakrishna's Sankhya-karika with Vachaspati's Tattva-kaumudi.

Sankhya-sutras with Vijnanabhikshu's Sankhya Prava-chinabhashya.

Yoga Sutras with Vyasabhashya and Tattvavaisharadi first two Chapters.

3. Vedanta Group:—

The Vedanta Sutras with the Bhashyas of Sankara and Ramanuja, first two chapters. Vedantaparihasha.

4. Bauddha-Jaina Group.—

Nagarjuna's Madhyamika-karikas with Chandrakirti's Vritti.
'Dravyasamgraha and Syadvadamanjari.

5. Translation Group:—

The Vedanta Sutras with Commentaries of Sankara, and Ramanuja, first two Chapters of Thibaut's Translations.

Sankhya karika with Tattvakaumudi, Jha's Translation.

1939.

B. L. EXAMINATION, PART I & PART II.

NOTE.—When any Act of Legislature is prescribed as part of the curriculum it is to be understood that this includes amendments up to six months before the date of the examination.

PART I.

There shall be five papers for this examination. Each paper shall be of three hours and shall carry 100 marks.

The course shall include the following subjects :—

Paper I.—Jurisprudence and Elements of Roman Law.

Holland .. Jurisprudence (latest edition).

Hunter .. Introduction to Roman Law.

Part II.—Constitutional Law of England and India.

Ridges .. Constitutional Law of England, Part I.
Government of India Act 1935.

Part I.—Whole.

Part II.—Omitting Secs. 22, 24, 25, 27, 29, 38 and 39.

Part III.—Secs. 48-64, 66, 67, 71, 73-77, 88-90 and 93 only.

Part V.—Omitting Secs. 111-121.

Part VII.—Chapter III only.

Part IX.—Omitting Secs. 201, 203, 216, 221, 227 & 228.

Part XI.—Whole.

Part XV.—Whole

Paper III.—The Law of crimes, the General Principles of Criminal Procedure and Evidence.

Act XLV of 1860 (Penal Code) Chapters I—V and such portions of Chapters VI—XXIII as do not relate exclusively to the amount of punishment to be inflicted for an offence.

Act V of 1898 (Criminal Procedure) as amended by Acts XII and XVIII of 1923 omitting Chapters IV, V, VI, VII, IX, XIII, XIV, XXXIII—XL, XLII, XLVI (except section 562).

Act I of 1872 (Evidence) sections 1—33 and Chapters IX and X.

University Selection of Leading Cases

Paper IV.—Hindu Law with all the Legislative enactments relating thereto.

Mulla—Hindu Law.

N. B.—The students are recommended to consult.—

1. Mayne—Hindu Law and Usage
2. Golapchandra Sarkar—Hindu Law.

University Selection of Leading Cases.

Paper V.—The Law of Contract and Tort.

Anson .. Law of Contract (latest Edition).

Salmond .. Summary of the Law of Torts omitting Chapters V, VI, X and XVI.

Act IX of 1872 (Contract).

Act III of 1930 (Sale of Goods).

Indian Partnership Act 1932.

University Selection of Leading Cases.

NOTE.—In Papers III to V, 40 marks shall be allotted to questions framed with a view to test the ability of candidates to apply the more important legal principles to concrete cases. Full credit shall be given for well-reasoned answers to such questions, even, if the conclusions happen to differ from the views taken in decided cases. No credit shall be given for legal answers unsupported by arguments.

The following Leading Cases are to be studied in the original judgments as expositions of important legal points.

PART I.

PAPER II—CONSTITUTIONAL LAW.

1. The Empress vs. Burah I. L. R. 4 Cal. 172, 5 I. A. 178
- 2 Parmeshwar Ahir vs. The Emperor 3 P. L. J. 537.
3. Girindra vs. Birendra 31 C. W. N. 593.
4. Case of the Sheriff of Middlesex II. A.L.E., 273;
113 Eng. Rep. 419.
5. Stockdale vs. Hansard 9 A.L.E.I; 112 Eng. Rep. 1112.
6. Bradlaugh vs. Gossett 12 Q. B. D. 271.
7. Entick vs. Carrington 60 Geog. III 1765 Broom's
Constitutional Law 55—609.
8. Marais vs. The General Officer Commanding the Lines
of Communication, 1902 A. C. 109.
9. Beatty vs. Gillbanks 9 Q. B. D. 308.

PAPER III—LAW OF CRIMES Etc.

1. Birendra Kumar Ghosh vs. King-Emperor, 20 C. W. N.
181 (affirming 21 C. W. N. 170=38 C. L. J. 4).
- 2 Sheobalak Singh vs. Kamruddin Mandal, 2 Pat. 94=3
P. L. T. 573.
3. Barindra Kumar Ghosh vs. King-Emperor, 37 Cal. 467.
4. Ram Sagar Mandal vs. Alek Naskar, 49 Cal. 682=26
C. W. N. 442=671. C. 177.
5. Nareshi Singh vs. King-Emperor, 2 P. 595=6 P.L.T.
87=1924 P. 388=82 I. C. 156.
6. Farman Khan vs. King-Emperor, 5 P. 529=8 P.L.T.
119=98 I. C. 394=1926 P. 433.
7. Agni Kumar Das vs. Mumtazuddin. 56 Cal. 290=32
C. W. N. 1173=1928 C. 610=113 I. C. 181 (S. B.)

8. Ramgulam Sah vs. King-Emperor, 7 P. 205=9 P. L. T. 92=107 I. C. 817=1928 P. 215.
9. Bharat Kishore Lal Singh Deo vs. Judhistir Modak 10 P. L. T. 779=119 I. C. 413=1929 P. 473 (F. B.)

PAPER IV—HINDU LAW.

1. Hanuman Pd. Panday vs. Must. Babui Manraj Kueri 6 M. I. A. 393=18 W. R. 81 P. C.
2. Adit Narayan Singh vs. Mahabir Pd. Tewari, 48 I. A. 86=6 P. L. J. 140=2 P. L. T. 97.
3. Raja Bahadur Brij Narain Rai vs. Mangala Prasad, 51 I. A. 129=46 All. 95=5 P. L. T. 1=28 C. W. N. 253.
4. Girja Bai vs. Sadashiva Dhundiraj, 43 Cal. 1031=30 C. W. N. 1085=43 I. A. 151=24 C. L. J. 207.
5. Sri Krishna Das vs. Nathu Ram, 54 I. A. 79=49 All. 149=8 P. L. T. 210=100 I. C. 130=1927 P. C. 37.
6. Rangasami vs. Nachiappa, 46 I. 72=42 Md. 523=50 I. C. 498.
7. Amrindra Man Sinha vs. Sanatan Singh, 60 I. A. 242=12 P. 642.
8. Rambujhawan Pd. Singh vs. Nathu Ram, 50 I. A. 14=2 P. 285=4 P. L. T. 29.
9. Debi Mangal Prasad Singh vs. Mahadeo Prasad, 39 I. A. 121=30 All. 234.

PAPER V—CONTRACT & TORTS.

1. Mohori Bibi vs. Dharmdas Ghosh 30 Cal. 539.
2. Raghunath Prasad vs. Sarju Prasad 51 I. A. 101.
3. Hadley vs. Baxendale 9 Ex. 341.

4. Rogers Sons & Co., vs. Lambert & Co., 1 Q. B. 318.
5. Khan Gul & another vs. Lakha Singh and another
I. L. R. 9 Lahore 701 (F. B.)
6. Barwick vs. English Joint Stock Bank L. R. 2 Ex. 259.
7. Ashby vs. White 1 Sm. L. C. 266.
8. Gaya Prasad vs. Bhagat Singh 30 All. 525.
9. Quinn vs. Leathem 1901 A. C. 495.

PART II.

(LAW EXAMINATION, 1939.)

There shall be five papers for this examination. Each paper shall be of three hours and shall carry 100 marks.

The course shall include the following subjects :—

Paper I.—**The Law relating to Property** including the
**Law of Land Tenures, Land Revenue and
Prescription.**

Regulation 1 of 1793*

Act VIII of 1885 (*Bihar Tenancy as amended up-to-date
Chapters I—VIII. Chapter IX—Sections 85—88, Chapter X—
Sections 103 A, 103 B.)

Chapters XI, XIII—Secs. 147 A, 148, 148A and 155.

Chapters XIV, XV, XVI, XVIII—Sec. 188.

Act XI of 1859.

Act IX of 1908, Sections 26—28.

*For Orissa students substitute Orissa Tenancy Act (Bihar and Orissa
Act II of 1913).

B. 105, 105 A, 106, 108 109 and 111 A, Chapters XI, XIV,
XV, XVI, XVII and Section 188.

• Act XI of 1859.

Act IX of 1908, Sections 26—28.

Upendra nath Mitra. Indian Law of Prescription and Easements.

University Selection of Leading Cases.

N. B.—Students are recommended to consult Field's introduction to the Bengal Regulations.

Paper II.—The Principles of Equity including the Law of Trusts and Specific Relief. I—XXI.

Maitland . . . Lectures on Equity, Chapters XXI.

Strahan . . . Digest of Equity.

Act I of 1877 (Specific Relief) Sections 9, 12, 19—23, 27, 28, 35, 36, 37, 38, 42, 43, 52—56.

Act V of 1908 (Civil Procedure) Order XXXIX, Rules I and 2, and Order XL.

University selection of Leading Cases.

(N. B.—Students are recommended to consult Petrides Student's Case with a view to elucidate the cases mentioned in the text books).

Paper III.—The Law of pleading and the General principles of Civil Procedure and Evidence.

Act V of 1908. (Civil Procedure), sections I—158 Schedule.

1, Orders I—XV, XVIII, XX—XXIII, XXXI, XXXII—XXXV, XXXVIII, XLI—XLVII, Schedule II.

Act I of 1872 (Evidence) Sections 34—117 and 167.

N. B.—Students are recommended to consult—

Walsh and Weir—Pleadings.

Mogha—The Law of Pleadings in British India.

University Selection of Leading Cases.

Paper IV(a).—The Law of Transfer. Intervivos.

Act IV of 1882 (Transfer of Property) as amended up-to-date.

Act XVI of 1908 (Registration) sections 17, 18, 28, 47—50 and 77.

Act II of 1899 (Stamp) section 35 and 36.

(b).—**Principles of Law of Intestate and Testamentary Succession** (*exclusive of the Hindu and the Moham-madan Law of Intestate Succession.*)

Act XXXIX of 1925 (Succession) omitting Parts III—V, VII, X and XI.

Act IX of 1908 (Limitation) Sections I—25, and 29, Schedule I, Articles 17, 11A, 132, 141, 142, 144, 181 and 182.

University Selection of Leading Cases.

Paper V (a).—**Muhammādan Law with all the Legislative enactments relating thereto.**

Sirajiya .. (Except the details as to succession of distant kindred). •

Amir Ali .. Students' Manual of Muhammādan Law.

Or

Mulla Principles of Muhammādan Law omitting the details as to the successions of distant kindred).

University Selection of Leading Cases.

„ (b).—**Specified Acts.**

Act IX of 1875 (Indian Majority).

Act VIII of 1890 (Guardian and Wards Act), Sections 8—10, 17, 28—30 and 39

• Act I of 1887 (Provincial Small Cause Courts) Section 15.

17, 23, and 25, Schedule II, Articles 4, 8, 30, 31, 35, 38, and 41.

Act VII of 1887 (Suits Valuation), Section 8 and 11.

Act XII of 1887 (Civil Courts) Section 1, 2, 13, 20 and 21.

Act VII of 1870 (Court Fees) Section 7, Schedule II)

Article 17.

University Selection of leading Cases.

PART II.

PAPER I—LAND TENURE

1. Bindeshwari Pd. Singh vs. Maharaja Kesho Pd. Singh Bahadur 5 P. 634 P. C.=53 I. A. 164=7 P. L. T. 553=1626 P. C. 79=95 I. C. 1025.
2. Tengarū Sukul vs. Chhattu Bhar 10 P. L. T. 569=9 P. 347=1929 P. 460=1118 I. C. 316.
3. Sri Radha Krishnaji vs. Hari Charan Ahir 11 P. L. T. 335=1930. P. 332.
4. Raja Pirthwi Chand Lall Choudhry vs. Raja Krityanand Singh 19 P. L. T. 401.
5. Nathuni Thakur and others vs. Ram Saran Singh 13 P. L. T. 377 (F. B.)
6. Khubi Mahton vs. Lachmi Das 2 P. 18=3 P. L. T. 513=67 I. C. 642.
7. Chandra Benode vs. Ala Bax 48 Cal. 184=1924 C. 15=24 C. W. N. 818=58 I. C. 353.
8. Mahanth Jagannath Das vs. Janki Singh 49 I. A. 81=1=P.340 3 P. L. T. 197=27 C. W. N. 833.
9. Krishnapada Chatterjee vs. Siamrodas Sundri Ghosh 59 Cal. 1202=A. I. R. 1932 Cal. 321 (F. B.)

PAPER II—EQUITY Etc.

1. Allcard vs. Skinner L. R. 36 Ch. D. 145
2. Earl of Aylesford vs. Mozris L. R. 8 Ch. App. 484.
3. Fox vs. Mackreth 2 Wh. and T. I C. 722.

4. In re Hallets Estate L. R. 13 Ch. D. 696.
 5. Mussoorie Bank vs. Raynor L. R. 7 App. cases 321=
I. L. R. 4 All. 500=L. R. 9 I. A. 70.
 6. Ram Coomar Koondo vs. Mac Queen L. R. I. A. Sup.
Vol. 40.
 7. Mayor of Lyons vs. The Advocate General of Bengal
I. L. R. I. Cal. 303.
 8. Tulk vs. Moxhay. Finch selected cases 777.

-

M. L. EXAMINATION 1939.

Same as for 1923—(See University Calendar 1921—22.)

1938

DIPLOMA IN EDUCATION

AND

M. Ed. EXAMINATIONS.

DIPLOMA IN EDUCATION

The course of study shall extend over one academical year and comprise the following subjects—(i) History of Educational Practice ; (ii) Principles of Education ; (iii) Methods of Teaching ; (iv) Hygiene of the School Child ; (v) Practical Teaching.

The course of practical training shall comprise demonstration, criticism, and practice teaching lessons ; also instruction in clear speaking, good reading, and the use of teaching apparatus.

In the theoretical portion of the examination there shall be one paper of three hours carrying 100 marks in each of the subjects (i), (ii), (iii) and (iv).

The practical examination for testing skill in secondary teaching shall be held at a recognized school in Patna and such other places as the Syndicate may determine. Each candidate shall prepare (a) schemes of work extending over one term in three subjects selected by him from the curriculum of a recognized secondary school ; (b) full notes of a lesson included in the scheme in each of the subjects selected. At least two of these lessons shall be prepared for delivery through the medium of English. The candidate shall be required to deliver all the three lessons. 400 marks shall be allotted to this portion of the examination of which 100 shall be for

skill in the use of teaching apparatus and too for correct pronunciation and clear enunciation.

The practical examination for testing skill in primary teaching shall be held at a primary school in Patna or such other places as the Syndicate may determine. Each candidate shall prepare (a) a scheme of work extending over one school term of three months in each subject of the primary school curriculum; (b) full notes of one of the lessons in each subject included in each scheme of work. Two of the notes of lessons shall illustrate the handling of two different classes in two different subjects during one teaching period. The candidate shall be required to teach one or more lessons and the teaching shall be in the vernacular. The allotment of marks shall be as in the preceding paragraph.

The following syllabuses are prescribed—

SECONDARY EDUCATION COURSE

Part I.—History of Educational Practice.

Part I.

The evolution of British educational policy in India; official documents on the subject.

The present state of primary and secondary education in India and specially in the Province of Bihar and Orissa (for both boys and girls); their defects; suggested reforms.

A very brief survey of other fields of Indian education, University, Technical, Oriental, Vocational, at the present time.

Part II.

A short history of Western educational thought and practice, dealing particularly with Locke, Rousseau, Pestalozzi, Herbart, Froebel, Montessori, Spencer, Dewey.

A brief account of the national systems of education in England and the United States,

BOOKS RECOMMENDED :

Part I.—1. The Hartog Committee's Report,

2. The Quinquennial Review of Education in Bihar and Orissa, 1927-1932.

3. "Education in India" by Sir Arthur Mayhew.

Part II.—1. "A brief course in the History of Education" by Paul Monroe.

2. "Comparative Education" by I. L. Kandel.

3. "Modern Developments in Educational Practice" by Sir John Adams.

Paper II.—Principles of Education.

Relation between principle and practice ; psychology and education ; fundamental aims and concepts ; home and mneme ; stimulus and response ; modes of consciousness ; the unconscious ; the sub-conscious ; mental conflict ; repression ; sublimation ; instincts ; heredity ; habit ; play ; imitation and suggestion ; group psychology ; the thinking process ; attention and interest ; memory ; volition ; moral training ; emotion and sentiment ; mental tests ; individual differences ; a broad view of mental development in the individual and the race ; the educative process as a whole.

Place and importance of adolescence ; pre-adolescence ; physical, mental, moral and social characteristics of adolescence ; educational applications in the school and outside ; special bearing upon curricula and methods of teaching ;

BOOKS RECOMMENDED.

1. Ross's "Groundwork of Educational Psychology".
2. Bagley's "Educative Process".
3. G. S. Krishnaya's "Citizen Training in Schools".
4. Pringle's "Adolescence and high-school problems".

*Paper III.—Methods of Teaching.**ENGLISH.*

Aim and scope ; the primary, the middle and the high stage ; general technique ; special technique for each stage ; " direct " method ; the reader ; reading ; grammar ; composition ; translation ; the examination in English ; correction of exercises ; English as medium of instruction ; pronunciation and accent ; departmentalisation of English ; English in extracurricular activities ; appreciation of literature.

BOOKS RECOMMENDED.

1. Wyatt .. "The Teaching of English in India
(O. U. Press.)
2. H. E. Palmer .. "A First course of English Phonetics"
(Heffer.)
3. Fleming .. "The Art of Reading and Speaking"
(Arnold).
4. W. M. Ryburn .. "Suggestions for the teaching of
English in India ".

HISTORY.

Different views of and approaches to History ; the " period " and the " outline " ; the concentric method ; general technique ; illustrative materials ; the Line of Time ; the blackboard summary ; the documentary method ; the dramatic method ; the narrative method ; the history text-book ; collateral reading ; correlation with other subjects ; history in extracurricular activities ; the historical trip ; the examination in history ; values of teaching ; civics ; the League of Nations.

BOOKS RECOMMENDED .

1. Johnson—"Teaching of History " . (Macmillan).

GEOGRAPHY.

Geography in the play-ground and the class-room ; introduction of the idea of maps ; correlation of geography with other subjects in the curriculum ; the daily newspaper : hobbies ; the school museum ; excursions ; appliances in geography ; maps ; globes ; models ; natural history ; object diagrams and pictures.

Weather observations ; place names in Geography.

Besides the above, a good knowledge of the Matriculation Geography course will be expected of the candidates.

BOOKS RECOMMENDED.

1. "Geography in School " (U. L. Press) by Fairgrieve.
2. Carter's "Grammar of Geography ".
3. "Modern Geography. " by J. N. Ghosh.
4. Fundamentals in school Geography by Olive Garnett (Harrap & Co.)

. *SCIENCE.*

Object of teaching elementary science in schools ; the heuristic and other methods of teaching the subject ; the Matriculation science syllabus ; general science ; the science room ; the science library and how to use it ; human elements in the teaching of science ; excursions ; scientific societies ; correlation with other subjects ; nature study ; charts ; diagrams ; models and pictures.

BOOKS RECOMMENDED.

- John Rennie—"Aims and methods of Nature Study " (U. T. Press.)
- Hadley "Every-Day Physics." (Macmillan.)
- John Brown "Teaching of Science in Schools " (U. T. Press.)

MATHEMATICS.**Arithmetic and Mensuration—**

Factors and multiples ; fractions ; decimals ; the metric system, proportion ; percentage ; areas of surfaces ; volumes ; commercial and social applications of arithmetic and mensuration.

Algebra.—

Nature of Algebra ; method and curriculum ; the formula ; graphs, directed numbers and rules of signs ; Algebraic addition, subtraction, multiplication and division ; factorization ; factors and multiples ; square roots : fractions ; equations of the first degree and problems thereon ; indices ; parabolic functions and quadratic equations.

Geometry and Trigonometry.—

Scope and method ; experiments in geometry ; definitions and the first propositions ; geometrical originals ; angles at a point, congruence of triangles, inequality ; parallelism ; circles ; limits ; proportionality ; geometric constructions.

Trigonometrical relations ; functions of the sum or difference of two angles, identities ; application of Trigonometry to the works of survey.

NOTE—The use of mathematical apparatus and problems relating to everyday life and practical methods for the solution of these should be encouraged.

BOOKS RECOMMENDED :

1. J. B. Thomson—"The Art of Teaching Arithmetic"
(Longmans, Green & Co.)
2. T. P. Nunn—"The Teaching of Algebra"
(Longmans, Green & Co.)

3. A. Schultze—"The Teaching of Mathematics in Secondary Schools." (Macmillan & Co.)

NOTE—In each subject the training will include instruction on the expansion of a brief syllabus into a scheme of lessons.

Paper IV—Hygiene of the School Child.

The human body, how it works ; the skeleton and muscles ; the circulatory, respiratory, digestive and nervous systems. The senses and the sense organs.

The relation of Education to Hygiene. The general laws and factors influencing growth. Physiological, anatomical and mental ages. The hygiene of posture for school children. Mal-nutrition, its causes and effects. Hygiene of mouth and nose. Defects of vision and audition. Preventive mental hygiene and education of the nervous child. Speech defects and hygiene of the voice. Rest and sleep.

Diseases caused by parasites ; malaria, kala-azar, filariasis, intestinal worms, small-pox, chicken-pox, measles, whooping-cough, mumps, cholera, plague, typhoid, diarrhoea and dysentery. Lung diseases, skin diseases, venereal diseases. Disinfection of houses in cases of contagious diseases.

Air and ventilation. Water and water-borne diseases. Purification, supply and storage of water. Food, its composition, quantity and cooking. Cleanliness and personal hygiene. Clothing. Sex hygiene.

Climate in relation to health, temperature, humidity, sunshine and winds.

Sanitary location of school-buildings and hostels. Village sanitation.

BOOKS RECOMMENDED.

Banks .. Physiology, Public Health and Psychology Parts 1 & 2 (Macmillan)

Davies, "Hygiene and Health Education for Training Colleges"—
(Longmans.)

Paper V.—Practical Teaching.

Adams .. Exposition and Illustration in Teaching (Macmillan.)

Hamley .. Teacher's Lesson Book.

H. E. Palmer .. A First Course of English Phonetics
(Hcffer.)

Fleming .. The Art of Reading and Speaking
(Arnold.)

PRIMARY EDUCATION COURSE.

Paper I.—History of Educational Practice.

The evolution of British educational policy in India. The present state of primary education in India particularly in Bihar and Orissa ; its defects : suggested reforms. Modern experiments in rural education in India. History of educational thought abroad ; Rousseau, Pestalozzi, Frœbel, Montessori, Dewey. A brief account of systems of elementary education in any two other countries.

The countries of which the systems of elementary education are to be studied for 1938, are Denmark and the Philippine Islands.

BOOKS RECOMMENDED.

(1) Hartog Committee's Report.

(2) "Developing a Project curriculum for village schools in India" by W. J. Mckee,

- (3) "Fourteen experiments in rural education." (The Association Press).
- (4) "Modern Developments in Educational Practice" by Adams.
- (5) "A brief course in the history of Education" by Paul Monroe.
- (6) Year Books of Education.

Paper II.—Principle of Education.

Relation between principle and practice ; psychology and education : fundamental aims and concepts ; home and mneme ; modes of consciousness ; the unconscious , mental conflict ; repression ; sublimation , instincts , heredity ; habit ; play ; imitation and suggestion ; group psychology : the thinking process, attention and interest ; memory ; volition ; moral training ; emotion and sentiment ; mental tests : individual differences ; a broad view of mental development in the individual and the race ; the educative process as a whole.

Methods of child study , mental and physical development up to five and from five to ten ; special technique for children of different types and ages and for different subjects.

BOOKS RECOMMENDED :

1. "The Child from Five to Ten" by Kerwick.
2. "How we learn" by Kilpatrick.
3. "Educative Process" by Bagley.
4. "Ground work of Educational Psychology" by Ross.

Paper III.—Methods of Teaching and primary school organization.

Organization, administration and inspection of primary schools.

Methods of teaching all subjects in the primary school curriculum, *viz.*, reading, writing, grammar, composition, arithmetic, story-telling and history, handwork, drawing, the study of the environment (Geography and nature-study), hygiene.

BOOKS RECOMMENDED.

1. "Suggestions for Primary School Teachers" (O. U. Press) by H. Dippie.
2. "Hand-book of suggestions for teachers".
3. "Teaching Primary Reading" by McKee.
4. "Handbook of Nature Study" by E. Thompstone (Longmans.)
5. "Art of teaching Arithmetic" by Thomson.
6. "Bihar and Orissa Education Code"—Chapter II, sections 2, 3, 6, 7, 8, Chapter V Sections 1, 2, 3 (a), 4.
7. "Projects in Indian Education" by Van Doren.

Paper IV.—Same as the Secondary Education Course.

Paper V.—Practical Teaching.

MASTER OF EDUCATION.

The course of study is a continuation of the course for the Diploma in Education and shall extend over one academical year and comprise the following subjects (i) Philosophy of Education, (ii) Educational Psychology, (iii) Methods of teaching a special subject, (iv) History of Education, (v) Intensive study of a special educational problem; (vi) Educational measurements, (vii) & (viii) Practical Work.

In the theoretical portion of the examination there shall be six papers of four hours duration each carrying 100 marks, namely one paper in each of the subjects (i) to (vi), subject to the proviso mentioned under Paper III below, paragraph 2.

The course of practical work shall be of a specialised nature and the examination in teaching shall be held at a recognized school in Patna and at such other places as the Syndicate may determine. Each candidate shall prepare a scheme of work extending over one year in the special subject studied by him and shall be required to give one or more of the lessons included therein. He shall also be required to submit a report on an educational investigation carried out by him during his year of study. 100 marks shall be allotted for the lesson or lessons and scheme of work, and 100 marks for the report.

PAPER I.

Philosophy of Education.

Definition and Province of Philosophy. Its value for and relation to practical life and education. Theories of Education. Relation of Education to Biology, Sociology, Psychology and Ethics. Aims of Modern Education. The State and Education. The general problems underlying the educative process. The newer tendencies in Education.

BOOKS RECOMMENDED :

"The Evolution of Educational Theory" by Sir John Adams

"Education : its Data and First Principles" by Sir Percy Nunn.

"Democracy and Education" by John Dewey.

"Education" by Herbert Spencer.

"The Sociological Philosophy of Education" by Ross. L. Finney.

"The Philosophical Bases of Education" by Robert R. Rusk

"Educational Biology" by John C. Johnson

PAPER II.*Educational Psychology.*

Definition and Province of Psychology. The various schools of Psychology. Its relation to Education. Its methods. Relation of Mind and Body. The Nervous System. Mental Activity in general. Primary Mental Functions. Development of Mental Life. Abnormal Psychology. The Unconscious The Learning Process. Its application to special subjects. Individual Differences. Psychology of early childhood. Psychology of adolescence. Collective Psychology and its application to school problems.

BOOKS RECOMMENDED :

- “Educational Psychology” by Peter Sandiford.
- “Educational Psychology” by E. L. Thorndike.
- “Youth” by Olive A. Wheeler.
- “The Fundamentals of child-study” by Kirkpatrick (1930 edition).
- “Abnormal Psychology” by F. Watt.
- “Introduction to Social Psychology” by W. McDougall.
- “Studies in Psycho-analysis” by Hingley.

PAPER III.*Methods of teaching a Special Subject.*

No text-books are prescribed ; the candidate must have made a special and advanced study of the subject and must be thoroughly acquainted with the school syllabus in it in different types of schools. A very high standard is required, as the student is expected to be a specialist in the subject.

In place of a written examination in this paper, a candidate may offer a thesis, provided he has taken honours in his special subject at the B. A. or B. Sc examination or taken the M. A. degree in that subject. The subject of the thesis shall exclude such educational investigation as he must carry out in connection with his practical work in (vii).

PAPER IV.

History of Education.

A study of Greek educational theory and practice ; a broad survey of Roman education, mediaeval education, humanistic education, education after the Reformation ; education of the courtier ; the seventeenth, eighteenth and nineteenth century educators in Europe ; and general knowledge of ancient and mediaeval educational systems in India ; recent development in education in India and abroad.

A broad comparative view of the systems of national education in certain advanced countries to be specified from year to year in so far as it is helpful to the study of Indian educational problems. For the year 1938 the special educational systems to be studied shall be those of Germany, France and Canada.

BOOKS RECOMMENDED

"The History of Western Education" by W. Boyd.

"Developing a Project curriculum for village schools in India" by McKee.

"Promotion of Learning in Muslim India" by N. N. Law.

"Education in Ancient India" by Altekar.

"Comparative Education" by P. Sandiford.

"Comparative Education" by I. L. Kandel.

"The New Education in Europe" by R. F. Roman.

PAPER V.*Intensive Study of a Special Educational Problem.*

The special problem to be studied for 1938 will be :—

“Vocational Education with special reference to Indian conditions”:

No books are recommended.

PAPER VI.*Educational Measurements.*

History of Educational Measurement. Standardised objective tests ; Types of test and scales ; Nature and process of measurement. Construction of tests. Quality scales. Norms and derived scores. Limitations to educational measurements.

The existing examination systems and their improvement. The school survey. Application of tests to school work.

Nature of intelligence and intelligence tests. Individual and group tests, Revisions of Binet tests with special reference to the Hindustani revision.

Educational statistics and their sources. Frequency distributions. Measurements of the central tendency. Measures of variability. Graphic methods and the normal curve. Elementary principles of chance. Reliability measures. Comparison of groups. Elements of the theory of correlation.

BOOKS RECOMMENDED :

“The Theory of Educational Measurements” by Monroe.

“Psychological tests of educable capacity” by The Board of Education in England.

“Hindustani Binet Performance Points Scale, Parts, I, II and III” by C. H. Rice.

"The Fundamentals of Statistics" by Garret.

"Measurements of Intelligence" by Terman.

"Mental Tests" by Ballard.

"Group Tests of Intelligence" by Ballard.

"Mental and Scholastic Tests" by Burt.

"Testing Intelligence and Achievement" by Levine and Marks.

PAPER VIII.

(a) Investigation, (b) Teaching.

ENGINEERING.

INTERMEDIATE EXAMINATION IN CIVIL ENGINEERING, 1939.

Every candidate shall be examined in the following group of subjects :—

Group I :

Mathematics Paper I	3 hours.
Mathematics Paper II	3 hours.

Group II.

Building Materials and Construction	3 hours.
Surveying	3 hours.

Group III.

Elementary Mechanical Engineering	3 hours.
Elementary Electrical Engineering	3 hours.

Group IV.

Graphic Statics and applied Mechanics	4 hours.
Estimating	4 hours.

Group V.

Laboratory Records	Sessional work.
Mechanical Drawing	Sessional work.

Group VI.

Field Surveys	Sessional work.
Building Drawing	Sessional work.

Each theory paper and each sessional work shall carry
100 marks.

MATHEMATICS.

Paper I.

Co-ordinate Geometry—Elementary introduction. Cartesian and Polar co-ordinates. Straight line. Equations of conic sections. Geometrical properties of the Parabola, ellipse, and hyperbola. Polar equations.

Differential calculus—Limits. Differential co-efficient. Rules of differentiation. Geometrical and mechanical illustrations. Tangents. Normals. Concavity. Convexity. Points of inflexion. Curvature. Radius of curvature. Centre of curvature. Maxima and minima of one independent variable. Successive differentiation. Theorem of Leibnitz. Expansions, Taylor's and Maclaurin's theorems. Evaluation of indeterminate forms. Partial differentiation. Equations and properties of the cycloid and catenary. Application to engineering problems.

Integral calculus—Elementary forms of integration. Definite and indefinite integration. Method of substitution. Integration by parts. Integration of rational algebraic fractions. Reduction formula. Application of integration to finding area, lengths of curves, surfaces and volumes of solids of revolution. Centres of gravity and moments of inertia. Graphic integration. Applications to engineering problems.

Differential equations—Equations of the first order involving two variables. Linear differential equations of the second order with constant co-efficients.

Paper II.

Mechanics—Displacement, velocity, and acceleration, their composition and resolution. Relative velocity. Angular velocity and angular acceleration. Mass, momentum and force. Engineer's units, Laws of motion, Impulse, work. Power and Energy. Principle of virtual work. Uniform circular

motion. Centripetal and centrifugal force. Cant on railway curves and banking of road tracks. Conical Pendulum, Hoop stress and stress in the rim of a fly-wheel. Motion in a vertical circle. Simple Harmonic Motion, Simple pendulum. Resolution and composition of forces. Parallel forces. Moments. Couples. Bow's notation. Funicular polygon. Equilibrium of a system of forces in a plane. Simple jointed structures. Friction. Simple machines with and without friction. Mechanical advantage and velocity ratio. Centre of gravity. Stable, unstable and neutral equilibrium. Moments of inertia. Radius of gyration. Theorems of parallel axis and perpendicular axis. Kinetic energy of rotation. Changes in energy and speed. Angular momentum, Compound pendulum Units and dimensions.

Hydrostatics—Fluid pressure, its transmission and measurement. Density. Specific gravity. Resultant pressure. Centre of pressure. Equilibrium of floating bodies metacentre Boyles' and Charles' law. Determination of altitude by Barometric pressure. Nature and action of simple hydraulic machines.

BUILDING MATERIALS AND CONSTRUCTION.

Materials of construction :—Stone ; Brick ; Cement ; Lime ; Timber ; Steel and Iron ; Lead ; Copper and Zinc ; Paint and Varnishes ; description and uses of each.

Foundation :—Treatment of different cases.

Brick and stone masonry of different classes, Plastering, Mortars, Arches of different kinds ; Lintels ; Stair-cases.

Construction with details of simple steel and wooden trusses.

Doors and windows :—Panelled, ledged, framed and braced, glazed and venetian.

Roofs :—Tiled, R. B. and R. C. Bengal terrace, Jack arched, Corrugated iron sheet.

R. B. partitions.

Flooring :—Patent stone, Brick on edge, Wooden, Stone flag etc

Repairs and Maintenance of Buildings.

SURVEYING.

Construction of scales. Principles of surveying. Chain surveying. Prismatic compass surveying. Theory of levelling ; simple, compound, check and reciprocal levelling. Errors and mistakes in chain surveying, compass surveying and levelling. Elimination of such errors. Customary limits of errors. Use, adjustments and care of instruments. Computing areas. Plane tabling. Problems in surveying. Cadastral Survey and relaying of disputed boundaries.

The Stadia diaphragm. Use of theodolite. Traversing and computation. Gale's traverse system. Trigonometrical survey. Computation for the reduction of base line. Calculation of the sides of the triangle. Curve and alignments. Setting out curves by chords and offsets and by angles at the circumference. Curve of deviation.

ELEMENTARY MECHANICAL ENGINEERING.

First and second laws of thermo dynamics. Mechanical properties of air. Expansions and compressions of air, Closed cycle, The internal combustion engine ; constant volume, and constant pressure combustion ; two and four stroke cycles. Methods of ignition ; carburation ; silencing ; cooling ; lubrication, governing ; foundations ; properties of vapours. Strength and capacity of boilers. Boiler details. Boiler Superintendence. Elements of refrigeration. Simple and compound steam engines exclusive of steam turbines, Valve gears. Indicator, indicator diagrams and indicated horse-power. Brake horse-power. Flywheels and governors. Engine superintendence. The simple machine. Water at rest. Centre of pressure and resultant pressure on plane surfaces. Elements of stability of

floating bodies. Water in motion. Bernoulli's law. Fluid friction. Simple problems on the centrifugal, and reciprocating pumps and their pipe lines.

ELEMENTARY ELECTRICAL ENGINEERING.

Magnetic properties of Iron and Steel. Magnetic circuit, Magnetic flux, Magneto motive force, and reluctance. Permeability and susceptibility Hysteresis. Electromagnets.

Electrical units and their definitions. Resistance and its measurement. Temperature co-efficient of resistance. Ohm's law and its application to series and parallel circuits. Kirchhoff's laws and their application to a net work of conductors.

Magnetic effect of straight and circular currents. Effect of current on current.

Heating effect of an electric current. Heating of Cables wires and fuses and their dimensions. Description of carbon and metal filament lamps, and principle of arc lamps.

Chemical effect of an electric current. Description of primary and secondary cells. Behaviour of secondary cells during charge and discharge. Their efficiency.

Electromagnetic induction. Lenz's law. Self and mutual Induction. Induction coil. Elementary principles of Telegraphy and Telephony.

Fundamental principles of electrical measuring instruments, namely, moving coil, moving iron and hot wire ammeters and voltmeters. Energy meters and megger.

Elements of power transmission. Voltage drop and efficiency. Advantages and disadvantages of high pressure transmission. Efficient and cheap power transmission. Two and three wire systems of distribution. Balancers.

Elements of alternating current principles. Graphical representation of an alternating current. Frequency and phase. R. M. S. value of an alternating current or voltage. Inductional capacity and impedance.

Description of continuous current series, shunt and compound generators and motors. Their characteristic curves. Description of Armature. Commutator and brush gear, Lap and wave winding. Armature reaction. Sparking and methods of dealing with it. Motor starters. Speed control of continuous current motors.

APPLIED MECHANICS.

Conservation of energy and mass. Newton's laws. Kinetic and potential energy. Equilibrium. Bow's notation. Moments. Power. Simple harmonic motion. Laws of solid friction. Simple frames in two dimensions. The funicular polygon. Strength and elasticity. Bending moment, and shearing force : Moments of resistance. Simple problems in deflection of beams. Euler's and Rankine's formulae for struts. Helical and carriage springs. Torsion of cylindrical shafts. Toothed wheels. Belts.

GRAPHIC STATICS.

Composition and resolution of forces. Parallelogram of forces and triangle of forces. Polygon of forces. Lettering of forces. Bow's notation. The funicular polygon. Moment of a force. Resultant moment of a system of forces. Simple force and stress diagram. Stress diagrams of common types of trusses. Bending moment and shearing force diagrams for beams. Stress diagrams of Warren, N and Lattice girders, Cranes, Derricks. Shear legs. Tripods. Centre of gravity. Moment of inertia. Deflection diagrams for plane, and framed girders. Bending moment and shearing force diagram for fixed beams and continuous beams.

ESTIMATING.

Principle of estimating:—Drawing of foundation plan. Enumeration of different items in a building with their rates

and units. Mensuration of arch work. Rules for deduction of openings. Finding out quantities of different items, from drawings of buildings. Framing abstract. Plinth area estimate.

LABORATORY RECORDS.

Records of not less than 6 and not more than 10 experiments in each of the subjects of Mechanical and Electrical Engineering will be submitted to the external examiner. Their nature is indicated by the following list which is not intended to be exhaustive or final.

List of Mechanical Engineering Experiments.

- (1) Polygon of forces in two and three dimensions.
- (2) Moments, and centres of gravity of plane uniform Lamina.
- (3) Rectilinear impulse and momentum.
- (4) Kinetic Energy, and angular momentum of fly wheel.
- (5) Simple Gyrostat, and bifilar suspension.
- (6) Solid friction on plane surfaces and cylinders.
- (7) Belt friction.
- (8) Simple compound, and epicyclic trains of wheels.
- (9) Velocity ratio. Mechanical advantage and efficiency of a simple machine.
- (10) Setting of engine slide valves.
- (11) Brake Horse Power, indicated horse power, and efficiency of an engine.
- (12) Moduli of rigidity and elasticity of wires.
- (13) Modulus of elasticity from slope and deflection of a loaded beam.

List of Electrical Engineering Experiments.

- (1) Comparison of moments of magnets.
- (2) Measurement of field strength along the axis of a magnet.

- (3) Plotting of B. H. curve by " deflection " and " Per-meameter bridge " methods.
- (4) Determination of resistance by Wheatstone's bridge.
- (5) Determination of temperature rise in windings.
- (6) Measurement of temperature co-efficient of resistance.
- (7) Measurement of specific resistance.
- (8) Determination of a low resistance.
- (9) Determination of a high resistance.
- (10) Calibration of Ammeters and Voltmeters.
- (11) Measurement of " Joule's equivalent ".
- (12) Fusibility of wires.
- (13) Efficiency of glow lamps.
- (14) Constant of a ballistic galvanometer.
- (15) Standardization of house meter.
- (16) Study of a continuous current generator.
- (17) External characteristic of C. C. generators.
- (18) Study of a motor starter.
- (19) Speed variation of C. C. motor with impressed voltage and excitation.
- (20) Parallel operation of compound generators.
- (21) Measurement of capacity and inductance.

MECHANICAL DRAWING.

The students are required to submit to the external examiner not less than 8 plates of which two must be from group A and six from Group B.

GROUP A.

- (1) Conic sections : cycloids, involutes and evolutes etc.
- (2) Simple projections of lines, planes and solids.
- (3) Sections and developments.

- (4) Interpenetrations.
- (5) Isometric, and Pictorial Projections.

GROUP B.

- (1) Standard forms of bolts, studs, set screws and nuts.
- (2) Screw threads and springs.
- (3) Bearings.
- (4) Couplings and keys.
- (5) Slide valves.
- (6) Stuffing boxes.
- (7) Pistons and cylinders.
- (8) Eccentrics, eccentric rods, and valve spindles.
- (9) Crank's shaft, connecting rod and piston rod.
- (10) Lubricators.

FIELD SURVEYS.

Records of field survey including the following will be submitted to the external examiner.

- (1) Conventional survey signs to be done in the class before going to the field.
- (2) A chain survey.
- (3) A plane table survey.
- (4) A prismatic compass survey with levelling.
- (5) Gale's traverse survey.
- (6) Contour survey.
- (7) Setting out curves.
- (8) Ground tracing.

BUILDING DRAWING.

The students are required to submit to the external examiner not more than 15 plates including the following :—

- (1) Block printing.
- (2) Copy of a building and culvert drawings.

- (3) Small building from measurements.
- (4) Building from specifications, a flat roof, gable and hip roof.
- (5) Building details such as doors, windows, trusses, staircase, fire-place, simple foundations, floors and roofing.
- (6) Simple culvert from models.
- (7) Culverts from specifications.
- (8) Design of simple buildings.
- (9) Tracing of a building or culvert.
- (10) 'The students' note-books on visits to works.

BACHELOR OF CIVIL ENGINEERING 1941.

Every candidate shall be examined in the following groups of subjects :—

Group I.

Strength and Elasticity of materials	..	3 hours.
" Theory of Structures	3 hours

Group II.

Water Supply and Sanitary Engineering	..	3 hours.
Irrigation and Hydraulics	3 hours.

Group III.

Roads, Railways and Bridges	3 hours.
Estimating	4 hours.

Group IV.

Business method	3 hours
Economics of Engineering	3 hours.

Group V.

Structural Design ..	Sessional work.
Laboratory Records ..	Sessional work.

Group VI

Field surveys .. Sessional work.

Civil Engineering Project .. Sessional work.

Each theory paper and each sessional work shall carry
100 marks.

STRENGTH AND ELASTICITY OF MATERIALS.

Testing Machines and instruments.

Elastic Stresses, resilience, live load and working stresses

Compound stresses, Principal stresses and planes ; Mohr's
circle and Ellipse of stress.

Cantilevers, supported beams and fixed beams ; Bending
moments, shearing forces and deflections.

Continuous girders, Theorem of three moments.

Beams of unsymmetrical cross sections.

Various theories of elastic failures.

Theory of initially bent beams, crane hooks etc.

Shafts, Twisting moments, Equivalent bending and twisting
moment ; closed and open coiled Helical and Conical springs.
Thick Cylinders and tube guns.

Rolling loads, Max. B. M. and S. F. on the Girder :

Influence lines ; Max. stress in a member of a framed
structure due to rolling loads.

THEORY OF STRUCTURES

Conditions for the stability of Masonry structures.

Design of Masonry arches. Line of least resistance.

Design of retaining walls with or without surcharge.

Masonry Dam, Line of pressure when empty and when full.

Earth pressure. Rankine and Wedge theories.

Steel Columns, Various Strut formulæ. Least moment of
inertia of various sections

Eccentric load and lateral loading on columns.

Design for Cap and Base of columns.

Grillage foundations.

Reinforced Concrete. Theory and design of supported beams, T beams, Continuous beams, floors, columns and foundations.

Suspension Bridge. B. M. and S. F. due to rolling loads.

Stiffening girder.

Castigliano's Theorem.

Stress in sufficient, deficient and redundant frames.

Deflection in a framed girder analytically and graphically.

Frames with members subjected to B. M.

Portals and wind bracings.

' Secondary stresses due to fixed joint and eccentric loading.

Theory and design of a Plate Girder.

'Theory of Elastic arches with and without hinges.

WATER SUPPLY AND SANITARY ENGINEERING.

Selection of source of water supply :—Springs, rivers, lakes tube well and infiltration gallery, Reservoirs, impounding and storage service reservoirs. Water towers, Intermittent and constant supply systems.

Water works :—Intakes, settling tanks, slow sand filters, various types of mechanical filters. Design of distribution pipes. rising main, expansion joints, valves, houses, connections, meters, cisterns, etc.

Analyses of water, various types of pumping installations.

Surface drainage :—Design of drains for sullage and storm water. Drain flushing, out-fall drains and disposal of sullage water.

Sewerage :—Design of street and outfall sewers. Septic tanks, percolating filters, contact beds, and other forms of sewage disposal works. Public latrines, urinals. Flushing tanks, gully pits, ventilating shafts, various type of traps, man-holes, inspection chambers ; silt traps etc., Sewage pumping installations. Activated sludge tanks and chemistry of sewage. Sewage farms, Sanitary fittings inside residences and their connections with the street sewers.

Elements of town planning with special reference to the facility of water supply, ventilation and drainage.

Conservancy :—Sanitary laws. Refuse removal and its disposal, incinerators, absorption pits and trenching.

IRRIGATION AND HYDRAULICS.

Well irrigation. Canal irrigation. Inundation and permanent canals. Head Works. Channels. Drainage crossings.

Regulation works and training works. Tank irrigation. Streamline motion. Principle of continuity ; Discharge from small orifices. Application of Bernoulli's theorem ; coefficient of discharge from orifices submerged and partially submerged. Velocity of approach. Tanks surplus weirs. Anicuts. Gauging weirs. Sluices. Discharge under variable head. Time of emptying and filling locks. Flow of water in pipes and channels. Channels of minimum border. Discharge of canals and rivers.

Impulse and reaction water-turbines. Specific speed. Elementary theory of Pelton Wheel and Francis Turbine. Construction and working of centrifugal and reciprocating pumps.

ROADS, RAILWAYS AND BRIDGES.

Different classes of Road. Road projects ; survey, design and estimate. Road construction and maintenance. Hill roads. Concrete and asphalt roads. Modern roads for heavy and fast motor traffic.

Railway projects, survey formation, fencing, road crossings and tunnels. Reference, report, plans, and estimate. Permanent way detail, ballast, sleepers, points and crossings : signals, etc.. station buildings. staff quarters, engine sheds, inspection and ash pits, water-supply and drainage.

Bridge Sites ; calculation of maximum flood discharges. Waterways, and bridges and culverts of common types. Erections and maintenance. Causeways and temporary bridges. Foundations of bridges and abutments. Protection works.

ESTIMATING.

Practising detailed estimate for buildings, culverts and bridges of different kinds.

Analyses of rates for important items such as earthwork, masonry work, concrete, plastering, flooring, roofing, etc.

Estimate for earthwork for road, canals, railways, and dams.

Definition of embankment and cutting. Use of prismoidal formula. Finding out quantities of materials required for completion of a work.

BUSINESS METHOD

P. W. D. Accounts—Cash, Imprest cash, cheques, stores, sources of receipt and issues. Statement of daily receipts and issues of materials, monthly abstract and half yearly return of stock. Tools and plants. Annual return of tools and plants. Road Metal. Adjustment. Muster roll, and casual labour roll, measurement book, works day book and works abstract, statement of receipt, and issues of materials to work. Requisition of works. Contract certificate. Hand receipts, examination of bills, Procedure before carrying out works.

Book-keeping :—System and rules for posting entries and the use of undermentioned books.

Journal; Day Book, Cash Book, Bill Book, Ledger, Balancing, Profit and Loss Account. Rules for Balances Trial Balance. balance Sheets.

ECONOMICS OF ENGINEERING.

Money, and Capital. Sinking Funds. International money transactions. Trading abroad. Transport. Banks and Insurance companies, in as much as they concern the Engineer, Choice of sites and lay out of buildings. Choice of a source of power. Depreciation and valuation. Jobbing and mass production. Elements of costing. Trade cycles. Economics of mechanical Power production. Historical outline of the Industrial Revolution. Contract and specification. Reference and reports. Laws affecting the Engineer, Land acquisition.

STRUCTURAL DESIGN.

Candidates will be required to submit two designs with complete details and all calculations to the external examiner. The following list is illustrative and not intended to be exhaustive .—

- (1) A steel or masonry road bridge.
- (2) A public building.
- (3) A steel railway bridge.
- (4) A reinforced concrete building.
- (5) A reinforced concrete bridge.
- (6) An all steel Water Tower
- (7) A reinforced concrete or Masonry water tower
- (8) Dam and Spillway.
- (9) A Suspension bridge
- (10) A masonry or reinforced concrete retaining wall.

LABORATORY RECORDS.

Records of not more than four investigations will be submitted to the external examiner. Typical investigations are as follows —

- (1) Concrete; plain and reinforced of different constitutions and duration.

- (2) Mechanical properties of metals.
- (3) Mechanical properties of timber.
- (4) Characteristics of centrifugal pump.
- (5) Characteristics of turbines.
- (6) Flow through channels.
- (7) Flow through pipes.
- (8) Notches, weirs and orifices.
- (9) Impact of jets.
- (10) Elastic arches.

FIELD SURVEYS.

Students will be required to submit to the external examiner their field surveys at the two previous survey camps. The third year survey will be that required for the project. The fourth year survey will embrace the following :—

- (1) Base line measurement.
- (2) Trigonometrical survey.
- (3) Astronomical observations. The determination of time azimuth and longitude.

CIVIL ENGINEERING PROJECT.

One project, based on the field survey of the third year will be submitted to the external examiner. The following list is illustrative and not intended to be exhaustive:—

- (1) A road project.
- (2) A railway project.
- (3) An irrigation project.
- (4) A river project.
- (5) A water supply project.
- (6) A drainage project.
- (7) A sanitary installation

TEXT BOOKS I. C. F.*Mathematics.*

1. Mathematics for Engineers by W. N. Rose, Vol. 2.
2. Co ordinate Geometry by Fawdry.
3. Differential Integral Calculus by Phillips.
4. Mechanics for Engineers by Morely.
5. Elements of Hydrostatics by Lancy.

Building Materials and Construction.

1. Roorkee Treatise.
2. Building Construction by Henry Adams.

SURVEYING.

1. Class notes on Surveying by H. K. Sen.
2. The Roorkee Treatise.

Mechanical Engineering and Applied Mechanics :—

1. Engineering Mechanics by L. D. Coueslant.
2. Heat Engines by L. D. Coueslant.

Elementary Electrical Engineering.

1. Technical Electricity by David And Hutchinson.

Graphic statics :

1. Graphic Statics Vols. I & II by Charnock.

*Estimating :—*Roorkee Treatise.**TEXT BOOK FOR B. C. E.**

- Strength and Elasticity of Materials by Morley.
Theory of Structures by Morley.

Water Supply.

1. Roorkee Treatise.
2. Water Supply by Fleming.

Sanitary Engineering.

1. Sewage Disposal by Kershaw.
2. Sanitary Engineering by Thompson.

*Irrigation—Roorkee Treatise.**Hydraulics by Gibson.**Roads, Railways and Bridges.*

1. Permanent Way by Cole.
2. Roorkee Treatise.
3. Roads by Leeming.

*Estimating—Roorkee Treatise.**Business Method—P. W. D. Account Code.*

Elementary Book keeping by A. Fieldhouse.

Economics of Engineering by Coueslant and Chatterjee.

1939.

MEDICINE.

FIRST M.B.B.S.

BOTANY.

THEORY

1. Morphology and Life-history of the following types :—

Thallophyta—

Algæ .. Gloeocapsa, Nostoc, Spirogyra Vaucheria.

Fungi .. Mucor, Puccinia, Yeast, Agaricus.

Bacteria .. Bacillus subtilis or other common forms.

Bryophyta— .. Funaria or Sphagnum.

Pteridophyta— .. Pteris, Selaginella.

Spermatophyta— . . .

Gymnosperm . . Pinus.

Angiosperm .. A systematic study of the following
Natural Orders :—

1. Papaveraceæ.

2. Cruciferæ.

3. Malvaceæ.

4. Rutaceæ.

5. Leguminosæ.

6. Cucurbitaceæ.

7. *Compositæ.*

8. Solanaceæ.

9. **Acanthaceæ.**

10. Euphorbiaceæ.

1.1. Lillaceæ.

12. Gramineæ.

2. Protoplasm, its constitution and properties. Distinction between living and non-living and between animals and plants.

3. Morphology of the Angiosperms :—The plant as a whole, root, stem, leaf, inflorescence, flower, fruit and seed. Modifications of the foregoing.

4. Histology :—The plants cell, tissues and tissue-systems, microchemical reactions of cells, structure of root, stem and leaf, secondary growth. Distinction between Monocot and Dicot root and stem.

5. Physiology :—Absorption and movement of water. Transpiration. Food of plants. Photosynthesis. Reserve materials. Epiphytes. Parasites and Saprophytes. Respiration, Fermentation. Waste Products. Irritability. Tropisms. Sexual and Asexual reproduction, Pollination, Fertilisation. Dispersal of seeds and fruits. Germination.

6. Evolution, Environment, Use and Disuse, Natural Selection, Mutation Isolation, Mendel's Law of Heredity.

(The whole subject to be treated in an elementary manner).

BOTANY

PRACTICAL

Candidates should be able to dissect and describe in simple technical language plants or parts of plants included in the syllabus and to refer them to their natural position.

2. To prepare, stain and describe microscopic preparations (Permanent mounts not required).

3. To identify botanical specimens and slides related to the syllabus.

4. Simple experiments in Plant Physiology.

ZOOLOGY**THEORY**

1. Morphology and Life-history of the following types :—

Invertebrata :—

Protozoa	.. Amoeba, Paramoecium, Vorticella Monocystis and Malarial Parasite.
Coelenterata	.. Hydra.
Trematoda	.. Liver Fluke.
Cestoda	.. Taenia.
Nematoda	.. Ascaris.
Annelida	.. Earthworm.
Arthropoda	.. Prawn, Cockroach. Mosquito (mouth parts only)
Mollusca	.. Fresh water mussel, and Snail (Pond or Land).

Vertebrata—

Pisces	.. Dogfish.
Amphibia	.. Frog or Toad.
Avis	.. Pigeon.
Mammalia	.. Rabbit or Guinea pig.

II. Scope of Zoology and its relation to other sciences.
Classification of the Animal Kingdom and characteristics of the main groups of Animal Kingdom.

III. The cell, its structure and functions. Karyokinesis, Tissues and Organs of animals (Elementary Histology and Physiology of Frog and Rabbit).

IV. Reproduction sexual and asexual, Spermatogenetic, oogenetic and parthenogenetic maturation of the germ cells, and their significance.

V. Elementary Embryology of Frog and Chick. Formation of foetal membranes and placenta in rabbit.

VI. Theories of Evolution, its evidences, Factors of Evolution, Heredity and Variation.

(The whole subject to be treated in an elementary manner).

ZOOLOGY

PRACTICAL

I. Practical study of the prescribed types (dissection and microscopic examination).

II. Osteology of rabbit, pigeon and frog

III. Histology of rabbit.

IV. Practice in making stained permanent (or glycerine) mounts from paraffin sections or fresh tissues.

Candidates should be able to identify specimens and slides related to the syllabus prescribed and write appropriate notes on them.

SECOND M.B.B.S., PART I.

MATERIA MEDICA AND PHARMACY.

"A course of at least 50 lectures and demonstrations on Materia Medica and Practical Pharmacy"

MATERIA MEDICA.

Definition :—

Study of the characters :—

- (a) Alkaloids, (b) Glucosides, (c) Saponins (u) Neutral Principles (eg) Alion (e) Fixed oils (f) Fats (g) Waxes, (h) Volatile oils, (i) Resins, (j) Oleo resins, (k) Balsams, (l) Gums (m) Gum resins—

Definitions of the Pharmaceutical Processes :—

- (a) Levigation, (b) Elutriation, (c) Lixiviation, (d) Maceration (e) Percolation, (f) Scalling.

Standardisation.—

Definitions of Pharmacopoeial Preparations—

- (1) Aceta, (2) Aqua, (2) Collodia, (4) Confections, (5) Decocta, (6) Emplastra, (7) Extracta aqueous, alcoholic, ethereal, liquid, (8) Glycerina, (9) Infusa, (10) Injections, (11) Lamallae, (12) Linimenta, (13) Liquores, (14) Lotions, (15) Mella, (16) Misturae, (17) Musilagines, (18) Olea, (19) Oculenta, (20) Oxymella, (21) Pilulae, (22) Pulveres, (23) Spiritus, (24) Succa, (25) Suppositories, (26) Syrupi, (27) Tabellae, (28) Tincturae, (29) Trochisci, (30) Unguenta, (31) Vina etc.

More Important Non-Pharmacopoeial preparations.

Mode of administration of drugs.

Classification of drugs and their group actions and general use

Posology.—

Materia Medica. Inorganic and Organic (Vegetable and animal) including source, character, composition, preparations and dosage of pharmacopoeial drugs (B. P. 1932).

PHARMACY.1. Pharmaceutical (operations) *c. g.*—

- (a) Distillation (ordinary, fractional, destructive), (b) Sublimation, (c) Calcination, (d) Incineration, (e) Pulverisation, (f) Dessication, (g) Comminution, (h) Extraction of active principles of drugs (Pharmaceutical process, Infusion, decoction, maceration percolation, filtration etc.)

2. General principles of dispensing.

3. Incompatibility.

4. Prescriptions, Weights, Abbreviations. Posology, common synonyms.

5. Dispensing the prescription .. mixtures, emulsion, gargles, liniments, pills, powders, cachets, capsules, pastilles, suppositories, plasters, ointments, capsules, ampoules etc.

6. Recognition of the more important Pharmacopaeial drugs.

7. Poisons (List of poisons within the Pharmacy Act and their safe custody including keeping dispensing and selling).

ORGANIC CHEMISTRY.

The curriculum in this subject shall consist of not less than 40 lectures or demonstrations and 80 hours' practical work.

Organic chemistry is to be treated with special regards to its applications in Physiology, Pharmacology and Pathology.

LECTURES OR DEMONSTRATIONS.

Methods by which organic compounds are purified and their purity and composition established.

Determination of molecular weight. Empirical, molecular and structural formulæ. Isomerism, isomeric change, stereoisomerism and optical activity. Heat of combustion and calorific values.

The preparation; general properties and relationships of the classes of organic compounds enumerated below, illustrated by reference to important members of each class.

Hydrocarbons of the paraffin, olefine and acetylene series and their halogen derivatives.

Alcohols, ethers, aldehydes, ketones and nitriles "

The carboxylic acids, their salts, esters, acid chlorides, anhydrides and amides.

Hydroxy and ketonic acids.

Fats and the commoner chemical methods for their differentiation.

Amines, including choline. The general properties of the amino acids. The relation of amino-acids to polypeptides and proteins. Important cyanogen compounds and urea.

Creatine and Creatinine.

The purine group, uric acid and other physiologically important purines.

The carbohydrates—arabinose, glucose, mannose, fructose, cane sugar, milk sugar, malt-sugar, glycogen, starch and glucosides.

Benzene, toluene and their chief derivatives including halogen, nitro amino and hydroxy compounds, aldehydes, carboxylic acids and hydroxy-acids.

Hippuric acid, phenylalanine, tyrosine, adrenaline, pyrrole, indole, indoxyl and tryptophane.

Nature of bile acids, and cholesterol.

General properties of the alkaloids—quinine, morphine and strychnine.

Enzymes and their modes of action.

Fermentation, specially the alcoholic, acetic, lactic and butyric fermentations.

The general reactions of proteins

PRACTICAL WORK.

Detection of the following elements : carbon, hydrogen, nitrogen, sulphur, phosphorus, iron, halogens.

Exercises involving crystallisation, distillation, extraction with solvents and determination of melting-points and boiling points.

Preparations :—

Preparation and hydrolysis of an ester and of an amide.

The preparation of a fatty acid from a fat. Determination of the molecular weight of a fatty acid by titration.

Preparation of osazones.

Benzoylation,

Estimations :—

Nitrogen by Kjeldahls method.

Uric acid, Urea by hypobromite and urcase methods.

Glucose, lactose and cane-sugar volumetrically and polarimetrically.

Ammonia and amino-acids by the f_o maldehyde method.

Saponification and iodine number of a fat.

Reactions involving the preparation of a derivative and leading to the identification of the following :—

Urea, uric acid, glucose, lactose, cane-sugar, glycogen, starch, arabinose, ethyl alcohol, acetone, chloroform, formaldehyde.

Formic, acetic, lactic, oxalic, tartaric, citric, acetoacetic, benzoic, and salicylic acids. Phenol, cholesterol, glycerol, indican, indole, quinine, morphine, caffeine, strychnine.

“Candidates will be required to write out a clear account of their practical work, accurately describing the nature of the processes employed, and where possible, representing by equations the chemical changes involved. They will be required to bring to the practical examination note-books containing record of their previous practical work. These note-books must be certified by the teachers of the candidates as being the actual working notes made by them in the laboratory.

SECOND M.B.B.S., PART II.

ANATOMY.

A course of at least 75 lectures on regional anatomy with special reference to its application to medicine, surgery and obstetrics.

A course of 75 hours demonstrations on osteology.

A course of 150 hours demonstrations in systematic anatomy of syndesmology, myology, angiology, neurology, sense organs, splanchnology and ductless glands.

A course of dissection for 5 terms covering the dissection of at least one complete human body.

A course of 8 lectures on surface anatomy.

Embryology.—

A course of at least 25 lectures on elementary embryology and morphology.

APPLIED ANATOMY.

A course of lectures and demonstrations on applied anatomy for one term in the sixth year.

PHYSIOLOGY.

The curriculum in Physiology shall consist of :—

(1) Courses in Histology of not less than two terms of 80 hours.

(2) Courses in Biochemistry and Bio-Physics of not less than 150 hours.

(3) Courses in Physiology, systematic and experimental of not less than 200 hours.

(4) Applied Physiology—twenty lectures.

Parts (1), (2) and (3) are taken in the 2nd and 3rd years of medical study and (4) in the sixth year.

I.—HISTOLOGY.

Histological technique. The animal cell. Tissues, Blood, Hæmocytometers, Hæmoglobinometers. Organs of the body.

II.—BIOCHEMISTRY AND BIOPHYSICS.

Laws of solutions, gases etc., Osmotic pressure. Principles of H. in determination. Buffers. Colloids. Suspensoids. Emulsoids. Enzymes. Chemistry of proteins, fats, carbohydrates. Chemistry of blood, urine, bile. Metabolism of proteins fats, carbohydrates. Nutrition Vitamins.

B.—Practical.

Chemistry of proteins, fats, carbohydrates. Chemistry of blood, urine, bile. Enzymes. Examination of foodstuffs. Polaroscope. Spectroscope, Colorimeter Determination of PH. Examination of urinary deposits, Gastric analysis.

III.—PHYSIOLOGY.*A.—Systematic.*

Muscle. Nerve. Cardio-vascular system. Blood. Lymph, Cerebrospinal fluid, Respiration and tissue oxidation. Kidney and bladder, Digestion, general physiology of the digestive tract and processes, Digestion role of the liver and pancreas, Digestion, basal metabolism, material balance, energy balance, Endocrines, Nervous system with mechanism of phonation and speech, Referred pain, Special senses, Reproduction and heredity; Special features of the physiology of infancy and old age.

B.—Experimental.

Frogs—Nervous, muscular and cardio-vascular systems.

Mammalian studies :—(1) Cardio-vascular mechanisms, (2) secretion by pancreas, kidney. Salivary glands : (3) action of adrenalin, oxytocin and vasopressin, insulin, (4) gastro intestinal movements ; (5) cerebral and spinal functions ; (6) respiration , (7) administration of anaesthetics.

Human.—Studies in the cardio vascular mechanism, respiration, blood gases, special senses, reflexes of clinical importance.

IV. APPLIED PHYSIOLOGY.

The course may comprise lectures and demonstration on the following :—

Anoxæmia. Alkalaemia. Acidosis. Cardio-vascular system. Haemorrhage. Shock. Referred pain. Innervation and functioning of the bladder and large intestine. Tests for Kidney efficiency. Functions of the liver. Gastric secretion, Muscular exercise in relation to the cardio vascular and respiratory systems. Fatigue. Diabetes Mellitus. Endocrines. Nutrition and dietetics. Basal metabolism. Special features of the Physiology of infancy and old age.

FINAL M.B.B.S., PART I.

PATHOLOGY.

(1) A course of instruction including practical work extending over not less than four terms in general and special Pathology, Morbid Anatomy, Clinical Pathology, Parasitology, Bacteriology and Chemical Pathology

(2) Attendance in the Post mortem room, including the performance of the duties of Post mortem clerk for not less than six months (at least ten Post mortem examinations).

(3) Attendance in the Clinical laboratory, for investigation of diseases while working as a Clinical clerk or as a surgical dresser.

GENERAL PATHOLOGY.

1. General considerations ; Introduction ; Definition and scope of Pathology ; Division of Pathology ; Health and Disease ; Heredity ; Malformation ; Death ; Cause of disease.

2. Infection and Immunity.

Inflammation and response of the tissue.

4. Disturbances of Nutrition ; Progressive and Retrogressive changes.
5. Disturbances of Circulation, Thrombosis, Embolism and Infarction, Oedema and Dropsy.
6. Tumours
7. Fever and Pyrexia.
8. Shock and Collapse.

PRACTICAL CLASS.

Practical classes with lectures demonstration in :—

1. Protozoology ; morphology, life history and clinical importance of common protozoa.
2. Helminthology : morphology, life history and clinical importance of common cestodes, nematodes and trematodes.
3. Entomology (elementary)—only those that are considered as carriers of diseases.
4. Clinical Pathology:—Blood, sputum, stool, urine, cerebro spinal fluid, etc.
5. Morbid anatomy and histology.
6. Chemical Pathology, gastric analysis, functional tests, variations in the chemical composition and blood, urine and C. S. fluid, basal metabolism.
7. Bacteriology and serology.

Identification and classification of Bacteria

"The problem of specificity" Immunity.

Morphological, Biological and Cultural characteristics of the organisms with their pathogenicity in relation to man.

FORENSIC MEDICINE AND TOXICOLOGY

FORENSIC MEDICINE.

A course of 50 lectures on Forensic medicine and Toxicology comprising chiefly the following subjects :—

Procedure in criminal courts. Inquest into cases of unnatural and sudden death. Medico-legal reports. Medical evidence and dying declaration.

Identity of the living and the dead. Age in its medicolegal aspect. Sexual characteristic of the skeleton. Modes of death, Signs of death Causes of sudden death. Post mortem stains, Rigor mortis. Cadaveric Spasm. Putrification. Saponification. Mummification. Time elapsed since death

Post mortem examination in medico-legal cases and exhumation.

Death from asphyxia. Forms of asphyxial death, Hanging. Strangulation. Suffocation. Throttling. Drowning.

Death from extremes of temperature starvation, electric current and lightning.

Mechanical injuries and wounds :—Burns and scalds. Injury reports in medico-legal cases. Examination of blood, seminal and other stains. Medico-legal questions relating to pregnancy, delivery, abortion : Infanticide, rape, virginity sodomy and legitimacy.

Professional privileges, responsibilities and obligations of medical practitioners.

Malpraxis.—Life Insurance.

Medico-legal aspect of Insanity. Criminal responsibility. Testamentary capacity and capacity to manage affairs in cases of insanity. Modes of placing lunatics under restraint. Malingering.

TOXICOLOGY.

Diagnosis and general treatment of poisoning. Evidence of poisoning in the dead. Preservation and transmission of viscera and suspected articles for analysis. The detection of poisons.

Toxicology of the following poisons:—Mineral acids. Corrosive alkalies. Carbolic acid. Oxalic acid, Phosphorous. Arsenic and its compounds. Salts of copper, lead and antimony. Mercury and its salts. Zinc and its salts. Bismuth and Aluminium and its salts. Opium. Cyanogen compounds. Alcohol. Chloroform. Ether. Chloralhydrate. Kerosene oil. Carbon dioxide and monoxide. Croton Seeds. Castor Seed, and Ergot, Nux vomica and strychnine. Aconite. Dhatura, Belladonna. Cannabis Indica. Cocaine. White and Yellow oleander (*Nerium odoratum*). Jequirity seeds. Snake Venom. Marking Nut. Madar. (*Calotropis gigantea*). Ptomalnes and other poisonous animal food

2. At least 75 % attendance at medico-legal post mortems is obligatory. Reports on 5 examinations in which the candidate has assisted the lecturer may be called for by the examiners.

HYGIENE AND PUBLIC HEALTH.

One course of 30 lectures and 10 demonstrations on Hygiene and Public Health.

Air—composition. Quantity of air in health. Causes and sources of vitiation and Impurities and the methods of dealing with them, ventilation with special reference to the tropics. Natural and artificial ventilation especially of hospitals, schools and jails. Effects on health of overcrowding occupation and offensive trades. Airborne diseases.

Water—composition, sources, quantity of water required; character of drinking water. The sources and cause of impurities. Methods of purification. Effects on health of impure water. Water borne diseases and their prophylaxis.

Soil and buildings—Influence of soil on health, Subsoil water. Sites for building and construction of houses.

Climatology—The climate of tropics. Effects of climate on health. Rainfall atmospheric pressure, various kinds of thermometers. Humidity.

Food and dietaries—The proximate principles of food. Nutritive functions and value, deficiency diseases connected with food. Inspection of meat, fish, grain, vegetables and fruits. Preserved and tinned food, Adulteration of articles of food, e. g., milk, ghee, butter, grain etc. Ptomain poisoning. Examination of animals before slaughter.

Personal Hygiene—Habits, cleanliness, exercise, rest and sleep, clothing with special reference to tropics, Drug and “pan” habits.

Disposal of waste and impurities—Disposal of solids, and liquids, privies and latrines. Principles of their construction on the dry and wet systems. Methods of disposal of excreta Disposal of refuse and sewage. Disposal of dead.

Communicable diseases—their causes, methods of investigation and prevention. The diseases carrying insects Antimosquito, antily and other anti-insect measures. Human carriers The general principles and methods of preventive inoculation vaccination, including methods of preparation of vaccine lymph.

Village sanitation—Houses, water supply from tank, well canal, rivers and streams. Conservancy arrangements; Grave yards; Burning Ghats. Slaughter houses.

Fairs—Sanitary arrangements at Fairs and for famine, and segregation camps and poor-houses.

Health statistics—Registration of births and deaths, calculation of birth and death rates, infant mortality and measures to reduce it.

PHARMACOLOGY & THERAPEUTICS.

A course of at least 50 lectures on Pharmacology and therapeutics. A course of instruction on Practical Pharmacology for one term.

Theoretical—

1. The chemical and physical basis of pharmacology.
2. Manifestations of pharmacological actions.
3. Classifications of drugs according to selective action.
4. Definition of Pharmacological terms.
5. Methods of administering drugs.
6. Conditions influencing absorption and excretion of drugs.
7. Conditions influencing action of drugs, (e. g. Idiosyncrasy, Anaphylaxis, Tolerance and Cumulative action, etc.)
8. Pharmacology and Therapeutics of Pharmacopaeial drugs and their preparations (in-organic and organic).
9. Vaccine and Serum therapy
10. Organo-therapy.
11. Medicinal food, Vitamins, General principle of dietetics.

Practical Pharmacology:—

Experiments on animals, illustrating:—

1. Action of drugs on blood.
2. " " " " heart.
3. " " " " blood vessels.
4. " " " " circulation.
5. " " " " respiration.
6. " " " " bronchial muscles.
7. " " " " salivary glands.

8. Action of drugs on intestine.
9. " " " uterus.
10. " " " secretion of urine.
11. Study of local anaesthesia—Eye, Tongue, skin.
12. Action of drugs on muscles.
13. Action of drugs on central nervous systems.
14. " " pupil.
15. Action of antiseptics.
16. Action of anthelmintics.
17. Electric Ionisation.
18. Absorption from alimentary canal.

FINAL M.B.B.S., PART II.

MEDICINE.

A course of not less than 75 lectures on the Principles and Practice of Medicine.

A course of not less than 20 demonstrations on clinical methods, Medical anatomy, Physical diagnosis and the use of instruments of observation.

The medical practice in a recognized hospital during 3 years with clinical instruction and lectures on clinical medicine and attendance as a clinical clerk for not less than nine months during this period Inpatients, six months and three months Outpatients.

A course of 10 lectures and 10 demonstrations on mental diseases at a hospital for mental diseases.

A practical course of instruction in Tuberculosis including at least 8 lectures.

A course of 10 lectures and Practical clinical instructions in acute infections, fevers, and diseases.

A course of 8 lectures and practical clinical instruction in diseases of the skin.

A course of 6 lectures demonstrations in Leprosy.

SURGERY

1. A course of lectures on the Principles and Practice of Surgery (minimum of 75 lectures)

2. Courses of instruction in—

- (a) Operative Surgery.
- (b) Surgical Anatomy
- (c) Practical Surgery including minor surgery and bandaging.
- (d) Administration of Anaesthetics
- (e) Venereal disease. 6 lecture-demonstrations.
- (f) Orthopædic Surgery—10 lecture-demonstrations.

3. Attendance upon the surgical practice of a recognized Hospital during 3 years with clinical instruction and lectures of clinical surgery including 12 months practice as a dresser of which 3 months will be spent in Out-patients department, 3 months in the eye, ear, nose and throat department and 6 months in In-patients.

4. A course of instruction in Radiology and Electrical Therapeutics—10 lecture demonstrations.

OBSTETRICS AND GYNAECÓLOGY.

1. A course of lectures on Obstetrics and Gynœcology (minimum 80 lectures).

2. Lectures and demonstrations in clinical Obstetrics and Gynœcology, and attendance in Out-patient department for at least three months.

3. Attendance as clinical clerk for not less than 3 months in the Obstetrics and Gynæcological wards of the College Hospital or other hospital recognised for the purpose with attendance on at least 20 cases of labour.

4. Instruction in the following subjects:—

(a) Ante-natal conditions.

(b) Infant Hygiene and diseases of children.

OPHTHALMOLOGY.

1. Anatomy and Physiology of the eye.

2. Examination of the eye.

3. DISEASES OF THE EYE:—Lids, conjunctiva, Lachrymal Organs, Cornea, Sclera, Interior, Refractive Media, Iris and Ciliary Body, Choroid Retina, Optic Nerve, Congenital defects, Glaucoma, Amblyopia and functional disorders of sight.

4. Injuries of the Eye.

5. Diseases and injuries of the Orbit.

6. Anomalies of refraction and accommodation. Theory of glasses. General optical properties of the eye. Aetiology and symptoms of refractive errors. Detection and treatment of refractive errors.

7. Motor anomalies of the eye.

8. Operations and their technique.

9. Practical instructions in Ophthalmoscopy and refraction.

DISEASES OF THE EAR.

1. The clinical Anatomy and Physiology of the ear.

2. The clinical examination of the auditory apparatus and the functional tests of hearing.

3. Diseases of the external ear.

Eczema, Furuncle, diffuse External otitis, Plugs of cerumen. Exostosis. Neoplasms, Foreign bodies.

4. Diseases of the middle ear.

Acute catarrhal or serious otitis media. Acute suppuration of the middle ear. Clinical varieties of acute suppurative otitis, Chronic otorrhoea. Aural polypi, Cholesteatoma, Oto-Sclerosis, and other forms of deafness, Acute mastoiditis. Chronic mastoiditis. Intracranical complications of otitis and mastoiditis.

5. Functional examination of the Labyrinth. Aural vertigo, Meïnier's disease. Tinnitus Simulation of deafness. Deaf mutism.

NOSE.

1. The clinical anatomy and physiology of the nose, and accessory sinuses.

2. The clinical examination of the nose. Anterior and posterior rhinoscopy (Practical instructions)

3. Diseases of the nostrils. Rhinitis—acute and chronic. Ozena—injuries of the nose. Deviations and malformations of the Septum, abscess of the Septum, nasal polypus, nasal growths, foreign bodies in nasal fossae. Lupus—nasal syphilis Epistaxis.

4. Sinusitis—Its diagnosis and treatment.

5. Diseases of the naso pharynx, adenoids. naso-pharyngeal growth, polypus.

THROAT.

1. Anatomical considerations of the Pharynx and Larynx.

2. Acute inflammatory conditions of Pharynx.

3. Abscesses—Retropharyngeal and Peri-tonsillar.
4. Tonsils—inflammation—Acute, Chronic hypertrophy.
Operations on the tonsil.
5. Clinical examination of the larynx.
Laryngoscopy (Practical instructions.)
Laryngitis—Catarrhal—Infectious—Tubercular.
Syphilitic.
Growths, benign and malignant—Foreign bodies
Oedema of the Glottis, Tracheotomy.
Bronchoscopy and Oesophagoscopy.

LIST OF TEXT BOOKS

(1) Botany—Text-books—

Lawson and Sahani—Text-book of Botany (Uni. T. P.)

Dutta A. C.—A Class Book of Botany. (O. U. P.)

Reference book .—

Bose G. C. A manual of Indian Botany
(Blackie).

Punnett Mendelism (Macmillan).

Zoology—Text-books.

Parker and Bhatia Text Book of Zoology for Indian
students (Macmillan).

Thompson Outlines of Zoology (O. U. P.)

Reference books :—

Marshall The Frog (Macmillan)

Bomadai Manual of Zoology (O. U. P.)

Khan H. Elements of Zoology, (Butter-
worth).

M^r C. Dougal Practical Plant Physiology (Smaller
book.)

(2) Materia Medica and Pharmacy .—

- | | | |
|--------------------|----|--|
| Hale White | .. | Materia Medica (Churchill.) |
| Whitla | .. | Materia Medica (Bailliere). |
| R. Ghosh | .. | Materia Medica (Hilton). |
| Lawsons and Steins | .. | First lines in dispensing (Churchill). |

(3) Organic Chemistry .—

- | | | |
|----------------|----|---------------------------------|
| Cohen | .. | Organic Chemistry (Macmillan.) |
| Mollow Perkin | .. | Practical Chemistry (Chambers.) |
| Ghosh and Boyd | .. | Organic Chemistry. |

(4) Anatomy .—

- | | | |
|---------------|----|--|
| 1. Gray | .. | Anatomy—Descriptive & Applied
(Longmans 42 s.) |
| 2. Cunningham | .. | Manual of Practical Anatomy
(O.U. P.) 3 Vols. 12 s. 6 d.
Or |
| 1. Mustafi | .. | Systematic Anatomy (Rs. 14/8). |
| 2. Mustafi | .. | Practical Anatomy (Rs. 14/8.) |

Reference.—

- | | | |
|---------------|----|---|
| 1. Cunningham | .. | Text Book of Anatomy (O. U. P.)
42 s.) |
|---------------|----|---|

Embryology.—

- | | | |
|---------|----|---|
| 1. Khan | .. | Elements of Embryology (Indian
Press Rs. 5.) |
|---------|----|---|

Reference.—

- | | | |
|-----------|----|--|
| 1. Frazer | .. | Manual of Embryology (Balliere
Tindall & Co. 30 s.) |
|-----------|----|--|

Applied Anatomy.

- | | | |
|-----------|----|-----------------------------------|
| 1. Massie | .. | Surgical Anatomy (Churchill 15s.) |
|-----------|----|-----------------------------------|

Reference.

- | | | |
|----------|----|---|
| 1. Davis | .. | Applied Anatomy (J. B. Lippincott
42 s.) |
|----------|----|---|

(5) Physiology.—

- Halliburton .. Text Book of Physiology (Murray.)
- Starling .. Text Book of Physiology (Churchill).
- Schafer .. Essentials of Histology (Longmans).
- S. W. Cole .. Practical Physiological Chemistry.
- Pal and Chakravarti .. A Hand-Book of Modern Physiology.

(6) Pathology :—

- Muir .. Text Book of Pathology (Arnold.)
- Grimbaum .. The Essentials of morbid Histology (Longmans Green & Co).
- Hewlett .. A Manual of Bacteriology (Churchill.)
- Mackie & McCartney, .. An introduction to practical Bacteriology (Livingstone.)
- Stitt .. Practical Bacteriology. Blood work and Parasitology (Lewis).
- De Wesselow .. Chemistry of the Blood in clinical medicine (Benn.)
- Box .. Post mortem manual (Churchill.)

(7) Forensic Medicine and Toxicology.—

- Lyon and Waddell .. Medical Jurisprudence for India (Thackers.)
- Modi .. Text book of Medical Jurisprudence and Toxicology (Butterworth.)

(8) Hygiene and Public Health.—

- Dass .. Hygiene (Butterworth.)
- Notter and Firth .. Hygiene (Longmans.)

(9) Pharmacology and Therapeutic .—

- Dixon .. Pharmacology (Arnold.)
 Cushny .. Pharmacology and Therapeutics
 (Churchill.)
 Col. R. N. Chopra.. Indigenous Drugs in India (as a
 reference book.)
 Dixon .. Practical Pharmacology (Camb-
 ridge U. P.)

(10) Medicine :—

- Osler and Macrae.. Principles and Practice of Medi-
 cine (Appleton.)
 Manson .. Tropical Diseases (Cassell.)
 Hutchinson and ..
 Rainy .. Clinical Methods (Cassell.)
 Price .. Principles and Practices of Medi-
 cine (O. U. P.)
 Savil .. Clinical Medicine.
 Cole .. Mental diseases (U. London Press)

(11) Surgery .—

- Whittaker .. Essentials of Surface Anatomy
 (Churchill.)
 Rose and Carless.. Text book of Surgery.
 Waring .. Operative Surgery. O. U. P.
 Pearce Goulds .. Elements of Surgical Diagnosis.

(12) Obstetrics and Gynaecology :—

- Ten Teachers' Midwifery and Gynaecology.
 Eden and Hollands midwifery (Churchill.)
 A text book on tropical midwifery by Green Armitage
 and Dutta (The Book Co. Calcutta.)

Eden and Lockyears's Gynecology (Churchill.)

Herman's Difficult Labour (Cassell.)

Berkley and Bonney Gynecology Operations (Cassell.)

Berkley and Bonney Gynecology Operations (Cassell.)

(13) Ophthalmology and Diseases of the Ear, Nose and Throat —

Parson's Ophthalmology

Fuch's Ophthalmology.

Logan Turner—Diseases of the Ear, Nose and Throat.

INDEX OF NAMES

*(The names of successful candidates and of
Registered Graduates and Teachers
do not appear in the index)*

	PAGE		PAGE
